AMERICAN.

Wired from Washington.

WASHINGTON, 2. — Senator Hill left Washington this evening for Colorado. Before his departure he was asked if he had anything further to say at present with reference to his controversy with the Secretary of the Interior. He replied: "Every statement contained in my letter is strictly true. Teller will seek to break its force by a general denial, but upon some points he will have to face the evidence. The effort to make a diversion by an indirect charge (on the alleged authority of friends of Secretary Teller) that I bought my seat in the Senate is unworthy of notice, and has no foundation to rest upon. If it had been, he would have used it against me long ago. The truth is, neither Senator Chilcott nor any responsible person has pressed me to make such charges. The nearest approach to it was contained in a card from Senator Chaffee, in which he said that my election had, according to my own statements, cost me $28,000. This statement was so vague that I never deemed it worthy of notice, since Chaffee might have referred to legitimate contributions made by him to my party in the State. Whatever charges I have made against Teller have been made over my signature; if he will adopt a like course and be responsible for statements that I furnished, used or caused to be used money in a corrupt or illegitimate manner connected with my election to the Senate, I will afford him, at the earliest possible day, an opportunity to prove the charge."

Vice-Admiral Rowan has asked to be relieved from the duties of Superintendent of the Naval Observatory, and Secretary Chandler has appointed Commodore Shufeldt to succeed him. Commodore Shufeldt will, on the 6th of this month, be promoted to Rear Admiral, as on that date Rear Admiral E. R. Calhoun will be placed on the retired list. It has been decided to give Shufeldt command of the Mare Island Navy Yard, but now some other officer will have to be sent to that point.

The President has made proclamation of the supplementary extradition treaty between the United States and Spain.

The President has appointed Geo. Little, of Plum Creek, Nevada, postmaster at that place.

The President has selected Boston, Atlanta and Chicago as the names for the three new steel cruisers.

Late advices from New Mexico say reports of Indian marauding are rife again. Muchacho, a negro renegade, and Mescalero Apaches, with 20 of Victoria's old band, attacked a pack train a day or two ago near White Sands, and three companies of cavalry have started in pursuit. Another smaller band raided a ranch at Alamo Springs, Col. Forsythe has sent two companies of the Fourth Cavalry after them.

A special meeting of the Cabinet was held to-day to consider the civil service regulations now awaiting the President's action. All the members were present except the Attorney General. The session lasted two hours and a half, and the regulations as presented by the civil service commission were agreed to without substantial changes, although it was deemed advisable to change the mode of the expression of certain rules. There was one question which the Cabinet found difficult to decide. The custom which is now observed in making appointments in the several Executive Departments, and which in the Treasury has the force of law, is to distribute them among the States and Territories upon the basis of population. It is questioned whether a strict adherence to this rule would not in many cases hamper the administration of the civil service, and a majority of the members of the Cabinet incline to the view that appointments under the new civil service rules should be made strictly upon merit, as determined by competitive examinations, regardless of the residence of the successful candidate. A decision, however, has not yet been reached by the Cabinet upon this point. Eaton, Civil Service Commissioner, said this evening that one of the clauses of the new civil service law provides that appointments shall be distributed among States and Territories in proportion to population, as far as practicable, but as this clause comes with several others under a common head, the propositions of which are to be carried only as far as good administration of the law will permit, he did not think it would prove a source of much difficulty. He said, further, that it should be borne in mind that the law had nothing to say with regard to the proportion in which the several States and Territories are represented in the apportionments already made, and that the present representation of the States and Territories would not be taken into consideration in determining future appointments, as the law refers solely to appointments hereafter to be made. Also, that, as the provisions of the law in question relates to appointments, not to examination, of course, the examination could be made, he said, with a view to supplying the appointing power with proper material. The President will approve the regulations as soon as they shall have been altered to meet his views.

Judge Lawrence, First Comptroller of the Treasury, rendered a decision to-day in favor of the St. Louis & San Francisco Railroad Company upon its claim for transportation of stationery on account of the United States from St. Louis to the collector of internal revenue at Springfield, Missouri.

Robert J. Creighton, special postal commissioner from New Zealand, had an interview with the Postmaster General on the subject of the transportation of the English and Australian mails. Creighton pointed out the advantage which the United States derives from the transportation of these mails across the continent from New York to San Francisco; complained of the heavy subsidy which the Australian colonies were obliged to pay the Pacific Mail Steamship Company for carrying them from San Francisco across the Pacific, and suggested that it would be only fair if the United States should bear its proportion of the expense. The Postmaster General replied that he had no authority to take the course suggested, but would lay the matter before the President. Officers of the Postoffice Department say the present arrangement by which the English and Australian mails are sent across this continent is advantageous to this country, chiefly so on account of the facilities which it affords the U. S. Postoffice Department in the matter of handling its own Australian mails.

