LOCAL BRIEFS.

Weather Director Murdoch has returned from Richmond, where he has been inspecting the voluntary station at that place.

Mrs. Abbotson, wife of Rev. Dr. Abbotson of the First M. E. church, is very low and fears for her recovery are entertained by those who are watching over her.

Rev. Louis G. Reynolds will deliver the second lecture in his series on "The Great Men in Jewish History," at the Jewish Synagogue this evening. His subject is "Josephus."

Street car No. 24 accidentally ran into a horse on Ninth South and Fourth East street yesterday morning and broke its neck. The carcass was later dragged off across the river.

A meeting of the Cooks' and Waiters' union No. 12, was held last night and twenty-five new members were admitted. Another meeting will be held on Thursday evening, when the officers will be elected.

The Machinists' union met last night and elected twenty-three new officers and delegates to the Utah Federation of Labor and the International Association of Machinists. The union is preparing for the grand ball to be given at Christensen's on Jan. 14.

Principal W. S. Webster of the Lincoln school was struck in the face with a rawhide by George Miller yesterday afternoon. Miller is 14-years-old and the principal had asked him to prepare to be punished for assaulting one of the school teachers. The boy received a drubbing for his temerity and is suspended from school.

James Martin, a miner who has been employed in the mines at Bingham, has gone to Leadville in response to a telegram asking him to "come back and help recognize the Leadville drum corps." That remarkable organization appeared in Salt Lake during the jubilee of 1897, and soon afterwards disbanded. An effort is now being made to get it together again.

The interest in the Keogh-McKenna hospital held by the Dr. McKenna will be purchased by some local physician in the immediate future. Among those who are bidding for the partnership are Drs. Root, Mayo and Monahan. It is likely that the capacity of the hospital will be increased to 120 patients, while at present there are accommodations for only thirty-five.

Salt Lake Valley lodge No. 12, A. O. U. W. held its semi-annual election last evening, with the following result: G. A. Fuchfield, past master workman; Thomas Allen, master workman; C. H. Walters, foreman; D. M. Bernheim, overseer; Joseph S. Darke, recorder; Edgar Howe, financier; Joseph William, treasurer; Charles Webb, guide; Albert Hulbert, inside watch; W. C. Bowden, outside watch; E. J. Petty and George Lucas, trustees.

At the annual election of the Utah Commandery No. 1, Knights Templar, at Masonic hall last evening, the following officers were named: W. H. Cunn-

ingham, eminent commander; C. F. Jennings, Generalissimo; J. A. Reeves, captain general; Samuel Paul, prelate; Charles Van Dyke, senior warden; H. N. Mayo, junior warden; H. A. Gebhart, treasurer; L. B. Smith, recorder; C. D. Dick, standard bearer; E. A. Hartenstein, sword bearer; A. Brown, warden.

Orson D. Romney has complained to the police of a band of young hoodlums, who have been destroying some of his property. He has a house in course of construction on E street and some of the boys of that neighborhood persist in knocking the plaster off the walls. Hereafter the police will keep a lookout for them and if caught they will be made to realize that their offense is serious.

J. W. Mullahay of Denver, spoke at the First M. E. church last evening on the "Science of Inebriety" under the auspices of the Keeley League of Utah. C. M. Jackson introduced the speaker, whose remarks were very interesting. He said drunkenness was not a crime, it was a disease. The inebriate is not a criminal, he is a sick man and should be taken to the hospital instead of to jail. The inebriate is to be pitied, not condemned.

The works of art in the corridor of the Jackson school placed there by the home and education section of the Ladies' Literary club, were formally presented to the school yesterday afternoon. The students gathered in the corridor when the formal presentation was made by Mrs. William C. Jennings. A few appropriate words were also spoken by Mrs. William C. Jennings, P. A. Bradford, and a number of the parents and pupils. Very good music was furnished by the children and the program ended with "The Star Spangled Banner." The corridor is a beautiful display of the work of the Bingham, a bust of Abraham Lincoln, a Venus de Milo and pictures of Lincoln, Raphael's Madonna and a scene in Venice.

Zion's Savings Bank and Trust Company was established in 1873, and has since opened more than 20,000 savings accounts. Have you an account? If not, start one NOW.

Patronize Stores That Display "We Give Trading Stamps" (signs.)

BOYS WILL BE GOOD.

Guy Ross and Leslie Grant, the two boys arrested by Officers Sperry and Davies for indecency, were taken before Judge Diehl this morning for trial but the authorities decided to give them another chance. The boys tearfully promised to be good in the future, to mind their parents, to go to school every day and keep off the streets after dark. Assistant County Attorney Loomis promised to do all he could to send them to the State Industrial school if there were any more complaints against them.

Had a Good Time.

