

OUR OWN STATE.

The branch office of the Deseret News in Ogden is at No. 400 Twenty-fourth street, where advertisements and subscriptions will be received. The "News" is delivered by carriers in Ogden every morning at the same time as in Salt Lake City.

OGDEN NEWS.

OGDEN, UTAH, May 30, 1901.

BURIAL OF JAS. MCCORMICK

Young Soldier Will be Laid to Rest by Comrades in Ogden Cemetery.

William McCormick of Pine Meadows, Connecticut, father of the young soldier, James McCormick, who died in this city Tuesday, telegraphed Messrs. Larkin & Sons, undertakers, who have charge of the remains, to bury their son here in Ogden, and forward them full particulars of his death. In accordance with the request the remains will be interred in the Ogden City cemetery Sunday. The funeral services over his remains will be held at Larkin & Sons' undertaking parlors Sunday morning at 10 o'clock under the auspices of the Spanish-American War Veterans and the G. A. R.

A special request is made by the officers of both organizations that the members attend the funeral in a body, as a tribute of respect to their dead comrade, who died as a stranger in a strange land, but among friends.

SALTAIN EXCURSIONS.

Theodore Lewis, a well known young man of this city, has made a contract with the railroad company and Saltair company to run all excursions to Salt Lake from Ogden, and vice versa, during the season.

Mr. Lewis is a popular young man and will not doubt be successful in arranging a number of good excursions from this city. Cache and Davis counties to the popular bathing resort during the season.

STOLEN BICYCLE RECOVERED.

A young lad about 17 years of age, who gave his name as William Nokes, and his home as Ogden, was arrested by Officer Brown yesterday afternoon on the charge of stealing a bicycle, belonging to Mr. Clark of Burch Creek. The boy stole the wheel from town and was in the act of checking the same in the baggage department at the Union depot for Riverton, Utah. He was taken to the police station and locked up, but Mr. Clark did not desire to prosecute him because of his youth, hence the boy was given a severe reprimand and sent home. It is thought that the few hours behind the bars taught him a good lesson.

Two young men were arrested by Officer Brown yesterday afternoon on the charge of robbing a car at Pocatello of some shoes and other articles. The young men proved their innocence and were released.

BRIEFS AND PERSONALS.

H. G. Whitney, manager of the Deseret News, was in Ogden yesterday on business.

Mr. Peter Madsen and his sister, Mrs. Edith Williams, went to Salt Lake to spend a few days with relatives and friends.

William Connell, who, for the past three years, has been janitor at the Ogden Hotel, left yesterday afternoon for Dillon, Montana, where he has accepted a position. His family will remain in Ogden.

William Weaver and Charles Kitchner were at Ogden today in the interest of the Bear River Water and Irrigation company.

Alonso Baker, went to Salt Lake last evening to get his wife and move his household goods to this city.

John W. L. Smith has returned from a business trip to Eugene, Ore.

Thomas Thomas, of the firm of Sumner and Thomas, formerly of Ogden but now of Rexburg, Idaho, is in Ogden today for a few days.

The home of Phil Garner was made happy yesterday by the advent of a beautiful girl in the family. Mother and child doing well.

Max Davidson has returned from a business trip through Wyoming.

C. M. Jones, of Pueblo, Colo., is spending a few days sight seeing in this city.

W. L. McAllister, of Logan, was in Ogden today on business.

D. P. Phillips, manager of the Juvenile Instructor advertising department, was in Ogden yesterday.

Miss Edith Nebeker, who for several years has been visiting in Ogden, the past of her sister, Mrs. William Terry, returned home to Logan, Utah, this morning.

J. G. Hammond, the well known banker of Corinne, was in Ogden yesterday.

Alexander H. and A. W. Moves, of this city, have been granted a patent on an air brake they invented.

H. G. McIntire, of Helena, Mont., is visiting in Ogden.

The officers of the Pacific will entertain this evening at their hall.

Fought for His Life.

