EVERING NEWS.

Thursday, April 9, 1878.

PRICE OF COIN.

Correlation of the Market. Salt Lake City, April 9, 1878.

GOLD.

SILVER.

LOCAL AND OTHER MATTERS.

City Council.—The City Council meets to-night.

R. S. Rogers.—Through misunderstanding of the secretary, the Relief Committee report of the Salt Lake Relief was not read at the last Quarterly Conference, and as many are anxious of seeing a financial statement it will be furnished to the Relief Committee at an early date for publication.

High of Salt.—All the members of the High Council are requested to meet at the Council House, on Wednesday evening the 10th inst., at 7 o'clock.

Those High Councilors who were called at the late Quarterly Stake Conference were particularly requested to attend.

W. W. Taylor, Clerk.

Missionary.—The first company of missionaries will leave Ogden on the 7th of May. Those destined for Europe, with that party, expect to sail from New York on the 14th of May.

It is expected that the second company will leave Ogden on the 21st of the same month, and will sail from New York on or about the 28th.

Changed Hands.—The Utah Western Railroad has changed hands. The agent of the bondholder, who is an eastern capitalist, has taken possession of the road.

There will be little if any change in the management of the road, at least for the present.

Mr. W. W. Taylor has been appointed agent in charge of the property for the new proprietors.

Incendiarism.—There appears to be an incendiary element in Provo that needs to be kept looking after. Not long since the lumber yard of Messrs. Smith and John was set on fire. Yesterday we had the news of the burning of an early-hour company who leave Ogden on the 21st of the same month, and will sail from New York on or about the 28th.

Concrete.—There's nothing like concrete for sidewalks. We believe this material is bound to supersede all other. It appears to be better adapted for the purpose than any thing else. A sidewalk of it is being laid and much more about to be.

The directors of the grade of the city are in a matter of regret. The improvement resulting from each property holder selling the grade in front of his premises to his own use is not only disagreeable to the eye, but very frequently to the nose, because of the numerous places against which they get stuck.

It would be a good thing if a uniform grade for sidewalks was established and it was confirmed to by all parties occupying or laying other material upon them. Perhaps it could be done if the City Fathers were to take the matter in hand.

Whooping Cough.—In response to the invitation for remedies for this disease, which has attacked a great number of children in this city, we have received two recipes.

One is given by Brother M. R. Wheelright, of Ogden City, which is a Burgundy with plaster placed between the shoulders. It is made by sprinkling a small quantity of Burgundy plasters and then spreading with a hot hand over a piece of oaken bark or bark, about the size of the palm of the hand. Bro. Wheelright says it is a certain remedy.

The other is given by Bro. W. J. Silver, of this city, who says:

"In England it has been the practice for many years to take children so afflicted to the lime-purifying rooms of the gas works, and I am informed that some countries in order to accommodate the public have built rooms for the reception of children and their nurses and charge a small admission fee for these."

We are told that many children in this city have obtained relief by breathing the fumes at the Gas Works.

Departed this Life.—Shortly before eight o'clock last night Miss Emma Wells, a most amiable and accomplished young lady, breathed her last. We deeply sympathize with her parents, Emmanuel D. H. Wells and Sister Emmeline D. H. Wells, and the relatives generally. The shock caused by her demise, however, is by no means confined to her family or relations, but extends to all who had the pleasure of her acquaintance. Her nature was so frank, generous and amiable as to cause her to be endeared to all who met her.

Deceased followed the profession of school teaching, in which she was remarkably proficient. She was associated in that capacity for several years with Miss Cook, in the academy conducted in the Social Hall.

Some time ago she received an injury through the accidental falling upon her of a heavy book case. Since then she had been troubled with severe attacks of nervous illness, and it is believed that the effect of the accident was one of the indirect causes that led to her death. The sad news will be received with general grief.

The funeral services will be conducted at late residence, Main Road, on Thursday, April 11th.

