TRUTH AND LIBERTY.

FRIDAY, AUGUST 30, 1895, SALT LAKE CITY, UTAH. VOL. XXVIII.

NO. 226

SPAIN AND HER GEM.

Cuba Will Soon Be Free, Says Tamayo Estrada Palma.

IMPORTANT EXPEDITION LANDED.

The Insurrection Strong and Daily Gaining Ground—Spaniards on the Defensive.

NEW YORK, Aug. 30.—Tomayo Estrada Palma, president of the Cuban revolutionary committee in this city, says an island will be made free from Spanish bulldozed rule next December, when a Cuban minister will be sent to the United States. Mr. Palma believes Spain has now reached the end of her rope. He states the general feeling of sentiment is as good as reading sentiments is as good as reading sentiments in an open book and will have to give Cuba her freedom within the next few months.

SPANISH YACHT BLOWN UP.

NEW YORK, Aug. 31.—A special correspondent of the World from Key West, August 24, says: There is a report that the Spanish steamer Vallverde, chartered by the Cuban Campos as his private yacht, has been blown up at sea.

BAD DYNAMITE ON BOARD.

The Vallverde belongs to the Spanish-Transatlantic line and was chartered by Captain General Campos for his personal use during the campaign in Cuba.

She arrived here August 19 from Havana and went into dry dock in the Erie basin, where her hull was scraped, some paint was put on and she was made ready for sea. Mr. Miller has given out that she was come here simply to be painted, but that did not really cause was learned that it was a long passage to travel merely for a coat of paint.

A story got about that when the vessel came over the Atlantic ocean she encountered a severe storm, and, coming in warming, rumbling public warning of possible danger. There was no confirmation of this story at the Spanish consulate yesterday or for the Spanish consulate yesterday or for the Spanish minister Dupuy de Lome, who returned to Washington last night from a visit to Canada. The arrival of the vessel seems to put rumors to the test, time reckoned up to August 20th.

LARGE EXPEDITION LANDED.

NEW YORK, Aug. 30.—The World says a large expedition has landed on Cuban soil through the revolutionary junta in this city. It was successfully landed on the east coast of the island one week ago, even while skirmishes were still raging in Oriente and Santiago.

Although many expeditions have gone to Cuba, the landing of this party is considered the most important, and it was only after numerous disappointments and a long period of preparation that it was successfully landed. Only a few of the leaders of the party are known, but it is said that Cuban officers have been in charge of the expedition from the time of its organization.

The expedition left Fernandina on Wednesday night of last week, with a decent voyage by the revolutionary party to the city. It was commanded by Fernandina, where a small party of Cubans had gathered. The party had with them 50,000 rifles, 500,000 cartridges, and 60 or 70 tons of dynamite and provisions. Among the arms was a number of Winchester rifles, the latest improved pattern in use in Turkey service.

The party of men will join General Antonio Maceo's forces.

Fraulein Sandra Echeverria belongs to one of Santiago's best known families, is 20 years of age, tall and slender. She came to this country three years ago to attend school in Utica, Illinois, where he went after being expelled from Cuba for participation in the rebellion in Santiago. His father, who was a leading citizen of Santiago, has since been exiled.

INSURRECTION SPREADING.

CHICAGO, Aug. 30.—Joaquin A. Vargas, a Mexican school boy, has received a letter from a friend in Havana in the Spanish officials in Havana are in a state of panic and he says in the progress of the insurrection is clear to them.

The insurrection is strong and daily gaining strength. As a proof even Spain is very frightening the government from Havana to Madrid. Vast sums are being spent for arms and ammunition, while the insurgents are the sufferers.

Spain began active measures to quell the situation on February 24th, but with no end of over 24,000 men, regulars and residents. Of these, however, have been sent to Cuba since last fall, so that the total number now in the island is about 18,000 effectives. Besides, the Spanish have organized themselves in self-defense, which means that many of the officers and soldiers are now in their homes. The Cubans have caught the Spanish bravery and have no reason to be ashamed of themselves with unanimous zeal. For instance, the Spaniards left their commands to go to the front, they were taken in and cared for and when they came back they are at liberty. But the Cubans confined to the city or in the country are likely to be killed. Another point of interest is the Spanish sympathy in Cuba. Spain has sent 18,000 troops to Cuba to help to maintain a western right of order. In that number are Spaniards born in the island, who have settled there, and who have married and become Cubans. Spain has also sent 6,000 troops to Porto Rico, and she has a force in Spanish Africa. Besides, Spain has a force in the Philippines, and has been obliged to send 10,000 troops to Manila. Spain has also sent 6,000 troops to Porto Rico, and she has a force in Spanish Africa. Besides, Spain has a force in the Philippines, and has been obliged to send 10,000 troops to Manila.

WHAT HOLMES ADMITS.

The Names are Those of Howard Pitezel, but Much Killed Him.

PHILADELPHIA, Aug. 30.—A local paper says it has been learned that certain facts found in the house at Irvington are those of Howard Pitezel. This is the told the coroner, Mr. Shoemaker, during the latter's long examination of Holmes on Tuesday. But Holmes says that he did not murder the boy—one of the boys committed suicide by a pistol.

In Holmes's statements about the house at Irvington he further leaves room for the various again. It does not mention—he says—that Howard was killed and that Harris murdered him as he did the gas in Toronto.

Holmes claims that when the time comes—and he is sure that it will be in the near future—he will be able to prove beyond a doubt that at the time the district says Howard was killed, he (Holmes) was in Philadelphia. Holmes says he has always been suspicious of Heish and has long suspected him of doing away with the boy.

Married an American.

LONDON, Aug. 30.—The *Spectator* says it is stated that Lady Marion Alford was married on Wednesday afternoon by special license to Mr. Hosier, an American, at St. George's church.

Steam Launch of Mules.

NEW YORK, Aug. 30.—A fleet of half a dozen steam canal boats arrived in this harbor last night. They were from Lorain, Ohio, with a cargo of steel rods. The tug Defiance had the fleet in tow. Yankee, steaming on a pier and near them was a fleet of mules. Tug Defiance had the fleet in tow. Yankee, steaming on a pier and near them was a fleet of mules. Tug Defiance had the fleet in tow.
