TALK OF THE TOWN.

Thermometer stood at 87 deg. this afternoon.

A good number of arrivals at the hotels to-day.

Proved that the downfall of rain on Tuesday evening.

The Tabernacle Choir excursion was a great success.

Four deaths in the 19th Ward yesterday. All children.

Remember the 19th Ward excursion to Black Rock tomorrow.

The storm seems to have passed over, and sunline is in order again.

Four companies of the Sixth U. S. Infantry are expected to arrive here about Saturday.

Another cheap excursion from Salt Lake to San Francisco on the 17th of next month.

Two cases of drunkenness and vagrancy were fined \$5 each in the Police Court this morning.

Elder Samuel Rockwell, of Smithfield, was in town yesterday attending to sundry matters of business.

The rain yesterday will necessarily interfere to some extent with harvesting, but no great damage, it is anticipated, has been done to the crops.

Owing to the prevalence of diphtheria public meetings are being forbidden in Provo. McVade ("Hip Van Winkle") was refused the privilege of that town to play in the other night.

The race advertised to take place tomorrow in the S. L. D. P. have been postponed until the 14th inst. The postponement has been rendered necessary by the recent heavy rains.

The Ogden Herald reports that 46 head of cattle were killed and 140 head got away by the accident to a stock train on the eastern division on the U. P. on Friday evening. The delay was two hours. No person was hurt, however.

LOCAL AND OTHER MATTERS.

High Council.—The members of the High Council are requested to meet in the Council House to-morrow (Friday) evening at 7.30 o'clock. WM. W. TAYLOR, Clerk.

Who Care?—Notwithstanding the persistent assertions of the Salt Lake morning contemporaries, the Ogden shootists do not intend to go to Lake Shore to-morrow, but will hold their regular monthly medal match at the Driving Park.—Ogden Herald.

Who cares whether they go or stay at home?

Goose Creek.—From a correspondent we learn that the little settlement of Goose Creek, Idaho, had an enjoyable time on the 24th of July. This was the first 34th ever celebrated in Goose Creek, and it was carried out with great spirit. The health of the people generally, our correspondent says, is good. There had been a few cases of diphtheria, but so far it had only assumed a mild form.

The Building "Boom."—Work in this city is so plentiful, and mechanical labor so scarce, that several of the leading builders have had to refuse taking more contracts at present. The building "boom" in Salt Lake City this season is certainly unprecedented. Buildings are being erected in almost every part of the town. The scarcity of labor is attributable, in some degree, to the large number of men who are employed on the railroads.

Primary Associations.—Yesterday afternoon the 21st Ward Primary Association Mrs. Mary Davis President, gave a sort of entertainment to which the 20th Ward Primary and its President were invited, also Sisters E. R. Snow Smith, E. B. Wells and E. C. S. Clawson. The exercises were varied; music, recitations, readings, dialogues, etc., the children acquitted themselves creditably in all. After which the sisters gave some good instructions to the young folks.

Still Another Railroad.—The Territory of Utah in the near future will be traversed by a perfect network of railroads. Scarcely a day passes over but we hear more of this unprecedented railroad boom. The Laramie Times reports that at a mass meeting of the people of Fort Collins, held in the Opera House, Friday, representatives of the Greeley, Salt Lake & Pacific Railway proposed to guarantee that the tract of the road would be laid through the town, within seven weeks, if the people would guarantee the right of way through the corporate limits. The guarantees were exchanged and the road will be built.

An Accommodating Place.—The Police Court is one of the most accommodating places in the world to do business in. When a fellow happens to get into a scrape through which he is finally landed in the Police Court and gets fined an X or two, why, if that fellow has not got the cash to pay the fine the judge is always ready to give him time to work it out of the streets. An accommodation case occurred this morning. A man was brought before Judge Pyper on a charge of drunkenness and was fined \$5. He had no money and no friends to lend him any; hence he will be seen repairing the streets for the next few days until the fine is worked out. Now isn't that an accommodating?

Tabernacle Choir Excursion.

