

REFORMATION
OF MUTUAL LIFENot One of Officers Responsible
For Conditions Prior to
1905 Remains.

RESPONSIBILITY IS FIXED.

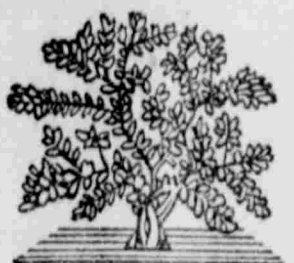

President Peabody Addresses Letter to
Policyholders Telling What Has
Been Done.

New York, July 10.—Not one of the executive officers of the Mutual Life Insurance Company responsible for the conditions which prevailed in that organization prior to the year 1905 remains in the service of the company; all practices and methods of doubtful propriety have been prohibited; the responsibility of officers has been definitely fixed; measures to insure efficiency in service and economy in administration have been adopted, and many other reforms have been effected, according to a letter to the policyholders which was made public today by President Charles A. Peabody of the company.

Mrs. Peabody's letter, which will be mailed to every holder of a policy in the Mutual, also declares that other reforms are in progress and in contemplation, and that he believes the results of the future will be entirely satisfactory to the policyholders. He calls attention to a reduction in the salaries of officers and employees and in the expenses of the home office, building, effecting a saving of \$15,000 a year. The economies effected in cost of agency management, medical examinations and revision work, advertising, printing and stationery, he says, aggregate another \$570,000 a year, making a total saving of more than \$5,000 for each working day. The letter says that since Jan. 1 of this year the company's funds deposited in banks and loans on collateral have been reduced more than \$17,500,000 in investment, and that the total gain in net income from all investments during the last six months has been \$1,110,000.

Mr. Peabody says that the integrity and value of the company's assets have recently been verified by an investigation and examination by English and American public accountants, whose verifying statement of the assets Dec. 31, 1905, is \$467,000 of the value shown in the company's books.

After reading the statement made public by President Peabody, tonight, Samuel Untermyer, general counsel for the International policyholders' committee of the Mutual and the New York Life Insurance companies, addressed a long letter of protest to Mr. Peabody. "My attention is called," he says, "to a document just issued by you in aid of the campaign of your own election

and that of your associates to whom you owe your office. It is in the guise of a letter addressed to the policyholders under date of the 2nd inst., which you have printed and have just given out for publication, and which I understand you are about to mail to the policyholders whose names appear on the lists you have prepared at the expense of the company, but which you still persist in withholding from the committee represented by me, while using them for your own purposes.

"We take issue with you as to every material fact contained in that document."

Mr. Untermyer further declares that a copy of this protest is being forwarded to the superintendent of insurance, accompanied by the request that he forbid "this latest form of diversion of the assets."

BRITISH POLICYHOLDERS.
London, July 11.—The executive committee of the British policyholders' general committee which is now affiliated with the International policyholders' committee, held an organization meeting yesterday and decided to call a meeting of the general committee for July 12, when the program of the International policyholders' committee will be outlined and a campaign commenced to secure proxies of the policyholders for the election of trustees of the Mutual Life Insurance company of New York and the New York Life Insurance company.

Several members of the general committee will be examined by the house of lords select committee July 13.

YOUNG MITCHELL
IS NOT GUILTYHe Killed Franz Edmund Cref-
field. Leader of the Holy
Rollers.

SHOOK HANDS WITH JURORS.

All in Courtroom Were Happy Over
Verdict. Women Going Into
Hysterics.

Seattle, Wash., July 10.—It took the jury in the trial of George Mitchell just one hour and 15 minutes to determine that the youth was not guilty of murder in killing Franz Edmund Creffield on the streets of Seattle May 7 last. The verdict was read at a quarter to 5 o'clock this afternoon and was greeted with rounds of applause from the excited audience.

Every face assumed a happy expression and many women were hysterical by weeping through their smiles when the verdict was read. A few minutes later the prisoner was discharged from the custody of the sheriff. He shook hands with the jurors and was then treated to a general ovation. Men and women crowded up close to the rail to shake hands with the youth, who was clearly the hero of the hour. As he went downstairs to the jail, to gather up a few of his effects and to bid farewell to the jailers and fellow prisoners of the past few months, his way was blocked by people eagerly crowding over the railings to catch a glimpse of the acquitted youth.

Asked as to his feelings with regard to the killing, and as to the ordeal which had thus suddenly terminated, the young man replied that when he killed Creffield he hardly knew what he was doing, so worked up had he become by the wrongs he and his sisters had suffered. He stated that he could not yet regret that he had removed the man from the possibility of harming his family.

Mitchell will leave tomorrow for Portland, where he will probably resume a position in a mill which he held previous to the killing of Creffield.

PAUPER STATISTICS.

