

# CLUB STINGS OVER SHEETS

Will Also Hit Chief Barlow and Hempel and a Few Others.

## SHAKEUP IS COMING SOON

Police Department Not in the Condition That it Should Be.

This Has Determined Party Leaders To Take Action Extending From Top to Bottom of the Force.

The Salt Lake City police department is due for a shakedown early in January that will cause a great rattling of dry bones, and the object in view is to bring about a much needed reformation in that important branch of the city government.

There is to be a cleaning out and when the exodus takes place Chief of Police Sam Barlow, Chief of Detectives George A. Sheets and Lieut. Hempel will be numbered among the has-beens. These removals, and no doubt several others, are as certain as the sun shines.

There is a conference this afternoon between leading politicians of the "American" party and a well-known business man of this city who has been selected to assume charge of the police department—if he will accept. But whether he accepts the position or not, the changes noted are to be made.

At least Barlow, Sheets and Hempel are to go, and that others will follow is not doubted. Chief Barlow has not been "satisfactory" to certain party managers. One reason assigned for his coming decapitation is that he has permitted "too much Sheets and too much Hempel" to prevail in the management of police affairs. Particularly too much Hempel.

The gentleman who has been implored to take the job of chief of police does not want the position. He is willing to take it, however, if he can have his own way and be the real chief without interference from every ward-heeler and 2x4 politician. If he accepts the appointment it will be with the understanding that Sheets and Hempel go, and go they will.

### REASONS FOR REMOVAL

It is a recognized fact that Sheets and Hempel are the real bosses in the department and that to a great extent Barlow has been dominated by them. Officers who are high up in the department, give reasons why Hempel should be removed.

It would be interesting to know, said one prominent officer, "just why Lieut. Hempel spends most of his time at headquarters. Even when he is on the night shift he can be found at headquarters early in the morning, nosing about and mixing in everything that goes on. He is there practically all the time and people are wondering why."

It is claimed that certain officers, including Sheets, worked rather strenuously for the cause of Joe Lippman in the recent campaign. It is known that this work left a sore spot with the party managers, and that several of the new councilmen are determined to furnish a new broom and make a clean sweep. Martin Mulvey is said to be a leader in the movement and there are several of the councilmen who will be with him. No matter who accepts the position a clean sweep is due. Barlow, Sheets and Hempel are slated to go and their heads are to fall into the political basket in a very short time.

### WILL HAVE FULL CHARGE

For several days efforts have been made to induce a well known business man of Salt Lake to take charge of the department. The news is in possession of this information and it came from an authoritative source, but the name of the man is withheld until he either accepts or declines the offer. As stated before, there is a meeting this afternoon which may decide this question. If the man is not to be assured the prospective appointee that he will have full charge of the department, and not be interfered with, he will not accept, and then the slaughter of bluecoats will begin. In any event Barlow, Sheets and Hempel are to go.

### FLAG PRESENTATION TONIGHT

Interesting Services to be Conducted At Fort Douglas Tonight.

There will be an interesting presentation this evening in the Fort Douglas chapel where Mrs. E. E. Shepherd, president of the Utah W. C. T. U., is to present the Christian Temperance Union of the post a silken American flag, in token of that society having gained an increase in membership corresponding so large in the army. The flag was given to Mrs. Shepherd for this presentation by the National W. C. T. U. at the Omaha convention.

Chaplain Clements of the Fifteenth Infantry and Chaplain J. T. Axon of the Eighteenth Infantry will speak. Owing to Capt. Axon's recent return from the islands, where he has to say will be listened to with a good deal of interest.

### MUCH MONEY SENT AWAY

Postoffice Besieged With Patrons Making Faraway Presents.

There is something over \$5,000 going out each day from Salt Lake to almost every conceivable point in Europe and Asia, through the money order office, at the postoffice, and Orwell Williams, in charge of this division, has been compelled to call upon Postmaster Thomas for help. This was given him and a new clerk will be added to the money order force Friday morning.

The immense amount of money which is going abroad consists almost entirely of Christmas gifts and ranges in

amounts from 50 cents to \$5. Comparatively few of the orders which are paid for at the money order windows go over these figures. And those which do are in the ordinary course of business transactions.

