William A. Williams, secretary and
treasurer and these with C. E. Crandall, Francis W. Kirkham and Alexander Mortensen constitute the board
of directors.

ORE THIEF AT WORK. Twenty Sacks Surreptitiously Taken From Gold Butte Mine.

Advices received from Gold Butte, Nevada, brings the information that during the holiday vacation of the em-ployes of the Gold Butte mine some thief stole into camp during the night and carried off 20 sacks of ore. The ore was valued at about \$50 per ton, and there was valued at a bout \$50 per ton, and there was about a ton of it taken. The ore was dug out of a shallow shaft well up on the mountain above the tunnel.

No trace of the ore stealer had been found up to the mailing of the letter.

BALAKLALA BOND ISSUE.

Plan Proposed to Raise Funds for New Smelter Construction.

New Smelter Construction.

The information comes from the east to the effect that nothing definite has been decided regarding the proposed bond issue of the Balaklalla Copper company in California. An official of the company is quoted as saying, however, that the present \$1,500,000 bonds will be extended and that an additional amount will be issued to pay for the cost of increasing the capacity of the smelter from 1,000 to 2,000 tons or more, and to provide additional working capital.

BUTTE'S COPPER OUTPUT. Over 350,000,000 Pounds Produced During Last Year.

The total copper production of the Butte district in 1609was between 250,000,000 and 360,000,000 pounds, according to the estimates of competent mining and smelting men. Exact figures on production are always back six to eight months, but estimates based on the ore tonnage and everage assays indicate that the output will be between the two figures stated, notwithstanding the statements of Amalgamated men that the production by that company will not exceed the previous year's production more than 5 per cent.

5 per cent.

The production of the six Amalgamated companies has been estimated with about 38,000,000 for Northe Butte, as high as 248,000,000 pounds for 1896, 23,000 060 for Butte Coalition, 8,000,000 for United Copper and 25,000,000 for Clark's Original company. The December production of the district was 26,-450,000 pounds.

COLORADO'S BIG TUNNEL.

One Which is to Drain Cripple Creek District Located.

(Special to the "News.") Colorado Springs, Colo., Jan. 11.—The location for the great drainage tunnel has been placed at Gatch park, known as the intermediate site. The site was determined at a meeting of the mine owners, held Jan. 2. Work will be commenced as soon as the contract is signed by all the mining companies, mills, smeiters and railroads interested. The site was the most popular. The dismills, smelters and railroads interested. The site was the most popular. The directors were given full power to act. The subscription list will probably reach the million dollar mark, \$750,000 was subscribed by the big mine owners, the smaller mines contributed \$100,000, the railroads and smelters are looked to, to complete the million dollars. The cost of construction is expected not to exceed \$750,000.

The entire tunnel will be 27,190 feet long and will be completed in less than five and a half years.

APPOINTED TRAFFIC MANAGER The Bingham Consolidated Mining The Bingham Consolidated Mining & Smelting company has grown to the proportions which necessitates the services of a traffic manager, and for this position, at the instance of F. A. Heinze, the appointment of L. A. Porter has been announced. Mr. Porter is well known at Butte, where he has been identified with the Heinze mining interests for some time.

MEN BACK AT WORK.

Settlement of Miners' Strike at Goldfield Causes Rejoicing.

field Causes Rejoicing.

Goldfield, Nev., Jan, 11.—The miners' election to decide the matter of continuing or discontinuing the strike resulted in the casting of 1,869 votes, of which 1,293 were east in favor of settling the strike by accepting the operators' schedule, and 576 were against the proposition. This gives the winning said a majority of 91 votes, as, according to the union by-laws, strike settlements must be agreed upon by a two-thirds majority or over. Scarcely had the announcement been made when scores of mine owners engaged their old hands and immediately began work, long before daylight. Particularly was this noticeable among operators who had wet shafts and were anxious to once more get the pumps in working order.

PENN-WYOMING PLANT.

