LOCAL AND OTHER MATTERS.

THEATRICAL, -A full house assembled last night at the Theatre to witness "Paul, the Pet of the Petticoats" and Po-ca-hontas." We were glad to see such a good

As "Paul," Miss Ward dressed and played the part very well. The other members of the company, though their acting was good, had not that scope for the display of their abilities which is afforded in most pieces.

"Po-ca-hon-tas" is a very humorous burlesque, and was well rendered, most of the songs being very well sung. We were especially pleased with Kate Denin's performance of "Captain John Smith." She looked the character to perfection-a rare thing for a lady to do. Every latitude was afforded her as "Captain John Smith" for the display of her unusual powers of enunciation, every line of her part receiving its due emphasis, and her singing was very

The evening's entertainment to-night will commence with a lecture from that popular lecturess, Mrs. Augusta N. St. Clair, who is known to most of our citizens as a most accomplished lady. The subject chosen is "Six Months in Utah," and we dare say it will be cleverly handled by Mrs. St. Clair.

The entertainment will conclude with that laughable burlesque, "The Latest Edition of Black-Eyed Susan," in which Kate Denin will appear. This is worth seeing; it affords an immense amount of

CALLED.-We had a very pleasant call yesterday from W. C. Fillmore Esq., the representative of the well known firm of Jones & Langhlins, American Iron Works, of Chicago, who is at present in our city on business connected with that firm.

Excursion Party. - A very pleasant party of excursionists passed over the Utah Central railroad, on Sunday, from Ogden to Kaysville. The company numbered some 120 passengers and was composed of ladies and gentlemen from Ogden, who occupied two first class cars. The train left Ogden at 2.45 p. m. and arrived at Kaysville at 3.30. The trip was much enjoyed by all who took a part in it.

WATCH YOUR MONEY DRAWERS,-During the last few weeks we have had to record several acts of petty theft in various parts of the city, which, though not of themselves sufficient to cause bankruptcy to those most concerned, are nevertheless suggestive, and should serve to awaken the people from the blissful sense of security in which they have hitherto almost uninterruptedly reposed. It is plain there general manciers' in our midst. who prefer rather to live on the earnings of others than work. Who these individuals so that such distinguished residents may Fredrickson meet with the punishment which they

The latest robbery we have to chronicle Geyer F occurred at a small store on East Temple Geilton W street last evenining. The individual in charge chanced to go to the store next door for the purpose of examining some coffee, having first satisfied himself there were no suspicious characters around. He had not been absent many minutes—perhaps four— when he returned and took his place behind the counter. He did not suspect that anything had occurred until going to the money drawer to give a customer some change he found the money had disappeared. A similar occurrance took place some two weeks ago at a neighboring store; but this time the proprietor had fortunately abstracted the money previous to going home, and the thief feeling disappointed had left the drawer on the floor.

We trust a sharp look-out will be kept on all suspicious characters, and whenever the right bird is caught, let the Doctor have a chance at him.

THE TELEGRAPHIC DISPATCHES. - It will be seen by the telegraphic columns in Jensea P. to-day's issue that we have returned to our old method of giving sensational and subheadings to the various items of news received over the wires. This style was adopted when the DAILY NEWS was first issued. but owing to the very large amount of matter then transmitted over the wires, it was impossible to continue it, the headings taking up too much of the limited space at our command. Since the removal of the receiving office of the Western Union Telegraph Company there is not near so many trifling and unimportant items sent, consequently we can devote more space to what do come; and by the re-adoption of our old style of sub-headings, any item of particular interest to our readers may be seen at once without the trouble of perusing the whole when it is not desirable to do so. We trust the change will be pleasing to our subscribers.

RECAPTURE OF "BLUE HAWK."-The Omaha Herald, of the 20th inst., contains omaha Herald, of the 20th inst., contains an account of the recapture of Blue Hawk, the Pawnee Indian who escaped to his tribe Heerman A Hemenway E recently, after having been convicted of and condemned for murder. After his escape Horn M he wandered four days and nights through storm and snow until he reached the village of his tribe, a few miles from Lone Jeasen GN Jonson E River. When his whereabouts was dis-River. When his whereabouts was discovered an attempt was made to re-arrest him peaceably, but this was resisted by him and the tribe. General Augur was then applied to for troops, and two companies of cavalry were placed at the service of the Marshal. Last Thursday morning these companies proceeded to Long Tree. these companies proceeded to Lone Tree Station, and the errand on which they had come being made known to the tribe, they held a consultation, the result of which was that flue Hawk took leave of his wife and friends. and friends, returned to Omaha and was safely lodged in jail with his tellow Indians, Little Wolfe, Horse Driver and Yellow Sun, there to await the decision of Judge Dundy, of the U. S. Circuit Court, on a motion for a new trial and arrest of judgment in their case, argued before him on the 19th. The decision will not be rendered until January. ered until January.

M. Horner, of Mission San Jose, California, De Clark & Cark & Car has recently invented and patented a machine, called Horner's Harvester, which will cut, thrash, clean and sack, ready for will cut, thrash, clean and sack, ready for market, fifteen acres of grain per day, and if put to its utmost capacity will do twenty acres per day. It cuts eleven feet wide, and requires three men and twelve horses to run it. Last summer Mr. Horner cut over two thousand acres of grain with this machine, at a cost per acre of three and a half dollars; with other machines it is said to average five dollars. The harvester is specially adapted for level ground. For particulars as to prices, &c., all interested are referred to the inventor John M. Horner, Mission San Jose, California.

FATAL ACCIDENT,-The Cheyenne Leadof the 19th inst, contains an account of an secident on the U. P. R. R. near Carbon Station, resulting in the death of two men, named George and James Anderson, employed in constructing snow sheds on the ine of the railroad. Last Thurday morning they left their work for the station, for breakfast, and on the way were met by the eastward bound express. A heavy snow storm was raging at the time, which it is supposed preverted them from seeing or hearing the train. One was caught in the driving wheel of the engine and literally torn to pieces, part of his skull and brains being found several feet from the track, the other was caught below the pilot of the engine and similarly ground up. The latter breathed a few times after the train stopped; death in the other case was instantaneous. The bodies will be sent to Chicago, where their friends reside.
