

GOLD SHIPMENT FOR

New York, July 8 .- The movement of New York, July s.-The movement of gold from this country to France, which has been in progress since early in May, will be continued today by the engage-ment of Lazard Freres of \$50,000, for shipment to Paris tometrow. The ex-portation of gold is attributed by ex-change experts to the attempt of the bank of France to recuperate its gold re-serve, which has been lessened by the withfrawal of Russlan deposits from France. A year ago the reserve of the Bank of France was about \$55,000,000, but at present it is about \$50,000,000 less than that amount. Since April France has tak-en about \$25,000 from America, while \$3,000,000 has gone to London and \$1,000,000 to Holland. New York exchange houses express the opinion that the movement of gold from this country to France is likely to continue until the demands of the Bank of France are satisfied, as that institution is making the shipment of gold profitable by paying interest on it while in transit across the ocean. Having once re-estab-lished its reserve at the figure desired the Bank of France probably will discon-tinue such Interest and the shipments will stop. om this country to France, which

TAX LEVY TWISTED. This reads well; it is as preity as the "roseate dreams of money to burn," but ust as the dreams are of money which is not, so are these assertions about things which are not. Take the first paragraph. "If the usual 11 mills tax levy for municipal purposes is ap-plied, we see that this direct tax will yield \$496,000." The Knocking Organ in this editorial in its news columns shows a woeful ignorance of tax affairs. The tax levy is not 11 mills but 5 millis, and tax levy is not 11 mills but 5 millis, and the "American" party through its lead-ers, the mayor and city council of this city, went before the last legislature, with a levy of 5 mills instead of 11 mills in force, the city's income is al-most one-third as small as claimed by that sheet.

Dist. Atty. Langdon and Atty. Fairall answered in unison "Ready." Judge Dunne inquired of Mr. Lang-dong whether it was his present inten-tion to proceed with the trial of the other four extortion cases against Schmitz. The district attorney replied that there were so many other graft cases on the calendar that he was uncases on the calendar that he was un-able to say at this time whether the four extortion cases would be pressed or not, "but," he concluded, "the prose-cution has no objection to the passing of sentence at this time." "Under ordinary circumstances," said Judge Dunne, "where a defendant has been indicated on a number of accusa-

The priest held that the toy beast in the hands of little girls was destroying all instincts of motherhood and that in the future it would be realized as one of the most powerful factors in the race suicide danger. Father Esper asked all parents to re-place the doll in the affections of children and discard the Teddy bear forever.

# A SECRET LEAGUE.

#### Vatican Informed of an International One to Stir up Trouble.

Rome, July 8.—The vatican has been Informed of the existence of a secret in-ternational league, embracing Tuetonic and Anglo-Saxon countries, of which it is said many members are of the German Catholic center. The estensible object of the league is the astituding of the suitimmediate return from the east that Judge Dunne was prejudiced against me and that it was impossible to secure in his court a fair trial. The animus that he has nurtured in his heart for some time canne clearly and positively to the surface this morning. I have never asked for lenlency, but I have expected as every American citizen has the right to expect, justice. I ask the people to withhold their final judgment in this matter until the inlauitous pro-ceedings which have been held in Judge Dunne's court since the beginning of my trial shall be brought before the highest court.

The ostensible object of the league is the petitioning of the valican for the sup-pression of the index expurgatorius, but it is stated that its real object is to stir up strife among Catholics, causing schisms similar to the ultra-liberal move-ment in Italy. The pope, it is asserted, will shortly take severe disciplinary meas-ures against the league.

### **BIDS FOR COMPILED LAWS** OPENED AND HELD OVER.

On Saturday the state board of ex-

aminers met to open bids for the printing of the compiled laws of Utah, advertisements for which had been running sometime. Only two bidders appeared, the first being a joint proposition from the Deserct News, the Tribune Reporter company and the Century Printing company, their figures being \$9.30 per page for the 4,000 vols, which includes paper, type-setting and press work. It is estimated that the work will amount to 1,500 pages. The bid of the Descret News was \$1.10 per volume for binding alone.

The second bidder was the Skelton Printing Co., who proposed to do the work for \$3.54 per page and to bind it for 68c per volume. Owing to the disparity in the bids, the board decided to take time to confer with the code commission now at work on the laws, of which Hon. James T. Hammond is chairman, and also to investigate the responsibility of the various bidders and their ability to fulfill the specifications. Gov. Cutler also had made pre vious arrangements to leave for Los Angeles, and the board deferred further consideration of the matter until the 5th inst.

