

THE EVENING NEWS. BY TELEGRAPH.

PUBLISHED DAILY, SATURDAY AND SUNDAY AT
FOUR O'CLOCK.

TO-DAY'S DISPATCHES.

CONGRESSIONAL.

HIGH.

WASHINGTON, 25.—To-day's session having been for debate only, as in committee of the whole, the Speaker appointed Mayham chairman for the day.

Danforth made a speech in favor of the remonetization of silver and report of the transportation bill. He said he would vote for Mattheus' silver resolution and for any bill which would propose a reduction of tariff. He would also tend his aid in repeasing the Bankhead law.

EASTERN.

The House has voted to have a municipal convention at Salt Lake City on the second Monday of February.

The convention will consist of thirty-one delegates, also several municipal wards, and the city council.

First municipal ward, consisting of the 1st, 2d, 3d, 4th, 5th, and 6th bishop's wards.

Second municipal ward, 4th, 5th, 6th, 7th, 8th, 9th, and 10th bishop's wards.

Third municipal ward, 11th, 12th, and 13th bishop's wards.

Fourth municipal ward, 12th, 13th, and 14th bishop's wards.

Total.

Primary meetings for delegates to the municipal convention will be held in the municipal wards of Salt Lake City, at the usual places of election, on Monday, 28th, 1878, commencing at 7 p.m.

Said delegates should be entitled to receive their chairman and the secretary of the meeting and the secretary of the apportioning them.

It is hoped that the voter's ticket will attract many meetings and take electing the delegates to the convention, that the several wards may be fully represented.

By order of the people's committee for Salt Lake City.

JOHN SHARP, Chairman.

THOM. MCKEEAN, Secretary.

EDITORIAL NOTE.

California has had another splendid rain every drop of which is worth money to the farmer. It extended throughout the state and will show itself in the summer crop.

The late Samuel Bowles was a miserably poor writer. Wall's minute before you contrasted. He wrote as bad as Gresham but was considered second only to him as a journalist.

The British Admiral came up to the Dardanelles smiling and firing salutes. But a telegram from London sent him back to England with empty guns, deep charges, and a disappointed crew. Read the telegrams.

THE TELEPHONE IN U.S.

The invention of the telephone is one of the marvels of this wonderful age. Yet, like most of the great discoveries which have startled the world, it is exceedingly simple. In the Hand Telephone, a steel bar, a permanent magnet, is so arranged as to exert a constantly alternating force on a set of iron discs at one end and not attached to the magnet, and near the mouth-piece. A fine coil of copper wire, insulated by a silk covering, is so placed that when the disc is disturbed by external force a current is induced in the wire, exactly corresponding vibrations of the disc, and the wires running out either the magnet, but not those secured at the other end, binding screws. The wires are closed in a mahogany case and attached to a phone at a distant point, and to the binding screw, the communication is established.

A sound entering the piece of one telephone is produced in the other, the sound induced in the first distinctly attracting the magnet, second, and causing peculiar vibrations in its disc, and consequently the same sound, which disturbed the first instrument.

The box telephone is constructed on the same principle, but the instrument is fastened to the wall and has a kind of speaking tube attached. Call bells are connected, when desired, to all the instruments.

We are happy to announce that Salt Lake is to have the telephone. A. M. Munro, Esq., who is connected with the Deseret Telegraph are well known in the Territory, has been appointed agent for the Bell Telephone Company in this Territory and will have two of the novel instruments in a few days. Besides furnishing amusement for families and audiences, the telephone is also used to business purposes, domestic uses and particularly to communicate with mines. The various parts in a quartette can be easily transmitted, and conversely it can be carried on with persons in distant parts or down in the recesses of underground chambers in the mines.

