DIVIDEND WAS **DECLARED TODAY**

A Sale Reported on the Exchange | Mammoth Company Will Pay \$20, 000 on the 8th inst.

WEIR'S REPORT ON AJAX.

Shows Conditions to be Very Encouraging-Yankee Con. Improving -Mining Notes.

The directors of the Mammoth Mining company met today and declared a with yesterday morning's call there dividend of 5 cents a share or \$20,000, payable on May 8th, the books to close stocks with the exception of Yankee on the 5th inst. The payment of this Con., which surprised everyone by sum brings the total paid by the old bonanza to the magnificent sum of Washington weakened greatly at the \$1,820,000. On the 10th inst the Swansea afternoon call yesterday, but it opened will pay its regular monthly dividend at 241/2 this morning and climbed to of \$5,000, while the Silver King will come forward with its monthly dividend of \$100,000, The Daly-West will terday afternoon. It fluctuated be- also pay \$45,000 on the 15th inst. Thus tween \$1.28 and \$1.35 today. Star Con. far this month there is \$170,000 in sight

REPORT ON THE AJAX. Manager Weir Says the Outlook is Very Encouraging.

Manager Weir of the Ajax came in from that Tintle property last night after spending a couple of days in the examination of the latest developments. which are very encouraging. In a con-"News" reporter toversation with a "News" reporter to-day, Mr. Weir said that while an ore body has not been intercepted it will be found shortly if the present indications count for anything. The comcrosscut, which intersected the fissure about 500 feet from the Lower Mammoth end lines. When the fissure was first encountered a 6 inch streak of fine looking vein matter was found lying on the footwall. This wall is as well defined as the wall of a house. Drifting has been in progress in both directions on the footwall for some time, and the values have increased in the streak, which has also widened to 20 inches. It looked extremely good yesterday, and Mr. Weir would not be surprised if a body of ore were encountered during the next day or two. The 20-inch streak is composed of spar with fron stains. Bunches of silver ore also appear from time to time, which assay well. The width of the fissure is not known, as no crosscutting has been done. Between the streak on the footwall and the hanging is found mineralized lime much broken up. Conditions much the same in the drifts north and south of the crosscut. Some delay and south of the crosscut. Some delay is being experienced on account of the difficulty in getting rid of the powder fumes. Mr. Weir has full confidence that an ore body will be found south of the crosscut and he is equally certain that a find will be made north of that point. A winze has been put down in good ore from the 700 at a point north of the crosscut and Mr. Weir expects to cut this same chute on the 1,000 level before many weeks are over. The 1,000 level of the Ajax is only a very good prospect at present, but it is just at a point where a big body of ore may

be exposed with any shot.

The new compressor has been shipped and it is expected that it will be in-stalled in the course of 10 days or 2 weeks, when work will be pushed.

YANKEE CON. IMPROVING.

Supt. Guenther Says the Mine is 25 per cent Better This Week.

A letter was received today by the Yankee Con, management from Supt. Guenther, which will be very cheering to stockholders of the company. The letter stated that the propert looked 25 per cent better last evening than it was when Doctor Franklin left the property last Tuesday morning. The gold values are said to be increasing rapidly in the drift, which is being run at an intermediate point between the tunnel level and the top of the upraise. As high as \$10 in gold is being found in recent tests. The ore is fourd to be going up very strong above the station at the top of the upraise. Two cars of ore are ready for shipment and Supt. Guenther says he can easily ship from one to two cars a day from the Yankee. With connection made with the Humbug he expects to ship three to four cars of ore per day, which means that the company's output will be \$2,500 to \$4,000 per day or probably about \$80,000 per month on an average. Dr. Frank-lin says the combined properties preat the biggest ore body in Tintic and he fully expects, when everything is ready to turn out the above shipments. With no hoisting necessary a dividend record may be made which will send the stock to \$4.00 as some predict. In the meantime preparations are being made to form a new company by the consolidation of the Yankee Con. and Humbug properties. The owners of the Humbug will take over the Yankee Con. on the basis of \$250,000, the same as the Humbug. The new company will be capitalized at 500,000 shares. Each shareholder in the Yankee Con. will be entitled to the same number of shares in the new company. Figured on a basis of 18 per cent per annum it will be necessary for the new company to pay 6 cents per share, or \$30,000 per month to keep the stock at \$4.00 per

Sues the Overland Company.

