MINING, BUSINESS AND STOCKS.

STOCK MARKET WEAK TODAY.

With a Few Exceptions Prices Had Downward Tendency.

DALY DROPPED TO $2.87½.

Sacramento Joins in the Slump Mildly—May Day Remains Firm—The Sales and Quotations.

The mining stock market displayed considerable weakness this forenoon and nearly all the traders on the board sold down. Con. Mercur was brought out at 1.60. Daly slumped badly during call; it begun at 2.91, but at the close it was offered at 2.80, with 2.72½ bid. Daly-Judge remained firm; but Daly-West dropped from 39.60 to 39.47½ during the regular call. For Dexter 10 cents was bid but no broker had any stock to sell. May Day kept even with yesterday's prices, while Sacramento fell off a cent. Yankee Con. appeared active and for it the operators in the pit indulged in some lively skirmishing, but only 1,000 shares were brought out. Wabash dropped down to 29¾ bid. It is expected that this stock will be assessed again soon; the last one was paid in with the exception of 900 shares, which were transferred at the delinquent sale held in the company's offices this forenoon. California seems to be in disgrace among investors just now. The stock was offered at 7 cents, but only one bid was made for it, and that at 3½ cents.

Century sold higher.

The quotations and sales posted at the close of call were as follows:

THIS MORNING'S QUOTATIONS.

AFTER OIL LANDS.

Duluth Parties Make Purchases in Green River Region.

Special Correspondence.

Provo, March 12.—E. T. Merrit, a capitalist of Duluth, Minn., has visited the Green river oil fields, and is so well satisfied with the prospects for striking oil that he has negotiated for the purchase of oil land from the Great Basin Oil company and the Milton company. Mr. Merrit represents a company that will expend $200,000 in developing the properties he has secured. It is the intention to place a large number of oil boring machines and push development work as fast as possible.

STOCKTON MINE CONCENTRATOR.

Plans for Plant Are Now Being Drawn.

CAPACITY FOR FIFTY TONS.

That Will Be the Size of the Initial Plant—Can Be Enlarged—Sinking the Shaft.

The preliminary arrangements are being made for the erection of a concentrating plant at the property of the Stockton Gold Mining company, at Stockton. The plans are being drawn; in fact the engineers at work upon them are bringing their work to a close and within the next few weeks bids will be called for for the construction of the complete plant. It is expected that actual construction will commence not later than May 1.

In speaking of the proposed mill today, Manager J. J. Trenam stated, that the initial plant will have a capacity of 50 tons per day; but that the power and crushing departments to be installed will be sufficient to handle 125 tons per day. Space will be provided for additional concentrating tables and jigging machines so that when the management sees fit to enlarge the output of the mill, the change can be made with no great inconvenience and with but little expense. It is possible that a larger plant will be needed before the end of the year as the developments in the mine indicate that the property will soon be shaped for a production equal to the fullest capacity of the mill.

On the 500-foot level, the present deepest workings in the mine, five large chutes of ore have been blocked out containing some very high grade and a great amount of milling ores.

The forces are concentrated at the present time on this level, opening up and preparing the ore bodies for extraction; but to further determine their extent Manager Trenam has given the superintendent of the property instructions to resume sinking the shaft. This work will be undertaken next week; the shaft will be dropped down to the 700-foot level when the territory will be explored by numerous cross-cuts and drifts. Preparatory for this undertaking the power of the hoisting plant has been doubled by the installation of a new 30-horse power boiler. The mine is now equipped with all the necessary machinery to operate to a depth of 1,000 feet.

The Stockton is one of the big mines of camp just over the range from Bingham.

AFTER COAL LANDS.

Representatives of Senator Clark inspect Emery County Measures.

The Emery County Progress sees a bright future ahead for that part of the state and notes the movements of several persons who have visited the vicinity in the search of coal lands. It is claimed that Senator W. A. Clark of Montana, was represented by some of the visitors. The Progress says:

"We learn that P. J. Quealy, the Kemmerer coal magnate, who with others owns considerable coal land in this and Sevier county, was called to Salt Lake City to discuss matters with some parties relative to his coal interests here. It was stated that Senator Clark of Montana was interested with Mr. Quealy in the matter.

