

NOT RECOMMENDED FOR EVERYTHING

But if You Have Kidney, Liver or Bladder Trouble, You Will Find the Great Remedy Swamp-Root, Just What You Need.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are sick or feel badly, begin taking the famous new discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

Doctors Prescribe Swamp-Root.

Gentlemen—"I have prescribed that wonderful remedy for kidney and bladder complaints, Dr. Kilmer's Swamp-Root, in the most beneficial effect and know of many cures by its use. These patients had kidney trouble, as diagnosed by other physicians, and treated without benefit. Dr. Kilmer's Swamp-Root effected a cure. I am a liberal man and accept a specific wherever I find it, in an accepted school or out of it. For desperate cases of kidney or bladder complaint under treatment with unsatisfactory results I turn to Dr. Kilmer's Swamp-Root with most flattering results. I shall continue to prescribe it and from personal observation state that Swamp-Root has great curative properties."

L. Newton Smith, M.D.
276 5th St., Borough of Brooklyn, N. Y.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, and if permitted to continue much suffering with little result is sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable; makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, (Swamp-Root is Pleasant to Take), stomach and liver trouble, you get a sallow, yellow complexion, makes you feel as though you had heart trouble, you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

No matter how many doctors you may have tried—no matter how much money you may have spent on other medicines, you really owe it to yourself to at least give Swamp-Root a trial. Its staunchest friends today are those who have almost given up hope of ever becoming well again.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sample Bottle of Swamp-Root Sent Free by Mail.

SPECIAL NOTICE—If you have the slightest symptoms of kidney or bladder trouble, or if there is a trace of it in your family history, secure at once to Dr. Kilmer & Co., Binghamton, N. Y., who will gladly send you by mail, immediately, without cost to you, a sample bottle of Swamp-Root and a book containing many of the thousands upon thousands of testimonial letters received from men cured. In writing, be sure to say that you read this generous offer in the Salt Lake City Daily Deseret News.

attitude on this question. Harvard has led the way by cutting the college course to three years. Columbia proposes to cut the course to two years. Chicago has taken the first step in the same direction by granting a certificate for the completion of the first two years' work, and is trying to combine the college and professional school courses in such a way as to eliminate the college. Yale and Northwestern have so far insisted on maintaining the full four years course in the college.

Sky Scrapers and Their Consequences.
New York, March 11.—"Sky-scrapers and Their Consequences," was the subject of discussion at the last meeting of the Nineteenth Century club in this city. Architect G. B. Post, after showing how the sky-scrapers came, pronounced extremely tall buildings a menace to the community in addition to disfiguring the city, and predicted that there was a time in the future when a horrible accident would cause a revision of opinion about the way as to eliminate the skyscraper.

Richard P. Bolton, a consulting engineer, declared himself a friend to high buildings, and said that if every family in New York had a house of three stories with a little back yard to it there would not be room enough on Manhattan island for the houses, even if all the parks and docks were taken in.

"The sky-scrapers," he added, "have come to stay and we can't do anything. The tall buildings below the city hall have added 180 acres to the portion of the city, so that the skyscraper is a factor in New York business life."

No Slot Machines for Kansas.
Topeka, Kan., March 11.—The house today passed the senate bill prohibiting the use of slot machines in Kansas. Gov. Bailey says he will sign the bill. Under the provisions of the new law the operating of slot machines is regarded as a felony.

B. Wilkins Stricken With Paralysis.
New York, March 11.—Beriah Wilkins, owner of the Washington Post, has been stricken with paralysis in the Waldorf-Astoria. He was unconscious for several days, but is now recovering. The attending physician said the life of Mr. Wilkins was trembling on a balance. Although they hoped he might recover, they admitted that the patient might pass away at any moment.

Mr. Wilkins was a representative in Congress from Ohio 15 years ago. With Frank Hutton, former postmaster general, he acquired possession of the Washington Post about 1880. Mr. Wilkins returned from abroad a month ago. He has been in ill health for several weeks. Mr. Wilkins is 57 years old. He was born in Ohio and was formerly a banker in Urbicville, that state. He was an Ohio state senator in 1879.

New York-Montreal Trolley Line.
Hooseick Falls, March 11.—Plans are being mapped out by trolley promoters for a road to connect New York with Montreal, the line to run via Vermont, according to reports here. The specifications call for at least 72 miles of track, and connections will be made with the important trolley roads in eastern New York and the Berkshires, and nearly a dozen systems among those which will serve as feeders for the projected line are the Troy Traction company, the Bennington and Housick Valley Railway company, the Hudson Valley line, the Troy and New England company and the Berkshire Street Railway company, with about 15 other corporations of less importance. The scheme is said to be backed by capitalists of New York and Boston. The proposed line would have many attractive resorts along it, the principal one to be developed being on Lake Champlain.