"My father and sister both died of Consumption," writes J. T. Weather, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. The lack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not cure, but a few months' use of this wonderful medicine made me well as usual and I gained much in weight and appetite for coughs, colds and all throat and lung trouble. Guaranteed bottles sold at 25 c. C. M. I. Drug Dept. Trial bottles free.

SCHOOL GRADUATES.

Last Friday and Saturday was examination day in Ogden for the eighth grade pupils of the county schools, and the following from North Ogden were the successful ones: Chas. Barker, William Nepht Brown, John Storey, Annie Barker, Flossie Montgomery, Lettie Jones, Mary Ann Norris, and Inez Jones.

Leandro Waldman, a former resident of this place, has been engaged as the

principal of the schools at Rexburg, Idaho, for the ensuing year.

John Q. Bayley has been appointed principal of the North Ogden schools and Miss Maggie Chambers, teacher of the Primary department for the coming school year.

Austin Warren was brought home a few days ago from Diamondville very sick with typhoid pneumonia.

Aunt Boleita Brown reached her 90th birthday May 20th. She is in very feeble health.

Miss Lizzie Hall has returned to her home in North Ogden from school in Kayville, having taught there two school years. She reports a very successful school year there, closing last Friday with twenty-four eighth grade graduates.

Wm. M. Ellis has been appointed to succeed Wm. H. Crandall as chorister of the North Ogden Sunday school.

WEST WEBER.

Damage by Windstorm - Smallpox Situation - Primary Conference.

West Weber, Weber County, May 29.—We have just experienced one of the most terrific winds that has occurred in this place for years, doing a great amount of damage to early fruit and berries, also the best crop, especially in this section, on sandy land. From seventy-five to one hundred acres have been almost entirely destroyed. The directors of the sugar factory are advising the replanting of beets and offering to furnish the seed at half price, believing there is yet ample time for the crop to mature.

The wind has also done much damage to houses and barns, a number of shade and fruit trees were blown down.

SMALLPOX SITUATION.

We have not been entirely free from smallpox for the last eight months, although for two months it has been confined to one family. This day they were set at liberty, as one member of another family was taken down. Every precaution is being used to prevent it from spreading.

PRIMARY CONFERENCE.

The primary associations of this ward held a conference conjointly last Sunday. Some of the State officers were down from Ogden and gave timely instructions suited to all present. Some changes of officers were made in the associations. Sister Sarah A. Miller, who had been president of the North association, was released as she intends to make her future home in Idaho.

Sister Miller has been a faithful worker not only in the primary association but also in the Sabbath school and Relief Society for over twenty years. She leaves with the good feeling and respect of all with whom she has been associated.

SPANISH FORK.

Graduating Exercises of Public Schools - Names of Graduates.

Spanish Fork, Utah Co., May 25.—The graduating exercises of the public schools were carried out with considerable success, Thursday and Friday. The morning was consumed in examinations and preparations for the evening, when the exercises were held at the Pavilion. A large crowd was gathered together, and at the appointed time the twenty young lady graduates, dressed in white, followed by the six young gentlemen graduates, stood upon the platform. Interesting papers were read, in fact the whole program was rendered very creditably.

Prof. Marshall of the State University, addressed the class, remarking especially upon the large number of young graduates, as compared with the young men. He hoped that the next time he may attend similar exercises the numbers would be more equally divided.

He was followed by County Superintendent Brown. He stated that the school year in Utah county has been quite a successful one. He urged parents not to keep the boys out of school in the spring, which seemed to be the main cause of so few boys graduating as compared with the girls.

NAMES OF GRADUATES.

Sylvanus Royack, Zina D. Hales, Inez Hales, Mary Ann Jensen, Mattie E. Holt, Mabel Hales, Lenora Rowe, Iona May Brown, Martha Freedy, Harle E. Gardner, Neelie Post, Mary Hicks, Joseph Ralph Wilkins, Lester Whiting, Archie Andrus, Ben E. Argyle, Ruby Simmons, Francis Miller, Mary E. Nielson, Elsie Tuttle, Doll S. Christenson, John E. Gardner, Eleanor Bowen, Alice M. Tilley, Mary E. Nielson, Lenora Holding.