"Last week Dr. Bracken, the right of way agent for the Salt Lake-Los Angeles road, was at Price on some important deal for eastern Utah. Dr. Bracken, it will be remembered, was the man who wrote the county recorder a year ago or more concerning the price of abstracting work for right-of-way property in this county.

"This week the Rio Grande people, too, sent men down to Ivie creek to look after their coal property there near the end of the new railroad grade. They were Orange Seely, Jr., and Chris Larsen. They came back Thursday to report that they were prevented from reaching the property because of the 10 feet of snow surrounding it.

"Something is going to pop soon, sure!"

AT THE COPPER MOUNTAIN.

Gasoline Hoist Will Be Installed Next Week.

A letter received from Supt. Charles H. Smith of the Copper Mountain mine, in Beaver county, to Manager Ben T. Lloyd, conveys the information that the foundations for the new gasoline hoist are about completed and the engine will be set in place next week. The force set to work timbering the mine from the 100 down to the 200 level is making good headway, so that by the time the new machinery is installed the mine will be in shape for the vigorous prosecution of development work.

FROM COLUMBUS CON.

Secretary A. E. Snow Says Mine Continues to Improve.

Secy. A. E. Snow returned from a flying trip to the Columbus Consolidated mine at Alta last night where he went for he purpose of disbursing the usual monthly pay roll. He brought back excellent reports from that new bonanza. Drifting on the main vein is in progress both ways from the end of the lower tunnel and some very high grade ore is being blocked out.

DRY CANYON SALE.

Waterman Bros. Disposed of the Eureka No. 2 Claim.

A deal has been consummated in this city involving the Eureka No. 2 lode mining claim located in Dry Canyon, Tooele county. The purchaser is the Eureka-Ophir Mining company, and the vendors are Waterman Brothers. The consideration was not released. The property is considered to be quite valuable, and in it has been developed a nice showing of ore. The Eureka-Ophir company has succeeded in getting together a group of claims, considered to be as valuable as any in Dry canyon. The mine will soon be in shape for the regular shipment of high grade ores.

Smelter for Pocatello.

William Bedding, who hails from Colorado, is endeavoring to interest capital in the building of a smelter at Pocatello of a daily capacity of 150 tons. It is reported that he has some Pittsburg talent behind him in the enterprise.

GALENA ORE IN THE WILD BILL

Important Strike Reported in That Property.

IN FIVE FEET OF GALENA.

Vein Was Cut by a Winze from the Upper Tunnel Level—Preparing To Stope Out the Ore.

The management of the Wild Bill Mining company, operating in Beaver county, today reported an important disclosure of ore in the property of that concern. At the bottom of a winze sunk from the upper tunnel, for a depth of 110 feet, a five foot body of high grade galena ore has been encountered.

Manager Reeves believes this to be one of the most important discoveries in the history of the mine and with the price of lead where it is, a very prosperous season is anticipated. In the lower tunnel a cross-cut is being run to intercept the vein cut by the winze. This done, will give about 165 feet of stoping room upon the vein, and thus enable the management to get out several car loads per day for shipment to the valley smelters.

The Wild Bill is making a splendid showing in the way of shipments. The ores are of a good grade, consequently each car forwarded shows a nice balance on the right side of the ledger.

Two more cars of ore are expected to arrive at the samplers not later than Saturday.

WABASH STOCK SOLD.

Nine Hundred Shares Allowed to Go Delinquent.

Today was the time set for the sale of Wabash stock upon which the late assessment of 5 cents per share remained unpaid. The owners of 900 shares failed to respond and their holdings went down under the hammer for the amount of the assessment and costs.

United States Expansion.

The United States Mining company's offices are being expanded. The rooms recently vacated by the Swansea Mining company have been leased by the United States management for the use of the staff connected with the ore purchasing deparment.

MINING CONCENTRATES.

Supt. A. O. Jacobson has returned to the Columbus mine at Alta.

Walter C. Orem, manager of the York mine at Bingham, is inspecting that property today.

M. L. Effinger returned from the Wolverine at Park City last night. He reports that conditions continue to grow more favorable each day.

Engineer J. J. Burke has secured office room at 262 Commercial club building. He was one of the sufferers from the Atlas block fire.

