ENGLISH PRESS OPINION.

London, Oct. 19.—Few of the morn-ing papers publish editorial arti-cles on the decision of the Alaska boundary tribunal. The Daily Telgraphy expresses extreme satisfaction that an agreement has been reached because failure would have dalt a blow to th policy, still in its frail and ten-der infancy, of referring differences of to the palicy, still in its frail and ten-der infancy, of referring differences of this character to arbitration. The paper hopes that no attempt will be made on of the side to reckon up scores or claim a victory, but that the decision, will be accepted in good faith. It adds that the Canadians must recognize it to be better, not only for the Dominion but for the empire, that the United States and Great Britain live on terms of friendship and co-operation, than that in every frontier dispute Canada should set the better of the republic. Incidentally the Dally Telegraph pays a tribute to the Associated Press' well-earned reputation for the accurracy of its report on international questions. The Standard is of the opinion that each side in the Alaskan boundary dis-pute got in essence what it wanted. It says the demand for access by one side and the denial of it by the other formed the very kernel of the controversy. CRIPPLE CREEK MINE OWNERS

Say There is No Ground for Any Compromise.

Colorado Springs, Solo., Oct. 17 .-- C. C.

Colorado Springs, Solo., Oct. 17.-C. C. Hamilne, secretary of the Cripple Creek District Mine-owners and Oper-ators' association, has given out an of-ficial statement in which he says: "In view of the stories which have been going the rounds of the press to the effect that negotiations are on be-tween the Cripple Creek operators and the Western Federation of Miners, for a settlement of the Cripple Creek strike, it may be proper to reiterate the stand taken at the outset of this trouble, con-sistently adhered to by the Mine-owners and Operators' association. "There is no ground for compromise between us and the Western Federation of Miners. In the first place, the strike, in so far as the working of our mines is concerned, is over. We are filing our mines as rapidly as we care to, and have experienced no difficulty in secur-ing competent men. "The Western Federation is not only victicus in its principles, but criminal in its methods. The boycoit and the sympathedic strike are among the least nernicious of the means adopted by it
