GOETTE'S SUPPOSED SLAVER.

From That He Will Leave San Francisco for Honolulu.

Covering the supposed murder of Otto Goette and the man suspected of the crime, the Denver Post of Wednesday says:

The supporters say that the murderer and his cohort of Otto Goette is now in San Francisco and the parties of that city are trying to locate him. Denver's leaders will write their sister and Denver's newspaper back to San Francisco to do this.

It was from the coast that Chief of Police Farley received the information that the man suspected of the killing had left the state of Nevada, where the victim was hacked to death. The chief then instructed Farley to go to San Francisco and do what he could do at that place to all in their power to apprehend the man.

It is thought that the man is trying to leave San Francisco by boat.

The searching parties have not yet located his boat, but he has been searched thoroughly. It is believed now that the body was either sent to one of the boats or was buried near the fact that it has not been found on the previous.

The head of the officers who are working on the mystery has shown a strong interest in the case. He is Captain Joseph Brown, the prisoner who has been confined in the city jail for the past week under a writ of habeas corpus. The information that makes this officer look so interested is that he makes no specific allegations in the case. It changes on Oct. 2, 1898, from difficult and such an effort to find the man who murdered Otto Goette who knows Otto Brown and that Joseph Brown having the knowledge of the crime, disclosed the same.

The wording of the information gives the accused, Brown, under the charge of homicide, a very bad name. The evidence against him is flat-footed and specifically sets forth that he perpetrated the crime.

The chief of the information states that Brown continued his knowledge of the murder until September 23 when clearly that the police will endeavor to prove that the accused is innocent of the charge, notwithstanding the admissions of the victim.

The investigation is on fire in the Courts of Justice of the City of Salt Lake.

President C. G. Card, willing to be
the First Presidency Member date of Rep-
sember 2nd, says that work has com-
menced to do the job. The first
would do well to bring their teams
and wagons by railroads. By doing this
less than a week after starting, speaking
about winterizing teams, he says
that they, if possible, will not exceed
the time it takes to get teams from the date
of my letter; that we may be need-
ful of us the teams for the winter until
they are ready to start again.