Comptroller Knox reports the number of new national banks organized during the past six months to be 132, with a capital of $14,938,000. Arranged by geographical divisions, the number of banks organized in the New England States is 5 with a capital of $275,000; in the Middle States, 23, with a capital of $1,893,000; in the Southern States, 26, with a capital of $2,160,000; Western States, 70, with a capital of $7 680,000; in the Pacific States, 48, with a capital of $510,000. Twelve of the banks organized having a capital of $2,600,000 are banks which allowed their corporate existence to expire, but are revived with other banks in the same localities. Twenty three other banks having a capital of $3,836,000 have gone into liquidation during the last six months; increase in circulation, $1,399,700.

The Strikers.

PITTSBURG, 2.—Complete reports from the railroad coal district in which the strike was inaugurated yesterday, state that all the miners have joined the strike against reduction save those employed by W. P. Rend & Co. and the Cherry Hill Coal Company. A delegation of strikers headed by a martial band will surround these pits this afternoon, and remain until the men at work join the strike. The operators are preparing to have the strikers kept off their property, but no violence is anticipated.

The miners' secretary, Flannery, states that he has offered on behalf of the miners to arbitrate the dispute under the provisions of the Wallace arbitration act, signed by the Governor a few days ago. The operators decline to say to-night whether they will accept the proposition. Nearly all the mills in the city are out of coal, and many will have to shut down for a day or two, until arrangements are made to obtain a supply by river.

The conference committees of the iron manufacturers and amalgamator's association meet to-morrow to to settle the rate of wages for the next year. The general opinion is that they will not agree, and that a strike will ensue.

St. Louis, 3.—The Union stone cutters and plasterers went on a strike to-day. They presented a demand on the bosses yesterday for an increase from $3.50 to $4 per day, and the establishment of a uniform rate. The employers refused to accede, and this morning about 500 stone-cutters and 600 plasterers quit work. The brick-layers will to-morrow demand an increase of a half a dollar a day, which the bosses will not accede to, and they will probably strike. There are rumors of the usual spring strikes in various trades.

Shenandoah, Pa., 2.—Work at the colliery of the Lehigh Valley Coal Company was stopped to-day by the strike of the loaders. They have been loading twenty-two cars a day, but now refuse to load more than sixteen; hence the strike.

Philadelphia, 2.—After a prolonged session, the cigar makers' assembly of the Knights of Labor decided to postpone for a week the strike for an increase of a dollar a thousand.

New York, 2.—Collector Robertson is authorized by the Secretary of the Treasury to pay the increase demanded by the striking weighers.

The Canadian Pacific.

MONTREAL, 2. — The trustees of the Canadian Pacific Railway land grant mortgage, C. F. Smithers, President of the Bank of Montreal, John Hamilton and Samuel Thorn of New York, in the presence of D. D. M. Marler, notary public, took a note of and destroyed bonds to the amount of $1,197,500, received in payment for lands sold by the company. The bonds were issued in October, 1881, twenty millions remaining in the hands of the Dominion Government, pledged for the execution of the contract. Sales of land to the amount of $18,000,000 have been made, and as the bonds are received in payment for these lands at 10 per cent premium, the balance of the purchase money remaining due on the entire land grant bond issue amounts to about $2,000,000. Those destroyed represent payments made on account to the month of March. It is expected at least $10,000,000 more will be cancelled the present year.

The Catalogue of Crime.

KANSAS CITY, 2.—Sheriff Mason, I. Bowman, and Major A. J. Fountain, of New Mexico, with a posse of government soldiers passed through this city to-day, en route for Fort Leavenworth, having in charge John Kinney, known as the King of the Rustlers, and eight members of his band, under sentence of imprisonment at Fort Leavenworth. His gang has been for a year a terror to citizens throughout New Mexico and Texas, and he has carried on systematic depredations, chiefly in cattle stealing during, Major Fountain said, some six months. Twenty-three were captured, and 14 sentenced to jail in New Mexico and Texas.

Summitt, Miss., 2.—In a difficulty between Isaiah Cain, a prominent farmer near Little Spring, Franklin County, and Amos Bailey (colored) last Saturday, the latter struck the former over the head, and Cain died on Monday. Yesterday, fifty armed men took Bailey from the Sheriff's posse and hanged him.

Baltimore, 2.—*Sun's* Benton special: The jury in the trial of Mrs. Beauchamp for the murder of her husband returned a verdict of not guilty. James A. Heern, indicted as accessory, was acquitted by order of the court.

