

## UNIVERSITY OF UTAH.

Salt Lake City—President Joseph P. Smith and Anthony H. Lund, of the First Presidency of the "Mormon" Church, visited the university on Wednesday. They were shown through the buildings by President Kingsbury. They spent most of their time in the mechanical, electrical, chemical, physical and metallurgical laboratories. President Kingsbury showed them the plans for the future buildings that are to be erected as the university grows from year to year. President Lund is one of the regents of the university.

At a meeting of the board of regents last week, W. W. Riter was elected president to succeed the late James Sharp. Mr. Riter has been a member of the board for a great many years.

The new metallurgy building is now completed. Its laboratories are well equipped and are as good as any in the west.

Next Friday Prof. Stewart will address the public school graduates of Logan City.

Mrs. Ella F. Neville, chairman of the household economy committee of the Women's Federation of clubs for the United States, wrote to the university asking for a collection of pictures, illustrating domestic art as taught in the normal school. These pictures are on exhibition at St. Louis where the biennial meetings of the federation are being held.

The Rev. James B. Eadie, dean of St. Mark's cathedral, conducted the chapel exercises on Wednesday. His theme was "What are we here for?" The musical feature of the program was a tenor solo by Hamilton Park. At the close of the hour Prof. Allen took a photograph of the assembly. The picture was sent with the university exhibit to the world's fair.

The university exhibit to the world's fair was shipped on Wednesday.

The Utah commissioners for the world's fair have appointed Dr. R. H. Bradford of the State School of Mines to take charge of the Utah mineral exhibit at the world's fair.

Mr. L. W. Nielson '91, was a visitor on Wednesday. Mr. Nielson left this morning for Germany where he will do missionary work for the "Mormon" Church.

On Thursday Mrs. Byron Cummings and Mrs. Brown visited the university.

The university will close on Friday, May 27. The week following will be devoted to the commencement exercises.

The large tract of ground west of the buildings has been plowed up and planted with oats and alfalfa. The regents are now receiving bids for the making of roads and planting of lawns and flower beds on the campus. This work will all be done during the summer.

The college seniors will present a stone seat to the university on their class day. The seat will be erected on the campus north of the physical building.

This afternoon the big state track meet is taking place on the U. of U. campus. The university entertained the B. Y. U. and A. C. U. at 12 o'clock in the Museum building. This evening the schools all go to Saltair where a grand ball will be given by the U. of U.

Dr. John A. Whitson and Prof. Louis A. Merrill of the A. C. U. visited the university on Monday. Mr. Clark of the Salt Lake high school visited the school of mines on Wednesday.

Arthur Wellings, N. '01, who has just returned from a mission to the Eastern states was a visitor yesterday.

## SALT LAKE CITY SCHOOLS.

The educational exhibit left for its destination, St. Louis, last Wednesday. This consignment will, in each department of the display, show a graduation from the beginners up to and including the high school classes. The task of culling the work of the combined schools was entrusted to careful hands—those whose experience would produce a commendable choice and arrangement of material. Each picture underwent careful examination as to its having relation and unity with all others of the series, and as to its being representative of some particular class and style of work. As a result, the exhibit from the Salt Lake schools will flash no prodigies on the public, but will certainly be a paragon of system, neatness and skill of execution.

The north window of the Keight-O'Brien store has been chosen by the manual training department a site for its local exhibit. All next week, specimens of this branch of the curriculum will be displayed.

Principal Doxey has suffered some indisposition during the past week.

The High School Athletic association held its last meeting of the year Thursday afternoon. New officers were elected for the ensuing year.

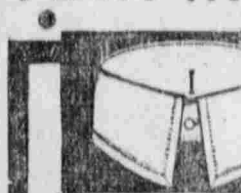

As per the forecast in the "News" the program in the Theater will be as follows: Junior class on next Thursday evening; eighth grade graduates, Friday evening; High school graduates, Saturday evening.

Mrs. Stephenson, one of the patrons of the Fremont, entertained two of the teachers at lunch last Tuesday.

G. A. R. meetings were held at all the buildings last Friday. At the High school, the program was enhanced by a violin solo by Roy Williams of the class of '03.

A number of last year's graduates of the High school are visiting their Alma Mater this week. Most of the boys have been spending the year at Berkeley.

## TURPIN

CLUETT, PEABODY & CO.

MAKERS OF CLUETT AND MONARCH SHIRTS

where Ogden contested the prize so stubbornly and skillfully, was the cause of the most. The program was presented to the school and received with cheers and school-yells.

The committee on teachers meets next week to consider the appointments of supervisors and principals.