The Gates Iron Works company of Chicago has brought suit in the Feder-Chicago has brought suit in the Federal court against the Overland Mining company for an alleged infringement of a patent owned by it. The Overland Mining company has been using a gyratory ore crusher, bought from the Austin Manufacturing company of Harvey, Ill. The Gates from Works company allege that the Austin company has been inthat the Austin compny has been in-fringing on Gates' patents and that the patent to the ore crusher has been in-fringed upon. The Austin company is now being sued by the Gates company, and it is understood, that the suit against the Overland company is merely a side issue in the suit of the two manufacturing companies. A temporary injunction is asked for by the

Manager Duncan of the Overland Mining company is fully indemnified in the

Anent Mining Exchange.

The Salt Lake Mining Review consid-The Salt Lake Mining Review considers that Mining Reporter has gone entirely too far in saying that there was but one live mining exchange in this country, viz., that at Colorado Springs, and maintaines that the Salt Lake Exchange is not only in a healthy condition, but is run on fairly good principles and has a future. The Review

takes a firm stand on this subject, as would be expected. But, is it a wise one? Some propositions are unmistakably foreordained to failure from the very start if we will but consider them impassionately and without local prejudice. Are not mining exchanges of this class? Even that at Colorado Springs will in time pass away because of the temporary decline of interest, and the temporary decrease in the lamb crop.—Denver Reporter.

MINING NOTES.

P. J. Donohue left today for Mexico. Simon Bamberger went out to the Lower Mammoth of Tintic today.

S. A. Kenner expects to leave shortly

on a prospecting trip to the desert. Superintendent Craig of the Yampa reports the property looking very good. Six cars of ore were on the market today from the South Swansea of Tin-

Two cars of crude ore were on the market today from the Horn Silver of

Alonzo E. Hyde reports the Bullion-Beck improving very much in the south end.

The Diamond of Eureka, Nev., reached the Salt Lake market today

with a car of ore. The Queen mill of Bingham reported the market today with another car of concentrates.

The Taylor-Brunton sampler reported 6 cars of ore from Tintic, 1 from Bingham, 2 from Frisco, and 1 from Nevada today.

Dr. P. A. H. Franklin says he has purchased quite a little wad of Rich-mond-Anaconda stock, but he denies that he has any option on the property, Rumors are affoat regarding the sale

of Jesse Knight's Uncle Sam to the Franklin syndicate. They are all denied by Dr. Franklin. Mammoth Record: Arrangements are now being made to resume work on the Eureka-Swansea extension, and probable that the boom of powder will

Another payment of \$25,000 has been made on the purchase price of the Dixie mine and Smelter near St. George. This makes the total payments already made amount to \$100,0000. The balance is due in two sums of \$50,000 each.

Mammoth Record: The new assay office which has been put up at the Martha Washington recently is now fitted up in good shape. P. N. Anderson, an efficient assayer from the Union assay office in Salt Lake, is in charge, and is kept busy testing Martha Washing-

UNSETTLED

AND FEVERISH

Union Pacific Goes to 1321/2 And Drops Back.

D. & R. G. VERY AGGRESSIVE

Preferred Rose 3% on Denial of an Injunction Against the Western-Strong Undertone in Market.

