FIRST SESSION IN NEW YEAR.

Today's Business on Mining Exchange Showed Greater Activity.

50,050 SHARES FOR $32,205.

Stocks Opened Higher and Closed at Lowest Figures for Day—Century Beared to Fifty-Nine Cents.

The Salt Lake Mining and Stock Exchange held its first session during the year 1902, this morning. Considerable more business was transacted during the call than at any previous session in some weeks. A total of 56,050 shares were traded in for $32,205. Stocks generally ruled at the same or better figures than at the close on Tuesday, however, the trading ended with the market weaker and the stocks at the lowest figures of the morning's call.

No one seems inclined to make public his opinion on how the market will go. It is generally the belief that some dividend paying stocks are at ridiculously low figures as compared with some stocks which not only have paid no dividends but are heavily capitalized, perhaps in debt and with no particularly good showings at present. "Just what the outcome will be cannot be foretold, but it is safe to predict," said a prominent broker this morning, "that some stocks cannot remain at their present figures which are much too high. There is one stock having only 100,000 shares which has paid in dividends about $200,000, and paid last year over $10,000, and is better off now than then, which is quoted around 60 cents a share. There are some others with 3 to 5 hundred thousand shares capital stock, and which have never paid any dividends, are, some of them in debt, and have no showings other than of a prospective nature being traded in around 70 to 90 cents a share. That is the reason there is not outside support and that we are not making money. I am certainly in favor of the board insisting that statements of the condition of certain companies be furnished the exchange."

Ajax commenced the trading this morning at 63, sold up to 64½ and closed with sales at 63¾. With sales footing up over 7,500 shares, Carisa closed with 67 asked for the stock after having sold as high as 75.

Daly-West was dealt in to the extent of 250 shares. Fifty sold for $29.75, 100 for $29.80, and another hundred for $29.77½, the stock closing with $29.80 asked.

Some Lower Mammoth was loosened up for $1.20, and Mity Day after considerable trading, closed with sales at 66½, selling down from 69. Several thousand Silver Shield brought 5 cents, and Star Con. was actively traded in around 27¾. Uncle Sam Con. weakened from 77 to 75¾ on small sales.

California did not go lower than 70 and closed with sales at 72¼. There is considerable speculation regarding the reports that come from the Park City property. It is said that no very unusual showing has been uncovered, that the workings look well but that the property is hardly more than a prospect yet. However work is being pushed and the ground is in a good locality as far as any can judge. Century stock was considerable of a plaything for the bears. The stock opened with sales at 68 and was squeezed down to 59½, after which it was permitted to expand to 59¾.

Small sales of Joe Bowers and West Morning Glory were recorded; Manhattan was traded in at 1 9-16, and Tetro still on the toboggan landed at 16¼, after opening with sales at 16½.

The following are the bid and asked quotations at the close:

Improvements at Dixie.

There will within the next ten days be completed at the Dixie mine below St. George, a new boarding house with accommodations for 72 men and an office building 14x36, feet.

The big fifty-four horse-power Fairbanks-Morse gasoline hoisting engine was shipped from Beloit, Wis., on the 20th of December and upon its arrival it will be installed on the 225-foot or tunnel level of the mine and sinking will then be pushed in the shaft, which is now down 775 feet below the surface or 550 feet under the tunnel level.

SILVER QUOTED AT HIGHER PRICES

Quotation is 55⅞ Today—Outlook For Better Figures Encouraging.

SALE OF TIEWAUKEE MADE.

Interests of Effinger & Lathrop Are Purchased by Colorado Parties for Fifty Thousand Dollars.

This morning's quotations on silver was 55⅞ as compared with 55¾ yesterday. The managemnt of the big silver-lead producers of the state are feeling very hopeful over the outlook for that metal. It is the expectation that the silver settling figure will go at least sufficiently higher to offset any disadvantage caused by the reduction of lead to the $3.50 per hundred basis and that it may go still higher is looked upon as probable. In conection with this the last New York Engineering and Mining Journal says:

"The silver market through the holiday season seems to be steady. Silver is in demand and there is a fair prospect that renewed buying in the new year will advance prices unless there is heavy pressure to sell. Indian exchange is steady at 15.97d per rupee. There has been some increase to shipments of silver. Money in India continues abundant.

SALE OF TIEWAUKEE MADE.

First Deal of New Year Calls For 50,000 Dollars.

The interests of Martin L. Effinger and F. H. Lathrop in the Tiewaukee property of Bingham amounting to 75,000 shares have been purchased by certain gentlemen from Colorado and Idaho who already owned the control of the proposition. The property has been paying expenses from last March when the present owners secured control and it is expected tat it will develop into a very nice mine. The purchasers of the Effinger and Lathrop interests followed up that deal by installing Arthur Johnson, an experienced mining man of Cripple Creek and a relation of one of the principal owners of the proposition as manager.