OLD SOLDIER'S EXPERIENCE.

M. M. Austin, a civil war veteran, of Winchester, Va., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health. They always do." Only 25c at Z. C. M. I. Drug Dept.

HOOPER.

Many Farmers Discouraged Over Crop Outlook Since Wind Storm.

Special Correspondence.

Hooper, Weber County, May 27.—Our prospects were very good for crops until the recent windstorm last week which did considerable damage to crops and fruit. Many of the farmers are very despondent; some have lost all their beets, turnips, melons and potatoes and other stuff, which was blown out of the ground. It is difficult to estimate the amount of damage it has done.

On Sunday we held our ward conference, the presidency of the Stake was here and Elder E. H. Anderson.

BABY'S DIARY.

A unique and handsome publication which relates the important events in baby's life has just been issued by Borden's Condensed Milk Co., 71 Hudson St., New York. It is not given away, but is sent on receipt of 10 cents.

MAPLETON.

One Case of Smallpox - Wedding of Miss Nielsen and Chas. Allen Jr.

Special Correspondence.

Mapleton, Utah Co., May 29.—Crops are looking fine. There is, however, a shortage of acres of beets from what was usually here. There we have, with few exceptions, are growing nicely. The late wind damaged fruit some; still there is a fair quantity left, and will make a fair crop. The mowing machine has started its buzz, some of the farmers needing early feed. The water is much more in evidence now than last year at this time, though we expect to run short of that much needed element before the summer is gone, unless Providence comes to our aid with the later rains. Thus far, we have been very improvident in not making reservoirs to store the water for the dry season.

We have one case of smallpox in our ward, but which is under strict quarantine regulations, so we anticipate no further trouble with it.

The ward is thriving spiritually, as was reported by Bishop Jew at our late ward conference held on the 19th inst. The Lesser Priesthood, especially, doing excellent work.

Chas. Allen Jr. and Miss Nielsen were the contracting parties in a recent wedding.

A stranger made his appearance on

CARBUNCLES AND BOILS

SYMPTOMS OF BAD BLOOD

There is a popular belief that every boil is worth many times its weight in gold, and the sufferer patiently, even cheerfully, endures the pain under the mistaken idea that these little tormentors are health promoters; that they thin the blood when too thick, and cleanse and cool it when too hot or too rich. On the contrary, boils and carbuncles are evidence of blood poverty, or a fearfully depraved condition of that fluid. There may be no external evidence of bad blood until the warm days of spring set in motion the sluggish circulation and the pent-up impurities, unable to escape through the natural outlets, gather near the surface of the skin, and a Carbuncle or a Boil is the result. When the blood is burdened with an undue amount of this impure matter, the Boils come in greater number, eat deeper into the surrounding flesh, and being nearly always located on a bed of nerves, cause the most intense suffering. Robust and apparently healthy people are subject to Boils, and there is always some hidden agency at work within the blood and system that will eventually undermine the health, but those whose constitutions are broken down by previous sickness or other causes, are most often the unhappy victims of Boils and Carbuncles. Exposure to the deadly malaria destroys the red corpuscles and reduces the blood to such a weak and watery condition that it succumbs to the boil-producing poisons, and the pale and sallow

DANGEROUS CAREUNCLES.

Mr. J. B. Scott, a resident of Hazell, Miss., writes: "S. S. S. cured a malignant carbuncle on my neck which the doctors had been unable to bring to a head. As soon as I began to use S. S. S. I was relieved of pain and the dreadful carbuncle got entirely well. My skin is clear, sound and smooth, and I am well today through using S. S. S. I am 65 years old."

sufferer is continually nursing one or more of these feverish and painful eruptions. A harmless Boil is sometimes the precursor of dreaded Cancer, and too often the best evidence of a deranged condition of the

kidneys or chronic liver trouble, brought on by lack of nutritious blood; or it may develop into a running abscess or ugly eating sore, causing years of suffering, and often terminating fatally. To seek relief from the inflammation and pain produced by these terrifying eruptions through the application of local remedies is natural and right, but this method of treatment does not prevent others coming, or bring the slightest relief to the disease-burdened, deeply poisoned blood. Only a thorough regeneration and building up of the depreciated blood can bring about a lasting cure of Carbuncles and Boils and prevent their reappearance.