New York, May 2.-The market was very much unsettled and feversh at the opening. The international stocks showed the effect of lower prices in London this morning. Northern Pacific and the trunk lines were especially affected and the United States Steel stocks were some under pressure, but Atchison, Denver & Rio Grande preferred, St. Paul and Western Union showed very aggressive strength. The opening sales of Union Pacific were of 15,000 shares at 130 down to 12914, compared with 129% at the close last night, but very aggressive support appeared and carried the stock almost immediately up to 1321/2. The loss in Northern Pacific was 1% and New York Central, after opening up a point, dropped 2½, St. Paul sold at 173 to 173½, compared with 172¼ last night. Western Union rose an extreme 5%, and Atchison sold at 77% to 78, compared with 76% last night on the sale of 12,000 shares. Denver & Rio Grande preferred rose buoy antly 31/2 on the denial of an injunction against the taking over of Rio Grande Wesetern. Rubber Goods sold at 3512 to 38, compared with 35 last night on the transfer of 3,000 shares. Trading was nervous and excited, and prices moved in a bewildering manner. Gains were lost and loses were recovered fully, the variation running to a point or more in the most active stocks. A strong undertone of strength prevailed despite the feverishness and many of the less prominent railroads and specialties rose prominent railroads. be heard there again within a short from 1 to 2 points. Union Pacific fell back to 130, while Atchison got up to 79. They fluctuated frequently and there was no consistent tendency perceptible among the active stocks. Penn-sylvania dropped 3 points under last sylvania dropped a points under last night. St. Paul 1%, and the United States Steel stocks fell back about a point each, while Union Pacific railied 2 points from the opening low level. The market became more distinctly reactionary during the second hour, when a contest for market leadership de-veloped between Union Pacific and Atchison. The buoyancy of the latter falled to overcome the depressing in-fluence of the former, which dropped to 127, which is 51/2 below the best. De-clines from the best reached 5 in New York Central, Illinois Central and General Electric 31/2, St. Paul 3, Atchison, 2%, Lackawarina, Delaware & Hudson, Northern Pacific and Rock Island 214 to 214; United States Steel. Atchison rose strongly after these eclines, 61% points to 83 on very large buying. The only other stocks to show notable strength were National Biscuit which rose 4%, the Rubber stocks, 2% for the common and 4 for the preferred International Power 2%, and Mexican Central 1½. Before noon Union Pacific rallied 2%, New York Central 2%, Illinois Central 1%, and St. Paul 1½, but the rallies did not hold and prices continued to break here and there. Bonds were treemlar.

A sudden demand developed for N. & V., and Chesapeake & Ohio in the last hour on the declaration of a dividend on the former stock. Chesapeake & on the former stock. Chesapeake & Ohio rose an extreme 35%, and Norfolk & Western 34%. There were rallies also of 2 points in St. Paul and 24 in 24 in Atchison. The general market continued feverish and unsettled without any general tendency to advance. Union Pacific fell back 4% from the top. Prices of a number of other stocks touched the lowest in the last hour, notwithstanding the renewed advance. notwithstanding the renewed advance in Atchison. The closing was active and generally easy.

CHICAGO CORN PIT.

Phillips Causes May to Soar to 55, Predicting 65.

Chicago, May 2.—May corn, the supply of which has been cornered by Geo. H. Phillips, soared to 55 cents a bushel today, the highest price since August, 1894, when the market touched 57 cents. Today's bulge carried the market 5 Today's bulge carried the market 5 cents aigher than the high point yesterday. Shorts were tendered the privilege of covering their contracts when the market was at 48 cents. Many did so. Those who did not improve their opportunity sought to buy today, but bid higher and higher only to find scarcely any for sale.

Phillips predicted that the price would be 65 cents before the end of the month,

"This prediction," said he, "is not based on the fact that the short in-terest in a tight box, but on the fact that the legitimate demand has reached the limit of production. For years the bears have kept prices unnaturally lower, now the bulls are having their ingings and the farmer is getting what

this corn is worth."

The market during the afternoon worked back to 53, and the closing price was 53½, 4 cents higher than yesterday's close July wheat opened at 73%@%, sold to 74@74%, fell back to 75%@%, but re-covered to 74@%. Close—Wheat—May, 73%@%; June,