The telephone will come into general use if it can be obtained at anything like a reasonable figure. No voltaic batteries are required, and the common telephone wire can be used to make connections. At present the instruments are not sold, but leased by the year, and are kept in repair by the company. We refer those who desire information to Mr. Munro, who will soon be able to furnish practical demonstration of the capabilities of a contrivance which has already made the name of its inventor, Alex. Graham Bell, throughout the civilized world, and will become one of the most popular appliances and aids to the spread of civilization of the nineteenth century.

the conditions of peace, in the following particulars:—Russia, and Austria are to be held in security for war, humanity, and Batoum is to be ceded to Russia. The great powers are to arrange in regard to the opening of the Bosphorus and Dardanelles, and submit their arrangements to the Czar. The other points are almost identical with those published by the Times this morning. Every thing here is now quiet, and the public mind is tranquillized with the belief that peace is at hand.

Rameror Wilkinson, of Derby, Resignation.

It is reported that Earl Derby's resignation, which was tendered in consequence of the orders to the fleet to proceed to the Dardanelles, has since been withdrawn. It is also thought that government will not deem it necessary to ask for a supplementary estimate, and that a statement to that effect on Monday will suffice to put the seal of the conclusion of the armistice. If the vote is passed in in the face of Turkey's acceptance of the Basman conditions, it will be opposed by the Liberals by all the means in their power.

RESCUE.

Consols 95 9-16 10-10 bonds, 109; Erie, 91.

The British Fleet Gallipoli.

A dispatch from Gallipoli, dated January 25 says the guns are firing a heavy salute at the Dardanelles. The English fleet is coming.

Late.—Admiral Hornby took the steamer up to the mouth of the Dardanelles, where, at the telegraph station, he received the countermand, and returned to the coast.

The Fall Peace Conditions.

The Daily News publishes what is believed to be substantially the terms of peace as follows:

Autonomy of Bulgaria similar to that of Lebanon. Turkey to nominate a Christian Governor of the province for a term of years, whose appointment must be sanctioned by the Great Powers. Bulgaria to acquire some territory south of the Balkans.

Bosnia and Herzegovina to be assured of protection and reforms, and have a Christian Governor.

Security is to be given for the better government of the other Turkish provinces.

The independence of Roumania.

Roumania to be independent without compensation.

Montenegro to acquire Antivari, Nicopolis, and Spuz, and a portion of the shore of Lake Scutari.

The cession of part of Bessarabia, and of Batoevo, Kars, and Erzurum, with adjacent territory, to Russia. Independence to Georgia, for the express of the winter, to be granted by the Great Powers.

The question of the Dardanelles to be reserved for consideration of the European powers.

Autria and Germany Want Some Thing.

Silver bars, 117; greenbacks, 115; gold; silver coin 17; 12 discount; Erie, 91; New York, 105; Government Bonds, Stamps, etc.

Western Union, 77; Quicksilver, 13; Pacific, 21; Marquette, 11; Wells, Fargo, 32; New York Central, 105; Erie, 9; Panama, 12; Union Pacific, 68; Union Pacific bonds 104; Central 100.

A cautious position—a citizen would be wise to take.

The Times' Washington special says Senator Jones, of Nevada, is confident that the blind silver bill will pass the Senate, and has made an estimate, placing the vote at 43 in favor and 22 against. The members of the Pacific Coast senators—Bates, Jones, Gilbert and Mitchell in favor, and Nargent against.

New York News.

Silvers bars, 117; greenbacks, 115; gold; silver coin 17; 12 discount; Erie, 91; New York, 105; Government Bonds, Stamps, etc.

The moral influence emanating from this school, is already being felt in Utah County, and the settlement south, as it is largely patronized from abroad. Prof. Masser, through the instructions of President Young, has made theology the chief study of the school, and taught in this institution. The good results arising from such a course, plainly prove that science and religion can be successfully taught in our public schools, and that, too, without jar or discord.

Germany, also, according to a special dispatch from Berlin, has within a few days, warned Russia a fresh that the terms of peace must be submitted to the powers for approval.

Germany, also, according to a special dispatch from Berlin, has within a few days, warned Russia a fresh that the terms of peace must be submitted to the powers for approval.