DIVIDENDS THIS YEAR.

What Some Mining Companies Will Probably Pay Shareholders.

The directors of the Daly West Mining company will meet on Saturday to post the month's dividend. It was stated today on good authority that it is highly improbable that any other than the regular amount of $60,000 will be declared.

It is also stated by a prominent Silver King stockholder that that company will probably not increase the regular $100,000 monthly dividend, at least for some time to come. If silver increases in price and the demand for that metaly enlarges a bigger dividend may be declared. "But," said he, "it is the purpose of our company not to undertake to pay a dividend that we cannot keep up regularly."

The directors of the Con. Mercur meet on the 15th instant and will post the regular quarterly dividend, payable on February 1st. It was stated this morning by an official of the company that in all likelihood no other amount than $125,000 will be declared. This amount was paid quarterly last year and it is stated that the company is equally in a position to keep up the same record this year.

BONDING OF CHECKMATE.

Famous Property That Has Paid From Its Opening.

"A deal has been made whereby the Checkmate mine at Pearl is to be transferred to Chicago people represented here by Governor Hunt. The price is not known with certainty, but it is understood to be $150,000. The stock of the company is all in escrow in one of the Boise banks. By the terms of the deal $50,000 is to be paid by March 1, whereupon the property is to be turned over to the new owners.

"The principal owners of the Checkmate are E. E. Calvin, general superintendent of the Oregon Short Line; J. H. Young, superintendent of the Utah division of that road; J. D. Carnahan and Mr. Henry of Ogden, and the heirs of J. C. Meivaney, who was chief engineer of the Short Line. This property has an unusual record. It paid for itself and for all developments from the start, and has returned handsome dividends. The present sellers bought it some years ago and took the money out with which to pay for it."—Butte Mining World.

Big Sampson Strike.

Superintendent Sam Levy of the Sampson-Yosemite group of mining properties at Bingham was in town yesterday and reported at the offices of the Western Exploration company that the entire bottom of the 800 foot shaft is in fine sulphide ore samples of which indicate high values in copper, silver and gold.

These properties owned by the Western Exploration company are looking fine and it is stated could be listed among the shipping mines of Bingham any day. However the management intends only to continue the development of the property at present.

MINING NOTES.

The managemetn of the Grand Central is on the market with six cars of ore.

The management of the Ajax has three cars of ore ready for marketing today.

One car of Utah ore arrived from Fish Springs this morning and five from the Victor.

Manager Charles I. Rader, of the Annie Laurie, was in the city yesterday to see P. L. Kimberley.

The Taylor and Brunton sampler is today in receipt of six cars of ore from Tintic, the first to arrive this year.

The Conklin sampler was in receipt this morning of ten cars from Tintic, one from Stockton and one from Fish Springs.

Willard F. Snyder, manager of the Western Exploration company, is intending to leave for Chicago and other eastern points on Saturday.

Manager Jacobs, of the Ben Butler, states that that property will continue to make shipments notwithstanding the $3.50 lead agreement which he is not particularly elated over.

Tonopah ore is arriving in Dayton to be worked by the Nevada Reduction works. About fifteen carloads have arrived so far and the Rock Point mill is working day and night.—Reno State Journal.

The Utah-California Oil company resumed the work of drilling on its property south of Price yesterday and manager Robbins expects no further trouble with the drilling apparatus.

Col. H. G. Heffron, representing the Bingham Copper & Gold Mining company, of Salt Lake, is in Tonopah inspecting our mines and will purchase ores of the camp.—Tonopah Bonanza.

The Miners' Mercantile company of Upper Bingham has commenced suit in the district court against the Butterfield Mining company to collect $307.50, with 8 per cent interest, claimed to be due for merchandise sold and delivered by plaintiff to defendant on and prior to December 2, 1901.

De Witt B. Lowe, a prominent broker and mine operator from Salt Lake, accompanied by Mr. Hasbrook, a mining expert, is looking over our camp with a view to investment. Mr. Lowe remarked to a Bonanza scribe that a flood of eastern capital would seek investment in Tonopha mines by early spring.—Tonopah Bonanza.

The work on the manganese mines, south of Little Grand station, is being pushed rapidly at present, fifty men and twenty-two teams being employed. It is understood that this property is under the control of the Colorado Fuel & Iron company. E. T. Wolverton, the original discoverer of the mines, is superintending the work.—Moab Times.

After a silence of several years, the click of the drill and hammer can again be heard about the old Rob Roy. Several men have been put to work this week and A. L. Fatheringham has taken the management in hand with all the push and energy known to that gentleman ad will continue the work until something is struck, as he feels confident, as do many others, that the precious metal is there in paying quantities. Sink her down, Abe; you are all right.—Beaver City Clipper.