The countries which are receiving these daily contributions range all the way from Finland to Spain, and from the Hebrides Islands to the Argentine scene of massacre; from Port Said in Africa to the southernmost point in Cape Colony; to Australia and New Zealand; to many points in the Australian archipelago; and even to Argentina and the "Tierra del Fuego" of Patagonia.

The Chinese do not patronize Uncle Sam in their purchases but confine their financial operations to exchange through the banks. The Japanese play no favorite, dividing their contributions generously through the various channels. Orwell Williams, in charge of the local money order department, says that this great flow of money abroad will continue for 10 days, and that the department will begin to get busy with the ordinary holiday trade, which will exceed the foreign business manyfold.

### DO YOUR SHIPPING EARLY.

General Agents Sanborn of the Pacific Express company and Carey of the Wells-Fargo Express company stated today that it would not only greatly accommodate their companies, but greatly benefit the public patronizing them, if patrons would begin as soon as possible making their Christmas shipments. By doing this the companies will be better able to get goods through expeditiously and with a minimum amount of congestion, and shippers will have the satisfaction of knowing there will be no delays to speak of, and Christmas presents will be on their way to the recipients earlier than if they "waited until the last moment."

### PATENTS FOR WESTERNERS.

(Special to The News.) Washington, D. C., Dec. 2.—Patents issued: Utah—C. A. Williams, Salt Lake City, injector tapper. Idaho—J. B. Green, Wallace, slime feeding device for concentrators; W. N. Jay, Moscow, seed planter; C. E. Nelson, Middleton, gun support; Sorenson, Emmett, apparatus for treating grain.

### CASSIA COUNTY, IDA., VOTES FOR LOCAL OPTION

(Special to The News.) Burley, Idaho, Dec. 2.—The Cassia county election was held yesterday. The vote was 1,062 in favor of local option to 302 against it.

### MONUMENT TO CHAMPLAIN.

Vermont Will Not Act With New York In Erecting One. Montpelier, Vt., Dec. 2.—Vermont will not act jointly with New York in the erection of a memorial to Samuel de Champlain, the purpose of which is to have a monument or arch of its own. This decision is announced by the Vermont Lake Champlain tercentenary commission. With the \$4,000 remaining after the celebration this summer, the commission proposes to erect a monument to the explorer's memory.

## DEAD BODY FOUND AT BELMONT HOTEL

Capt. W. A. Johnson Kills Himself With Cyanide of Potassium After Disappearance.

While his frantic wife, numerous friends, lodge brothers, and detectives were still searching the city for him, after a futile hunt since he had left the Cullen hotel on Tuesday morning, Capt. W. A. Johnson, one of the most widely known mining experts in the world, was found dead in room 83 at the Belmont hotel by George Reeves, one of the proprietors, at 3 o'clock Wednesday afternoon.

That he had committed suicide by taking cyanide of potassium was indicated by the fact that a block of that poison of considerable size lay on a table in the room, beside a small paper bag bearing the label of the W. H. Dayton Drug company, at Second South and State streets. According to W. H. Dayton, Capt. Johnson purchased the poison at his drug store at 4:30 o'clock Tuesday afternoon. When Dayton enquired for what purpose Johnson wanted the poison, the captain replied in a laughing manner that "he was an assayer and wanted to make a few tests."

It appeared from the appearance of the room that Capt. Johnson had taken off his clothes and had been reclining across a chair, after which he had ransacked his pockets and placed the meager contents on the bureau, including a small knife, \$1.55 in silver, and a letter addressed to his 21-year-old bride, whom he married in Yerington, Nev., only nine months ago. This letter stated that he could stand the strain of misfortune and humiliation no longer.

Mrs. Johnson is prostrated with grief over the death of her husband. Their friends say that they were happy together, and that in spite of bitter hardships, heavy financial troubles and harsh blows which stung his own proud nature, Capt. Johnson concealed his impoverished condition from his young wife to the last.

The Elks' lodge, of which Capt. Johnson was a well known and prominent member, will see that his widow is provided for in her time of trouble. Capt. Johnson is survived by his wife, a brother, Shih Johnson, and his mother, who live at Excelsior Springs, Mo., and three sisters, Pauline, Florence and Amelia. Johnson, who lived 316 east Eighteenth avenue, Denver, Colo.

