# STRIKE IN THE DALTON MINE.

in the Comet Tunnel.

This Tintic Ronanza, Pays \$100,000 The Sevier Deal-Conditions at the Annie Laurie.

The latest report from the Dalton at

Marysvale gives very encouraging news of the condition of that property. At n vertical depth of something like 140 feet the Comet tunnel has intercepted the vein. At the point where the vein | Jack mill running full time. was first encountered a general sample showed \$4.80 in gold, but much better values have since been obtained. The tunnel was started about 500 feet from the point where the vein outcropped on the surface and it has been intercepted at a distance of 389 feet in the funnel. The tunnel was run in the direction of the outcrop and was thought to be paralleling the vein when the important disclosure was made several days nel and will prove to be about 6 feet

Work on the No. 8 incline shaft is still being pushed and it is learned that a 19-inch streak of very good ore is be-ing followed by the shaft which is now down about 130 feet.

This incline shaft and the strike in Comet tunnel are nearly 1,500 feet apart, and it would appear that the Dalton company may yet prove up a good vein for that distance

CENTENNIAL EUREKA.

The Directors Post the Quarterly Dividend of \$100,000.

The directors of the Centennial-Euren Mining company met in Boston yesterriar according to schedule and de-larm the usual quarterly dividend of \$100 900, or \$1 per share on the issued stock. The dividend will be paid on the 20th inst, With the payment of this sum the reorganized company has onld \$200,000 in dividends. Notwith-tanding the payment of \$400,000 a car in dividends, the treasury surplus is said to be growing. The mine is showing up aplendidly. Manager C. E. Allen reports that the ore reserves in the mine are increasing in spite of he steady drain.

THE SEVIER MINE.

Proposition to Sell Has Been Submitted to Chicago Parties,

The terms of the pending deal for sale of the Sovier mine at Gold Mountain have been dispatched to Chi-cago by Charles Lammersdorf who was done as the result of conference held yestorday afternoon between Mr. Lammersdorf, W. F. Snyder and P. L. Kimberley, The terms of the agreenest are similar to those drawn up is expenditure of \$20,000 within six months, at which time, if the stock is not bought for 70 cents per share, the mine will revert to its present owners.

AMONG UTAH MINES.

Mr. Outzen Talks of the Louise S., the Dalton and Annie Laurie.

Lars H. Outsen of Richfield was in town today after visiting the Louise S. at Bingham yesterday, Mr. Outzen says that arrangements are now being made to ship ore from that property. A great deal of good ore is already blocked out in the 175-foot upraise from the lower tunnel. This upraise is said to be in ore all the way. Very little has been done at the property for some time past, but it is the intention to put a force of men at work in the near fu-

Mr. Outzen speaks well of the condition of the Dalton, in which he is heav-ily interested. He also says that 150 men are employed at the Annie Laurie at Gold Mountain. Work has been started on the big flume which will have a drop of 460 feet in order to secure the in drop of 400 feet in order to secure the immense power needed to run the big electrical plant. Work is being pushed on tunnels Nos, 2, 3 and 4. Excavating for the new mill is also in progress. Mr. Outzen expects to return home in the morning.

#### THE PRICE OF LEAD. Proposition of Utah Producers Characterized as a Mistake.

A writer in the Engineering and Min-ing Journal has the following to say of the proposition of the Utah lead proto unite to advance the price lead. A great mistake ild not be made. The productive caity of this country in the mining and siling of lead, together with the proved methods and intelligent manlation practiced by our skilled operves, have at last enabled us to comfor the markets of the world, in this, but in other metals also protective duties originally enacted ir Congress to foster this industry have now ceased to be a necessary factor in assuring a reasonable profit to our producers. Copper once amply "protected" by a heavy duty, is now turned out of our mines and reduction works more cheaply than by any other country in the world; so also are spelter and lead, to say nothing of pig iron. But owing to the tariff on the latter metals, we see them shipped to foreign buyers very often at lower prices than the home consumer can purchase for. This is manifest injustice to our domestic is manifest injustice to our domestic manufacturers. The time has come for the repeal of the tariff on all of these metals, as is the case with copper. The writer has always been a protectionist, and is one now, but the moment we attain is one now, but the moment we at-tain the condition that enables us to produce an article, especially the raw material, as cheaply as the foreign ar-ticle, that moment the duty upon it should be abolished. The fluctuations in prices incident to the existence of a tariff on an article that can be turned

COARSE PLACER GOLD.