Poor in Almshouses Increases But Not
In Proportion to Population.

Washington, July 10.—According to a report issued by the census bureau today, there were in the United States in 1904, 163,176 persons in almshouses, and of these 111,317 were males.

Although the number of almshouse paupers is increasing, the increase has not kept pace with the growth of population, and consequently the ratio of almshouse paupers to population is decreasing. In 1880 it was 132 per 100,000 of population; it decreased to 117 in 1890 and to 101 in 1900.

600 of population; it decreased to 117 in 1890 and to 101 in 1900.

The foreign born whites, whose economic position is not so high, show a greater tendency towards pauperism than the native whites of native parentage.

Commenting on the fact, the report says: "There is, however, no reason to believe that many immigrants drift into almshouses soon after their arrival in the United States for only 2 per cent of all the foreign-born in almshouses had been in this country less than five years."

Of the paupers, 48 per cent had been laborers and servants, 18 per cent engaged in manufacturing and mechanical industries and 24 per cent occupied with agricultural, transportation and other outdoor pursuits. More than three-fourths of the female paupers had been servants.

COMMITTEE TO TAKE
CHARGE OF CHILDREN.

Denver, July 10.—Names of some of the most prominent persons engaged in philanthropic work in the world appear on the committee announced by Judge Lindsey which will have the task of organizing a permanent international society for the protection and betterment of children.

At the Chicago meeting, held recently on the call of the National Society for Charities and Correction, Judge Lindsey was elected chairman and empowered to appoint the committee. He has just announced the following appointments:

Chicago—Miss Jane Addams, Henry Thurston, Hon. T. D. Hurley.
New York City—Rev. William Byron Forbush, Miss Lillian Wald, Jacob A. Rits, Luther Gulick, Homer Folks.
Boston—A. E. Winslow, Joseph Lee, Louisville—George L. Selon, Toronto, Canada—J. J. Kelso, Cincinnati—Max Senior.
Washington—William M. H. De laeey.
Philadelphia—Mrs. Hannah K. Schoff.
Milwaukee—Edward W. Frost, Mrs. Hattie Van Wyck.
Nashville—Mrs. Benton McMillan.
Denver—Mrs. Sarah Platt Decker.

The committee will probably meet in Chicago the first week in December, and remain in session for a week.

FIRE INS. TEST CASE.

San Francisco, July 10.—By taking their case against the Williamsburg City Fire Insurance company direct to the United States circuit court today, Ehrenson Brothers, wholesale cigar dealers, who lost heavily in the fire, expect to get the first adjudication by the higher courts on the "earthquake clause."

Suit was filed today for \$350,000, the full value of the policy written by the Williamsburg City on the Ehrenson stock. The complaint sets forth the fact of the total loss and that the company has answered the demands of the plaintiffs for settlement with a denial of liability.

OREGON LAND FRAUD CASES.

Portland, Or., July 10.—The bill of exceptions offered by the attorneys for Congressman John Newton Williamson, Dr. Van Gessner and Marion H. Biggs, tried and convicted of conspiracy to suborn perjury, in inducing many persons to make false application for homestead lands in eastern Oregon, was settled before Judge Hunt in the federal court today. United States Atty. Gen. Henry and United States Dist. Atty. Bristol appeared for

the government and Judge A. S. Bennett and H. S. Wilson of The Dalles represented the defendants.

Surprising progress was made in agreeing upon the ponderous mass of the record, covering some 1,500 pages of the proceedings at the trial, and but three changes, and these comparatively unimportant, were made.

Judge William H. Hunt in the federal court this morning fixed next Monday as the day on which the trial of land fraud cases will be resumed and set the case of the United States against Henry W. Miller, Frank E. Kinnert, Martin G. Hoge, and Charles Nickel for trial on that day. Tomorrow Judge Hunt will call the calendar and all cases at issue will be set for trial.

FELL IN A WELL.

San Jose, Cal., July 10.—Joseph Ryland, secretary of the San Jose water company, and one of the wealthiest men in San Jose, was severely injured this afternoon by falling down a 40-foot well near the outskirts of the city. His right leg was broken, one arm badly lacerated and he sustained a severe scalp wound. He was examining the well when he lost his balance and fell to the bottom.

PURE FOOD REGULATIONS.

Washington, July 10.—Secretary McCall today named Director N. D. North of the census bureau as the representative of the late department of commerce and labor, to assist in preparing regulations for the operation of the pure food law. The law will be jointly enforced by this department and the departments of agriculture and treasury. It is understood that Dr. H. W. Wiley, chief of the bureau of chemistry, will serve for the agricultural department.

ORDERED TO KILL DEPUTIES.

St. Petersburg, July 10.—The labor group in the lower house of parliament declare they have absolute proof that orders have been sent from St. Petersburg to the police authorities in the province of Saratov to fire on gatherings addressed by members of parliament after the promulgation of that body.