Harper's Reasons for Segregation.
Chicago, March 11.—The difference in degree of maturity between boys and girls in the freshman year is a fundamental reason for the segregation, according to a statement just issued by Dr. W. R. Harper, president of the University of Chicago. Dr. Harper says: "When thrown together in a new en-

FRANCE'S FOREIGN POLICY DISCUSSED

Chamber of Deputies Devotes the Entire Day to the Question.

LATIN ALLIANCE IS URGED.

Millevoye Declared Peace of Europe Originated in Two Great Errors, Treaties of Frankfurt and Berlin.

Paris, March 10.—The chamber of deputies devoted its sessions today to the discussion of interpellations on the foreign policy of the government to which Minister Delcasse will reply tomorrow. The Nationalist deputy, Lucien Millevoye, opened the debate by a review of the whole international action on the part of France for 30 years past. He argued that the armed peace of Europe originated in two great errors—the treaties of Frankfurt and Berlin. He urged the establishment of a Latin alliance between France, Italy and Spain, and attacked the policy which excluded the Transvaal from the Hague arbitration conference. The speaker blamed France for watching in silence the massacre of the Armenians, and expressed the hope that she would not observe the same attitude towards the Macedonian question. Her diplomat, he said, must do his duty and must not fail in what has been the glory of France through the course of centuries.

Georges Berry, Conservative, interpellated the government on its attitude in Macedonia. The speaker said, had been promising reforms since 1887, and the government should have taken the opportunity when the French fleet made its demonstration at the recent congress of the execution of the reforms.

M. Delcasse, Independent, made an interpellation regarding the French policy in Morocco, where, he argued, the interests of France demanded that no other power should be allowed to obtain a foothold. When this point was settled, he continued, France should set about making a peaceful conquest of the country so that it might become an extension of her Algerian colony.

M. Delcasse, Conservative, attacked M. Delcasse's management of the foreign affairs, which he had directed now for five years, said the speaker, without showing that he had any definite, continuous policy.

M. de Pressense, Socialist, reviewed and criticized the government's policy in the eastern question. France, he said, should declare that the time had come to cancel the Berlin treaty of 1878, and should bring about a triumph of international law. The body then adjourned.

The senate today voted an appropriation of 605,000 francs to be devoted to relieving the injuries done by the eruptions of Mount Pelee in Martinique.

Will Carry Naval Officers and Men.

Chicago, March 10.—After sharp competition between the transcontinental lines, the government contract for carrying United States naval officers and men to and from San Francisco was awarded today to the Union Pacific. The Southern Pacific railroad west of the Missouri river, their bid, which was submitted by the Southern Pacific, was about a quarter of a cent a mile for each passenger to be carried under the contract.

Under the bids of the Union Pacific and Southern Pacific, the rate is to be \$5 for each mile from Chicago to Ogden and \$18 in cash and credits from Ogden to San Francisco. This is a reduction from about \$32, the rate made last year. The bid of the successful route amounts to \$22 from Chicago to the coast and that of the Rock Island would have amounted to about \$28.

Cattle Dying in Kansas.

Topeka, Kan., March 10.—Detailed reports concerning the effect of the snowstorm in western Kansas on the cattle are being received. Thousands of cattle have died and more will be lost before the snow disappears. The weather has not been so cold but that the stock has been so deep that the animals could not get either feed or water. The same conditions prevail on the western ranges now and cattle in large numbers are starving to death every day, according to dispatches received tonight.

Hagaman's Body to be Exhumed.

New York, March 10.—Justice O'Grady of the supreme court today issued an order directing the exhumation of the body of Theodore Hagaman in the rural cemetery, Poughkeepsie, in order that the remains may be examined by a coroner's physician of this county under the direction of the district attorney. Hagaman's relatives are demanding that the widow give an accounting of the estate left by the dead man.

Assistant District Attorney Garvin in a statement says he asks that the body be exhumed: "In view of the financial ruin of Hagaman and his wife, and in view of the medical treatment of Hagaman by Flower, Heard and Pills, and in view of the fact that the cause of death as given by them is not borne out by the clinical or medical history of the case."

The affidavit goes into the case at some length. Mr. Garvin says he is informed that at the time of his death Mr. Hagaman was worth about \$1,000,000, which it is said his wife during his last illness "under an alleged power of attorney from him turned into cash and deposited to her own credit."

Within five days before the death of Hagaman she, the affidavit continues, withdrew from said sum \$270,000 in cash and "gave the sum of \$200,000 to one J. C. Flower to invest in Blue Ridge bonds, a company of which said Flower was practically the sole owner, and said bonds were of uncertain value."

