DENVER PAPER Favors UTAH MAN

Mining Record Says Newhouse
Or Jacking Should Head
Mining Congress.

RICHARDS REFUSES ELECTION

Arizona and Washington Want Representation on the Board of Directors.

The Denver Daily Mining Record has announced editorially that it favors a Salt Lake man for the presidency of the American Mining congress and suggests that the honor be conferred upon either Samuel Newhouse or Daniel C. Jacking at the next annual meeting.

"The establishment of subsidiary branches," says the Denver publication, "of the American congress in various states promises to influence in some measure the selection of directors and the government of the central body. Only three directors to be chosen each year, the recognition of representatives from these sections which have formed strong local bodies, seems to be the natural thing to expect. Two locals have been established in Washington, one at Spokane and the other at Seattle, one now exists at Bisbee in the territory of Arizona and a part of Sonora, and Utah has leaped heartily into the movement by combining her leading mining men in a very enthusiastic organization. The Colorado locals have met in meeting this week, and it is already merging the large local membership of the congress into the subsidiary branch, while taking active steps to enlarge its membership."

"Inasmuch as Utah has been an active fighter for the honor of entertaining the headquarters of the congress at Salt Lake, it is only a question of time that it will be given the honor at every possible opportunity. It has been suggested that it attend the session this fall with a determination to elect one of its representatives to the presidency of the national body. President J. H. Richards, who has so conscientiously served the congress for six years, not only does not desire another term, but has signified his intention to object to re-election, and those who might be disposed to ask him to continue in office, in recognition of his important work for the organization, have themselves relieved of this justifiable sentiment by Judge Richards' refusal to permit his name to be offered. It will be a wise thing for the congress to award the presidency to Utah's choice of a man, in recognition of its strong local organization and past interest in the national body. Samuel Newhouse or D. C. Jacking, both of whom are enthusiastic members, come to mind in this connection, and Utah can well decide upon one of them for the presidency of the organization. The congress will be honored by heeding Utah's desire in this respect."

One, at least, of the three retiring directors deserves to be re-elected, by reason of the continued hearty efforts he has given to advance the cause of the congress. The other two places can well be filled by men from Arizona and Washington, which at present support thriving branches, and it would not be out of place for these sections to choose from among their members, the representatives whom they would wish to act upon the national board. Let them get together and attend the forthcoming session with confidence in the future of the organization."

There is vital occasion for the strengthening of the American Mining congress, and as time goes on, the occasion will become more and more acute. The organization for moving and consolidating with good reason. Therefore, the consolidation of a strong and truly interested control over its affairs is the natural result. The membership must represent the best in the industry, and its government should represent those who perceive the vital occasion for its existence and growth.

A JEWELER'S EXPERIENCE.
C. R. Kluger, The Jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four or five of my kidneys were removed, but my condition did not improve, and I am now attending to business every day and recommend Foley's Kidney Remedy to all who suffer, as it cured me after the doctors and other remedies had failed. F. J. Hill Drug Co. ('The never substitutes'), Salt Lake City."

A SUGAR COMPANY INVOLVED.

Creditors of Mexican National Refining Concern Ask for Receiver.

The appointment of a receiver for the Mexican National Sugar Refining company, a \$1,500,000 corporation chartered in 1904 and holding title to 10,000 acres of land along the Mexican border, 20 miles from Vera Cruz, was asked to be made in the court of chancery, the application being made by creditors holding \$23,000 on the promissory notes. An order restraining the company from doing further business was also asked. The court will consider the case at an early date.

In the bill filed charges of gross mismanagement were made, among other things the expenditure of \$200,000 for satisfactory accounting and the authorizing of cane planters to the disbursement of the company. It is held that the company has spent \$1,450,000 and now lacks funds with which to equip cane fields, and that the company owes stockholders \$25,000 and \$15,000 to general creditors. W. J. Herald.

A well dressed woman interrupted a political speaker recently by continually coughing. If she had taken Foley's Kidney Remedy she would have cured her cough quickly and expelled the cold from her system. The genuine Foley's Kidney Remedy contains no opiates and is a yellow capsule. BARTENDER UNDER ARREST.

G. W. Winnett, a bartender, was arrested yesterday upon complaint of George Rogers, a Bountiful farmer. Rogers charged Winnett with robbing him of a purse containing \$50 in a west side saloon. The bartender claims that Rogers gave him the purse to keep for him, but Rogers says that when he asked him for it he claimed that he did not have it. His case will come up in police court this afternoon.
