READ THE WONDERFUL RE.

Mr. Duncan says: "I have lived in Utah FIFTY-ONE YEARS, and guess a good many people know me, and know that my word is good. I have suffered on and off, by spells for ten years with Bronchial Catarrh and Lung disease -and have taken bottle after bottle of medicine with no relief until I came to Drs. Shores. My cough was something terrible-I cannot find words to flip describe it. It fairly shook my body when I coughed and I raised yellow pus from my lungs. I grew weak as a baby before and after these spells, and finally went to Drs. Shores, the experts. I have been under their treatment just one month and MY COUGH HAS ENTIRELY STOPPED-1 do not raise any mote pus, and I am so much better that I do not know how to nge. rou me that Drs. Shores are simply wonderful and I heartily recommend them to my triends. "HOMER DUNCAN." (Signed)

THE WEEK'S STOCK MARKET.

New York, Jan. 27 .- The market has continued dull and narrow during the week with trading restricted to the hands of foreign arbitrage brokers and professional traders. Prices moved quite sharply in sympathy with Londor on war news, but without attracting any increase of activity. The money market showed increasing ease without attracting any demand for stock market operations, owing partly to some skep-ticism over the continuance of easy money conditions. The reflux of money

into reserve funds showed some falling off, but still continued. The absorp-tion of bonds also declined with some price reactions.

Fred Mitchell Takes Charge of the Mascett Property Today. Fred Mitchell, who is interested with P. T. Farnsworth in the New Pass gold mine in Nevada, went out to Bingham today to take charge of the claims pur-

chased by Mr. Farnsworth and associ-ates from the Dalton and Lark company for \$300,000. An active campaign development is to be inaugurated 11 the property; now called the Mascot distinguish it from the small fraction of property now owned by the Dalton

RICH COPPER ORE.

A Two Car Shipment Comes in From the Grand Gulch.

The Grand Gulch property in Northern Arizona is proving up well. It re-ported today on the market with another 2-car shipment of rich copper ore This lot is thought to be hardly as rich in the red metal as previous shipments red metal as previous shipments But if it should fall a small per cent behind other lots, it will still be classed among the richest copper consignments which have reached this city. With the Savanic, its neighbor, producing a 45 per cent grade of ore and a steady stream of ore from the Grand Gulch it would appear that ere hig the attention of mining men will be specially drawn to the possibilities of that district. ORE FROM COLUMBIA

Runs High in Silver and Contains

Crystalized Lead.

S. Hubbard went out to the Columbia property today, where he intends to remain for a few days in-specting the workings which have disclosed a body of good ore. Some of the samples show 100 ounces in silver besides running high in lead, which, as a general thing, assumes the crystal-ized form. About 800 feet of work has on the property and aldone though nothing sensational has been developed as to the size of the ore bodies, some rich streaks have been encoun-tered, which may pay handsome re-turns if followed to greater depths. Negotiations are now being carried on with the view of disposing of this prop-

erty to eastern parties. BUNKER HILL STRIKE.

A Streak of Rich Galena Has Been

Opened Up. Assay returns were given out yesterday afternoon from some ore which was encountered in the Bunker Hill of encountered in the Bunker Hill of Stockton last Wednesday evening. The ample assayed contained 77.5 per cent ead, 16.96 ounces silver, and \$4,13 in gold per ton. It is said that a streak of good looking ore was opened up which rapidly widened from a few inches to something like two feet. It is said that a streak, of

THE MERCUR MINE. Resolute Tunnel Will Curtail Ex-

penses During Present Year.

The editor of the Mercur Miner refers to a visit to the Mercur mine in part as follows: The most important plece of development work has been the sinking of the apex incline and the running of the Resolute tunnel. The former is being sunk with the forma tion but at a steeper inclination so tht it cuts all the veins. It has reached, depth of 650 feet and drifts are run off into each vein and by this means all the veins can be worked and the ord taken out from the one incline. There are two forks to the incline the no fork extending down to the Golden Gate ground near the hospital. This will enable all the ground to the north of the railroad tracks to be worked out. The new Resolute tunnel runs on the strike of the formation below the third in and will be extended to the south side line of the ground, a distance of 3,500 feet. It has been driven through hard lime for a distance of about 2,000 feet at a cost of about \$20 per day. If is a fine piece of work and will tap some great ore bodies. It is also being driven from the west end of the prop-

tute the board of directors. The objects of the Metal company are the buying, selling, leasing, bonding and developing mining properties. W A. Byers is president and treasurer, J. L. Parkes, secretary and H. W. Hart-

Head offices of both companies will be in Salt Lake City. THE WEEK IN BINGHAM.

Petro Ore Bins Full-Milling Ore in Dixon-Bingham Tunnel.

In a review of the camp the Bingham Bulletin says: A carloar of Greely ore went out Wednesday.