Some Samples of Nugget Size Were Shown by Lindley Vinton.

Lindley Vinton, manager of the Idaho Consolidated Mining company, which is operating placer mines on the Boise

THE WALLES AND THE WALL THE WA deed, some of it is of nugget size. This gold was taken from the Queen river placers. A very satisfactory clean-up was made after a 10, days' run Operations will be continued at Queen river until winter forces a cessation. A supply of 5,000 inches of water is available and the flume leading to the placers has a capacity of from 1,500 to 2,000 inches. Two glants have been operated and another is there ready for business. Mr. Vinton will take 12 additional men out with him. The Big Five and Gold Creek mines have been losed down for the season on account

of lack of water. Accident Closes Two Mines.

While shutting down the big engine it the Blaine mill for the Fourth, says he Silver Citi (idaho) Avalanche the engineer overlooked some essential de-tail, which allowed the cylinders to fill with water, with the result that the "gillowblock" was wrecked, the eccen-"pillowblock" was wrecked, the eccentrics twisted and the machine put out of action generally. General Manager Hutchinson said that they had telegraphed immediately for duplicate parts, but that it was doubtful if work could be resumed inside of thirty days. The enforced closing of the Biaine mill has also necessitated the laying off of the big force of miners in Biaine and Trade Dollar mines, so that the accident is of considerable moment to the nt is of considerable moment to the uployes as well as to the company Work on the Black Jack side and at Dewer continues as usual, the Black

American Mining Company.

Special Correspondence, Ogden, July 11.—The American Mining and Milling company held a meet-ing last evening in the office of the ing last evening in the office of the secretary and elected the following directors for the ensuing year: E. M. Conrol, J. H. Powers, C. W. Hestmark, E. E. Stevens, Jos. Goddard, Peter Anderson and H. R. McNutlard, who will later on elect the officers.

The report of the secretary and the manager at the mine were received, showing the prospects for very good developments in the near future. Several

ents in the near future. Severa thousand shares of stock were bought in recently for the assessment, which will be offered for sale at 25% cents per

MINING NOTES.

R. C. Chambers has gone to Park

The gross weight of the Dexter cyanide shipment was 350 pounds.

A car load of ore was on the market today from Mammoth leasers.

The Conklin sampler reported four cars of ore from Tintic today. Rumors were current today of a change in the Victoria at Tintic.

The Centennial-Eureka, of Tintic, had lifteen cars of ore on the market

The Taylor-Brunton sampler reported fifteen cars of ore from Tintic to-

Acquila Nebeker expects to leave shortly for the Buckskin Mountains to see the new copper smelter put into

Lawrence P. Boyle of Chicago, who is heavily interested in the Coconino cop-per mines in the Buckskin Mountains in Arizona, is in the city. A 4%-foot fissure containing carl

ate of Iron and some native silver is reported to have been recently discovered on the 600 level of the Emerald. President W. H. Webster of the Alas-

ka Mining company is in the city from Wisconsin for the purpose of looking over its property in Silver City, which is said to be looking well. Charles Van Alstine has gone to the Utah mine at Fish Springs. From there

Mr. Van Alstine will go to the Kinsley district in Deep Creek to examine and perhaps locate some mining claims. Grand Valley Times: John Wilcox has sold between 40 and 50 burros to Byron Davis of Miner's Basin to be used packing ore down the mountain from the property lately bonded by him from O. D. Lutzenhouser. This makes mining in the La Sals begin to look like

## grownnown war CHANGES IN PRICES MIXED

The Cotton and Corn Carrying Railroads Inclined to Heaviness.

Some Large Blocks of Union Pacific, Which Worked Up Over Three Points Were Absorbed.

