

## SIGNS OF THE TIMES.

The present generation is one which abounds with omens of the future. The Heavens have been very merciful in revealing the fullness of the gospel to sinful men in this, our, day. Cautions and warnings have been liberally given by the humble followers of the Lamb, almost the wide world over, without purse or scrip, being chargeable to no man. No missionary fund, no pay for services, and no earthly guarantee for future rewards; but when the Lord called, we arose and went without regard to the condition of things at home, and faithfully warned the inhabitants of the earth of the calamities that would befall this generation. Our words were sown in much weakness; but in their fulfillment they will be raised in power, magnified and made honorable in the face of all the world.

The Great Jehovah hath some rights upon His footstool and has plenty of arguments to vindicate those rights, notwithstanding the opposition and jealousy of the Governments and powers of this world. We have sought to do the nations good and to save them, but they would not listen to His voice any more than the Jews would to the voice of His Son who, in the sympathetic despair of His heart, exclaimed: "O Jerusalem! Jerusalem! how oft would I have gathered thy children as a hen gathereth her chickens under her wings, but ye would not!" The medicine of the physician is not often palatable to the sick and declining patient, yet if taken as directed, it may effect a cure. "Mormonism" is not at all palatable to this sickly and waning world, but it is just the pill which the Great Physician above has sent to heal the nations; and He has sent no other remedy, neither will He. If the patient, therefore, shall decline to take it, a lingering death will certainly ensue.

The revelator, John, has given a confederate name to the nations of the earth, applicable to them in the last days, which is "BABYLON," and has decreed its downfall, because all nations have drank of the wine of the wrath of her fornications. Notwithstanding the energies and skill of political doctors and quacks to bolster up and sustain the governments of this world, it will be all in vain so long as they despise, loath, and reject the remedy which the Heavens have prescribed. "The wisdom of their wise men shall perish, and the understanding of their prudent men shall be hid." The only means of political salvation for any nation on the globe are in Utah. This statement is as hard to believe and as difficult to be seen and comprehended as the electric telegraph was to the people one hundred years ago; but the latter is now fully revealed, and the former will be in much less time.

To the United States Utah politically belongs, and she has diligently sought admission into the Union, and has given to the Nation abundant opportunity in its distressed and spasmodic condition to take the loathsome medicine,—it being the last and only remedy. The language of Utah to the government is "Behold I stand at the door and knock: If any man hear my voice and open the door, I will come in to him, and will sup with him, and he with me. To him that overcometh will I grant to sit with me in my throne, even as I also overcame and am set down with my Father in his throne. He that hath an ear let him hear what" Utah says to Congress. Utah will not always knock at that door, for, unless it open to her, there will be none to knock at.

The conclusive evidence that we have that Babylon is fallen is the great increase of wickedness, crime and abominations; and when she is fully fallen, the words of the Angel to John upon the Isle of Patmos will be fully applicable: "Babylon the great is fallen, is fallen, and is become the habitation of devils, and the hold of every foul spirit, a cage of every unclean and hateful bird." How many devils, foul spirits and unclean and hateful birds are in political and military authority, and how many are aspiring to such stations, regardless of the real welfare of the people, those who know better than I may answer; but I think, if half is true which is published in the Nevada journals concerning the Legislature of that State, there must be foul spirits and unclean and hateful birds in that Body, not a few.

Should any be curious, rich or poor, small or great, rulers or subjects, priests or people, to know any thing further of

the fate of the present generation, let them read, attentively, three times over, the 18th chapter of the revelations of St. John, and there learn the reason why the Saints or "Mormons" come out from Babylon or the nations of the earth. Now do not forget to read the eighteenth chapter of the revelations of St. John, for all nations stand on the very eve of the fulfillment of every word of it.

ORSON HYDE.
