SALT LAKE CITY, September 17, 1872.
Buying at $1.11 selling at $1.12½

LOCAL AND OTHER MATTERS.

THERMOMETER 71° in the shade at one o'clock to-day.

THEATRE.—This evening there is another humorous programme, comprising the favorite and very laughter-provoking comedy of "Family Jars," in which Miss Walters will play "Liddy Larrigan," Mr. Margetts "Delph," and Mr. Bowring "Diggory," and the grand spectacular farce of "The Illustrious Stranger," in which Messrs Margetts, Marden, Maiben, Thorup and Paul, and Misses Spencer and Simons will appear.

INDIAN MATTERS.—We do not wish to detract in the least from the merit of the recent official proceedings in Sanpete with the Indians, but we should be false to the facts, according to the information which we have, were we to say that the Indian incursions in that region have ceased. The troops went down there, talks were had and an agreement was come to with most of the Indians for them to go back to their reservations and keep the peace. Yet depredations have been committed since the withdrawal of the troops, which shows that the situation is not so satisfactory as is desirable. By the foolish proclamation of the Governor the settlers are forbidden from assembling armed for their own defence from the savages, and are consequently to a provoking degree at their mercy, which is not of the tender kind. One of the proper remedies for this annoying condition of things would be what we have suggested before—the permanent and judicious disposition of the military disposable for that purpose between the settlers and the Indian reservations. It is not to be supposed that the military, whose profession and business are the protection of the civilians in an Indian country, have any desire to be posted in or close to cities and settlements, and we respectfully invite the attention of those who have the disposition of the military at their command to the self evident fact that in order to more thoroughly protect the settlers from the Indians the military should be posted at a distance from, instead of in or near, settlements and cities, so that Indian raids could be checked or punished more readily and effectively.

BEE MEETING.—*There will be an important Bee meeting preceding the State Fair. The members of the Deseret Bee Association* are requested to meet at the *Historian's Office, at 10 a.m., on Saturday, Sept. 28th.* All interested in this important culture are invited. A full house is desired. By order of the board,
R. V. MORRIS, Secretary.

LOST.—Last evening, between the 13th and 19th Wards, a small white bundle. Will the finder please leave it at this office and oblige the owner?

THE EMIGRANTS. — The company of emigrants which left Liverpool Sep. 4th, arrived between 9 and 10 o'clock last night. They were met between Ogden and this City by President D. H. Wells and other brethren, and bishop Hunter and Councilors were at the depot when they arrived.

Elder James A. Leishman, who came in with the company, called this morning and gave us the following information concerning the journey, &c:

When the company left Liverpool it numbered 592, 256 being Danes and the balance, 336, was composed of English, Scotch and Welsh. The first nine days of the sea voyage were very boisterous, but the remaining part was calm and pleasant. There was no sickness among the people, save that generally felt by inexperienced sea voyageurs. The company was presided over by Elder George W. Wilkins, assisted by Elder Leishman. The first named was sick during the greater part of the journey. The Scandinavians were in charge of returning missionaries—Eiders Anderson, Madsen and Thomasen.

The company left New York a week ago last Wednesday. Near Morrison Station, Ills., a point on the Great Western Railroad, a five year old girl, named Jane Cameron, from Paisley, Scotland, left her mother's lap to get some water, and, unperceived by anybody, fell between the railroad cars. She was not missed till the train had got to near Clinton, Iowa, twenty miles further on. On arriving at the latter place a telegram was sent to Morrison, to which an answer was received, stating that the girl was at the latter place, and that one of her arms had been cut off near the shoulder. The mother of the unfortunate child had several other small children with her, and it was deemed advisable for her to continue on the journey and take care of them, and to send some competent person to Morrison to take charge of the girl till she was so far recovered as to be brought along to this city. Brother Rollo, from Dundee, went back for that purpose, and last accounts from him stated that the symptoms of the patient were favorable. Brother Leishman speaks highly of the courtesy of the railroad officials at Clinton, Iowa, and made special mention of J. B. Watkins, superintendent of that division of the Great Western line.