Washington, 2. — The Superior Court in general term to-day heard the argument on the appeal by counsel for Capt. Howgate from the decision of Justice MacArthur, dismissing his application for vacation of attachments aggregating nearly $100,000 against Capt. Howgate's property because the suit had been brought by special counsel instead of by the United States Attorney.

Helena, 2.—Henry Forham was hanged in the jail yard here at noon to-day, in the presence of the officers of the Territory and a few spectators. He preserved a stolid demeanor, and up to the last moment gave no signs of weakness. He left a will bequeathing his body to the surgeons.

Chicago, 2.—*Daily News* New Orleans: John O'Callaghan challenged his brother-in-law, Michael Nealen, to a pistol duel, owing to alleged slanders uttered by Nealen against the former's family. They met last night on Decatur street, and fired at fifteen paces. Nealen was wounded and sent to the hospital. Both are under arrest.

Providence, R. I., 2.—A thief robbed the safe of the Providence Gas Company this afternoon of two boxes of pay envelopes, containing $6,900.

San Francisco, 2.—The jury to-day in the case of United States Land Registrar W. H. Crane, charged with issuing a forged receipt in the name of Receiver Andrew Miller, brought in a verdict of not guilty. Immediately after, Crane was arrested on an indictment for converting public moneys to private use.

Ashland, Pa., 2.—James Fulton was killed and several injured seriously by the mine accident.

Kansas City, 2.—The *Indicator* will publish to-morrow very full special reports from all the principal wheat growing counties of Kansas, showing the condition of the winter wheat crop in the State at this time. The reports go to show that the crop will be short 20 to 30 per cent. allowing the season from now on to be favorable.

San Francisco, 2.—Alfred A. Pardow, a well known attorney on this Coast, and a native of New Orleans, died this morning.

Hoboken, 2.—Charles C. Burr, who nominated Charles O'Connor for President of the United States in 1872, an advocate of the cause of the South at the breaking out of the war, and owner of the daily *National Democrat*, died to-night, aged 68. He prepared Matilda Heron for the stage, and Lola Montez for the lecture platform. President Pierce offered him the appointment of Commissioner to the Court of Berlin. Congestion of the brain was the immediate cause of death.

Death and Disaster.

QUINCY, 2.—A large four-story building occupied by the Western Union Telegraph Company and the Telephone Exchange, was struck by lightning at an early hour this morning. The upper story and roof were badly burned, but the damage will not exceed $5,000. The cables containing the telephone wires were all burned off, and it will be two or three days before the damage in repaired.

New Orleans, 2.—The mayor and twenty prominent citizens of Beauregard request that all contributions be sent to the relief committee.

St. Louis, 2.—*Post Dispatch* Vincennes, Ind., special: Early this morning W. B. Searight, Mayor of this city, committed suicide by shooting himself, the first two shots taking effect near the right nipple, the other in the left nipple. He had been mayor six year, and was a candidate at the election yesterday, but defeated. It is believed defeat at the polls prompted it.

FOREIGN.

British Briefs.

LONDON, 2.—At the National Liberal Club banquet this evening, Gladstone said the government had met dangers from an unseen agency (secret societies), successfully.

The annual dinner of the Royal Literary Fund was given to-night, Lord Wolseley presided. United States Minister Lowell responded to the toast "American literature."

The arrangement of exhibits in the American department of the Universal Fisheries Exhibition is nearly complete. Eight hundred cases from the United States have arrived in excellent condition. The perishable exhibits are not yet unpacked.

The Canadian department is very backward.

The sentence of Delaney will probably be commuted to life-servitude.

Joseph Hanlon, awaiting trial, is finally accepted as an approver. He will confirm the evidence of the two Careys against the 13 prisoners in Kilmainham jail, charged with conspiracy to murder.

General Items.

PARIS, 2.—The Minister of Foreign Affairs, speaking in the Senate on the triple alliance, said he believed in the sincerity of the declarations of the Italian Foreign Minister and the Hungarian Premier, that no idea of aggression against France was entertained. He believed the alliance would not in any way change the relations of France with the Powers. She must be prudent, for a vanquished country which is regaining its strength and which is condemned mainly by a large defensive force, must not be surprised to find itself opposed to jealousies and distrust.

Government circles in Berlin and Vienna receive favorably the statement in the Senate of the Minister of Foreign Affairs regarding the triple alliance.

Marseilles, 3.—The ex Empress Eugenie has renounced her claim to the chateau presented by the municipality of Marseilles to Napoleon.

