a few days

There was file change in the range of prices on the floor of the Salt Cake Stock & Mining exchange today. Were it not for the unsettled smelting sit-uation the prospects for a better mar-ke for socks would be good. However, view the future with a good deal of a display of optimism; yet no radical changes are anticipated right away. Silver King Coalition sold at \$3 on the open board, and Ohio Copper was offered at \$2.80 with no takers. The closing quotations and sales The were

New York Stock Exchange. After beginning 1907, at a compara-tively high level, the price of member-hier optimized and the New York Stock exchange exceuted several sensational optimized again, the New York Com-merchal, dropping heavily from \$80,000 to \$51,500, the lawest figure reached in guyard again, the last transaction in such seats having been made at \$55,000. The first big drop was noted early in the first big drop was noted the March dealine in stocks and the increased ac-stations in the exchange, made the seats in the stocks and the increased ac-stored for a membership, but in June

It was learned from a trustworthy source today that the Ogden smelter, which is owned by the Utah Smelting company, would likely be placed in commission again shortly. The plant was closed down several weeks ago when the "panic" hit this country so hard after several months' unprofit-able run; which was due, however, to no metallurgical difficulty, but to the shrinkage in metal prices, the comno metallurgical difficulty, but to the shrinkage in metal prices, the com-pany having purchased ores at high water prices and which could not be disposed of before the slump came. Now is believed to be an opportune time for the plant to start up again The Richmond-Eureka mines of the United States Smelting, Refining & Mining company at Eureka, Nevadar, have been closed, throwing 150 men out of employment.