Like a Wolf.—from the Alpine Islands in the breath which has been performed by the aid of SOZODONT, the national benefactor of the tooth. Decay touches not the teeth which have been fortified against it by this matchless dental invigorant.

Furnished or Unfurnished rooms to rent, single or in suites, in the Washoe Building. Terms moderate. Apply to N. Greenback & Son, at their office, on the present.

Sharp.—There was a sharp frost last night. It is not improbable that some of the fruit germs were killed by it. This morning there was a thin coating of ice on standing water.

Theatre.—Madame Reine's Minstrels drew a big house last evening and elicited great applause. The burlesque of "Izion" will be repeated this evening, which will please the engagement of this company.

Museum.—Fine rotten stone has been received from Mr. Graves, of Provo, it is likely to be a marketable article. Fine copper ore specimens have been received from Mr. O. P. Rockwell. A fine pair of "Cat-eye" Owls (Bubo Virginianus) have been removed to more congenial quarters at Lindsey's Gardens, on the north bench of the city.

A Bold Thief.—Yesterday afternoon a tall, dark man called at the house of Bishop Wells, in the 3rd Ward, while the family were absent. He asked the hired girl if the Bishop was in, and was answered in the negative. He then walked to the cupboard, deliberately opened the glass door, emptied a number of pieces of silver currency out of a tumbler into his hand, said: "It's all right, however, for he was a thief and walked off with the Bishop's money." Fortunately the amount was only about two dollars.

Water Question.—The people residing on the bench north of the 18th, 20th and 21st Wards are making another appeal to the City Fathers for a water supply. A petition has been numerously signed and will be presented to-night.

They renew the request made several years ago for the privilege to construct a ditch from City Creek, to convey to the bench the surplus water from that stream. Some years since they had a survey made for such a ditch and the cost estimated, which was placed at something under \$1,000.

The north bench people have petitioned long and loud for the needed supply of water, and it is to be hoped that the oft repeated appeals will, ere long, meet with an adequate response. The health and general well-being of the people of that dry locality depend upon their obtaining the much needed boon.

The General Conference.—The influx of people from the several Stakes of Zion, in attendance at the Conference was exceedingly great. On Sunday, especially in the afternoon, the assemblage was very large. Every available foot of standing as well as sitting room in the Tabernacle appeared to be occupied, the aisles being all filled. The number of people present was estimated at from twelve to fourteen thousand.

Most of the people from the country have returned to their homes, and the streets of the city, which have been thronged with living streams of people for several days past, have comparatively assumed their usual quiet appearance.

Silver Reef Ore.—The curator of the Museum has received from Judge Barbee, a valuable collection of silver ore from the district first brought into prominent notice by the discoveries made by that gentleman. A white sandstone, containing organic remains, is rich in "Horn Silver," this is from the Barbee mine. Specimens from the Buckeye, the Gishorn of Silver Reef, are remarkable for richness in silver as well as singularity of appearance. Specimens of ochreous ore from the McMillan mine and from the Kenner, are very curious. Altogether the specimens of the Silver Reef ore are likely to cause a complete revolution in the theories advanced by geologists in relation to silver deposits. The views of Professor Gannan, who lectured on geology in this city recently, are most in harmony with the facts revealed by recent discoveries in the argilliferous mud and silver sandstone districts of southern Utah.

Appointments for Quarterly Stake Conferences.

Salt Lake City, July 6 and 7. Weber and Juab, April 20 and 21, and July 20 and 21.

Tooele and Box Elder, April 27 and 28, and July 27 and 28.

Wasatch and Cache, May 4 and 5 and Aug. 3 and 4.

Summit and Bear Lake, May 11 and 12, and Aug. 10 and 11.

Morgan and Sanpete, May 18 and 19, and Aug. 17 and 18.

Sevier and Millard, May 25 and 26, and Aug. 24 and 25.

