VICTORY! VICTORY!!

THE

WILSON

Sewing

MACHINE

TAKES

Five Medals

AT THE

WORLD'S FAIR at VIENNA!

Three separate dispatches from Vienna combine to dispel all doubt as to what sewing machine has won the first honors of the great Exposition. The first was a special to the New York press on Monday, and was as follows:

VIENNA, August 15, 1873.

The Wilson shuttle sewing machine was awarded the grand prize at the Vienna Exposition for being the best sewing machine.

RAYNOR.

The second was the regular Associated Press report, compiled from a long special to the New York Herald, in which the "Wilson Sewing Machine of Cleveland, Ohio," was named as among the exhibitors which received "gold medals for merit," the highest class of premiums awarded at the Exposition.

The third was a private cable telegram received yesterday from Vienna by Mr. Wilson himself, which was as follows:

VIENNA, August 19.

You have received five medals—two for merit and three co-operative.

The meaning of this is then explained to be that the Wilson Machine has received the gold medal as the best sewing machine, and a second gold medal as the machine best manufactured—that is, embodying the best mechanical workmanship. Besides these, a special medal was given for excellence of workmanship on the machine, another for the best sewing on leather, done by the Wilson, and the other medal for best samples of family sewing and embroidery, done on the Wilson machine.

This sweeps the entire board. Not only has the Wilson Sewing Machine been pronounced the most capable and efficient sewing machine in the world, but its work, on both dry goods and leather, is pronounced superior to that of all other machines. This verdict at a World's Fair, where all the leading sewing machines of both continents have competed before a thoroughly competent committee for more than three months, is the most complete triumph ever won by a sewing machine.

The above is taken from the Cleveland Leader, of August 29.