John Thomas, a well known resident of Deep Creek, is in the city.

Taylor & Brunton reported the receipt today of 5 cars of ore; 3 from Tintic and 2 from Frisco.

The Conklin sampling works reported the receipt of 7 cars of Tintic ores today.

The directors of the Bingham Con. are holding a meeting in Boston today.

George H. Robinson, manager of the Tintic M. & D. Co., departed for the north last night.

The stockholders of the Good Hope Placer company, at their meeting yesterday, by a unanimous vote decided to ratify the action of the directors in executing an agreement for an option in favor of New York investors.

The ore and bullion settlements reported at the close of business hours yesterday, by McCornick & Co., amounted to the following: Base bullion, 47,400; gold bars, $30,300; gold, silver, lead and copper ores, 46,300.

Shipments of iron ores from the Cave mine near Milford have been suspended temporarily.

The office force at the Daly-West headquarters are busily engaged in making out the dividend checks which are to be disbursed next Monday.

A block of United Verde copper stock sold the other day in Boston at $250 per share.

The Pocatello Gold and Copper company has received returns from a shipment of ores sent to the Mackey smelter which gave returns of 26.6 per cent copper, with limited values in silver.

A merger of a large number of properties in the John Day country in eastern Oregon is in the process of formation. It is said a company capitalized at $5,000,000 is to be organized.

A car load of ores from the Martha Washington mine of Tintic is in the market today.

The Pactolus Mining & Milling company, a corporation of wealthy Salt Lake mine operators, has a strong force of men engaged in the work of grading and laying foundations for office, assay office, boarding house and miners' quarters. There has been much delay on account of the railroad having failed to deliver lumber and material on time. Development work is progressing on the principal properties with very favorable results.—Tonopah Bonanza.

"Section Director Murdoch said this morning that all conditions pointed to a tardy spring." —News item March 11th.

THAT GOOD COAL.

BAMBERGER,

The Man on Meighn St.

EXCITED RISE IN LONDON COPPER

Caused a Steady Absorption of Amalgamated.

UNION PACIFIC HAMMERED.

Forced Down Nearly a Point—Changes Otherwise Were Slight—Dealings Were Not on a Large Scale.

New York, March 12.—The majority of stocks opened a fraction lower than last night. There was some special pressure against Union Pacific, which forced a decline of ¾. There were running sales of 4,700 shares of Amalgamated Copper at 75 to 74½, compared with 74⅝ last night, and Anaconda opened up 3 points. The changes otherwise were small and mixed and the dealings were on a rather light scale. Bear traders seemed content for a time with the opening impression on prices. Offerings slackened and there was some fitful fractional rallies. Weakness developed all around again toward 11 o'clock in sympathy with determined pressure against certain railroads and specialties. Metropolitan Street Railway and Metropolitan Secureties declined 2 points; Sugar, 1¾, and Union Pacific, Canadian Pacific and B. & O. one each. Prominent stocks ruled slightly below their initial prices, but there were few declines of importance. The movement of prices was narrow and vacillating. The excited rise in the London copper market caused a steady absorption of Amalgamated at an advance of a point to the high price of the year. Loans of call money were made to 5 per cent, and prices moved upwards in consequence. Manhattan and New York Central gained 1; Metropolitan Street Railway 1½ and Metropolitan Secureties, Southern Pacific, Union Pacific, Rock Island and Sugar a point. The Corn Products stocks lost a point. The advance halted before noon.

Bonds were irregular.

Traders were confused by the conflicting movements by several leaders, and withdrew from the market, which came to a virtual standstill. St. Paul, Louisville, Tennessee Coal and Car preferred advanced a point. Meanwhile New York Central lost its earlier gain, Colorado Fuel declined 1 and other stocks fractions.

Fluctuations either way were trivial late in the day, but the undertone was better and some stocks touched the highest, particularly Manhattan and United States Steel.

MONEY AND BONDS.

Money on call steady at 6 per cent.

Prime mercantile paper, 6 per cent.

Sterling exchange firm, with actual business in bankers' bills at 4.86.75 for demand, and at 4.83.25@4.83.375 for 60 days. Posted rates, 4.84 and 4.87½.

CHICAGO MAY WHEAT.