Remodeled Smelter and Concentrator To Start Next Week.

Special Correspondence.

Encampment, Wyo., Jan. 2,—According to the late bulletin of the Penn-Wyoming, the remoduled smelter and new concentrator will begin operations Jan. 15, the new mill being completed with the exception of the installing of lighter machinery. Thirty carloads of coke have been ordered and 100 extrateams engaged to haul it. A Westinghouse turbine engine has been installed, giving the plant a minimum of 1,250 horse power, the daily capacity of the plant being 1,500 tons of orc. Custom ore will be treated, arrangements having already been made to handle the ore of the Eikhorn Copper company. Special Correspondence.

DEVELOPMENT AT LO. MAMMOTH

Word Comes From Tintic to Effect That Workings on 1700 Have Been Connected.

ELECTRIC HOISTS SHIPPED.

Company Will Soon be in Shape to Handle Daily Output of 100 Tons,

At the offices of the Lower Mammoth Mining company today it was announced that the workings on the 1.700 level of the mine had been connected; there by exposing a continuous body of shipping ore on that level for the length of 260 feet.

Those familiar with the development of this property will recall that some months ago this ore body was encountered through the sinking of a winze from the 1,600 and was exploited to a considerable extent to ascertain if the company would be justified in going to the expense of providing more economic means of extraction by the main working winze and installing proper equipment.

The result of this work was so satisfactory to the members of the board of directors that they decided to carry out the proposed plan and, accordingly, the winze was let down to the desired point, when a cross-cut run out ninety feet intersected the ore, which was drifted on forty feet, or to the point where the older workings were broken

where the older workings were broken into.

Secretary Reeves stated during the day that the ore body had been crosscut in two places, it showing a width of about fifteen feet in one place and nearly thirty feet in the other; the ore as far as exposed, is all of a grade that will pay to ship direct to the smelters.

Word was received yesterday to the effect that the two electric hoists to be installed in the mine had been shipped from Denver and will probably be delivered to the property within the next two weeks. One of the hoists will be installed on the main tunnel level and the other on the 1,200. With the new equipment the company will have power sufficient to raise 100 tons of ore daily for the Salt Lake markets. The Lower Mammoth will then be in shape to make money rapidly and at an early date enroll itself among the dividend payers of the district.

NEW SMELTING PLANT.

One is to be Erected in Encampment Will District, Wyoming.

Special Correspondence.

Special Correspondence.

Encampment, Wyo., Jan. 9.—Before the expiration of the present year Carbon county will have to its credit a second smelter and concentrator which will be on the other side of the divide, three and one half miles south of Copperton, near the Jack Pot and Anchoria claims, and will be the property of the Stemps Spring Power & Coal company, with headquarters in Oshkosh, Wis. H. O. Granberg of the latter place being

O. Granberg of the latter place being the secretary and treasurer.

The machinery for the reduction works has been ordered and will be on the ground by May 1. A large quantity of ore is on the dump ready for treatment. The company will make its own coke at its coal hanks seven its own coke at its coal banks, seven miles southwest of Copperton, the company possessing 320 acres of coal land. Already several carloads of brick, castings, etc., for the coke ovens have been delivered with more to arrive. Like the Penn-Wyoming, this company will treat custom ore. Several mines will treat custom ore. Several mines are within easy approach of the smelter site, the haul being principally down hill. The operation of the two reduction works will produce an erc of unprecedented prosperity in southern Carbon county and will reflect credit upon the entire state.

DIVIDENDS POSTED.

Four Utah Mines Will Distribute Bread Money on 15th Inst.

