## WHY NOT PRODUCE IT?

WE recently published an account of certain experiments made by the French chemist, Dumas, for detectconsumer of this article will take provisions of the new law is a rethe necessary trouble to investigate, doing business in this Territory shall and very few dealers will do this either, as they depend more upon reputed brands than upon private of the Territory. Following is the ledge as to the quality of the oils language of the law: they purchase or sell.

innocent of the fruit of the olive shall, within sixty days after the tree. Part of it may be made from passage of this Act, and all other tree. Part of it may be made from rape, mustard, colza, etc., but most of it is from the cotton seed or from the lard factory. Imported oil may be adulterated, but oil as commonly bottled in the United States is rarely if ever genuine. There is a large quantity consum-ed in this Territory, including good, bad and indifferent. We spend for it not less than five thousand doltare

had and indifferent. We spend for it not less than five thousand dollars by-laws thereafter, shall file certified copies of such alteration or amendannually. Most of its consumption ment with each of said officers witharises from its use in religious ordinances; and if any motive should prompt a people to care and choice in regard to this some person, residing in the county article, it surely would be its appli- in which its principal place of busiarticle, it surely would be its appli-cation to such uses. Not only in our sacred places is it required, but whenever there is aliment in any Territory, may be served, and shall faithful family of Israel, the admin-file such designation with the Proistration of oil, is both a duty and a privilege, based upon divine revelation, and in uncounted instances, certified by either of said officers, universal experience has demon- shall be evidence of such appointstrated it as the divine appointed medium of blessing when properly administered. But who would not be service shall be deemed to be a validdisgusted with the odor arising from service thereof. Any such corpora-tion failing to comply with the prothe rancid, adulterated, and often visions of this section, shall not be spurious article which is palmed off for the genuine? Now the surest method for rid-for the commencement of civil ac-

ding ourselves of this offensive and adulterated oil, would be to manufacture our own, Southern Utah needs to engage in 'a variety of branches of business to secure all law are the annexed:

the advantages of her semi-tropical climate, and the importation and cultivation of the olive would be in a religious and probably in a social

sensy, far more desirable than the 20, 1880; incorporated under an act

paintings by the great living artists of this century, upon the walls of the National Capitol, the birth, life and death of our Savior JesusChrist as told in the four Gospels of Mat-thew, Mark, Luke and John." LAW CONCERNING FOREIGN CORPORATIONS. At 1 p. m. the republican conven-tion reassembled, and with but few proxies. The delegates are the best men of the republican party of the State. There is a large number of prominent republicans from differ-ent portions of the State in attend-ance. An unusual degree of inter-est is manifested, although there is action.

Walla Walla dispatch says A THE Legislative Assembly of this Wm. Lishan and his wife Mary, Territory, at its late session, passed new settlers a few miles from Umaa law amending the statute in re-gard to corporations in several im-bed, their heads being chopped to priety of associating ourselves is hardly probable that the general portant particulars. Among other pieces with an ax. Robbery was not the object, all the property re-maining undisturbed. There is no sities. It met with some opposition

of Congres cultivation of the grape for the manufacture of wine. Charles M.

It is not improbable also that the manufacture of pure and reliable York. olive oil would stimulate its uses in other directions, to the exclusion of that which many consider anything but a blessing. It is not generally known probably that our consumption of lard as a community is about one hundred and fifty thousand pounds annually, and this costs us upwards of fifteen thousand dollars. Most of this is used in our cooking, and most of it could be avoided to advantage. Our religious friends, the Jews-at any rate those in Europe, rarely use unimal fats. Their The Great Basin Smelting and Mining Co., P. E. Connor, agent; pastry, salads, beef steak, fish and