Brigette Marching for America.

Berlin, March 10.—William De La Barre, director of the Washburn-Pillsbury mills, Minneapolis, is in Madagascar, buying machinery for the brigquette works that W. De Washburn intends to build at Bismarck, N. D. Brigettes, which are fuel made from lignite, are widely used in Germany. It is estimated that 55,000 square miles of lignite underlie the Dakotas and Montana, while another wide belt extends through the Gulf states from Florida to Texas. German geologists have long believed that the American cities would solve the smokeless fuel question by the use of brigquette. President Franz Ritter, the St. Louis exposition, during his short stay here, accumulated papers and other information on the subject with the view of introducing brigquettes at St. Louis. He took with him samples made from Dakota lignite sent to the German works by Mr. Washburn.

Plimley Takes Jordan's Place.

Washington, March 10.—The president today appointed William Plimley of New York to be assistant treasurer of the United States to succeed the late Conrad Jordan.

If you could buy back your lost health on the **INSTALLMENT PLAN**—say 50 cents a week for a limited number of weeks until cured—Would you do it? Here is a plan worth trying.

Taking into account their power to cure, **DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE** are the most economical medicine, without exception. These pills have effected cures in cases of Partial Paralysis, Locomotor Ataxia, Rheumatism, Anemia and other serious diseases of the Blood and Nerves. They have cured in hundreds of cases where ordinary medicines had been tried and failed. They have restored to helpless invalids the full use of limbs that had long been powerless. That it has done this is the best guarantee that the remedy will not disappoint when used for simpler ailments. Taking one pill after each meal (as required for minor troubles) a 50-cent box of the pills affords nearly two weeks' treatment. For chronic diseases, in which the maximum dose is reached, the cost of treatment does not usually exceed an average of fifty cents per week. Is this not worth a trial?

The following statements are made by people who have been cured and whose sole inducement to allow their names to be printed is the hope of commending this means of recovery to those who still suffer. They are not famous people but they are honest people who have bought Dr. Williams' Pink Pills, have been cured by them and are grateful to them. You may rely upon these endorsements as thoroughly as upon the recommendations of your friends and neighbors:

Locomotor Ataxia Yields.

Mr. J. T. Elliott, of No. 1833 Parker street, Pittsburg, Pa., was cured of locomotor ataxia by Dr. Williams' Pink Pills. He says: "The trouble began with a severe pain in the legs and the physician at that time said it was muscular rheumatism. He gave me medicine which I took for some time without seeing any improvement. The pain continued and my strength kept ebbing away. Finally I was compelled to give up work."

"A different physician this time said I had locomotor ataxia, but I only grew worse under his treatment. I began to have attacks of vomiting, one of which lasted for sixteen days. I grew thin as a skeleton and very weak. Finally I had a consultation of three Pittsburg physicians and they pronounced me incurable. The pain in my body and legs continued to increase and became so severe that I had to take morphine sometimes to get a little relief. I became just about helpless, with no control of my legs."

"During the Christmas holidays in 1900 a friend sent me a clipping from a newspaper telling of a remarkable cure of locomotor ataxia by Dr. Williams' Pink Pills for Pale People. So I began taking them. I followed directions carefully and soon began to improve. It was gradual but sure, and now I am like another man. I can go around and took a three weeks' trip a little while ago without experiencing any bad results. I have not had a pain or a vomiting spell since I began taking Dr. Williams' Pink Pills."

Chronic Indigestion.

Mr. Arthur McLaughlin, of No. 2728 North Lincoln street, Chicago, Ill., says: "For a long time I was troubled with severe pains in the stomach—a case of chronic indigestion. I would feel a vomiting spell about a quarter of a cent a mile for each passenger to be carried under the contract."

"I was gradually but sure, and now I am like another man. I can go around and took a three weeks' trip a little while ago without experiencing any bad results. I have not had a pain or a vomiting spell since I began taking Dr. Williams' Pink Pills."

"I was gradually but sure, and now I am like another man. I can go around and took a three weeks' trip a little while ago without experiencing any bad results. I have not had a pain or a vomiting spell since I began taking Dr. Williams' Pink Pills."

Chronic Rheumatism Cured.

"Miss Maggie Walton, of No. 1324 Main street, Peoria, Ill., says: 'I was afflicted with chronic inflammatory rheumatism and had suffered with it from my childhood. When I was fourteen I was a helpless cripple, unable to leave my bed and with my arms and legs swollen to twice their natural size. I often fainted away with the pain, frequently several times during the day. Sometimes they thought I was dead. The rheumatism had affected my heart and that was the cause of the fainting spells. It was impossible for me to take any solid food and there were days when not even a spoonful of liquid would stay on my stomach.'

