### HELD AT KENYON LAST NIGHT.

Several Hundred Guests Were in Attendance, Including Gov. Cutler And State Officers.

The reception last night to the members of the Legislature was a brilliant affair, and reflected credit on the Women's Republican club, under whose able auspices it was given. ### A SAD BEREAVEMENT.

Son of Mr. and Mrs. Samuel Frost Succumbs to Appendicitis.

It will be sad news to the many friends of Mr. and Mrs. Samuel Frost of this city to learn of the death of their little son Deacy, who passed away at St. Mark's hospital last night, after an operation for appendicitis. The boy was taken ill a week ago with what was at first thought to be an ordinary case of inflammation of the bowels. Later, however, it developed that he was afflicted with appendicitis, and on Saturday he was taken to the hospital, where he was operated on by Dr. Fisher. The operation seemed to be entirely successful, and the little fellow rallied nicely, but on Monday his condition became somewhat alarming, and despite all that loving hands and skilled medical attention could do, he gradually grew worse and passed away at 9:30 last night. His parents are heart-broken over their bereavement, as Deacy was an intelligent, lovable boy, and a promise of a bright future. The funeral will be announced later.

## LOVE, NOT CASH, THEIR ONLY ASSET.

Young Couple Married With Not Enough Money to Pay the Parson

### GROOM EXPLAINED MATTERS.

Had Only 45 Cents and This Was Needed to Take Them Back to Their Home in Murray.

With but \$2.95 in his pocket, a prospective bridegroom, accompanied by the intended bride and a young lady friend, who came with them to witness the ceremony, walked into the clerk's office yesterday and applied for a marriage license. The document was immediately issued by a deputy clerk, and the groom paid the required fee of \$2.50, after which he asked if they were invited to a private room adjoining the clerk's office and Deputy Clerk David A. Smith was called to perform the ceremony.

The groom informed the deputy that he wanted to speak to him privately. The two then left the office, leaving the bride and her friend inside, and found a secluded spot where none of the clerks in the main office could hear what was said. The man then heard the startling announcement that he only had 45 cents left after paying for the license and that he needed just that amount to take the bride party back to Murray from whence they came. He asked the clerk if he would not perform the ceremony free of charge, and it was an unusual state of affairs and Deputy Smith was in a quandary as to what to do. He had often performed ceremonies for the small sum of \$1, but he had never yet met a 45-cent bridegroom who needed even that to pay car fare back to their homes. He finally decided that he would accommodate the man rather than place him in the embarrassing position of having to take his intended bride and witness back to their homes without the ceremony being performed. They then went back into the private office and the ceremony was performed and the bride party left on a wedding tour to Murray. It is probable that the deputy will in the future try to avoid charity marriage ceremonies. It was suggested that the groom's credit must be good at Murray otherwise the young couple would have to start out in their married life with an empty cupboard.

## TOM REED VERSUS SPEAKER CANNON

Latter Does Not Like Former's Scheme of "Special Order" Legislation.

### INCIDENTS OF SMOOT HEARING.

Witty Allusion to B. H. Roberts' Book—Thin Air and Hot Air Defined.

Special Correspondence.  
Washington, Jan. 9.—Speaker Cannon desires to avoid making the present a "special order" session—that is, to force legislation through by invoking the power of the committee on rules. It was Tom Reed who invented that powerful machine by which a bill could be passed within a few hours. It was the engine to prevent filibustering, but now it has become so powerful that even the men responsible for it are loath to invoke it. The "special order" is really unpopular, and Speaker Cannon and the Republican leaders desire to avoid it if they can.

NO WHIPPING POST.  
Washington has been "all torn up" over the idea of re-establishing the whipping post for wife beaters and like offenders. The suggestion contained in the president's message has been discussed in all possible places, but it is evident that public sentiment is against it. Public sentiment is also against granting divorces for wife beating. The abused wife may as well accept brutal treatment as a part of the conjugal burden.

WILL FIND AN ENEMY.  
"Who are you going to fight with your navy?" asked a foreign journalist of Senator Hale.

"Oh," said the Maine senator satirically, "we must find an enemy. There must be some one for us to fight. With our increased army and navy we will be compelled to go to war to show that we have the guts. There is Mexico. Who can tell at what moment Mexico may invade us from the south or Canada from the north or some nation come from over the sea to attack us? We must find an enemy. We are powerful enemies, for we are preparing powerful defenses to meet them."

A QUESTION OF FLOWERS.  
When the vice presidential caravan was traversing Minnesota a particularly fine bunch of dahlias was presented to the party during a meeting. Senator Dooliver was speaking at the time, and he became highly excited at the sight of the flowers. "Who can tell at what moment Mexico may invade us from the south or Canada from the north or some nation come from over the sea to attack us? We must find an enemy. We are powerful enemies, for we are preparing powerful defenses to meet them."

### A COMMA OMITTED.

Attorney Taylor, representing the organizations who are trying to oust Senator Reed, Smoot, was questioning Apostle Penrose about books of doctrine which were used in the "Mormon" Church. Among those mentioned was written by Brigham H. Roberts called "New Witness For God."

Taylor in asking Penrose a question used a comma, which Penrose omitted in answering. Said Taylor: "This is one of those bills that makes cowards of members. There is a majority that does not want the bill passed, but as sure as it reaches a vote it will be passed. It is a bill that makes it easier to vote for such bills than to face the charge that they are opposed to temperance. It is doubtful if the bill can reach a vote in the senate even if it passes the house."

There was another little blip during the hearing between Apostle Penrose and Taylor. Witness Owen, who has worked up the case against Smoot, was relating something about a stenographer who became the plural wife of one of the church leaders. "She was," said Owen, "a stenographer who awhile and later went into this air."

"What do you mean by that?" asked Chairman Burrows.

"She disappeared about a year ago," replied Owen, "just about the time of the first investigation here."

"You said she went into this air. Do you mean she is translated?" continued Burrows.

"She seems to be," replied Owen.

"You will observe the close relation Mr. Chairman, between thin air and hot air," remarked Worthington jocularly.

Rev. Carlisle P. B. Martin, L.L.D., of Waverly, Texas, writes: "This morning, just as I was arising, I often find a troublesome collection of phlegm, which produces a cough and is very hard to dislodge, but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take, I can most cordially recommend it to all persons needing a medicine for throat or lung trouble. 25c, 50c and \$1.00.