A. L. Morris, manager of the stock exchange, is making considerable progress in his efforts to publish 50,0000 maps of the route from Boise to Thunder mountain. Mr. Morris has secured the support of the Oregon Short Line company in the enterprise, and expects to receive the support of the chamber of commerce and local business men. The stock exchange will also contribute liberally to the expense fund. "Boise should receive all the Thunder mountain business," said the manager, "and it will if our local merchants display the proper spirit."—Boise Statesman.

NEW YEAR OPENS WELL.

Prices for Stocks Were a Point or Two Above Tuesday's Close.

Rapid Rally in Amalgamated Copper Added Strength to the General Market—Bonds Irregular.

New York, Jan. 2.—Opening transactions in stocks showed prices higher than at Tuesday's close, except for Amalgamated Copper and Brooklyn Transit, Sugar advanced nearly 2 points and the Pacifics and United States Steel were also notably firm. Prices generally advanced well beyond opening figures, many leading stocks rising from 1 to 2 points above Tuesday's close. The buying was largest in the high-priced railroads and the coalers. Sugar reacted a point from the highest and Amalgamated Copper lost about as much, but these recessions only had a temporary effect on the market, which was rising quite briskly again at 11 o'clock. A rapid rally to 70½ in Amalgamated Copper added to the strength of the general market. There was a rise of 3½ in Lackawanna and from 1 to 2½ in Northwest, Rock Island, Illinois Central, Great Northern preferred, B. & O. preferred, C. & A., General Electric and Pacific Mail. The market later on became dull and yielding when call money rates were quoted around 10 per cent. Lackawanna fell back 2 points, and the list generally a fraction. An advance of a point in Union Pacific caused renewed buying. Southern Pacific, Louisville & Nashville, Brooklyn Transit and Mexican Central rose a point or more.

Bonds were irregular.

The advance extended to Atchison and several minor stocks before it spent its force. Sugar relapsed to 117¾.

An active demand arose for the western stocks and St. Paul, Rock Island and Great Northern extended their gains to the high levels and over. The general market also hardened but did not generally reach the best again. New stocks came forward, notably Canadian Pacific, which rose 3⅝ over Tuesday. Northwestern and Pacific Mail rose 3, Reading common and second preferred extended their gains to over 2 points. Smelting preferred made a good gain. Prices generally did not get higher than before and then sagged away on profit taking. Rubber goods lost 2½. The closing was active and easy at fractional declines.

Burlington Route

THERE'S AN OLD PROVERB

which reads: "When in doubt, follow the crowd."

Rendered into twentieth century English, this means: Take the Burlington. The "crowd" does.

Always the STRONG line from Denver to the East, the Burlington's leadership was never so great as now.

Two trains a day, Denver to Omaha and Chicago—the Chicago Special at 4 p. m., and the Vestibuled Flyer at 10 p. m.

Two trains a day, Denver to Kansas City and St. Louis—the St. Louis Special at 3 p. m., and the St. Louis Express at 10 p. m.

Through sleeper for Omaha and Chicago leaves Salt Lake City 3:15 p. m., daily. Through tourist cars Wednesdays and Fridays.

Dangerous Weather This!

Cold one day,
Warmer the next,
And when it looks warm,
It's really colder than it looks.
That's why we say it's dangerous weather.
You cannot be too careful about your health
A little cold now may lead to something more serious.
A good protection is
A chest protector.
We've several kinds for sale.
But only the best kinds.
Single or double shield,
And full vest style.
50c. up to $3.50.

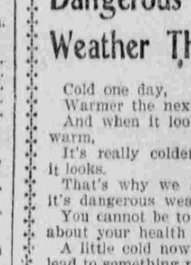
Saponifier.



Pennsylvania Saponifier is the original and old reliable Concentrated Lye for family soap making and general household uses. Beware of counterfeits. The success of this article has induced unprincipled parties to imitate it. None genuine unless Pennsylvania Salt Manufacturing Co., Philadelphia, is stamped on the lid.

Ask your grocer for it and take no other.

THE STANDARD.

Do you have the Standard Dictionary in your library or school room? If not, you are not up to date. It is the largest, best edited, best printed, best bound, and most modern work in all respects yet issued. Only a limited number on hand. Address the Deseret News.

SIEGEL'S JANUARY SALE!

STARTED TODAY.

REMARKABLE VALUE-GIVING IN MEN'S AND BOYS' WEARABLES.

IN accordance with the regulations of this establishment, comes the command to clear the way for a new season's stock. Profits are lost sight of entirely in the effort to sell evrything while it is fashionable and in season. By so doing avoid an accumulation of old stock. While this clearing is chiefly intended to accomplish our own business aims, the greatest beneficiaries are the prudent people who take advantage of our generous offers.

There are no new tickets on sale goods. Every Suit, Overcoat or Pants is marked exactly as throughout the season. By reference to the following lists you can determine the sale price for yourself, as all goods are marked in plain figures. Look over these lists, by which our stock is to be cleared and profits kept in your pockets.
