

THEY HELD UP HEALTH PAYROLL

City Council Fails to Agree Upon
Proposition of Full Wage
For Inspectors.

WANT TWO WEEKS DEDUCTED.

Steward Little of the Isolation Hospi-
tal Also Included in the Discus-
sion—Revised Ordinances.

The committee on finance of the city council has refused to approve the payroll of the health department for the first half of November because the five special sanitary inspectors were given credit on the payroll for the two weeks they were suspended by the council. In addition to that there were several other matters in connection with the payroll which didn't look just right to members of the committee.

It was claimed that Steward Little of the quarantine hospital spent two weeks of his time in the city instead of attending to his duties, yet he is given credit for those two weeks on the payroll, which is approved by Health Commissioner Stewart. In regard to the five inspectors, the committee contends that they are not entitled to one cent for the two weeks they were suspended and further that it is the intention of the majority of the committee at the present time to see that they don't get anything for that time. It was stated by Fernstrom that he was informed that one of the inspectors was working for the city recorder at the time he was supposed to be working as an inspector in the health department.

Dr. Stewart says that he never received official notice of the suspension of the inspectors, and he therefore thought he was justified in keeping their names on the payroll. In regard to Steward Little, the commissioner says that the report is false that he was not attending to his duties at the hospital. However, one of the patients at the hospital tells an entirely different story and unless his statement proves false, Mr. Little will be deprived of his salary for the time he spent in the city.

Tonight the council will consider the revised ordinances of the city and will probably make a number of amendments and pass them as amended. Councilman Robinson will introduce an amendment to the payment of \$100 in addition to the regular price of the lot, which amount shall be payment in full for the care of the lot. It is contended that the interest on the above amount will just about cover the expense of maintaining a lot. It is expected that the ordinance in relation to salaries of city officials and employees will be amended to a considerable extent tonight.

The finance committee this forenoon approved the payroll of the departments, with the exception of the amount due to the five special sanitary inspectors and Steward Little of the quarantine hospital. Those matters will be further investigated by the committee before the salaries are paid.

AN ELEGANT CLUB HO USE

That Erected by Local College Men One
Of the Finest in the West.

The University club removed from its old quarters in the Jennings block, to the new club house three weeks ago, and the change was then noted in the "News." But some time is being required to get straightened out and settled, as there was a delay in the interior finish. But that trouble will soon be ended, as the completion is rapidly approaching. The new structure will cost \$60,000, and is one of the most comfortable club houses in the west. It has 22 dormitory rooms which were spoken for shortly after the building was under way, and these are now being occupied. Had another story been added for dormitories they would have all been taken, and it is believed that by another year, an L will have to be added to the building to accommodate the demand already in prospect for increased room. The sitting and grill rooms will be models of comfort, the billiard, reading, music, ladies', and other apartments will be very attractive, and in general comfort and solid elegance without unnecessary display will characterize the new home of the University club. The culinary department is to be very complete, with a fine dining room, and china and glassware bearing the crest of the club. The furniture will be ideal in its line. A competent steward has been engaged, and a full corps of servants will be engaged.

The membership of the club has been largely increased of late and college men generally in this city and state not already members, are casting longing eyes toward this popular association of college men.

AGAINST CIGARETTE HABIT.

A card, postmarked Philadelphia, has just been received in this city, which reads as follows: "A national league has been formed against the cigarette habit and a mammoth petition is to be sent to Congress that a law shall be passed prohibiting the sale of cigarettes to minors. Will you send a copy of this card, signed by yourself, to four lady friends and enclose this card? United States Naval Academy, Philadelphia, Pa. Do not fail to do this or the chain will be broken and the object for which it was started defeated. Please be prompt. No money asked."

CLIMATIC CURES.

The influence of climatic conditions is the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaust-

Royal Baking Powder

ABSOLUTELY PURE

There is a quality added to the cake and biscuit by the Royal Baking Powder which promotes digestion. This peculiarity of "Royal" has been noted by physicians, and they accordingly endorse and recommend it.

Royal Baking Powder is used in baking by the best people everywhere.

ROYAL BAKING POWDER CO., NEW YORK.

DISTRESSING CASE.

Entire Family Down With Diphtheria—
Two Children Dead.

Frank E. O'Reilly's family are in great distress in their partly finished house at Third East street and First avenue. The trouble is diphtheria, and two of the children, a boy and a girl, are already dead, and the mother and four other children are suffering from the disease. The family are having a dreadful time. For food they are dependent on the neighbors, and the house in its uncomplete condition does not properly protect the suffering inmates from the inclemencies of cold weather. Mr. O'Reilly is said to be nearly a mental wreck.

HANDSOME CHURCH.

Westminster Presbyterians to Erect a
\$30,000 House of Worship.

The Westminster Presbyterians have taken up the option held for the last year on the southwest corner of Fifth South and First West street, 387 rods, and will build there a house of worship costing \$30,000. The present church edifice and site on Fourth West street, just below First South street, will be sold, and the lot at the corner of Mt. Pleasant avenue and Fourth South street, where it was intended to build, has been disposed of. The church has nearly doubled its membership since the present pastor, Rev. John Richelson, took charge, and the church has now 20 members.