A Complication of Troubles.

Mr. William H. Salmon, a veteran of Company A, 28th Pennsylvania Volunteers, now residing at No. 74 Fayette street, Perth, Amboy, N. J., says: "I suffered for years with rheumatism, caused by exposure in the army. I became partially crippled and would now be in my grave if it had not been for Dr. Williams' Pink Pills. I also suffered from chronic diarrhea and stomach trouble. My weight went from 150 pounds to 100, and I was in a terribly low state of health. Then I began taking Dr. Williams' Pink Pills for Pale People and in one week's time saw a change for the better. I took on flesh, got stronger and soon felt first-rate. Now I recommend this remedy to all who suffer."

Alter-Effects of the Grip.

Mr. Robert G. Yates, of No. 55 Clark street, Dubuque, Iowa, had a hard attack of the grip and was slow in recovering from the after-effects. He says: "I was restless and sleepless, with constant pains in my limbs. I fell away in flesh, lost my appetite, was tired out for no reason, and became generally nervous. Finally I saw Dr. Williams' Pink Pills mentioned in a newspaper and I decided to try them. I felt better before I had finished one box. I kept on taking them and they cured me. Now I am nearly sixty-three years of age, I enjoy perfect health and, thanks to Dr. Williams' Pink Pills, I can do a good day's work again. I am as hale and hearty as many men much younger than I, have a splendid appetite and can go to sleep a few minutes after retiring."

Neuralgia Cured.

Mrs. J. B. Whittlesey, of Turin, N. Y., says: "In the winter of 1900 I began to suffer with neuralgia. I tried three different physicians, but they did not help me; in fact, I grew worse. I suffered untold tortures with the pain in my face and I don't know what I should have done if I had not acted on the advice of a friend and taken Dr. Williams' Pink Pills. In three days after beginning with them the pain began to grow less and after taking three boxes the neuralgia had entirely disappeared. Since then I have not had even a touch of the pain. I have recommended Dr. Williams' Pink Pills for Pale People to every one I have seen who suffered with neuralgia."

IF YOU ARE SICK and your doctor cannot cure you, or if you have some ailment, small or great, that gives you trouble—write. We have an organization that enables us to show you whether troubles like your own have been cured by Dr. Williams' Pink Pills or not. In either case we shall answer your letter honestly and with perfect frankness; we will not, in fact, sell the pills to people whom we do not think they will cure. Address: Dr. Williams Medicine Company, Schenectady, N. Y.

The tonic to take at this time of year when the blood is sluggish and impoverished.

Risked Life on Operating Table

Then Rescued by WINE OF CARDUI.
MISS CAROLINE TAYLOR, 5649 Cottage Grove Avenue, Chicago, Illinois.

CHICAGO, ILL., October 3, 1902.
I suffered with ovarian troubles for nearly five years before I really knew what trouble was. By that time I was so ill and weak that I never expected to recover. I underwent a painful and very expensive operation, spending nine months at the hospital, but making up my mind I would suffer any pain to get back my health. When I was finally brought home I still felt weak, but the doctor said I would have my usual strength in a couple of weeks. At the end of four months I found that I was no better and then decided that I had enough of the doctors and would try something else. As several of my friends had used Wine of Cardui and had spoken very highly of it I decided to try it. At first I felt no change and began to get discouraged, but after using three bottles I felt somewhat better and so kept on. In two months I was much stronger and in a short time I was restored to my usual health and strength.

I have since recommended Wine of Cardui to dozens of women who were in need of medicine and all are enthusiastic in its praise. You have my best wishes and hearty thanks for what you have done for me.

Wine of Cardui has saved thousands of women from the dangers of the operating table. And it would have saved Miss Taylor all her money and suffering had she gone to Wine of Cardui for relief before she had her unhappy experience when she submits to an operation and it is said indeed to see how many are disappointed after going through the pain and danger. You need not submit to bearing down and ovarian pains nor suffer the weakening drains of female troubles when such a remedy as Wine of Cardui is offered you. The most successfully conducted operation seldom brings permanent cure while Wine of Cardui cures nineteen out of every twenty cases. Be guided by Miss Taylor's experience. She shows you that for every suffering woman there is a cure can be taken in the privacy of home for menstrual disorders, bearing down pains, nervousness, ovarian pains and all the troubles that attack women from youth to old age. This great remedy can be secured from any druggist at \$1.00 a bottle and taken in your home. Secure a bottle of Wine of Cardui today.

MISS CAROLINE TAYLOR, 5649 Cottage Grove Avenue, Chicago, Illinois.

Rec. Sec'y, Mutual Social Science Club.