Chicago, March 12.—Opening prices in wheat were firm on higher cables and low temperatures in the northwest. May was unchanged to ⅛c. higher at 75⅜ to 75½, sold to 75¼, and advanced to 75⅝@75¾.

May sold up to 75¾, but on active selling the market weakened, and the close was ⅝@½ lower.

BUTTER AND EGGS.

New York, March 12.—Butter—Receipts, 3,800 packages, firm. State dairy, 26@27; creamery, extra, 29; June creamery, 19@28½.

Eggs—Receipts, 4,300 packages. Firm. State and Pennsylvania, 19½; western uncandled, 19.

WESTERN MARKET LETTER.

Special Correspondence.

Kansas City, Mo., March 9.—Cattle receipts last week were light at 26,300 head, against 33,500 head the previous week, and 23,900 head the corresponding week last year. The light receipts put everything in seller's favor and prices advanced 30 to 40 cents during the week, cows almost as much, and stockers and feeders 25 to 35 cents.

Western range cattle were scarce, as usual, and enjoyed a good demand until Friday, when some fat horned cattle that were held over from the previous day sold 10 cents lower than Thursday's bid. There were three loads of southwest steers, weighing 1300 pounds, which sold Friday at $4.55. Colorado cows weighing 957 pounds sold Thursday at $3.90. Western heifers sold at $3.65 earlier in the week. Colorado feeders brought $4.25 Wednesday, and a big string of southwest feeders sold Thursday at $4.00 being considered 25 cents higher than the previous Friday.

Stockers and feeders sold up to $4.80 last week, against a top of $5.40 on corn cattle. The proportion of this class of cattle was fair last week, and was readily absorbed at strong and higher prices up to Friday, when a weakness developed, and few sales were made, speculators holding their cattle over.

Today the run is larger than recent Mondays, and big supplies at eastern with lower reports caused a slow market here, with prices unevenly lower, ranging from steady to 10 cents lower. Most of the decline is on fat steers. Stockers and feeders are not showing the usual Monday strength, but are steady. Cows are still in light supply, and sold steady today, at the high range of prices reached last week.

Sheep and lamb receipts have been moderate, and prices reached last Monday were fully maintained during the week. Lambs sold up to $6.75 wethers at $5.65 and ewes at $5.00 with a few top ewes at $5.25. Yearlings brought $5.25, and these prices were all the highest prices reached this season. Today the run is liberal at 6,500 head but the market is active and snappy. As trains arrived on time mostly today, everything was sold and weighed before 11 o'clock. The following are a few of the sales made today. Nothing better than medium quality lambs were received today:

McIntosh Bros., Las Animas, Colo., 182 western wethers, 111 pounds, $5.65.

McIntosh Bros., Las Animas, Colo., 450 western ewes, 94 pounds, $5.00.

M. Herzstein, Lamar, Colo., 581 Mexican lambs, 61 pounds, $6.00.

M. Herzstein, Lamar, Colo., 141 Mexican ewes, 79 pounds, $4.90.

M. Herzstein, Lamar, Colo., 14 Mexican ewes, 64 pounds, $5.25.

W. E. Sydner, Las Animas, 304 Colorado lambs, 64 pounds, $6.35.

Joyce P. Co., Roswell, New Mexico, 246 Angora goats, 86 pounds, $3.15.

ABSOLUTE CURE FOR STOMACH TROUBLE

No Matter How Long You Have Had It

NAU'S DYSPEPSIA CURE—IT CURES THE CAUSE.

"For 20 years until within the last 15 months I have been greatly troubled with indigestion and have used a great many remedies without obtaining any permanent relief. About the 15th of June, 1900, I commenced using Nau's Dyspepsia Cure, and am pleased to say that I consider myself entirely cured of all stomach troubles. I have delayed expressing to you my opinion of your valuable remedy until such a time has elapsed as to convince me of my entire recovery. At the time I began to use Nau's Dyspepsia Cure, my health was in a critical condition and my friends had almost given up hopes of my recovery, and I am satisfied in my opinion that had it not been for Nau's Dyspepsia Cure, I would not be alive to write this letter." (Signed) N. M. CHURCH, Cashier La Grande, Oregon National Bank.