The attempts of some of the political organs of the city to inject politics and habor unionism into the question of the bids, is entirely uncalled for and many of the statements made are grossly absurd on their face. As soon as the bids maned above were published the Descrete News, The Tribune Reporter company, and the Century Printing company, and the Century Printing company, notified Secy, of State C. 8. Tingey, that they would be pleased to see the state obtain the low price of-fered by the Skelton Co., and they were entirely willing to withdraw their bid, as they stated that neither of them, without sharing the work with the oth-ers could think of meeting all the spec-ifications required, and turning out the work on time. They had, therefore, made a joint bid and submitted a fig-ure which called for only a fair and reasonable profit. Mr. Tingey advised that no further steps be taken until the guestion. The last time the compiled laws were The attempts of some of the political

question. The last time the compiled laws were published, about 10 years ago, the work was done in the east. Members of the examining board and code commission interviewed today stated that the Skelton company's bid was lower than the price secured then, and the other printing houses say that wages have advanced in that time 25 to 30 per cent and leather for hinding has dowled to and leather for binding has doubled in price. Mr. Lovendahl of the Tribune Reporter Co., (which it ought to be known, has no connection with the Salt known, has no connection with the Salt Lake Tribune), said that no office in Salt Lake could do a work of this mag-nitude alone, in the time required. The specifications demanded a forfeit of 155 a day for the frest 15 days' delay and 350 per day thereafter. Not only that, but any printing office that han-died the job would have to lay in a heavy equipment which would be al-most entirely valueless after the work for errors. #### OSCAR HAMMERSTEIN'S PLANS.

OSCAR HAMMERSTEIN'S PLANS. New York, July 5.-Oscar Ham-merstein, who arrived from Europe Saturday, has given out his plan for the coming season at the Manhattan Opera House. He will present eight new grand operas never before heard in this country; revive seven favorites, and produce four of the Wagnerian operas, in addition to the regular rep-ertoire. For these various productions Mr. Hammerstein has re-engaged most of last year's company and added a number of successful European sing-ers now to this city. The season will open on Monday.

The season will open on Monday, Nov. 4, with the production of "Gio-conda" with Mmes. Nordica and Schuman-Helnk. nan-Heink. The scenic and other quipments for the new operas and revivals will require, it is stated, expenditure of over 300,000.

ernment today dealt a heavy blow to the alleged gambling syndicate of the city of Chicago. The City of Traverse leaves Chicago each day and anchors in Lake Michi-gan near the lines of intersection of the states of Hilmois, Indiana and Michigan. it is said, conducts there gambling op-erations. Information concerning the results at the various race tracks of the country are received by wireless teleg-raphy and the steamboat, it is further alleged, is operated as a floating pool-room.

The authorities of Chicago have endeavored to suppress the evil, but their efforts have been futile. Finally Mayor Busse appealed to the government au-thorities to take steps which would put thorities to take steps which would put an end to the operations of the steamer. ## WHAT THE "NEWS" SAID.

It is argued at great length that the city's revenue was misstated. The "News" Saturday said, under a sub-head, "Simple Arithmetic:" "All receipts for the year from taxes and licenses will be nowhere near as great as the year's expenses! The re-ceipts for merchant licenses saleon li-

great as the year's expenses! The re-ceipts for merchant licenses, saloon li-cences and all other licenses for the coming six months, with \$32,000 yet re-maining unspent of the regular tax funds, making a total of \$164,444." These are the facts! All the smooth-ing over and twisting, even possible to the Knocking Organ, will not shake them.

INCOME VS. EXPENSES.

Another fact that cannot be disputed is that the city is spending \$43,145 monthly. Citizens have found this out by examining the city's records. The warrants are out; their totals show that average. So much for the ex-

that average. So much for the ex-penses. Coming back to the city's income to which the Knocking Organ pays so much attention (for the simple reason that the city's income had to have doc-toring) the fact still remains that the receipts for the year will be nowhere as great as the year's expenditures. It is an easy matter to find out how much the city is getting from all sources. The citizens who have investigated have found that \$212,000 comes in from the regular taxes and \$264,000 fixm the saloon and merchants' taxes. This makes a total of \$476,000 (not \$650,000). Any citizen can test this statement by makes a total of \$476,000 (not \$690,000). Any citizan can test this statement by studying the city's books. Of the real income (\$476,000) the "American" ad-ministration has already spent \$311,555, leaving \$164,444 to cover the expenses to be encountered during the remainder of the year. Repeating the process in simple arithmetic shows a formula as follows:

\$258,888 (monthly expense \$43.148 for text six months).

\$164,444 (amount left to pay for next ix months' expenses). \$94,444 (deficit certain at the end of

the year). To this the "Americans" have added \$14,000 in voting for needless crematory changes. These are the figures con-tained in Saturday's "News" and all the squirming and juggling of amounts by the administration justifiers will not alter them. Citizens are doing a lot of wondering and commencing to ask questions. The city records will nn-swer.