The directors of four Utah mining companies posted dividends yesterday. The Beck Tunnel Con. pays \$40,000; Grand Central \$15,000; Victoria, \$10,000 and Utah (Fish Springs) \$3,000. Payeach instance is to be made on

BLACK HILLS MINES CLOSED. Deadwood, S. D., Jan. 11.—Anticipating the strike threatened by miners and millmen if the eight-hour day was not granted them, the mine owners of the Golden Reward, Mogul, Imperial Reliance, Wash No. 2, Lundberg, Dorr & Wilson, the Portland and Clinton have closed down. The horses, many of which had not seen daylight for years were removed from the mines and sent to the country. The pumps were also stopped, even on mines where the presence of water is disastrous. ence of water is disastrous.

SHIPPING ORE FOUND.

Breckenridge, Colo., Jan. 11.—Shipping ore has been discovered in a vein of carbonate goldu ore on the Oro claim of the Wellfagton mine. It varies in width from 2 to 4 feet and within it is a streak of ore from 5 to 10 inches wide well charged with gold. Samples average \$43 per ton in gold. Development from the zine and lead shoots is being pushed and shipments of ore are ready. ready

ed from the mines along Copper Creek within the past few months. Eight feet of copper ore was encountered in the tunnel of the Copper Creek Consolidated mines two weeks ago. The mine located about 20 miles east of Corder

TRANSVAAL GOLD OUTPUT. London, Jan. 11.—The gold output in the Transvaal, for 1906 was 24,579,987 pounds, an increase of nearly 4,000,000 over 1905.

CONCENTRATES.

The Nevada Hills company has a car of ore at the sampler and another en roue from the mine. It is said that Samuel Newhouse has been slated for the presidency of the famous Nipissing mine in the Cobalt, Ontario, district.

Clarence McCornick, one of the directors of the Columbus Consolldated Mining company, is en route west from New York.

James Long, Jr., the well known Gold Mountain operator, is up from the south. He will represent Sevier coun-ty in the lower house of the legislature.

The ore and bullion settlements reported late yesterday by McCornick & Company were: Crude ore and concentrate, \$49,000; base bullion, \$70,000, J. H. Shockley, the mining engineer who has come into considerable prominence in Nevada, passed through the city yesterday on his way to New York from the west.

The smelter of the Utah Smelting company at Ogden is not in operation yet. The sampling mill is in operation, however, and ore is being accumulated

for future disposition, The Salt Lake city council committee on public grounds refused to grant the application of B. F. Smith of Thistle, who desired to lease the city's two as-phalt properties near Thistle.

It is reported that a strike of con-siderable importance has been made on the property of the Lakeside Copper company on Promontory Point, about 20 miles west of Ogden.

A message from the east brings the information that the Tonopah Mining company has declared the first regular quarterly dividend of the year, amounting to \$250,000. The date of distribution has been fixed for Feb. 1.

Lead in three-foot chunks has been found in Jack Williams' Sawmili canyon six miles north of Cherry Creek. Samples were brought to Ely on Saturday by George F. Parker, the new Cherry Creek member of the board of county commissioners.—White Pine News

News.

The Seven Troughs Peak Mining company, which owns claims in the Seven Troughs district. Humboldt county, Nev., flica articles of incorporation with the county clerk yesterday. The capitalization of the company is \$1,000,000, divided into shares of \$1 each. The officers are: President, W. J. Robinson; vice president, James Chipman; secretary and treasurer, James T. Hammond. The other directors are John Cleghorn, Oscar W. Moyle, J. H. Moyle and W. J. McIntyre.

THE BUFFALOES.

Bison Society Discusses Plans for Their Propagation.

New York, Jan. 10 .- Plans for the propagation of the American buffalo, were discussed at a meeting of the Bison society here today. It was stated that there are now about 2,009 buffalo in North America, of which 1,400 are in the United States, and that in view of the rapidity with which the animals have decreased in numbers in recent years it was argued they will soon become extinct unless effectual steps are taken to

foster them.