Davis and Utah, June 1 and 2, and Aug. 31 and Sept. 1.

Beaver and Panguitch, June 1 and 2, Aug. 31 and Sept. 1.

Kanab, June 8 and 9, and Sept. 7 and 8.

Iron, June 29 and 30, and Sept. 28 and 29.

St. George, June 15 and 16, and Sept. 14 and 15.

In behalf of the Apostles, EMERSON SNOW, F. D. RICHARDS, Committee.

LATEST BY TELEGRAPH.

CONGRESSIONAL.

SENATE.

WASHINGTON, D. C.—The report of the special commission on railway mail transportation was presented to both houses of Congress to-day. It is signed by Daniel M. Fox and Geo. A. Bassett, postal commissioners who recommend space and speed instead of weight in the use of compressed matter, and also recommended, will not be materially increased over those of the present year.

Morrill reported from the finance committee a bill to repair and put in operation the mint at New Orleans. Placed on the calendar. Morrill said it was the opinion of the committee that this would afford all the additional mint facilities.

The tabulated returns show a variation of from 250 to 100 miles in the operating expenses per train.

foot of train, while the receipts ranged from \$60 to 1,000 miles. Showing that the cost of operating a train where rates are low, is larger than other roads where rates are high, and therefore the adoption of an average rate, applicable to all lines, that would give each route a uniform per centage of profit was impracticable.

WASHINGTON, D. C.—Wright offered a concurrent resolution proposing to issue four hundred million dollars in United States notes to be known as national money.

EASTERN.

\$50,000 Fire.

GALVESTON, 9.—A fire at three o'clock this morning destroyed 13 frame buildings on both sides of Market Street, between 28th and 29th Streets. Only one building in the block was saved. Loss \$50,000; insurance \$30,000.

Sherman in New York.

NEW YORK, 9.—Secretary Sherman, this morning, visited the sub-treasury, and had a long interview with Assistant Treasurer Hillhouse.

At one o'clock this p. m. a conference was begun between the Secretary and a number of prominent bankers, whom had been invited to meet him. The meeting is strictly private, its object is an interchange of views in regard to the financial condition of the country.

FOREIGN.

LONDON, 9.—The drift of the news from Constantinople is again distinctly pro-Russian. New objections have been taken by the Turks against Russian military movements.

Russian garrisons have relieved the Roumanians at Widdin, Nikopolis and Rhyva, and the Roumanians now hold the Danubius from its mouth to the Serbian frontier.

CONSTANTINOPLE, 9.—The Russians are completing the fortifications begun by the Turks at Schekmedja and Serkes.

Fresh purchases of arms are being made by the Turkish war office.

Still hopeful.

A St. Petersburg telegram says, the feeling gains ground that some formula will be invented which will remove the obstacles to the assembling of the congress.

Unsuccessful.

A member of the Berlin banking house of Mendelssohn, was in Paris, yesterday, seeking the co-operation of the Paris houses concerned in last year's Russian loan, to place about three hundred million francs more, but was unsuccessful.

GERMANY.

Decrease in Specie.

BERLIN, 9.—The statement of the Imperial Bank of Germany shows a decrease in specie of 7,200,000 marks.

DIED.

In Tooele City, April 8th, deeply regretted, MARY JANE MADDEN, wife of James Dunn, aged 28 years.

She leaves a family of six children, besides a large circle of friends to deplore her loss.

In the 8th Ward of this city, April 8th, of congestion of the lungs, ELIZA, daughter of President D. H. Wells and Emmeline B. Wells, aged 24 years and 7 months.

At Cedar Valley, March 8th, 1877, ALVIRA WHITEHEAD, aged 56 years, 3 months and 4 days. Born in Chester County, New York. Sister Whitehead died in full faith of a glorious resurrection, and was beloved by all who knew her. She spared no pains to visit the sick and afflicted, and her friends had great confidence in her skill.—Com.