A. J. Snell wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says, "I was telling my troubles to a lady friend, who said 'Charles Herber's Cough, Croup and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and take pleasure in stating that two doses cured me and enabled me to have a good time at the party. Mr. Snell is a resident of Summer Hill, N. Y. This remedy is for sale by all druggists.

"THE WORLD'S FAIR LINE."

The Missouri Pacific Rio Grande through line between Salt Lake City and St. Louis and Kansas City, with only one change for all points east, is anxious that the public use this route. The Great World's Fair will be held in St. Louis, and it should be the aim of all to visit St. Louis, if possible, before the opening of the fair, and to that end, we advise all who are going east to use our through route, the Fair Line, and thus get an idea of the conveniences and the pleasures of the "St. Louis Route." Ticket office 103 South Second West street.

A special line of Christmas Books for children and the adults.

This will be a wonderful opportunity for the people of Salt Lake as it is the advertising department of the above named publishers, and the goods will be sold regardless of their cost or value.

Note. The object is to arouse a greater interest among the people of Salt Lake to buy standard and scientific books. Sale opens Saturday morning at 10 a. m.

Every lady attending the sale on Monday afternoon will receive a handsome bound book as a souvenir free!

S. A. THOMAS, Manager.

QUERIES COMING FROM ALL PARTS

Agent at Blackfoot Gets Heavy Mail on Thunder Mountain.

GETTING READY FOR RUSH.

Supp. Olmstead Says Daily Trains Will Be Run on Salmon River Branch Next Spring.

Superintendent C. H. Olmstead of the Montana division of the Oregon Short Line, is in the city today, in attendance on court. He speaks in high terms of the new Salmon River branch which has just been added to his jurisdiction, and says that while trains are now running only three times a week on this line, daily trains will be run in the spring. Mr. Olmstead looks for a heavy traffic, both freight and passenger, next spring, and says that people are even now going into the Thunder Mountain district with the winter before them, and that the agent at Blackfoot receives on the average of five letters a day of inquiry from the east as to the mining prospects. People do not know who to write to, and get Blackfoot is the junction, write to the agent for information. Mr. Olmstead says there is a new station building going up at Arco which will be a credit to the country. The business on the Montana line is better than ever before, both freight and passenger. Winter, Mr. Olmstead says, is beginning up north, as he left several inches of snow on the ground over the Montana coast, but it was raining at Pocatello this morning.

NO SURVEYS AS YET.

General Manager W. H. Baneroff of this morning said he considered the New Salmon River branch a very promising piece of property, and believed that it would handle a large amount of business. As to the extension of the line into the Thunder Mountain district, he said that was a matter which could not be decided until spring, as no surveys had as yet been run in there.

J. M. HERBERT ARRIVES.

General Manager of Rio Grande Western Inspecting the System.

Manager J. M. Herbert of the Rio Grande system, arrived last evening in this city from his inspection of the various lines and branches of this already extensive system, and today is looking over the city and various valuable local properties of the Western. With a trip to Bingham and Westward, the work of review will be completed, and the new manager will return to Denver with a comprehensive and intelligent knowledge of the conditions obtaining over one of the most valuable and best managed railway properties of the country.

Manager Herbert is much gratified with the result of his observations, and finds in General Superintendent Welby of the Western, a man who has a splendid mastery of detail and has kept the physical condition of his line in the highest possible efficiency. It is his duty to see that the line is in the best condition, and Mr. Herbert is being advanced to the vacant position of the general superintendency of the Rio Grande system are promising.

Manager Herbert has made up his mind to do one thing, and that is to reduce further the grades and curves of the road, and states that the grades between this city and Tucker will be reduced to not over eight tenths per cent. This will require something of a financial outlay, but the result will be worth the money in the shortening of time and less consumption of fuel. The work will begin in the spring, Manager Herbert says, as soon as the weather clears and the snow is melted.

Change in the personnel of the employees of the Western. Only four years ago Mr. Herbert was a dispatcher on the Wabash, but his genius for railroad work has led to his rapid advancement, and now he has in his hands the control of one of the noted railway systems of the country. Mr. Herbert has a frank open manner, and inspires one with confidence in him at once. The matter of new shops in this city will receive careful consideration, and the necessity of a new depot is manifest to him.

Passes to Be Trimmed.

Commercial Freight Agent M. J. Allen of the Baltimore and Ohio in Denver, was in town today looking after the interests of his road. He says railroad men in Denver expect that the pass system will be materially restricted the coming year; that a large and interesting discussion of the abolition of this system is being held by the railroad men, and that one particular reason for this belief is that the eastern passenger men have not sent out this winter as usual their requests for the reduction of fares, and there is no intimation whatever that any eastern transportation will be sent west. While the action recently of the eastern passenger association in formally severing off the passing rates does not bind the operating roads, the managers or the managers of the roads represented by these passenger agents, Mr. Allen thinks the action of the members of the board content that by bringing about a similar condition of things in other transportation which issue passes also.