### ARMOUR & CO. HAVE TWO GREAT PROJECTS

Chicago, Dec. 2.—Two new projects by Armour & Co. were announced yesterday. One was the purchase of the property and business of the Batchelder & Snyder company in the Brighton district of Boston, and the other the filing of a deed on several hundred acres of land at New Brighton, Minn., near St. Paul, where the company will erect a mammoth stock yards and packing plant.

The Boston establishment is one of the finest in the east so far as equipment goes, although not so large as some others. The company owns considerable vacant land adjoining its plant, which will permit of extensions. It is capitalized at \$200,000, and besides the stock and plant, owns two large retail stores in Boston and a wholesale distributing plant.

## READ TO PROCEED AGAINST NICARAGUA

War Vessels at Magdalena Bay Are Ordered to Proceed to Corinto Immediately.

### MARINES WILL SAIL TODAY

None Will be Landed Unless Zelaya's Government Commits Some Hostile Act.

Washington, Dec. 2.—The first step of the United States government toward backing up the declaration made by Secy. of State Knox regarding the Nicaraguan situation, was taken today when the secretary of the navy sent urgent orders to the commanders of the cruiser Albany and the gunboat Yorktown, the two American warships which are now at Magdalena Bay, Lower California, to proceed forthwith to Corinto, the Pacific coast port of Nicaragua nearest to the capital of that country.

### RODRIGUEZ AWAITS ADVICES.

Having promptly informed the Nicaraguan government in a lengthy cablegram that the American secretary of state had last night presented him with his passport, Senor Felipe Rodriguez, charge d'affaires of Nicaragua in Washington, today is awaiting instructions from President Zelaya as to what course he is to follow now that diplomatic relations between Nicaragua and the United States have been separated. He has not believed that the United States through the state department, or when he will go, will depend entirely upon the orders which he expected would be forthcoming during the course of the negotiations. Rodriguez said he had received no further information regarding the progress of affairs in Nicaragua.

Although Secy. Knox in his note last night to the Nicaraguan charge, Rodriguez, intimated that he would be willing to see that gentleman unofficially, the permission has not been taken advantage of, and it is not known whether it is Mr. Rodriguez's purpose to call at the state department before taking his departure from the country. Having broken off diplomatic relations with Nicaragua, it is understood to be the government's purpose to present to maintain a position of watchfulness and preparedness and it is not believed that the intention of the authorities to keep a body of men on Nicaraguan soil, for the present at least, unless some hostile act on the part of the Zelayan government directed against Americans or American interests should make that step necessary.

### AS TO LANDING MARINES.

The troop ship Prairie will sail from Philadelphia this afternoon with approximately 700 marines for Colon. The Buffalo, now at Panama, can sail for Corinto at an hour's notice, and other warships along both the Pacific and Atlantic coasts could land marines or blue jackets within a few hours. Thus the government has the position to seize Corinto or to take other offensive action should the situation seem to warrant.

Information received at the state department during the last few days indicates that the Zelayan army, as well as the Zelayan government is disintegrating.

On the other hand the revolutionists under Estrada are receiving constant accessions and arms and ammunition are being landed in quantities even beyond their needs. Newspaper men who visited the Nicaraguan legation last night were not permitted to doubt that Secy. Knox's ultimatum had produced a complete change of Senor Rodriguez, the charge d'affaires, whom it dismissed, with profound effect. Senor Rodriguez had been at the door and his protestations of amazement at the action of the state department were delivered in a torrent of mingled English and Spanish, to an accompaniment floating down the stairway of sounds seemingly indicating that the Nicaraguans on the floor above were endeavoring to forget all internal complications.

Senor Rodriguez was soon joined by Senor Hazera, the Zelayan minister designate, whom President Taft refused to receive after reception of the news of Zelaya's execution of the Americans, Cannon and Groce. Senor Hazera suggested to his colleagues that he would think it over before communicating his views to the newspaper men, but Senor Rodriguez insisted that he knew perfectly well what he was saying. Then ensued a letter to Senor Hazera, the purport of which the reporters could only guess. Thereafter, Senor Rodriguez returned to Egypt and summoned up the sensation of the legation in a few words: "we are stricken to the heart; we are paralyzed."

### MARINES WILL SAIL FROM PHILADELPHIA

Philadelphia, Dec. 2.—Seven hundred marines equipped for any eventuality will leave the Philadelphia navy yard at 4 o'clock this afternoon, on board the transport Prairie for the Panama canal zone or possibly Nicaragua.