At a point between Bushnell and Pine Bluffs stations, Wy. Ter., Phœbe Orgill, aged seventeen, fell between the cars, the after half of the train passing over her. Strange to say, her injuries were but slight, and she was forwarded by regular train and arrived at Ogden about the same time as the company.

With the exception of those accidents the company had a general good time overland all the way from New York to Salt Lake.

Elder Leishman left Utah for England a year ago last May, and on his arrival in that country was appointed to labor in the Newcastle-on-Tyne Conference, succeeding Elder John I. Hart in the presidency of that field. He remained there a little over a year, when he was appointed to preside over the Glasgow Conference, continuing in that position till he left Liverpool. Although his health was not good a portion of the time, he enjoyed himself much while in Britain, notwithstanding he is glad to be "home once more."

STAGE ROBBERY NEAR AUSTIN.—The following was among our last night's dispatches:

AUSTIN, Nevada, Sept. 26.—The stage which left at six o'clock last evening, for Battle Mountain, was stopped by three men, seven miles out of town. There were no passengers on board, and the rascals had but little trouble in going through the coach. They took what coin there was in the express box, about ninety dollars, and six bars of very fine bullion worth about $10,000. The letters were not disturbed. After securing all the valuables, the driver was allowed to proceed. The fellows had four animals with them, and succeeded in tracking them as far as Faulkner's old mill, two and a half miles from Austin, at which point, at last accounts, all traces of them were lost.

SALT LAKE CITY, Sep. 27th.

Editor Deseret News:

A local article, headed "A Sneak" appeared in your issue of the 12th instant, and in which you give a personal description of a man who visited a number of houses in this city, reporting himself to be a vender of medicine. It appears, from the article, that some of the parties whose houses were thus visited suspected that the individual you described was a disreputable character, and was around for the purpose of reconnoitering with burglarious and thieving intentions. By the description given, as well as other circumstances, I am compelled to think that I am the person alluded to, and I wish to say, through your columns, that although my manner may have appeared eccentric in the eyes of some people, yet I am not a disreputable character, and have no desire to be dishonest or to create any disagreeable apprehensions in the minds of any persons. I do not wish my friends to receive any wrong impressions regarding my character by being described and alluded to as a suspected individual in the public journals.

By inserting the above in your paper, you will oblige. Yours, F. A.

LUSCIOUS.—Brother Samuel Varney, of the 15th Ward, was around among the hands of the office this morning with a basket loaded with large, juicy, fine flavored, white peaches, of the kind called Strawberry. He raised them from the seed, which he planted about six years ago.

EXPORTATION.—We are informed that 500 car-loads of wheat were shipped from this Territory to the east within a short period lately.

AN INVENTION.—We understand Mr. Hadyn L. Smith, of this city, has applied for a patent for a vacuum pipe, which he has invented, for use in drawing foul air from mines. It is claimed by the inventor that this pipe will render unnecessary the cutting of draft tunnels. The vacuum is produced by a water vessel and spirit lamp being placed in the pipe. It is said to not only produce the desired effect, but is cheap and durable.

OGDEN ITEMS.—From the *Junction* of yesterday—

Principal part of Ogden saved from destruction by fire on Wednesday evening, which commenced at the store of Mr. Levy, the roof igniting from the fire in a stove-pipe. John Gale, Cole Williamson, Charley Nelson and others put out the fire.

Ogden Fair to-day and to-morrow.

Post office shortly to be removed to Mr. Israel Canfield's premises, next door to Woodmansee's store.

HIGHWAY ROBBERY.—We have just received information that about a week ago a dastardly robbery was perpetrated on a poor man, a vender of fruit, vegetables, etc., living some sixty miles south of Pioche. It appears he had brought a large amount of produce into Pioche and had been successful in disposing of his "truck" at good figures, realizing some $200. When about half way home, he was met by three armed men, who stopped him and asked him for a drink from his wagon and went back to where the barrel of water was stowed, when one of the villains, who had dismounted, struck him on the head with a six-shooter, felling him to the ground. The other then rushed up and bound him hand and foot. They rifled his pockets, taking every dollar he had, together with an old silver watch, and then rode off, leaving him in a helpless condition, in which he remained all night and until about noon next day, when a passing teamster released him. He was enabled to proceed on his way home, though considerably annoyed by the wound on his head which was severe though not dangerous. Similar outrages have been committed in this county upon a number of Mormon ranchers who come from a great distance, and they should hereafter carry arms and be always ready to defend themselves.—*Pioche Record*, Sept. 12.

