RELATIONS WITH AMERICA

Most Friendly-Those With France Require Alertness and Preparedness For Any Eventuality.

Berlin, Nov. 14 .-- Chancellor von Buelow, from the place in the reichstag where he fell unconscious seven months ago, spoke for 45 minutes today on Germany's foreign relations, the highly interested audience including Baron yon Achrenthal, the Austro-Hungarian foreign minister, Ambassador and Mrs. Charlemange Tower, several other ambassadors and quite 50 members of the diplematic corps. Princess von Buelow sat in the court box.

During the course of his speech Chaucellor yon Buelow said:

"Our relations with the United States continue on a most friendly basis, resiing, as they do, upon historical and natural reasons. The frontiers of the kept in the background. In order to smooth our economic relations it will be necessary to arrange a mut-nally beneficial agreement in an oblig-ing spirit. As both sides have this spirit, it seems impossible that we should not corze to an understanding."

When the refersting was called to or-der. Herr Bassermann, National Lib-eral, following up his question of yesterday, asking for information re-garding the country's foreign relations said that since Prince Bismarck left Germany, respected and loved by her neighbors, the country's foreign policy has entered on a period of journeys, speeches, telegrams and courtesies-a period of unsteadiness which caused disquiet not only at home but abroad. He then alluded to reports that

group of spiritualists have influence at court, saying that from what one group of spiritualists have influence at court, saying that from what one had read during the last few days, "the suggested spiritualistic romances and backstairs history reminded one of the Byzantine period, like its flatterers, or the cabinet of William III, or the cabal under Emperor Friedrich Wilhelm

IV." The statement was greeted with cries of "quite right" from various parts of the chamber. Herr Bassermann then described Ger-many's position among her neighbors as isolated, saying she had no firm friends, not even Italy or Austria. Thancellor von Buelow's reply was especially marked by his old-time clearness of elocution and harmonious succession of sentences, but there was less vivacity and lightness of style than formerly. than formerly.

After thanking the members of the house for their expressions of sym-pathy during his illness, the chancelfor referred to the relations between Germany and France. He related a conversation which he had with the Jate Leon Gambetta, in which the French statesman said: "France has sunk to her knees." Buelow's reply was, "Up and

The United States had only a slight measure of interest at Algeciras, and took a re-served attitude, but throughout it was impartial. The United States' excelrepresentative, Mr. White, esteemed by all of us, took advantage of every opportunity to harmonize an-tagonisms and to contribute to an agreement honorable for all the states cerned. That was the second great service the United States has contributed to the peace of the world. The first was assisting in the restoration of peace between Russia and Japan."

New York, Nov. 14 .- Senator Thomas C. Platt and his wife, formerly Mrs. Lillian T. Janeway, have agreed to sep-arate. The law firm of Marsh, Winslow & Wever, acting for Mrs. Platt, made the announcement today. The deed was signed by both, but not in the presence

of each other, and reads as follows: "Owing to unhappy differences beween them, the undersigned have this tay executed a deed of separation. While making such an announcement, we wish to assert with all possible em-phasis the falsity of the scandalous articles which have lately appeared in the public prints. While there have been a series of differences and disputes which seem to make a separation advisable, there has been no conduct upon the part of either which could possibly be the foundation of the divorce action. when Mr. Bryan stepped to the front of the platform he was accorded a most enthusiastic reception, practically all those in the hall rising to their feet, waving handkerchiefs and hats. The onstruction lasted several minutes.

Mr. Bryan, in opening his address, said he was glad to be a delegate to the First Presbyterian Brotherhood con-vention, and he rejoiced especially that there were no contesting delegates. He said it had not always been so in the past. The speaker said he began church life as a member of the Cumberand Presbyterian church when he was 14 years of age.

PEARY'S WHEREABOUTS.

Halifax, N. S., Nov. 14.-Inquiries by wire sent to different points elicit no new information as to the present loca-tion of Commander Peary's Arctic steamer, Roosevelt, and it is impossible to tell definitely whether the steam-er has yet left Battle Harbor, Labra-

dor, as the nearest telegraph office is at Chateau Bau, and at this late date ommunication by fishing boats between the two places is practically sus-pended for the winter. From Battle Harbor the explorer announced his intention to proceed direct to North Syd-ney and terminate his voyage there, so it is probable the steamer would come through the Strait of Belle Isle and Gulf of St. Lawrence, instead of passing outside the island of Newfoundland.

So far as known, the severe storms which have laely swept over the gulf, did not extend to Labrador, and it is difficult to account for the Roosevelt's detention at Battle Harbor, if the steamer is still at that point, unless she was compelled to remain there to make repairs. Captains familiar with the navigation of these waters think the Roosevelt should reach North Sydney this week.