Miss Angeline Holbrook, of the local corps, has accepted a position in the English department of the B. Y. U. at Provo for next year.

The Jordan school is rejoicing over its success in starting a school library. Teachers and pupils have contributed liberally and the result is a valuable collection of encyclopedias, works on history, travel, natural sciences, and geography, together with books of anecdotes and fables as well as patriotic speeches, romances and adventures.

Schools close next Friday.

## L. S. D. UNIVERSITY.

Field day will be celebrated on Saturday, May 28, by excursions to Saltair.

Commencement exercises will be held next Saturday morning, May 28, at half past 10 in Barratt hall.

The Juniors expect to hold their class meeting on Thursday, May 26, at 8 o'clock p. m. in Barratt hall.

The graduating class will give a public meeting and entertainment on Friday evening, May 27, at 8 o'clock in Barratt hall.

Thos. C. Hair has taken a position with mining company in Bingham and Charles Mitchener has enlisted his services in the office of A. Ritchie.

Dr. James E. Talmage will deliver the address to the graduates on commencement day. Miss Pearl Mitchell is the class speaker for the occasion. President Lund will award the certificates to the four-year graduates, who are 17 in number.

President Gardner of the Nebo state spoke to the students in devotional one morning this week, and gave some good counsel in choice, well chosen words of encouragement and congratulation.

Musical events of the week were the singing of Miss Tillie Houtz, who rendered in a sweet voice the sacred solo "Face to Face," and the sentimental song, "Forgotten," also the guitar playing of a former student, Walter Smith, from the islands of the South seas. His playing was delightful. He rendered "Pezize's Nocturne" by Buckley, the "Hyacinth Waltz" by Carpenter, and the "Storm Waltz," an adaptation of the melody of "A Life on the Ocean Wave."

After considerable investigation it has finally been decided to change the date of the graduation exercises from the first week in June to the last week in May. The change was made so that the exercises would not conflict with the M. I. A. programs, the after-graduation commencement, and the exercises of decoration day, all of which will occur during the first week in June.

## BRIGHAM YOUNG UNIVERSITY.

Provo.—Prof. Osmond, lectured at Spanish Fork last Sunday night.

The Sorosis club of Provo recently donated \$20 toward fitting up the new quarters of the kindergarten, stipulating that this amount should be drawn by them in the payment of tuition for poor children.

Prof. Guy C. Wilson of the Juarez State academy, Mexico, is on his way to attend the commencement exercises of the university. He will be accompanied by Miss Fern Cluff, daughter of ex-President Cluff.

The Mandolin and Guitar club rendered a most interesting program in College hall Thursday night. There are over 30 members in this organization. One unusual feature was a solo of eight guitars.

The library closed for the semester yesterday at 4 o'clock. Librarian Hope declares that it has been an unusually prosperous year, not only as regards the accretion of books, but also as regards the number that have been read by students.

The advanced class in elocution, under Mr. Walter C. U., gave a recital last Tuesday afternoon of the "Merchant of Venice." The second class met Thursday afternoon and rendered "Julius Caesar." The parts were read without reference to text. The teacher was much pleased with the general efficiency manifested.

The athletic events on next Wednesday afternoon promise to be unique and interesting. The program is arranged with handicaps so as to induce a large number of students and teachers to enter the contests. Thirty prizes, offered by the merchants of Provo, are now in evidence in the shop windows. Admission will be free for all.

During the last week President Brigham attended graduating exercises at Pleasant Grove, American Fork, Spanish Fork, and Springville. It goes without saying that he was everywhere received with enthusiasm. The nature of his theme may be gathered from a new class yell which he introduced, and which has instantly grown popular throughout the county. It is this: "Away, away, for higher knowledge! On to the high school, on to the college!"

A change which promises to be a rather well-chosen precedent took place this year, when the faculty gave a reception and party to all the graduating students. The function was held in the gymnasium hall last Monday night. During previous years one or other of the lower classes have banqueted one or other of the graduating classes, but no fixed rule has been established. Hereafter, no doubt, all graduates will meet for a reunion previous to graduation under the auspices of the faculty.

Mr. Oscar Kirkham is down from Rexburg, where he has been engaged as teacher of music in the Ricks academy. He reports that all his time is taken, and if he had as much time again he could not fill all the demands made upon him. A very important event, however, enables him to spend a week in this part of Zion. He is to be married next Wednesday in the Salt Lake Temple. Cards announcing the fact are already out. The fair bride is Miss Ida Murdock of Heber City.

