A BONANZA IN ANY HOME.

Hard Times Book.

In all parts of the world there always have been and still are found certain persons, many gifted by nature, who have discovered and learned how to use simple home remedies for all the illa of the flesh. Some of these persons be-come very expert in the cure of disease. These "experts" are generally nurses, theorem has all the second though not always, or mothers of large

families, who have acquired skill by long experience. The fact had often been expressed that if some one would obtain and bring together from all over this and other countries all of these simple rem-edies and the method of applying them, he would confer upon mankind a boon

he would confer upon mankind a boon equal to any invention of any age, one the value of which could hardly be esti-mated in dollars and cents. To do this of course would involve immense labor and much expense, which naturally would deter almost anyone from making the attempt. After gleaning this country and Europe they found in Japan remedies that were re-garded of extraordinary value, and the Japanese method of applying them made these simple remedies still more valuable. After more than 30 years of gleaning they have finally given to the world in "Vitalogy" a volume whose practical value can hardiy be measured by money. In fact it must prove a "bonanza" in any home. It can truly be termed a "Hard Times Book" for there is scarce-ly a family in this land to whom it

The more needy a family is, or the harder the times are, the more valu-able this book is to them. The value of this book lies not alone in saving money, and saving suffering

in saving money, and saving suffering and often life itself: there is another consideration that is of no less impor-tance, for it will be the means of pre-