It is asserted that the orders instructed the police to single out the deputies, and afterwards make it appear that their shooting was accidental.

YOUR LIVER

is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for Constipation, Dyspepsia, and all liver complaints. Mrs. F. W. Worth, Texas, writes: "Have used Herbine in my family for years. Words can't express what I think about it. Everybody in my household are happy and well and we owe it to Herbine. Sold by Z. C. M. I. Drug Dept. 112-114 Main St. B.

Standard Copper Company, Bingham, Utah

[Incorporated under the Laws of the State of Utah.]

Capital Stock, \$1,000,000

[Fully Paid and
Non-assessable.]

Treasury Stock, 400,000

Books of the company are now open for subscription to the first allotment of 50,000 shares of Treasury Stock at 50c per share.

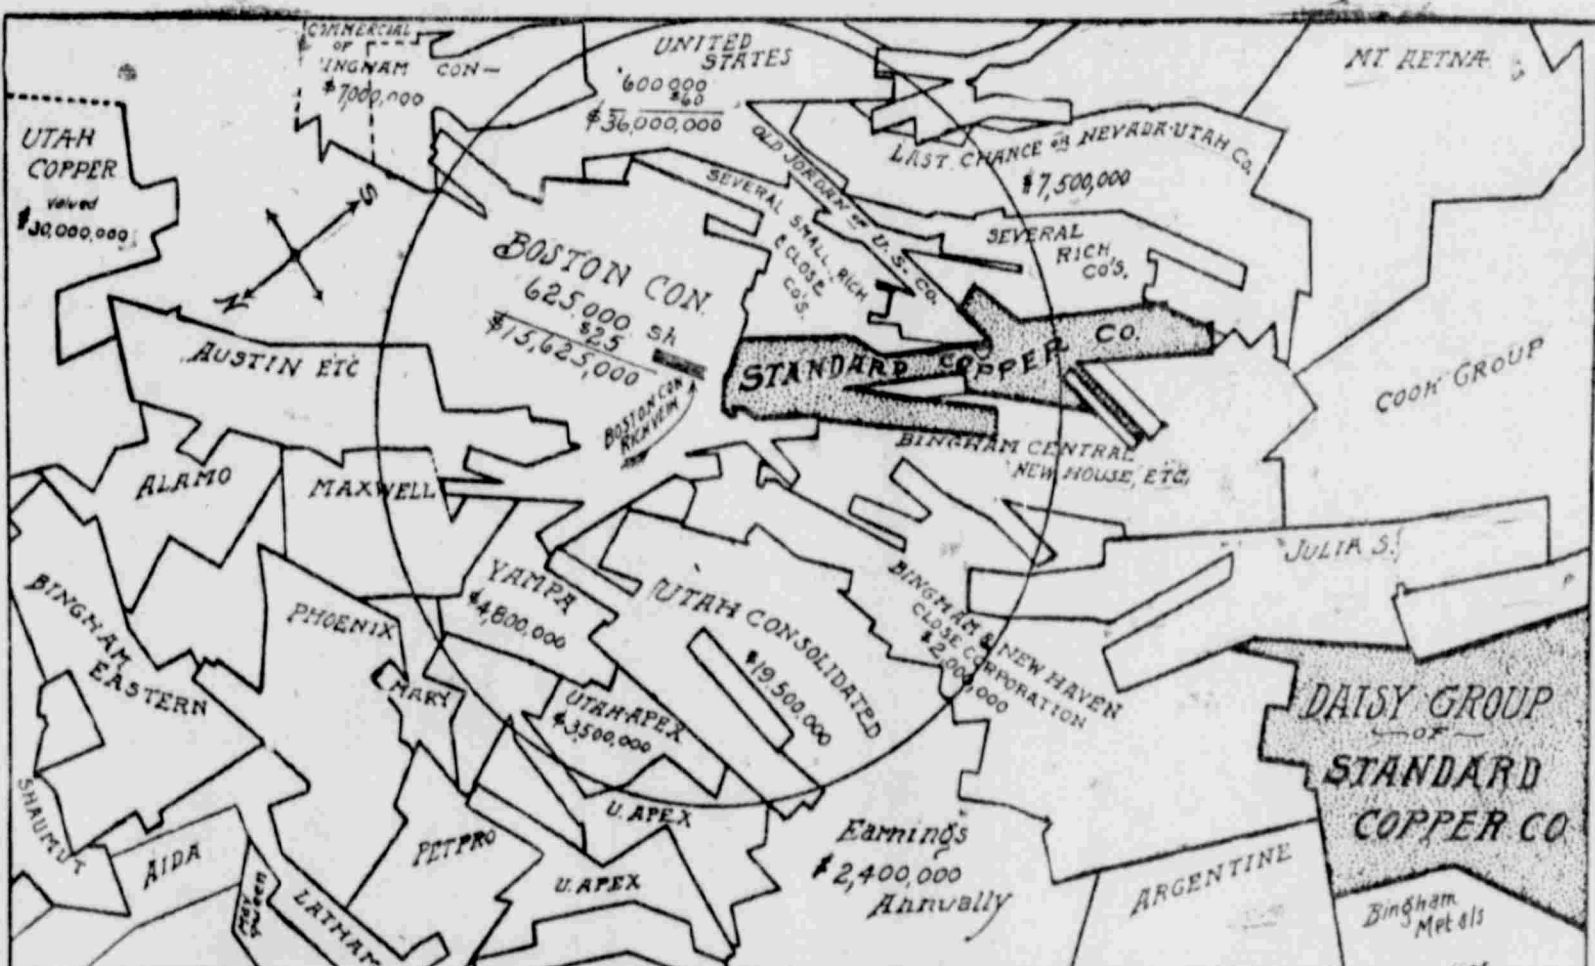

Location.

A glance at accompanying map shows Standard Copper company holdings to be among very best located in Bingham. Running end to end with the Boston Con., flanked on the east by the "Old Jordan," a claim with such enormous ore reserves that though located in 1865 (first mineral location of Utah), and with past record of many millions, ore is still being taken from 200-foot level. Adjoining Standard on the west is the Bingham Central, being developed by pick of the Utah mining talent. Less than 1,000 feet to the northwest lies the Utah Con. In fact, within a radius of 3,000 feet of north end lines would be found wholly or in part most of the rich producers of Bingham properties, aggregating in market value over \$90,000,000.

Claims.

The Burning Moscow group of Standard Copper company holdings are well known to all old Bingham mining men, as the claims were among the first locations and very heavy producers in early days. The Burning Moscow alone has shipped over \$300,000 from shallow tunnels. Besides Burning Moscow this group includes Amelia, Saginaw, Jeana, Sofia, Grand Duke, Grand Duchess and Big Treasure.

The Daisy group comprises seven claims adjoining Bingham and New Haven, and about 3,000 feet from end lines of Utah Con. This group possesses great prospective value, but for present principal work will be concentrated on developing the known ore bodies of the Burning Moscow group.

Within the circle of 3,000 feet are the wonderful properties of Bingham, aggregating a value of over \$90,000,000, in the center of which are located part of the claims of the Standard Copper Company.

PRESENT CONDITIONS.

