FIRST FISTRICT COURT-PROVO.

Judge Judd heard the following Judd now being absent.

cases yesterday :

E. M. Nelson was admitted to citi-

Anna Marks vs. John T. Sullivan et al.; this case was tried without a jury and judgment was rendered for the plaintiff United States vs. Jens Sorenson; a day or two. unlawful cohabitation; the defendant

appeared for sentence, could not promise, and was given ninety-five days! imprisonment, \$50 fine and costs People vs. Wm. Daniels; this action

ments at present. was brought to decide whether a city has a right to tax residents outside of the city proper but within the corporate limits; the defendant refused to furnish a list of his taxable property to the assessor of Moroni, in Sanpete County. An action was brought in the justice's court, and judgment was rendered for the plaintiff. The court entered judgment affirming the decision in the justice's court. Fine, one cent, without costs.

FIRST DISTRICT COURT-OGDEN.

In Judge Henderson's court the following business was transacted :

John P. Wallin and Erick Anderson were admitted to citizenship. United States vs. Frederick Newberger; withdrew plea of not guilty of unlawful cohabitation, and estered plea of guilty; December 10th set for

sentence United States vs. Frank Gunnell; arraigned and entered plea of not gally to the charge of uslawful co-habitation.

United States vs. James Baker and Hans T. Johnson; ignored by the grand jury and dismissed. The grand jury reported five indict-ments under the laws of the United

United States vs. Elijah Box. The jury brought in a verdict of guilty of nulawful cohabitation as charged. Sentence set for December 24. The People, etc., vs. Albert Warner trial by jury, and a werdlet of guilty of battery. Sentence set for Dec. 3. United States vs. George Grachl and

Axel Christensen; adultery; dis-The People, etc., vs. George Wil-

liams et al.; verdict of not guilty.

PROBATE COURT.

Proceedings in the Salt Lake County Probate Court vesterday: In the estate of James Ro'ablas, deceased; lease continued until Decem-

ber 3d, 1888, at 11 a.m. In estate of John Taylor, deceased; adjourned till December 11th at 11 a.m. Order made appointing time and place for settlement of executor's account.

In estate of James Baffle deceased; petition for admission to probate of will came on for hearing as per ad-

The court ruled that the petition Gentlemen-The rep tendent of waterworks in relation to the petitions of L. C. Snedaker, Jacob Moritz, and others for the extension of the city water mains cast of Eighth East Street, was referred back to this office with instrucments as to the legal points in the case. Judge Zane said it would better

(1) To estimate the cost of connecting please his clients if the hearing could be had before the full bench, Judge the district in reference with the upper Mr. Hobson did not think there was

the district in reference with the upper waterworks system; and (2) An explanation of the cause of the lack of pressure from the line of mains lo-cated in the eastern part of the city. (3) Also, to report the eatimated cost of constructing a system of water supply, by piping, for that portion of the city from the Parley's Cafon Creek Canal. In answer to the first proposition. I will anything in the case to require it to be heard before the whole court. Judge Sandford said it had not been possible for Judge Judd to be present today, and the discussion of the case could not be postponed as he (Judge Judd) was going east for a vacation in

piping, for that portion of the city from the Parley's Cañon Creek Canal. In answer to the first proposition, I will state that the line of the canal (Parley's Creek) is on a level with the upper reser-voirs (Eighteenth and Twentieth Wards), and a reservoir could be constructed at any point on the canal east of the city, but would necessarily come within the military reservation, and to obtain a right or title to locate on the government land will cause deiay and a possible refusal. The strongest objection, I would respectfully suggest to this location, is the elevation. It would give a pressure running from 175 to 210 pounds, a pressure altogether too strong to be economical in distribution, and too straining on the service pipes and mains. Judge Zane said there was no reason for pressing the matter, as there was plenty of time before the case would be finally disposed of. The court decided to hear the argu-

JudgeZane then proceeded to discuss the case from his standpoint, as to the legal interest of the schools in the property to be confiscated. The school pounds, a pressure altogether too strong to be economical in distribution, and too straining on the service pipes and mains. I will here answer the third proposition by stating that a reservoir can be construct-ed on a line (gravity) with our lower reser-voirs in City Creek Cafion (brick building) on the eastern boundary line of the city, giving a pressure running from F6 to 129 pounds. The plans and specifications for the construction of a reservoir with a caproperty to be connecated. The school trustees were the representatives of the common schools. They conducted all of the financial business for their respective school districts. In regard to the property to be escheated, Judge Zane declared that no power on earth pounds. The plans and specifications for the construction of a reservoir with a ca-pacity for impounding 60,000,000 gallons of water, with the proper supply pipes and pipes to connect with the lower system, I will present for your consideration as soon as the proper surveys, cost of excavaling, piping and plans are made. In answer to the second (proposition: The capacity of discharge through the 30-inch main at the reservoirs (brick building), bell-shaped ori-fice, with a full head ((reservoirs brimming full), six pound pressure, a velocity of flow 27.2 feet per second, gives a discharge of 50,925 gallons of water per minute. It is conveyed through the following sizes of piping to the distributing point at the Eagle (sate: One hundred feet of 30-inch, 2,200 feet of 24-inch, 1,600 feet of 20-inch, and 600 feet of 16-inch mains. The deliver-ing capacity at the distribution point of this had any beneficial interest in it except the common schools. That interest entitled them to be heard, so that the amount would not be diminished in sums of more than \$50,000 at a lump. The argument was in progress when

the NEWS went to press.