The thesis of the graduating class are being read to a committee of the faculty. Mr. Clarence Jarvis discussed "Methods of United States Land Survey." Mr. Theodore Johnson, who has been giving special attention to architecture, discussed "Roof Trusses," accompanying his thesis with drawings. Mr. Geo. Lacey's thesis was devoted to a description of his recent patent of an automatic gate. These compositions differ from previous efforts in the fact that they are ultra technical. Other theses

are being read as these notes are sent in.

Programs of commencement exercises are as follows: Baccalaureate sermon by President Smith tomorrow night. Advancement of classes Monday morning. High school and Normal school graduating exercises Monday evening. Preparatory school exercises Tuesday morning. Commercial school graduating exercises Tuesday afternoon. College graduating exercises Tuesday night. Alumni reunion Wednesday morning. Alumni banquet and hand-cup ball day, Wednesday afternoon. Alumni ball Wednesday evening. Commencement exercises Thursday morning and commencement social Thursday evening.

When the "Myster Girls" a few days ago sent out a most little card declaring that the kindergarten department would be "at home" in the gymnasium Wednesday night, they excited curiosity both from what they left unsaid, and from the peculiar place they chose for their graduating exercises. The program opened with a triumphal march, in which eight kindergarten tots dressed as cherubim lead the procession of "sweet girl graduates." All in white, through pretty figures on the gymnasium floor, and ended by encircling a may pole with streamers. Around this the baby angels sat down while the girls executed the May pole dance. Next followed the usual graduation program. Sentiments by members of the faculty were read. Songs by Miss Hindley and Miss Taylor were effectively rendered. Senator Smoot responded to an invitation with a well delivered impromptu speech. The large hall was decorated in living green, and an arch spelling "Welcome" by means of electric lights, was directly beneath the band stand. Mrs. Dusenberry left yesterday for Germany.

## BRIGHAM YOUNG COLLEGE.

Logan, May 20.—The college baseball team went to Wellsville and played a game with the team of that city last Saturday. Our boys suffered a slight defeat.

The college baseball team played on the campus with the A. C. team on Monday. Our boys were victorious by a score of 13 to 3.

The third year students entertained the graduates last Friday night. The result according to the fourth years was that the entertainment was the very finest given this year.

The editing staff of the Alumni Bulletin has all the material in form for the year and the prospects are that the paper will soon be out. According to the staff, the paper will be the finest of the kind ever printed in the west.

Superintendent Thompson of Cache county schools is conducting county examinations in the college this week.

Last Friday the students all turned out with shovel, hoe, rake, etc., and converted the ground recently purchased by the college into a very much more pleasing sight. The students were treated to lunch and lemonade, and in the afternoon they were given a dancing matinee.

Final examinations will begin about the middle of next week.

## WEBER STAKE ACADEMY.

Ogden.—The material for the exhibit at St. Louis was taken to Salt Lake by Principal McKay last Tuesday evening.

The academy received a very kind expression in relation to the exhibit at the Carnegie library last Saturday. Some people are beginning to realize for the first time that the academy is a high grade school.

Prof. Moeck, ex-principal of the academy, and wife visited the school Tuesday afternoon. Brother Moeck addressed the school at devotional and afterwards spoke to the Book of Mormon class. His remarks were very much appreciated each time.

Last Sunday the principal spoke to the people of Huntsville. Professors Terry to Liberty, Thomas E. McKay to East Huntsville, Sylvester D. Bradford to Warren, and W. M. McKendrick to Plain City.

Last Monday afternoon members of the botany class made an excursion to Waterfall canyon, where they obtained many flowers for use in their classroom.

Marion Peinap, one of the rhetoric students, read a very carefully prepared paper before the school at devotional Tuesday morning. The subject, "To Imitate is Human; To Create Divine," was very ably handled, and we commend a careful perusal of it to every student.

The committee on athletics has under way an excursion to Salt Lake City for the purpose of seeing the Maude Adams production next Wednesday evening. Those who anticipate going will do well to confer with Professors Thomas McKay, Nelson or McKendrick. The fare for the round trip to Salt Lake, Trains leave at 6:25 and return after the theater.

Commencement week is close at hand; preparations for the several exercises are under way. The program committee, appointed from the faculty, held a meeting Thursday afternoon, one by one, why he should not be ready for the mission immediately after school. It is the intention of Professor Nelson to leave for Scandinavia during the latter part of June.

Letters from box "B" have made frequent visits to the school this year, but heretofore they have concerned the missionary students in the Ricks academy. The latest letter from that source found its way to the inside pocket of Professor Nelson, where its contents remained a secret for some time until Brother Nelson disposed of every reason, one by one, why he should not be ready for the mission immediately after school. It is the intention of Professor Nelson to leave for Scandinavia during the latter part of June.