HOME TREATMENT.

We have a medicine for such troubles as are caused by stomach disorders, resulting in dyspepsia, sick-headache and general weakness, that will put the organs of digestion in first class working condition. Eat wholesome food, have it properly digested, and you have taken away the cause of more than half the ill of life. This medicine is called Dr. Gunn's Improved Liver Pills. Sold by all druggists for 25c. per box. Only one for a dose. They do not digest the food you eat, but do the very best possible thing; put the stomach in condition so that the food you eat is turned into strong rich blood, driving out and preventing disease. Women write us that they use nothing else for the complexion. They keep the skin clear, preventing pimples and liver spots from appearing on the face, and purify the blood.

CIVIL WAR STORIES.

Sergeant Nelson Talks at Last Night's
Meeting of the Men's Club.

At last night's meeting of the Men's club of St. Paul's Episcopal church, in the rectory, Sergt. William Nelson of the Tenth Wisconsin volunteers, related interesting stories of his experiences in the Civil war. As the sergeant was a prisoner at Andersonville, in company with the late Major Erb of the Seventy-Sixth Pennsylvania volunteers, his experience was certainly varied enough to greatly entertain his listeners, and they hope he will come again. Refreshments were served at the close of the evening.

THEY PLAYED TRUANT.

It was court martial session last night, at the armory, Corp. C. A. Moore of the troop was fined \$5, and Private Watts \$25 for cutting drills. Private Lewis of the Signal corps escaped with suspended sentence during good behavior.

SOCIAL AND PERSONAL.

One of the elaborate events of yesterday was the dancing party given by Miss June McIntyre in honor of Miss Dorn. The handsome home was beautifully decorated with cut flowers, palms and potted plants, with smilax festooning the chandeliers while the globes had shades of white tulle. Delicious refreshments were served during the evening, and the affair was altogether delightful.

A few friends gathered informally at the home of Mr. and Mrs. J. D. Spencer last night and enjoyed a pleasant evening, among the delightful features being a number of piano selections by Spencer Clawson, Jr. The young gentleman has recently returned from Germany, where he enjoyed the privilege of a year's instruction under Leschetzky, and his artistic performance last night showed the result of

for further musical instruction, and his present capability will make his future career watched with interest. Besides the piano selections there were two vocal numbers delightfully rendered by Mrs. Marian Dinwoody.

Mrs. J. T. Donnellan entertained at luncheon today at the Alta club in honor of Mrs. Wolfersberger of Denver.

Mrs. Robert Easton is here from New York and will make an extended visit.

George E. Burbridge, superintendent of the Fifth ward Sunday school, was the recipient last evening of a well-planned surprise party given by the officers and teachers of the school in celebration of the twenty-sixth anniversary of its organization. The party was given at Mrs. Burbridge's home, 963 south Fifth West street, and was attended by about 60 persons, who were merry during the evening in songs, recitations and amusing games. Before dispersing, all sat down to a sumptuous spread prepared under the guiding hand of Mrs. Burbridge.

Mrs. J. L. Franklyn entertains at tea this afternoon.

OBITUARY.

ELLEN P. KAY.

daughter of Ralph and Ann Partridge, and wife of John M. Kay, was born in Preston, Lancashire, England, Sept. 11, 1814.

In company with her parents she came to Nauvoo, Ill., in 1842; was baptized into the Church of Jesus Christ of Latter-day Saints when eight years old. On the 23rd day of March, 1844, was adopted by the law of the land to Dr. Willard Richards. With the Richards family she left Nauvoo in 1846 and spent the winter at Winter Quarters. Resuming the journey she arrived in Salt Lake City, Oct. 12, 1846. She endured the hardships of the journey bravely, living a considerable time on a quarter of a pound of flour, daily rations.

During her short married life her husband performed two missions in Europe, covering a period of seven years, dying on his return on the last one in 1844, and was buried in the plains. His wife never saw him after she was twenty-six years of age. Modest and unassuming, Ellen Kay, yet was possessed of great courage and energy, walking unaided through a lot of uncomprehending hindrances. Heart trouble and dropsy combined to bring her earthly life to a close, and she died with unswerving faith in God and her religion.

Sister Kay assisted Dr. Richards, then postmaster of Salt Lake, in receiving and distributing mail. Her husband was facilitated by the use of six quart tin pans as receptacles for the same. She also folded many of the first issues of the Deseret News, Dr. Richards being at that time its editor.

On the 16th of June, 1850, she was married to John M. Kay, and became the mother of two sons and two daughters, the latter of whom survive her.

During her short married life her husband performed two missions in Europe, covering a period of seven years, dying on his return on the last one in 1844, and was buried in the plains. His wife never saw him after she was twenty-six years of age. Modest and unassuming, Ellen Kay, yet was possessed of great courage and energy, walking unaided through a lot of uncomprehending hindrances. Heart trouble and dropsy combined to bring her earthly life to a close, and she died with unswerving faith in God and her religion.

A STRONG STAFF

The Power of Pure Food.

"Some years ago when we lived in New York City husband and I lost four of our little ones during the hot weather."