Berlin, 2.—In the Reichstag, Richter introduced a motion declaring against the execution of private orders in military workshops. Bismarck protested in the name of the Emperor against the assumption that the army can be required ever to receive a direct recommendation from the Reichstag.

Richter then altered his motion so that the demands were addressed to Bismarck instead of the military administration. The Minister of War declared the motion implied a direct invasion of the power of the Emperor.

Bismarck's action in regard to Richter's motion in the Reichstag was not so much regarded as a reprimand to the Reichstag as a reassertion of his prerogative as Chancellor over other ministers, especially the Minister of War.

BRIEF TELEGRAMS.

Washington, 2.—Bliss continued his argument in the Star route trial.

Ottawa, 2.—Several members of Parliament wanted a finance minister.

Boston, 2.—Score at the end of the third of the six-days contest: horses, 473 miles; bicycles, 448.

Detroit, 2.—Base ball—Detroits 3, Chicagos 5.

Cleveland, 2.—Clevelands 6, Buffalos 3.

New York, 2.—New Yorks 3, Bostons 2.

Philadelphia, 2.—Philadelphias 1, Providences 5.

San Francisco, 2.—Dickie Bros., the largest ship-builders on the Coast, failed to-day. Liabilities, $100,000.

Gov. Sanford has had a severe attack of rheumatism, and the prevailing northeast winds have retarded his recovery. No doubt a few warm days will set him on his feet again.

San Francisco, 2.—Secretary Lincoln's refusal to grant permission to the Catholics to build a church for the soldiers on the military reservation has given great offense. It is characterized as an ungracious quibble, unworthy of a Cabinet Minister.

San Francisco, 2.—An El Paso dispatch states Gen. Crook crossed into Mexico and has been in the Sierra Madre mountains four days in pursuit of Apaches. The Mexican authorities co-operated by sending two companies on the frontier, and other troops in the field.

Chicago, 2.—The *American Field* will publish an acceptance by W. F. Carver of a challenge by W. Graham, of London, England, for a match at 100 birds for $1,000 to $5,000, a side, to be shot in this country at Graham's convenience, or in England next December. The editor of the *Field* is authorized to make a match.

Danville, Ill., 2.—The Council last night fixed licenses at $800; to-day all the saloon keepers refused to pay the amount and closed their places. A large number of citizens signed a call for a public meeting for the purpose of urging the Council to raise the license to $1,000. The saloon men yielded, and agreed to pay the $800.

New York, 2.—Geo. B. Corbhill, who figured conspicuously in the trial of the assassin of President Garfield, read a paper to-night before the Medico-legal Society on insanity as a defense for crime. He held that judgment and execution should be swift with the "crank," for the escape of one of these men encourages the entire class to go on committing crimes for like notoriety and like exemption.

New York, 2.—Cardinal McCloskey to-day received Alexander Sullivan, president of the Irish National League of America. There were also present Archbishop Corrigan, the Very Rev. J. T. Hooker, Father Farrelly, and C. A. Hardy, of the Philadelphia *Catholic Quarterly Review*. The cardinal warmly endorses the proceedings of the Philadelphia convention, and similar sentiments were expressed by the other gentlemen.

San Francisco, 2.—The Los Angeles National Bank is authorized to commence business; capital $100,000.

One hundred thousand dollars were paid by Jones & Co. into the Custom House to-day, duties on a shipment of opium, the largest amount paid for years past. They state that they expect to make a larger one next month, expecting heavy shipments of opium, the duty being raised from $6 to $10 at the end of the fiscal year.

The steamer *Granada*, to Panama, carried among other freight, 76,000 gallons of claret.

New York, 2.—The editor of *Handel's Zeitung* called at the office of the Associated Press to day and left the following card:

"Sargent's letter was translated from the Consular reports to the State Department.

M. MEYER."

Meyer later stated that the translation was made with the utmost care, and was as absolutely accurate as could be. Meyer says he has information that the hosiery manufacturers of Germany are moving to secure the abolition of prohibitory legislation against pork, but action be taken by the next United States Congress imposing a duty on hosiery which will exclude it. He states this would be a disaster to the industry in Germany wherein if that measure be presented by Congress, thousands of operatives in Germany without the means of gaining a livelihood would be thrown out of work, and millions of dollars capital be wasted. Of $7,500,000 worth of hosiery annually imported into the United States $4,500,000 comes from Germany.

NOTICE.
THE ANNUAL MEETING OF THE Stockholders of the Utah Central Railway Company will be held at the Deseret National Bank, Salt Lake City, U. T., Monday, May 7th, 1883, at 3 o'clock p. m., for the purpose of electing directors for the ensuing year.