S. S. S. restores to the old blood all its lost properties, re-invigorating and giving it the healthy red color that only pure, fresh blood can have, and through this new blood strength and vigor comes to the bodily organs; the skin resumes its functions, and impurities of whatever character are taken up and filtered out of the system in nature's way.

S. S. S. is made exclusively of roots and herbs selected for their wonderful purifying and tonic properties. It cures blood poison diseases of all kinds, whether acute or chronic. No matter how long the poison may have been in the blood, S. S. S. removes every vestige of it, thus insuring a faultless circulation and healthy body.

Those subject to boils or any skin eruption, old sores or ulcers, are asked to write our physicians all about their disease, and any information or advice wanted will be cheerfully and promptly given without any cost to the patient whatever. A valuable book on Blood and Skin Diseases sent free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

the 25th inst. in the home of Justice S. D. Pullmer. Mother and child are doing well.

Good reports come from our missionary, Elder Hyrum Manwaring, who is laboring in far off Van Daman's land. Elder H. P. Jensen lately returned from Denmark.

It Saved His Leg.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but writes that Buckner's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Z. C. M. I. Drug Dept.

HUNTSVILLE.

High Wind Does Little Damage - Four Cases of Smallpox.

Special Correspondence.

Huntsville, Weber County, May 29.—Although we are surrounded by high mountains the windstorm which swept the country left its mark with us. When the morning of the 25th dawned the streets strewn with trees and branches, and a number of barns and out buildings were blown to the ground. No severe damage, however, was done to the crops.

President Ingerbrecht, accompanied by a large number of the Scandinavian Saints from Ogden, were here on Sunday and held a special meeting in Wausland hall, which was largely attended.

We have four cases of smallpox but it is confined to the one home of J. H. Jorgensen.

Mrs. Carrie Renstrom is suffering with a severe attack of rheumatism.

A Mother's Milk

may not fit the requirements of her own offspring. A failing milk is usually a poor milk. Borden's Eagle Brand Condensed Milk has been the standard for more than forty years. Send for "Baby's Diary." 71 Hudson St., N. Y.

OUR NEIGHBORS.

IDAHO.

Weekly Crop and Weather Report.

United States department of agriculture, Idaho section, crop and weather bulletin of the weather bureau.

Boise, Idaho, May 29.—Heavy rains occurred in the northern sections on the 19th, 20th and 22nd, and in the eastern counties a general rain on the 22nd. Only traces of precipitation occurred in the southern and central districts of the state. However, there was more than the usual cloudiness in all sections. There was a decided change from the high temperature of the previous week, the weather having become much cooler. Heavy and general frosts occurred in the western sections on the morning of the 29th and in the eastern counties on the 21st and 22nd. During the latter part of the week high winds prevailed in the eastern part of the state.

CROPS.

Northern sections: There was an abundance of rain during the first part of the week, causing vegetation to make an unusually rapid growth. Haying will commence next week and fall wheat is heading. The season has been exceptionally free from frost and very favorable for the fruit crops. Stock is being collected from the ranges in fine condition.

Southwestern sections: Although there was no rain during the past week the crops have made good progress. A severe frost occurred on the morning of

Mr. R. M. Pratt, Cave, S. C., says: "For twenty years I was afflicted with boils and carbuncles, part of the time being unable to work or sleep. Several doctors treated me and I tried numerous blood remedies, but received no benefit. During the summer of 1898 I was persuaded to try S. S. S. A few bottles cured me entirely and I have had no return of these painful pests."