Yesterday morning the Tabernacle Choir and friends, numbering 323 persons, filling six cars, went to Ogden. On their arrival at the depot they were met by Elder's Herrick and Middleton, representing the Weber Stake, with carriages and other vehicles, prepared to take them to Farr's Grove, where lunching and other amusements were indulged in, the Ogden Choir taking part in the exercises. A heavy storm was hanging in the sky to the north, and rare fairs were entertained that it might shift round to the Grove, but fortunately only a slight drizzle fell. It had rained early in the morning and many persons were inclined to doubt the day being favorable, so that few ventured to the Grove. Those who did go had a good time. At about 1 o'clock the choir were gradually transferred to Lester Park, in Ogden City, where, under the spacious pavilion, ample arrangements had been made to accommodate both musicians and the public. An immense throng of people had assembled, filling up the building and the grounds near by. At about 3 p.m. commenced one of the best free musical treats ever given in Ogden. There were about 125 musicians and vocalists, nicely arranged. The opening piece by the orchestra, "Chevalier Portenous," was very fine. Mr. Clive's fine violin playing being much admired. Prayer was then offered by Elder D. M. Smith. Then followed a chorus by the Ogden Choir, under the direction of Prof. Foster. The harmony was sweet; the piece was given with great precision, and was warmly received. W. H. Foster, of the Tabernacle Choir, sang, "Bring back the old folks," with chorus by the choir; it is needless to say that it took well. Prof. Foster is one of our well-known vocalists. Next in order was the anthem, "Sing to the Lord in joyful strains," delivered with great power and effect. Miss Annie Mackay, of the Tabernacle Choir, sang the "Maid of Dundee," in her best style, and received the well merited plaudits of the audience. Then followed a glee, "March," by Messrs. Beesley, McIntyre, Foster, Owen, Morgan and Jones; this was also well received. Prof. J. J. Daynes then gave one of his extemporaneous organ solos, which completely captured the audience and received the first encore. The anthem, "Glory to God," one of Hagd's fine pieces, by the Tabernacle Choir, was given in a manner that showed what a well trained body of singers can do; nearly everybody said it was too short. Wm. D. Owen, of the Tabernacle Choir, next sang a difficult song, "Holy Fiar," which was an agreeable change in the programme. The anthem, "Daughter of Zion," by the combined choir, under the direction of Prof. Beesley, was one of the rare treats in the musical line, both musicians and vocalists doing their best. It was performed in a masterly manner and received with enthusiasm. Miss Olsen, of the Tabernacle Choir, sang a song in the Norwegian language and received a vocal encore; she is undoubtedly one of our best soloists. She has a fine voice, an excellent method, is petite in figure, and bids fair to be a great favorite. She has had careful training, and it reflects much credit upon the citizens of Ogden that her effort was so well received. By the request of Prof. Beesley, C. E. Savage thanked the citizens of Ogden for their kind reception, and hoped that it would not be the last time that the two choirs sang in concert. Mayor Herrick offered a few remarks, thanking the choir from Salt Lake for the honor of their visit. The concert then closed by the singing of "America" as a glee and chorus by the combined choir. Prayer was then offered by Elder J. E. Taylor, of Salt Lake, and the happy throng soon dispersed. Quite a heavy shower of rain fell just as the party had got quietly seated in the cars, but the excursionists were all safe, and fortunately for them they did not get the shower we did in Salt Lake, or we should not have been able to chronicle these items. The whole movement was a success. Let us hope that the growing interest in the cultivation of fine music may not abate, but may grow until our assemblies resound with songs of praise and melody to the Most High.

French and German Languages.

We had a pleasant call this morning from Mous. Alfred Andre, a native of Paris, who informs us that on the opening of the Deseret University he will teach French and German classes, in connection with that institution. M. Andre is a young gentleman well and favorably known in this community as an exceedingly competent teacher of the French and German languages, and in addition to this he has considerable ability in the instruction of music. He bears most excellent testimonials from many prominent citizens as to his qualifications as a teacher of French, German and music; Dr. John R. Park, Dr. Anderson, and many others speaking very highly of his abilities. We trust M. Andre will have large classes in each of the above studies.

Haverley's Minstrel.

This celebrated troupe of Minstrels will appear in the Salt Lake Theatre on Monday evening the 22d inst. Although the excellency of this company is well known to the Salt Lake public, yet we give the following from the Boston Gazette: "This troupe is decidedly the best we have had here in years. Every thing in it was of the very best of its kind, and the performances were as spirited as they were excellent. The music throughout was uncommonly good, and was interspersed with something more of skill and taste than is usual in entertainments of this description. Taking it altogether, he must have been an exceeding greater variety, greater amusement and greater merit in negro minstrelsy than this company provided."

For the South—President Will.

Woodruff and President George Teasdale, started for Nephi on the two o'clock train this afternoon. They will hold meeting to-night in Nephi and start to-morrow morning for Sanpete to hold conference at Mant. Apple Egnus Snow is expected to start to-morrow to attend the same conference.

Soda Springs.—That Soda Springs

in the near future, will be a settlement of considerable importance there can be no manner of doubt. Its attractions as a place of summer resort are every year becoming more popular. Encountering the Hon. W. H. Hooper on the street this morning, a representative of the News began interrogating him as to how he found things progressing on his recent visit to "the world's sanitarium." The hon. gentleman stated that he left Soda last Sunday. During his sojourn there for eight or ten days the weather had been very warm, the thermometer for a day or two reaching from 85° to 90°. The few inhabitants of Soda were all very busy haying, the cutting, lumbering, etc. The railroads had not yet definitely settled on the route the line would take. It might pass through the town of Soda, but probably would follow the river through the Morriste settlement, about a mile south of the newly settled district. The road is not expected to reach Soda before July of next year, and on the whole the hon. gentleman thought this favorable, as it would give the people a much longer time to get out material and otherwise turn their labor to good advantage. There has been a proposition made to the Union Pacific Railroad for an interest in Soda, which probably will be accepted. If so, doubtless there will be some means spent next season in the way of accommodation for the public, at least to a limited extent, and as time wears on, and the needs of the public require it, more extensive accommodation will be provided. Hooper and Eldredge have just completed a canal at Soda about two and a half miles long, about five feet wide at bottom, seven feet wide at top, and of suitable depth. Additional canals will be made this season, thus putting water within the reach of the requirements of three or four sections of land. Soda also demands the necessity of the erection of a sawmill. The mill was ordered from the east some months ago, is now on the way under the charge of Mr. Holman, and will reach Oneda to-day, and will be in place the latter part of this month, making lumber. There are now some 3000 feet of logs cut, cabins built, and the necessary preparations made for active work. Soda has no lumber at present to build with. Her wants in that line, the railroad—bridging timber, etc.—will doubtless give the mill all the work she can do for the next year or two. The Hon. W. H. Hooper will return to Soda probably next week with his family, where they will remain until about the 1st of October.

SPECIAL BUSINESS NOTICES.

Porter Iron Roofing is the best and cheapest. Apply or address: HOWARD SEBAST, Salt Lake and Ogden. d2w

AT FARMER'S ONE PRICE STORE is the place to buy your Men's and Boy's Clothing at greatly reduced prices.
