THE BIG PIANO SALE STILL CONTINUES.

Thirty Happy Homes Last Week. Inquiry at the piano parlors of the Daynes Music company reveals the fact that thirty pianos were bought from them last week. This is a striking evidence of the great bargains they are offering. The Daynes company have been in business for upwards of thirty years and the knowledge gained in that time of pianoforte construction has enabled them to secure the best line of agencies to be found anywhere in the land. Such pianos as the world-famed Knabe and the Knabe and Fischer, and Franklin-Instruments that have been before the American public for over half a century; and to know about that they can be bought for about half price, makes it some-thing of a vital interest to the purchasing public.

Mr. Daynes advises us that he is now enabled to sell a brand new piano for \$125, a price never before heard of. This speaks well for their institution, and no doubt this fact accounts for the large volume of business being done by them.

This tremendous reduction in prices on pianos does not only apply to their line of pianos, but to every thing they carry, and any one in the market for anything in their line can now buy for prices never before heard of.

Caught by Emery. Salt Lake Sheriff Runs Soap Thief to Cover.

Sheriff Emery last night arrested Arthur E. Clark on the charge of burglary and landed him in the county jail. Monday night the grocery store of F. J. Lucas on west Second South street, just a block west of the county jail, was burglarized and among other goods stolen were two boxes of Diamond C soap. The soap was the cause of Clark's arrest. He was suspected of the crime and his room at the St. Omer rooming house was searched and the soap found. Upon his arrival at his room last night Clark walked right into Sheriff Emery's arms and was arrested and taken to jail.

A PORTER'S THEFT. Tapped a Till for \$61 and is Now in City Jail.

Riley's East Second South street saloon cash register is short \$61, and Elmer Jones, the porter, is apparently in for a long term in the state prison as a matter of immediate consequence. Jones took advantage of the absence of the bartender last Friday night, in another part of the building, to open the cash register, and hypocritically a bag containing \$61. He immediately was not. The bartender failed to suspect anything, and the loss was not discovered until the next morning, when a still man was testified for Jones. The porter dropped in yesterday afternoon, just for a friendly call and to see how the old place looked. The proprietor was so affable that Jones thought the coast was entirely clear, until presently the bartender appeared with Policeman Williams. Then Jones found the changes rung on him very quick. He was taken to the police station, where he confessed, and said he had spent all his money in the saloon. The porter was released in the morning. The proprietor of the saloon was not harmed in any way.

Congratulations. Mr. John H. Cullum, Editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturer of Chamberlain's Cough Remedy in the following: "Sixteen years ago when our first child was a baby he was subject to croup and he would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an over-dose. I can truly recommend it to you as a success of your remedy." For sale by all Druggists.

UTAH LAKE PROJECT. Prof. Swenson Makes Favorable Report on Contemplated Reservoir.

Prof. Swenson, the Utah Lake engineer, has notified the state engineer that his examinations of the lake during the past season showed that the lake presented exceptional advantages for reservoir purposes. He holds that the lake can be made to yield at least 1,000 second feet daily from May 1 to Oct. 1. The professor's letter will be shown Prof. Swallow, the head of the hydrographic bureau, and the next step will be to present the estimate of cost to the owners of the land adjoining the lake who will have to reimburse the government for the outlay, and until this is agreed upon, nothing can be done in carrying out the proposed improvement.

Mr. William S. Crane, of California, Md., suffered for years from rheumatism and lambo. He was finally advised to use Chamberlain's Pain Expeller, and he did it and it effected a complete cure. This liniment is for sale by all Druggists.

HARRY DUKE PAROLE.

Application Filed With Board of Pardons for Former Bank Cashier.

An application for parole has been filed with the state board of pardons by Harry T. Duke, the former Wells-Fargo bank cashier who is serving a term for embezzlement. There will also be eight other applications for pardon and parole considered at that meeting.

INSTANTLY KILLED.

Tragic Fate of Italian Quarryman Near Warm Springs.

Joseph Mengence, aged 48, an Italian laborer employed by Jones & Tate at their lime quarry north of Warm Springs, was instantly killed at 9:30 last evening while at his work, by a huge boulder rolling over him. The Italian was about to explode a blast under the rock when it suddenly loosened and passed over him before he could move, crushing his skull and otherwise mangle him. Night Foreman Samuel Johnson and a number of Mengence's fellow laborers were close at hand, but the whole thing was over before they could make any move. The corpse was removed to S. D. Evans' morgue, and Coroner Clark notified. The deceased leaves a wife and family in Italy.

SOCIAL AND PERSONAL.

The assembly hall given last night at Christensen's was voted the most delightful of any that have yet been given. The various committees had spared no effort in their arrangements for the affair, and every detail was carried out in perfect taste. The main hall was decorated with palms and plants, and various costly novelties were formed in glass, silver and drapes. The lights were shaded in pink, greatly aiding in the pretty effect. The alcove and refreshment room were also effectively decorated, and the affair altogether was a most complete success.