The Prairie originally scheduled to sail tomorrow, with 400 marines, has been ready to leave for nearly a week. The marines are in high spirits and eager to get away.

Besides taking with the 700 marines, the Prairie will carry two field pieces, 800,000 rounds of ammunition and tents and other equipment for the accommodation of 700 men.

### FULL SET OF AUTOGRAPHS OF PRESIDENTS

New York, Dec. 2.—A full set of autographs of the presidents of the United States from Washington to Roosevelt has been purchased by a New York collector. All of the autographs are full length, and with the exception of those of Hayes and McKinley, who are represented by manuscripts of addresses delivered by them. The price paid for the autographs was \$20.

### ITALIAN CABINET RESIGNS.

Rome, Dec. 2.—The cabinet of Premier Giolitti resigned today.

### ALSO PROTOCOL SIGNED.

Santiago, Chile, Dec. 2.—The protocol between the United States for the reference of the Alsop claim to King Edward for mediation, was signed by the government of Chile today.

## WILL DISSOLVE PARLIAMENT

Premier Asquith Advises King Edward to Do it and That Course Will be Followed.

### ELECTION TO BE IN JANUARY

If Liberals Are Returned, First Act Will be Reenactment of the Rejected Budget.

London, Dec. 2.—Premier Asquith announced in the house of commons today that the government had advised King Edward to dissolve parliament and that his majesty had accepted the invitation.

The premier added that if the Liberals were returned to power, the first act of the government would be the reenactment of all the taxes for which provision was made in the budget rejected by the house of lords.

The house of commons by a vote of 349 to 134 today passed the resolution of Premier Asquith to the effect that in rejecting the government's budget bill the house of lords had committed a breach of the constitution and usurped the rights of the house of commons.

Arthur Henderson, leader of the Labour party in the house of commons, announced that the government would have the whole-hearted support of the Labourites.

It is understood that parliament will be dissolved so as to permit the holding of elections between Jan. 10 and 20. The prorogation will take place tomorrow.

### MRS. L. B. DOXEY IS CHARGED WITH MURDER

St. Louis, Dec. 2.—After weeks of labor, and mainly through her own individual efforts, Miss Kate Erder, whose brother, William J. Erder, died suddenly here last July, has apparently succeeded in bringing to trial Erder's former wife, now Mrs. L. B. Doxe, on a charge of murder.

A report to the coroner of St. Louis by Dr. William Warren of Washington university today is alleged to be the chemical analysis of the viscera of Erder established the presence of arsenic in the vital organs. Based upon this information the legislature of New York has issued by Circuit Atty. Jones of St. Louis against Mrs. L. B. Doxe of Columbus, Nebraska, who was Erder's wife at the time of his death.

### WOMAN SUFFRAGE ADVOCATES RAISE FNUDS

New York, Dec. 2.—Woman's suffrage advocates throughout New York state are raising a fund of several thousand dollars to promote a suffrage bill before the legislature of New York this winter. Several large mass meetings in the state capital and in the home towns of prominent state senators and assemblymen are to be held, and it is said that some of the militant methods of the English suffragettes will be tried on legislators who refuse to treat the women's demands seriously.

### ARRESTED FOR ALLEGED SWINDLING IN REAL ESTATE

Baltimore, Md., Dec. 2.—On a charge of obtaining money by false representations, three New York men who gave their names as William Eastwood, John B. Dixon and John McKnight, are being held here. The men have been seized on a charge of swindling in real estate. They are alleged to be some 36 feet under the waters that surround Long Island. Testifying in their own behalf the accused declared that they had never seen the land which they are alleged to have sold, they were sure it was a fine, dry land, intersected with railroad lines.

Their plan of operations was to inform a person that he had won a lot in a drawing, to transfer which would cost \$6 and to offer him an adjoining lot for \$50.

### PREST. TAFT HAS COMPLETED MESSAGE

Washington, Dec. 2.—Having completed work upon his message last night, President Taft began receiving congressional and other visitors today. The message is now in the hands of the public printer.

Several visitors during the day talked to the president about portions of his message. Among those were representatives of the Senate and House of Tennessee. Both men are deeply interested in the establishment of a bureau of mines and mining. Mr. Douglas is telling the president that if there had been such a bureau with up-to-date methods, the horrible disaster at Cherry, Illinois, probably would have been averted.

