DUBOIS CONSPIRACY CHARGED. In response to the writ of mandale asked for by the Dubois wing of the Demoératic party to compell the secre-tary of state to appear before the su-preme court and show cause why he should not accept their ticket as the one representing the true Democracy of Idaho, the attorneys of the other faction filed yesterday a sensational answer to the petition, in which they show that Dubois with others entered into a conspiracy to galar control of the Democratle party at the nominat-ing convention, at Wallace. James H. Hawley as chief council filed the answer, which is a very voluminous document. It consists of between 9,000 and 10,000 words ang contains 37 different allegations, the first nine of them admitting or deny-ing allegations in the petition, the re-maining 18 setting forth charges against Dubois and others. Commodore Lee, formerly president of one of the eastern railways, now an Idaho rancher, is a man six feet two inches tall, weighs 280 pounds and has a heart that is fully in proportion to his size. He not only sets the pace in the latest methods of farming, but is on hand to encourage and aid his neighbors in the same line. Courteous to all and considerate of his employes, he has redeemed several hundred acress of land that produced nothing but jack rabbits, and converted it into fruitful fields producing, grain, alfal-fa, etc., and sustaining hundreds of human beings. He has led out in mak-ing good roads, creeting commodious dwellings, putting up good fences, and introducing the latest improvements in machinery, and farm implements.