Standish and Jimpson are bringing down a shipment of Ashton ore. The Phoenix is raising ore and is expected to resume shipments about the first. There were four cars of Niagara con-

centrates from Brooks' mill on the mar-The Highland Boy train carried down

300 tons of ore Monday. Average for week about 240 tons daily. Teams of Standish & Jimpson are this week hauling Niagara concentrates from Brooks' mill and Galena easers' ore. Dalton and Lark property under con

tract to be sold to Manager Farnsworth and associates, includes twenty-two claims and the tramway. Among shipments this week were

three cars of fine ore from the Silver Shield, and more will soon follow from this coming big mine. Petro ore bins are full to overflowing,

but the ore cannot be moved until there Same condition at George snow. Wingate's lease on the Northern Chief. The Dewey mill has plenty of ore in sight, but much is hung up in places in-accessible until there is snow. It is econd grade, of which we understand

there will be several huundred tons. Yesterday Tom Mayne went to inspect the road to the Ashland, reports it impassable owing to accumulation of The Ashland has a large dump which will be concentrated at Dewey

The Bingham Copper and Gold Mining company holds its annual meeting in Jersey City, N. J., next Wednesday, when important action will be taken regarding the proposed smelter at Bingham Junction.

Work was begun Saturday on con tracts to run drifts 100 feet right and left from bottom of Dixon incline, which s down 430 fet. They will open up 160 feet of virgin ground below old work-ing from which a big yield of the old Dixon was taken. These workings having been pumped out are found to be in good shaps considering length of time they have been submerged. They are

showing large quantities of milling ore that, after timbering is repaired will begin to move to the Dewey mill. A good start has been made on the

shaft at mouth of Keystone gulch to connect with Bingham tunnel, sinking having begun a couple of weeks ago. Orading for power house is completed, and motor, hoist and compressor will be here some time next month, when the building will be ready for them. The shaft will go down about 425 feet to tunnel level. To date the tunnel has been driven 1,750 feet, and with power drills is now traveling at a good jog. The total distance from tunnel site to

shaft, from which latter several head-ings will be run, is about 4,350 feet. MINING NOTES.

A car of West Argent ore was sold today.

A car of Eagle and Blue Bell ore was on the market today.

The Swapsea of Tintic marketed five ars of ore today.

The Mammoth took down the returns from two cars of ore today.

Four cars of ore were on the market today from the Ajax of Tintic. The Centennial-Eureka had sixteen

cars of ore on the market today. The South Swansea of Tintic had five

cars of ore on the market today.

THESE ARE THE KIND OF CASES THAT MANY DOCTORS SAY ARE "INCURABLE." IT ONLY DEMON. STRATES THE FACT THAT NOTH-ING IS INCURABLE UNLESS DRS. SHORES HAVE TRIED IT AND PRONOUNCED IT SO.

Mr. Peters says: "I came to Salt Lake from Ouray, Colo., in hopes of getting well-or at least relief. I have been ailing about a year, with an unknown trouble, which affected me so I could not walk a block without resting. I felt like I was choking to death-had

a dry, hacking cough, lost twenty pounds in weight and grew weaker every day. I went to Drs. Shores less than two months ago and began a course of treatment. I soon began to mend under these Doctors' care, and IN FIVE WEEKS HAVE GAINED 11 POUNDS AND AM FEELING BET-TER ALL OVER. I am not only pleased, but surprised at the result of this treatment and can heartily rec-ommend it to all my friends. (Signed) CHAS. PETERS." 264 Main St., Salt Lake. TER ALL OVER. am not only

The Bullion-Beck of Eureka had five cars of ore on the market today. The Nevada Mining company market-

ed its first car of ore from Galena, Nev., today.

The Lower Mammoth assessment of five cents a share became delinquent today.

The price of four cars of ore from the Horn Silver of Frisco were added to the company's treasury today.

Frank Ensemperger has arrived from California and reports a boom in the oil districts of that State.

The one-cent assessment of the Congor Gold and Copper Mining company becomes delinquent on the 29th inst.

The Conklin sampler reported sixteen cars of ore from Tintic, two from Arizona and one from Stockton today.

The Refinery receipts during the week closed today with 300 pounds of gold cyanides from the Sacramento of Mer-

George Small is in the city from Idaho where he has been making an examination of the Annie group near Salmon City.

The Taylor-Brunton sampler reported one car of ore from Bingham, nine from Tintle, four from Frisco and one from Nevada today.

A car of ore from the Acme property at Bingham was on the market today. The Euseka Hill reported today with another three car lot of ore.

Altogether about 22,000 shares Four Aces stock has been sold on which the late assessment was delinquent. Most of the stock was bid in by officers of the company.

C. B. Markland of the Conklin sam-pler was selzed with a fainting spell a few days ago and is exhibiting the efcommercial circles during the week; the one feature of strength in local stocks has been the continued advance fects of the fall by a few scars on his in Deseret Savings bank which sold at face. \$140 today. This is of course due to