Officers' Meeting.

The regular monthly meeting of the flicers of the Y. L. M. I. A. will be held Saturday, Dec. 1, at the residence of Sister Maria Y. Dougall, No. 49 n. West Temple Street, at 11 a.m. All interested are cordially invited to at-MARY A. FREEZE, tend. President.

From the "Pen." From the "Pen." Today Bishop Thomas Harper, of Call'a Fort, James Bywater, of Brigham City, and N. C. Anderson, of Hyrum, were released from the penitentiary, where they have been serving a six months' term for baving lived with their wives. They were also required to serve thirty days additional because of the heavy fines imposed. Messrs. Harper and Anderson were taken be-fore Commissioner Norrell, and Mr. Bywater before Commissioner Pierce, where, after a hearing, they were or-dered released. Carrying capacity of the pipe, not water used. From the distributing point we have a descending grade sloping south and weston South Temple Street, we have an ascending grade of 2,170 feet to the hundred. Eastward, on South Temple Street as a division line, we have west of this street supply mins of the following diameters 12, 10, 8, 6 and 4 inches, or an average pipe diameter of a fraction over 8 inches. The average pressure by gauge tests on the five hydrants in this western division is 105 pounds, with an average ve-locity of flow per second of 125 feet. West of the heavy fines imposed. Messrs. Harper and Anderson were taken be-fore Commissioner Norrell, and Mr. Bywater before Commissioner Pierce, where, after a hearing, they were or-dered released. average, diameter 6 mehes; average pres-sure, 80 pounds; an average velocity of flow of 111.86. With 676 half-inch services, each service capable of discharging 42 gallons per minute, or with all running, 23,302 gal-lons, or combined east and west another

"Joshua Whitcomb."

ons, or combined east and west services discharging 74,338 gallons. This is theoret-ical, the actual discharge, 62 per cent of this sum, would give us 46,101 gallons per Mr. P. Margetts, has been presented by Denman Thompson, the celebrated

seph Smith, and of the truth of the Book of Mormon. and 600 feet of 16-inch mains. The deliver-ing capacity at the distribution point of this line of mains, approximates (with full reservoirs) to, pressure, 75 pounds, velocity of flow, 113.12 feet per second, gallons dis-charged per minute, 51,691. This is the carrying capacity of the pipe, not water used. The local presidents reported their branches as being mostly in good conlition, and the Saints striving to live their religion

Principal Place of Business, Salt Lake City, Utah Territory. All of the Elders present bore strong testimonies to the truth of the Gospel and exhorted the Saints to be faithful

NOTICE IS HEREBY GIVEN, THAT at a meeting of the Trustees, held on the 13th day of October, A. D. 1888, an as-sessment of two dollars and fifty cents per share was levied on the Capital Stock of the Corporation, payable on the 22nd day of November, A. D. 1888, to Elias A. Smith, at No. 123 West, North Temple Street, Salt Lake City, Utah. Any stock upon which this assessment may remain unpaid on the 22nd day of November, A. D. 1888, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 15th day of December, A.D. 1888, to pay the delinquent assessment, together with the cost of advertising and expenses of sale. ELIAS A. SMITH, Secretary. Utah & Salt Lake Canal Compony. Location of Office, Salt Lake City, Utah Territory. TOTICE IS HEREBY GIVEN, THAT to the end. President Burgess presented the general and local officers of the Church for the vote of the Salats and they were sustained unanimously. Turough the whole of our conference the spirit of God was epjoyed abundantly by the Elders and Saints, and all return to their homes and fields of labor feeling renewed in their desires to keep the commandments of God.

The statistical report shows that there are five branches and 262 mem-bers. Fifty of these have been added during the past'nine mouths, with excellent prospects for the future. Under the direction of President Paxmin, a school was organized in this district about two months since, with Elder Thos. C. Young as teacher; and although we have none of the

and although we have hone of the books and other appliances that we have at home, the children are learning very fast. President Paxman has since visited us, and he said he never saw children learn so fast as these are doing. The Maori children have ex-cellent memories, and they are also very anxious to learn the English language. This feeling is not con-fined to the Saints. for about onefined to the Saints, for about one-half of the school do not belong to the body of the Caurch, but We hope to be able to reap what by the help of God, we are now sowing, for the influence of the Elders is having a great effect upon this people; and many of them say they believe the Gospel, but they are loth to leave the faith of their fathers.

Your brother in the Gospel, THOS. C. YOUNG, Clerk of Conference.