The society decided to make an effort to purchase practically all the remaining buffaloes in this country and maining buffaloes in this country and Canada and present them to the United States government. By so doing it hopes the government will set aside large tracts of land where the bison may be raised on a large scale. The society decided to look into the practicability of locating several herds of buffaloes on the Flathead Indian reservation in porthwestern Mercane. reservation in northwestern Montana and in the Crow reservation in southwestern Wyoming. Morton J. Elroy of the Univesity of Montana will be asked to report to the society upon the possibilities of the Flathead reservation.

The Bradfield Regulater Co., Atlanta, Ca.

PENNSYLVANIA THE MAIN FEATURE

Announcement of Intended Issue Of Additional Capital Had Depressing Effect.

BEARS TOOK THEIR PROFITS.

Supporting Orders Were Placed as a Matter of Protection to Inside Interests.

New York, Jan. 11 .- The annoucement of an intended issues of additional capital by the Pennsylvania Railway company to the extent of \$100,000,000 in bonds and \$100,000,000 in stocks arrived to shock speculative investment in the stock market today. Pennsylvania shares sold down points from yesterday's close under enor St. Paul, Atchison, Northern Pacific and

mous unloading.

St. Paul, Atchison, Northern Pacific and Baltimore and Ohlo were the most acutely affected of the stocks in the general 1st. The sharpness of the break invited p. off taking by bears and supporting orders were put into the market also as a protective measure by inside inferests. The result was a substantial rally in the course of the first hour. Trading then became quieter.

Opening prices of stocks were materially lower than last night in sympathy with a violent break in Pennsylvania. There was enormous liquidation in that stock induced by the additional heavy capital issues announced to be in contemplation. The first 16,000 shares sold at 128% and 136 compared with 1394 last night. Blocks running up to \$,000 shares came upon the market later. Great Northern Certificates fell 3, St. Paul 2½, Northern Pacific, Atchison and Baltimore & Ohio about 2 points. Canadian Pacific 134. New York Central 194, Missouri Pacific, Reading, St. Louis Southwestern and Amalgamated Copper and Smelting 1½. Union Pacific and Great Northern preferred 1½, and the active list generally from a large fraction up to a point.

The violence of the opening decline in stocks brought hasty covering by the bearfraction and a volume of supporting orders which turned the list abruptly upwards. Before the buying had become effective, however, in Pennsylvania, the price sagged to 135½. On the rebound Pennsylvania, Reading, St. Paul, Atchison and the Hill stocks and Amalgamated Copper recovered 1 to 1½. Subsequent transactions were of an ordinary character, the market lacking the usual fever-ishness displayed in sympathy exciting periods. Business was quiet dull at 11 o'clock.

PRODUCE.

CHICAGO.

Chicago, Jan. 11.—The wheat market today opened easier because of reports of improved weather conditions in Argentina. These offset small receipts in the northwest and unfavorable weather for the crop movement. Fit traders were the chief sellers and the demand came almost entirely from commission houses. May opened unchanged to a shade higher at 45%,443½ to 434, and sold at 43%.

The oats pit was almost lifeless but prices were easier. May opened a shade to 4, lower at 364 to 364,636% and for a time held at the latter figure.

The provisions market was quiet an 3 weak, May pork opened 12½ lower at 16.50; lard was down 5 at 3.35, and ribs were 5 lower at 9.05. CHICAGO.

LIVERPOOL GRAIN. Liverpool, Jan. 11.—Close: Wheat-March, 68 4d; May 68 3%d; July 68.
The weather today in England was fine.

MANGLED REMAINS FOUND.

MANGLED REMAINS FOUND.

Los Angeles, Cal., Jan. 10.—The police were tonight startled by a report that portions of three bodies had been found in the Los Angeles river bottom, in a section used for the disposal of garbage. A woman residing near the Santa Fe crossing found the skulls of two adults, the bones of a child and portions of mutilated flesh. Detectives visited the scene, but it was not until the coroner's deputies arrived that the theory of foul play was abandoned through recognition of the fact that the fragments had come from a dissecting room. Coroner Lanterman denounced the persons responsible for placing the mangled remains in such a place and it is probable that an investigation will be made.