ENTERTAINED. — As per previous arrangement a large number of the company of emigrants who arrived last night were conducted to Bailo's Hall, where they were treated to a substantial collation by the Scandinavian brethren and sisters, while others were taken to the houses of friends in different parts of the city.

Latest by Telegraph.

NEW YORK, 27.—A Paris correspondent who interviewed Gambetta reports him saying that the national assembly had been so beaten and bullied by Thiers, that it has become simply a register of the President's will; that neither Thiers nor the assembly represents the country, and he predicts that on the reassembling of the Assembly it will dissolve itself out of sheer despair; in any contingency a republic is now the only possible government for France. Thiers, he thinks, will receive the support of the Republicans of the country. He thinks that France meditates no further war with Germany, but that she will, by her Republican greatness, sweep the rotten German empire from the face of the earth by peaceful means.

LONDON, 27.—Lowe, Chancellor of the Exchequer, in a speech at Glasgow, last night, severely condemned Sir Alexander Cockburn for obtaining the award of damages in the *Alabama* claims and for publishing his argument, which opens up questions and renews ill feeling. He insists that it is the duty of England to accept the award loyally.

The rinderpest has appeared among the cattle in Lincolnshire.

It is said that efforts are being made to require Messrs. Laird, the constructors of the confederate privateer the *Alabama* to pay a portion of the sum awarded the U. S. by the Geneva tribunal.

LONDON, 27.—Davis, agent of the U. S. before the *Alabama* claims' arbitration tribunal, sailed for New York yesterday.

BOSTON, 27.—The burning of John McInnis & Co's, wool warehouse, in Congress Street, last night, involves the loss of about $175,000

BUFFALO, 27.—Captain Tunnelge, of the wrecked barge *Iron City*, arrived here safe last night. He came ashore on a plank.

Two companies of the 31 regiment of the State militia, while returning on the Harlem road from a drill on White Plains, got into a fight, and used their muskets and bayonets freely. It is reported that two were killed and twenty wounded.

READING, Pa., 27.—There is great excitement here over the warfare between the Philadelphia and Reading, and Wilmington and Reading, opposition, railroads. The inhabitants are in great alarm at the symptoms of impending riot, and a special detail of one thousand policemen has been ordered out. The matter is already in the courts.

ATLANTA, 27.—Thirty miles of the Alabama and Chattanooga railroad was seized yesterday, by order of Governor Smith. The telegraph wire was cut along the same section of the road. The seizure is alleged to have been made for the better security of the State's endorsed bonds. Two receivers have possession of and are operating the road under a decree of the U. S. Supreme Courts.

CLEVELAND, O.—Later reports from Newberg state that six persons, including the three already telegraphed, are victims of the late asylum fire. Isaac Herob, of Newberg, was so badly burned, that he died in a few hours. Wm. Edwards and Wm. Morgan, of Newberg, are missing, and were seen going into the building, but when the large water tanks fell from the top of the main building, they must have caught them, and possibly others, as the tanks fell without a moment's notice. It is still thought that none of the inmates perished. A large number are missing, but some probably escaped during the fire. Over a hundred will be sent to Dayton to-day.

SAN FRANCISCO, 27.—Judge Robinson, attorney of the railroad company, has discovered that the Ravenswood bridge ordinance, passed by the supervisors, is null and void. The board is trying to cure the defect.

The Bohemian club benefit to Edwards, last night, netted $800.

The Alvarado beet sugar factory sent over the first sugar of the season yesterday.

Pears and grapes, six boxes, were, yesterday, shipped to Belfast, Ireland; per Wells, Fargo & Co's Express.
