

Frank Wilson, the manager of the Elko Gold and Copper Mining company, and who is likewise looking after the interests of the new company. Mr. Wil-son says that a vein of ore has been untered in the new tunnel which has been run in on the ledge, which opens out to four feet in width and which is giving forth some astonishing assays. Two samples of ore taken across the veln at different points, one assayed 2 ounces in gold and 40 ounces in silver, and the other taken nearer the surface, went 1 ounce in gold and 30 ounces in silver ounces in silver.

Two shifts of men are now engaged running the tunnel and pushing it with a will. President Keogh said this morning that the tunnel was started with the intention of reaching two pipes of ore, which were known to exist between 300 and 400 feet from the mouth and that the ore encountered was a genuine

All of the stockholders are Salt Lake cople and they feel that they have in the property a bonanza.

Overland Matters.

Manager Duncan of the Overland has returned from his trip to the mine. He reports progress in the work of putting up the mill, which he says is nearing completion. He says that this will claim his attention for some time and that he has not yet mapped out the course he will take with regard to the Chloride Point mine, of which he has lately been appointed the receiver.

South Country Booming.

P. T. Farnsworth, who has just re-turned from a trip to the Horn Silver mine, says that the old producer is going on about as usual without very much change from week to week. In speaking of the country around the Horn Silver, he said that greater ac tivity was manifested than ever before The system of gophering in the ground which has so long prevailed in the district was giving way to deep mining and that astonishing results would be seen in the near future. The Casting mine has sold was working as Cactus mine, he said, was working a large force of men and the ore bodies ing opened up were fine and of grea extent. The Imperial was fast becom ing a mine, in fact he confirmed the report lately brought up by Mr. L. N Morrison, which recently appeared in the "News."

Are Confident of Winning.

Monrow Wilkinson, of the Mammoth mine, is up from Tintic. Mr. Wilkin-son says that everything around the property is looking fine and work pro-gressing without a hitch. The ores in the old bonanza are showing up better than ever. Mr. Wilkinson says that the miners around Eureka and the other towns of the district, are already forecasting the outcome of the great suit now in progress, and according to him are confident that the Mammoth will come out on top.

A Colossal Smelter.

Nogales, Hriz. Ere, 10.-It is learned on good authority that George West-inghouse of Pittsburg has bought the entire Buena, Vista grant, comprising seven thousands acres of land, and in-tends to erect at some point on the Santa Cruz river colocal reduction works and smelter and build a railway cing the rolnes, the reduction works and Nogales.

Colombic Miners Excited.

Spokano, Wash., Dec. 16.-A. spo ta the Chronicle from Nelson, B. the the chronicle from Melson, in the brings news of a stampede up Fourth of July Creek, a branch of the K tile river. Shot gold has been discovered, with ground running \$10 to the cubic yard. Diggings in that vicinity have been secretly worked by George Arnett, an old minor for these years its an old miner, for three or four years. I is estimated he has cleaned up \$10 000 strike extends on both sides of the British boundary.

d Steel Car preferred, Lackawanna and Federal Steel. Material ad-vances were made by North American, General Electric and the Rubber preferred and American Smelting was run up to 51%, but the movement did not help the other steel stocks. While the Erles fell away, Ontarlo & Western, continued upward, touching 25%. At midday the market was heavy, but almost stagnant.

Bonds were less active but strong generally for the medium priced issues. Very large buying orders appeared in the Reading stocks which lifted the first preferred an extreme 21/2, the sec-ond preferred almost as much, and the comomn 1%. Union Pacific preferred advanced 2 points. The persistant strength in the Readings sustained the market to the close, which was steady at about the best prices except for the steel stocks.

MINING NOTES.

Three carloads of Clarissa ore is at sampler. Horn Silver is up with a shipment of

two cars of ore. The Star Consolidated has four carloads of ore in today. One car of ore is reported from the

Albino of Bingham. Ten carloads of Centennial Eureka ore came in last night.

Mr. John Dern has returned from his trip to the coast. Uncle Jesse Knight's Humbug mine came forward today with a cor of high-

grade ore. The Boston Consolidated people have

a carload of ore on the market / lay. Senator Clark's Bonanza, the Ophir Hill, had sixteen cars of ore in today. Mr. McVichie of the Bingham Gold and Copper company, came up from the mine leat eight

the mine last night. Twenty-four cars of ore were re-ceived by the Taylor and Brunton sam-

pler people today.

was broken into on that property has not as yet been thoroughly explored.

An assessment has been levied upon the stock of the Snowflake of Tintle. William Compbell of Sliver City has been elected mining recorder of Tintic mining district, filling the position left vacant by the death of Joseph Gerber. The Mammoth Mining company will pass their regular dividend for Decem-

ber, but will come to the front in January.