Heavy Locomotive Orders.

The ordering of locomotives continues to be a special order of the day in the mechanical department of American roads, and the growth of that demand will be evident in the following: The following roads have been ordered as follows: Norfolk & Western ten engines; Lehigh Valley, ten engines from the Baldwin works; C. & Q., twenty-five freight engines of the prairie type from the Baldwin; St. Clair Steel company, four six wheeled engines from the American company; Santa Fe road, four engines from the Baldwin; Lake Shore & Michigan southern, twenty-five freight engines; Pennsylvania Railroad, twenty engines from the Baldwin; New York Central twenty engines from Schenectady works and fifteen engines from the Cooke works; Detroit & Mackinac road, ten ten wheel engines; a total of 41 engines. At this rate, it is safe to say that the total shops of this country are turning out locomotives at the rate of 6,000 per year.

Proposed Canadian Transfer.

Hallfax, N. S., Dec. 5.—The Halifax board of trade today passed a resolution favoring the transfer of the management of the inter-colonial railway to the Canadian Pacific Railway. The members of the board contend that by such a change the Canadian Pacific road will have a through line from the Atlantic to the Pacific and that it will

tend greatly to stimulate traffic in Halifax.

Copies of the resolution will be sent to the several boards of trade through the Dominion, and they will be asked to unite in a memorial to the Federal government, favoring the transfer of the railroad.

The board also passed a resolution in favor of the Dominion government establishing a fast steamship service with Halifax as the terminal on this side of the Atlantic, the service to equal any running out of New York.

Engines for Heavy Grades.

At a recent meeting of the New York railroad club, the development of the modern locomotive in the matter of size was discussed. Among the instances cited, was the Colorado Midland. This is an unusual type for passenger service, but the grades demand the utmost limits of tractive power. These engines are intended to operate on 3 and 4 per cent grades and over curves of 15 degrees. They are four cylinders compound, 17 and 25 inches in diameter and 28 inches stroke. The drivers are 60 inches in diameter and operate with a novel style of brakes. A very descending grades the reverse lever is set in the back motion and the cylinders used as air pumps. Braking with this device has proven so efficient that it is possible to let passenger trains down the long grades without applying the car brakes. Railroad men say that the value of this feature as a means of avoiding heating wheels and brakeshoes is at once apparent.

Another engine of the compound class in construction is a compound decapod with cylinders 15 and 31 inches in diameter and 32 inches stroke. It will weigh 260,000 pounds, without the tender, and have 5,300 square feet of heating surface. The weight on the drivers will be 230,000 pounds.

SPRIKE AND RAIL.

The Burlington office has received a consignment of calendars for 1902; also folders containing the winter time tables. They are a great call for Burlington calendars.

K. O. Kyes of the Milwaukee returns in the morning from Chicago, where he went with the Idaho delegation, which the Milwaukee carried into Chicago from Omaha. Part of the Utah delegation also went by the same route.

W. H. Blauprand, chief clerk in the passenger department of the Missouri Pacific, and A. V. Bingham, traveling passenger agent for the Iron Mountain road are in the city from St. Louis on a little pleasure trip to see the western country.

Attorney General Crampton of North Dakota says his state can do nothing to prevent the tripartite railway consolidation intended by James J. Hill, and the Northern Securities company will manage the Great Northern, Great Northern and Burlington systems as proposed.

Telephones are beginning to supplant the telegraph to such an extent in railroad work, especially in suburban train dispatching, as to attract growing interest and attention in the east. In Boston 2,200 suburban trains are moved daily by telephone. The offices, switch yards, various works, blockhouses, etc., are all connected by telephone communication. The Boston & Maine, New York, New Haven & Hartford, the Pennsylvania, Illinois Central and numerous other railroads use the system.

The presidents of the railway systems of this country and the traffic men will meet here this afternoon to discuss the matter of the rate cutting fever, from which the Harriman and the Gould roads are suffering. The Chicago papers report that rates from Chicago to Colorado and Utah are demoralized, and Atlantic seaboard rates are said to be in even worse condition. Shippers are growing and shippers want the agents of the roads involved want the racket stopped.

Held & Co. have moved their insurance office to Cullen Hotel.

CHICKEN DINNER AT DEACONESS HOME.

The Ladies of The Liberty M. E. Church will conduct a fair and serve a chicken dinner at the Davis Deaconess home Saturday Dec. 7th. Dinner from 11:30 a. m. until 2 p. m. and 5 p. m. until 7. Dinner 25 cents.