Professor Bradford expects to domicile in Salt Lake during the summer, where he will pursue historical and pedagogical subjects.

## Will He Decline the Vice Presidency

Something of a Man Whose Life Has Been Almost as Strenuous as That of Our Rough Rider President—His Thrilling Escapes.

## SENATOR FAIRBANKS OF INDIANA.

From a Photograph Secured for the Deseret News.

Senator Reed Smoot, upon his return from Washington, stated in an interview with the Deseret News that Senator Charles Warren Fairbanks would in all probability be the running mate of President Roosevelt. At the time, it looked that way, but political developments leave this nomination in doubt. It is understood that Senator Fairbanks will positively decline to have his name used in the national convention.

The life of Fairbanks has been a stirring one—almost equal to that of Roosevelt. He was born on his father's expansive farm in Union county, O., May 11, 1852, when that district was rough and wild. His boyhood life was interesting. He managed to burn down his father's farmhouse when but a baby, and narrowly escaped perishing in the flames. He became a splendid rifle shot as a boy and went into the district school at an early age as possible, and finally graduated from the Ohio Wesleyan University in 1872. Two years later he was admitted to the bar of the supreme court of Ohio, and then removed to Indianapolis, where he has ever since resided.

Senator Fairbanks never held public office until he was sent to the senate, which occurred in 1897, when he was the choice of the Republican caucus of his district and received the support of the entire Republican representation. He was the successor of Senator Voorhees.

Since his election to the senate, Senator Fairbanks has stood high in the councils of his party. He was chairman of the United States high commissioners, who met Great Britain's representatives for the adjustment of Canadian questions in 1898. He was temporary chairman of the Republican convention at Philadelphia in 1900, and was chairman of the committee on resolutions. In 1903 he was re-elected to the senate, and his term of office will expire on March 3, 1909.

Utah Democrats are just now indulging in considerable speculation as to who will be the nominee of the Democratic national convention. There is a pronounced feeling here that it will neither be Parker nor Hearst, but beyond that the political witscare do not allow themselves to go. Among those likely to be members of the Utah delegation and who will go to St. Louis instructed, are ex-Senators Rawlins and Cannon, Judge W. H. King, Samuel Newhouse, John Dern, Simon Bamberger, S. R. Thurman, Judge O. W. Powers, Jesse Knight, Mayor Roylance of Provo, Fred J. Kiesel and Moses Thatcher.

at 6:30, after which the evening was spent in cards and conversation.

The Cosgrove Concert company gave an excellent entertainment at the college last Monday evening. The orchestra is certainly of a high grade; their selection from "Faust" was remarkably well executed. Miss Torgerson, the violinist, is also worthy of favorable mention. She favored the students with two selections at chapel the following morning.

Many inquiries are coming to the college concerning the summer school work to be given in domestic science, mechanic arts and elementary agriculture. The teachers of the state are beginning to appreciate the special facilities of this institution to do this work.

Professor Peterson accompanied his geology class up Green canyon one afternoon this week to study stratification.

The advanced students in the art department are now doing outdoor sketching and landscape work in water colors, under the direction of Mr. Stutterd.

May 12-18 was a memorable period in the history of the military department of the college, this being the time of the first encampment. Nearly 100 cadets were in the ranks in the well conducted march of eight miles up the canyon to the ground selected for camp. There was a harassing party to add to the drill. Several hours were devoted to drill each day while in camp; time was also devoted to competitive firing between the companies, a sham battle and various other features of army life. The universal opinion is that much was learned of military tactics by all who were out. Captain Syer was ably assisted by several men detailed from Fort Douglas, and also by his own efficient officers in the battalion. Camp Elisha will always remain as a pleasant memory in the minds of the cadets of 1903-4.

Most folk who eat "FORCE" think it tastes the best of all breakfast foods. They say, "It goes right to the spot."

That's because Nature is on the spot. She knows at the first taste what she can make the best blood, and bone, and brain out of. Nature says, "Give me 'FORCE'."

Sunny Jim

## He Who Hesitates

It is sometimes the gainer. A poor investment may ruin your future. We want you to thoroughly look into our proposition before placing your money in our hands. Then we'll both feel better.

Ours is a mutual savings institution, investing its funds in real estate, mortgages, chiefly on homes of the well-to-do, industrious, middle classes. We have a million dollars of securities for less than a half-million of liabilities; a guarantee fund of \$100,000, and a record of over eleven years of successful growth.

We are paying six per cent on savings deposits, compound interest.