The president has made a recommendation for such a bureau. Representative Austin stated that the United States was far behind all other countries in measures to prevent mine disasters. He not only thinks that there should be a bureau as urged by Representative Douglas, but he wants the president to do all he can to secure a large appropriation for the continuance of an experimental work provided by the last Congress, which appropriated \$150,000.

Foreign countries have reduced the death rate from accidents in mines from four to five per 1,000 to less than one in each 1,000 miners, said Mr. Austin. "It is the duty of the United States to do something for its miners."

### WEATHER REPORT.

Snow and Colder Tonight; Friday Fair.

### TODAY'S TEMPERATURES.

6 a.m. .... 22  
8 a.m. .... 21  
10 a.m. .... 21

## ROADS IMPORTING STRIKE BREAKERS

At St. Paul Effort Being Made To Restore Normal Traffic Conditions With Coast.

### SWITCHMEN SEEM SATISFIED

At Seattle Non-Union Men Are Being Employed—Firemen Will Stand By Agreement.

St. Paul, Dec. 2.—With the importation of strike-breakers from Chicago and other points and the pressing into service of other employees of the roads, the railroads of the northwest that were affected by the strike of the switchmen's union of North America, which went into effect Tuesday evening, began their first real work today in trying to restore normal traffic conditions between here and the Pacific coast.

Local warehouses were open today and the roads accepted limited freight shipments to points in Dakota and Montana.

Despite the efforts of the railroads there was no noticeable improvement in business conditions in the Twin Cities this morning. In Minneapolis all of the flour mills, with the exception of one of the smaller ones were stopped and the cessation of this industry alone threw about 5,000 men out of employment.

It is stated that the mill men will lose \$75,000 a week in wages while the mills are closed and that the loss of business to the milling concerns will amount to \$700,000 a day.

At the head of the lakes where the most important industries are chiefly dependent upon traffic conditions a continuation for a few more days of the present congestion will force 10,000 men out of employment.

Reports were circulated this morning that the entire Brotherhood of Railway Trainmen will be called out in the affected territory but these reports could not be traced to an authentic source.

The switchmen appeared to be satisfied with the situation and were particularly pleased with reports from the west of the trainmen joining the strike and the action of the switchmen in demanding an increase in wages.

Pickets of the striking switchmen report that about 100 strikebreakers were brought into St. Paul today and that they were distributed about the various Twin City yards.

### SLADE'S STATEMENT.

An official statement issued by General Manager Slade of the Northern Pacific railway agency showed that there are one or more yard engines working in every yard, some, of course, manned by yardmasters and other officials. The coal trains are now moving between Duluth and St. Paul. Four trains of grain and miscellaneous freight were moved into Duluth yesterday from the west and two trains of coal for the west are now in transit from Duluth.

Way freight service is re-established on practically all parts of the main lines and the trains properly switched in the yards.

Freight houses at St. Paul, Minneapolis and at most of the large stations on the line are beginning to receive freight for these points on the line to which such business can be handled without delay.

Freight movement, from many points on the line reports are coming in that additional switching forces are being secured.

### ROADS AT SEATTLE EMPLOYING NON-UNION MEN.

Seattle, Wash., Dec. 2.—The Great Northern and Northern Pacific railroads are employing non-union switchmen today. Officials say that freight train service will be restored within a week and that they have the assurance that the road will not be a sympathetic strike of other classes of employees.

President W. S. Carter of the Brotherhood of Locomotive Firemen gave the following instructions to Seattle firemen:

"Our men should perform such duties as our agreement requires them to perform."

Under the agreement the firemen will not strike the trains if required. President A. R. Garretsen of the Order of Railway Conductors sent this message to the Seattle conductors:

"Men in train service will continue to do what they have done up to this time. If we have men in yard service they must choose for themselves whether or not they will cast their lot with the organization on strike."

Two Great Northern crews and one Northern Pacific crew handled passenger trains at the Union station last night. The switchmen were non-union men and the foreman a former yardmaster.

All passenger trains are moving on time except for delays due to high water and landslides.

The Northern Pacific will send out two local freight trains on the Seattle-Tacoma run today.

The Northern Pacific superintendents here engaged several former railroad men to take the strikers' places. The new men are promised permanent employment at the new scale of wages. The railroads have not advertised for men but are taking all applicants who have had experience.