New York July 11.—Changes in prices were much mixed at the opening of the stock market. The cotton carrying railroads and the corn carrying grangers. gave evidence of strength. The Northwestern grangers were inclined to heaviness. Offerings were quite large of some stocks, but were fairly well taken. The weakness of the western railroads soon undermined the earlier strength of other stocks. Nothern Pacific, which sold ex-dividend, St. Paul and Burjington were most affected, losing a point each. On the other hand, pronounced strength was manifested for a time by the southwestern and southerly trans-continental lines tobaccos, sugar preferred and La Clede gas. The market yielded from top prices before 11 o'clock. Sluggishness was the feature of the

market after the decline, which was due to the jump in wheat. Near midden and some large blocks of Union Pacific were absorbed and there were some sympathetic advances in the corn roads. Union Pacific worked up over a point.
Union Pacific was lifted to a higher
notch after a slight reaction and Southern Pacific and Missouri Pacific were brought into the movement, each at a net advance of about a point. The tone generally was strong and advances from the low point in several raliroad stocks reached a point or over. In the final dealings there was some wavering of prices caused by profit-taking, but Union Pacific held pretty firm near the extreme advance of 3½. The closing was active and irregular and showed

The bond market was firm with little doing.

87c, good, 80@82c. LONDON WOOL AUCTION. London, July 10.-At the wool auction ales today 10.934 bales were offered, cluding a good selections at hardening rates. Crossbreeds were in large sup-ply, American representatives paying full rates for saleable lots. The home trade bought freely, being met with competition from the continent. Cape of Good Hope wools were in better demand. The attendance was good and and business was brisk. There was a better all-round demand for merinos and cross-breeds.

WHERE GIBSON WAS.

Explains Why He Failed to Return Home Sunday Night.

Thomas Gibson, the young man who failed to return to his home in this city on Sunday night, was seen by a "News" man last evening and explained how it happened.

On going up City Creek on Sunday morning, to indulge in trout fishing for the day, he was overtaken by a man with a team, who invited him to ride. The invitation was gladly accepted and up the canyon and over the mountains to Hardscrabble they went. There they stopped for a time and turned out the horses to graze. But soon the animals disappeared and although they hunted for them they did not find them until the following mornnot and them until the following morning. After finding them they did not care to return until they had spent some time in fishing. This they did and started home about 11 o'clock the day following, Mr. Gibson bringing back a string of forty-one fine trout. The joy on the part of his wife and family on his safe return was almost unon his safe return was almost un-bounded. Mrs. Gibson had secured a horse, and was to have headed a searching expedition herself in the mountains yesterday. While the un-dertaking would have been exhausting in the extreme, she would, being a good horsewoman, undoubtedly have been able to carry out her desires.

#### POPULAR ENTERTAINMENT. Salt Palace Drew an Immense Audience

Last Night. It was a standing-room-only condition that confronted many of those who sought admission to the Salt Palace theater last night, after the bicycle races. Not only that, but it was as appreciative as it was large and was generous to the extreme in its applause. The reason for this is found in the fact that a most excellent bill of specialties was offered to the public. Some of the work was fully as good as that seen in first class theaters, and the wonder is now the management can afford to furnish such attractions for the small sum charged. The same program runs to the end of the week.

Z, C. M. L employes will give their annual excursion to Lagoon on Thurs-day, July 12. A big program has been arranged, including Boat races, Foot races, Shooting Match, and a concert, Trains will run every hour in the after-"There's no place like home. (except Lagoon.)

## TRIFLES!

Our cars are no petter-in themselves than the cars of other lines. It is what is INSIDE them that makes them

For instance: The seats in our reclin-ing-chair cars are provided with linen head pieces—clean and cool. Our din-ing-cars have electric fans, and are gor-geously decorated with flowers. In every car is a thermometer, which the porter constantly consults in order to keep the temperature of his car as near-ly uniform as possible. uniform as possible.
By themselves, these things are triffes, but the sum total of them goes a long way toward making a trip over the Burlington a mighty enjoyable experi-

Burlington trains leave Denver 4.00 and 10.00 p. m. for Omaha, Kansas City, St. Louis, and Chicago,

Tickets at all R. G. W. Ticket Offi-Through sleepers daily, Ogden and Salt Lake City to Omaha and Chicago.
