RIGHT ARM PARALYZED!

Saved from St. Vitus Dance.

Our daughter, Blanche, now

eight years of age, had been

afflicted with St. Vitus Dance

for several years. She was

unable to move her right arm

and was in great distress.

We had tried every remedy

known to us, but without

success. We were about to

despair when we learned of

Dr. Miles' Nervine.

We purchased a bottle and

gave it to her. To our

surprise, it did her good.

After a few days she was

able to move her arm.

We are now able to

thank Dr. Miles for his

kindness.

We have no more to

say.