### OFFICIALS AT PORTLAND RAISE THE EMBARGO

Portland, Or., Dec. 2.—By drawing men from other branches of the service the Northern Pacific was able today to raise the embargo caused by the switchmen's strike in so far as it applied to Portland terminals. But there was no break in the strike itself.

The Northern Pacific has rescinded, temporarily at least, an order prohibiting the acceptance of perishables and less than carload lots for points on the Northern Pacific between Portland and South Tacoma on the main line and to points west of Pe-Ell on the South Bend branch and to all points on the Olympia branch.

Following the withdrawal of the order the Northern Pacific was able to get out a considerable string of cars for the Puget Sound country. What disposition would be made of the cars at South Tacoma was problematical.

Shipments to the territory mentioned are accepted only with the understanding

ing that the company cannot guarantee delivery of the consignees' sidetracks. Shipments are not being accepted for any other points on the Northern Pacific or Hill system.

### LOCAL SITUATION AT MISSOULA SATISFACTORY.

Missoula, Mont., Dec. 2.—Acting Supt. M. M. Fowler of the Northern Pacific announced this morning that arrangements have been made to start local freights in all directions over the Rocky Mountain division tomorrow morning. This morning a local freight train was started from Helena bound for Missoula. The superintendent says the local situation is satisfactory as far as the fuel supply is concerned, the yards and docks being amply supplied.

Switching was done in Missoula today by General Yard Master Haubach with the aid of officials from the round house and general offices.

Chas. W. Jennings of the strikers, stated this morning that he was pleased with the outlook. The men are united and propose to stay out until their demands are complied with, he announced.

### UNCHANGED AT BUTTE.

Butte, Mont., Dec. 2.—At noon, the local strike situation was unchanged. As long as the Oregon Short Line remains open, no further mines will close and there will be no great want.

### NO CHANGE AT HELENA.

Helena, Mont., Dec. 2.—There is no change in the strike situation today. Passenger trains on both the Great Northern and Northern Pacific are moving on schedule time. An effort was made tomorrow to move freight on the Northern Pacific.

### TRAINMEN WILL STAND BY THEIR CONTRACTS.

Spokane, Wash., Dec. 2.—The Brotherhood of Railway Trainmen, while sympathizing with the striking switchmen, does not intend to break old contracts with the railroads, according to orders issued today from the general brotherhood headquarters. These direct that the men should stand by their contracts in a switch yard and have a contract with the railroad, they shall keep the contract and continue at work. Where the brotherhood is so the minority and does not have a contract covering the yards, its members are advised to "re-sign" and quit work. This latter condition prevails in Spokane, where the men are employed in the switch yards have walked out.

The Great Northern has sent out several freight trains from Hilary in the last 24 hours, officials and office men attending to the switching. The Northern Pacific, while not so active, is handling some business that needs immediate attention.

The switchmen here have offered to furnish a patrol and guard the railway tracks is necessary to prevent any attempts at violence or damage.

### SWITCHMEN WILL KEEP OFF RAILROAD PROPERTY

Tacoma, Wash., Dec. 2.—As a result of the switchmen's strike it is understood the newspapers of the northwest are preparing to charter a fast steamer to bring the strikers back from Oregon and California mills.

At a meeting of the striking switchmen it was decided that the men should keep off railroad property and out of saloons, and that pickets be sent to see that if vandalism is committed, it cannot be charged to the switchmen.

## TRIP OF U. TEAM IS CALLED OFF

Owing to Bad Weather There Will be No Game Between U. of U. and Branch Normal School.

Word was received at the University of Utah this afternoon that the proposed practice game between the U. of U. football team and the Branch Normal eleven of Cedar City has been called off and the U. eleven will not make the trip. They had planned to go to Cedar City this evening, but the weather is so bad at Cedar City it was decided to call off the game.

Friday afternoon at 4:15, George M. Bacon will lecture to the engineering students on the relative value of college and practical training. Rev. Elmer A. Goshen will speak at chapel at 11:30 Friday morning. This evening the German club will meet again and there will be solos in German and refreshments will be served. The "scribblers" meet at 8 o'clock in the athletic field.

Saturday a big crowd of students will start work playing on the athletic field which will not be a spring sport. Work is to be installed and after the boys have dug the trenches, dinner will be served to them.

This afternoon there is a basketball game on between girls' teams, the Omegas and Alphas.