In Burning Moscow claim much ore can still be seen. In bottom of one shaft a high-grade lead-sulphide is giving way to copper values running as high as 15 per cent. It is probable that this old-timer will develop in depth into a high-grade copper producer, again taking its place among the leaders of the camp. On the Deems is a shallow tunnel about 400 feet long which crosses four very rich fissures. The ore is extremely good grade, running \$40 to \$50 a ton in silver, lead, gold values, without counting the high values in copper occasionally occurring. The last fissure cut by this tunnel is about five feet wide, showing eighteen inches

of rich ore. This fissure is undoubtedly the Nant, which in other ground before entering yours, produced \$500,000. These veins all strike to the southwest and by drifting on them in that direction for a short distance from present tunnel they will intersect the massive lime bodies that cross the ground on the south. It has been the universal rule of the camp that where these rich fissures intersect the lime great bodies of ore are encountered. All the favorable indications that make for great production are present in these claims to a very remarkable degree.

In the tunnel of the Saginaw is a vein showing two feet width of high-grade silver-lead ore that can be very profitably shipped.

From a copper standpoint, however, it is the Amelia that affords the best present showing. The capping is a honeycombed quartz sixty feet wide, assaying \$5.20 in gold, \$2.50 in silver and trace of copper. It is identical in character with the capping of the Boston Con. and the Utah Con., and which in the latter led to the discovery of the rich underlying copper zone. This claim adjoins the Boston Con. In direct strike of that company's richest sulphide vein, which in all probability continues through the Amelia. But whether it is the same vein or not there is

opened in the Amelia a vein of remarkable strength and persistency with every indication of carrying ore to great depth with constantly increasing copper values. A tunnel 140 feet long driven across the vein shows copper of varying values all the way. Approaching the east a circular drift was run around leaving a body of ore blocked out eighty feet in diameter showing persistence of the ore in different directions. A number of assays gave the following results:

Copper, Silver, Gold, Per cent, Ounces, Value.

1.23 2.4 3.30
1.56 3 .40

In ordering stock 25 per cent must accompany orders. Balance payable on receipt of stock. All remittances should be made payable to EVANS, THOMPSON & CO.

A detail report on the property will be furnished on request of prospective purchasers of stock.