"When we moved to Vineland, N. J., we made the acquaintance of the food Grape-Nuts. It was here that our little girl, Maybaba, was born but she was so frail and 'skinny' that we feared we would lose her as we had the other babies. When she was eight months old we learned about Grape-Nuts and began feeding her this food and now wherever she goes our friends feel her arms she is so plump and her flesh is so firm."

"I am convinced that Grape-Nuts with a little white sugar and boiling water would save many a poor baby's life during the hot weather when milk is sour and the little ones suffer most."

PROF. KELSEY'S SPLENDID TALK.

Gives an Interesting Lecture on
"Recent Discoveries in
Pompeii."

ROMAN VILLA IN THE RUINS.

Utah Archaeological Society is Organ-
ized With Frank Pierce as its
First President.

Prof. F. W. Kelsey of the University of Michigan gave a very interesting lecture last evening in Barratt hall on "Recent Discoveries in Pompeii." The lecture was illustrated by a stereopticon. The lecturer said that half the buried city has been uncovered from the ashes and scorias by the Italian government, every pound of the volcanic matter being carried off in baskets. The most interesting discovery of late years is that of a Roman villa eight miles from Pompeii. The kitchen adjoined the stable; the largest apartment in the villa was the wine press, having two raised platforms at either end where the grapes were laid, covered with boards and crushed with the pressure of huge beams. The juice ran into a cemented cistern, from which it was raised in buckets and run through a pipe to numerous jars in the open air, where it was allowed to ferment.

At the outer gate of the villa a dog was found, its chain stretched to the utmost. In the stable were three horses, one of which had broken his halter and succeeded in getting its head out into the kitchen. The skeleton of a slave was found clutching six silver coins. The mistress of the establishment, Mrs. Maxima, had had her bed carried to the winepress room and retired there with her stewards. As they were overcome by the poisonous vapors they fell, one upon another, the woman being the last to succumb.

Mrs. Maxima was a rich woman and had a fine collection of silverware and more than 1,000 gold coins. Her treasure was in the hands of a slave, who carried the most valuable portion of it to the wine cistern, let it down to the bottom and followed it, dying while bending over the gold and silver ornaments.

Towards the close of his lecture, Prof. Kelsey called attention to the wealth of archaeological riches in the southern part of this state, and urged that research be resumed and prosecuted there.

UTAH SOCIETY ORGANIZED.

When the lecturer was through the Utah Archaeological society was organized with the following officers: President, Frank Pierce; vice presidents, President Benjamin F. Cluff, Dr. J. T. Kingsbury and Judge S. W. Stewart; secretary, Prof. E. W. Cummings; treasurer, Matt Thomas; executive committee, the officers, with Prof. George A. Eaton. Meetings will be held at the call of the president and, from time to time, popular lectures will be given by archaeological experts such as Dr. Kelsey.

A MODERN SAMSON.

At Tatra Sas Miklos, in Hungary, recently Rudolf Tyrzitz, a man of Herculean proportions, was building a stable for a farmer. It was nearly finished, when Tyrzitz quarreled with his employer, and in the heat of the argument ran up to one of the pillars of the stable and shook it with such force as to cause the whole building to collapse. Tyrzitz himself was buried among the ruins, and later was dragged out dead.—London Mail.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough fearfully and spit blood, but when all other medicines failed, three bottles of Dr. King's New Discovery wholly cured me and I gained 65 pounds." It is absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and All Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at Z. C. M. I. Drug Store.

SPECIAL LAND BUYERS' EXCURSIONS

Will run to the new lands of Greer County, Oklahoma, and other sections of the great Southwest in November and December, via the Frisco System.

Are you looking for rich and fertile farming lands in the South, at which you can buy for from one-fourth to one-tenth the cost of lands of the East and North? They produce as much acre for acre. Here is a chance to better your condition and add a liberal amount to your pocket book.

For full particulars and special railroad rates apply at once to R. S. Lemmon, Secretary, Frisco System Immigration Bureau, St. Louis, Mo.

Holiday Goods for Men

Are arriving daily. The assortments are beautiful.
Bath Robes, \$5.00 to \$20.00.
House Robes, \$15.00 to \$50.00.
Smoking Jackets, \$9.50 to \$30.00.

Madras, \$1.50 to \$5.00.
Silk, \$4.00 to \$12.50.

Pajamas.

Flannel, \$1.50 to \$5.00.
Muslin, \$1.00 to \$4.00.
Madras, \$1.25 to \$5.00.
Silk, \$5.50 to \$15.00.

Gloves.

Kid, \$1.00 to \$2.50.
Kid, silk lined, \$1.25 to \$2.50.
Fur lined, \$3.50 to \$5.00.
Wool, 50c to \$1.25.

"I FEEL BETTER AND STRONGER THAN I HAVE FOR YEARS."

Writes Police Clerk
Thomas J. Gaule, of
Jacksonville, Fla.

PE-RU-NA CURED HIM.

Catarrh of the Respiratory Organs is
One of the Most Common
Diseases of Winter.

Pe-ru-na is a Specific for Such Cases.

Thomas J. Gaule, Clerk Police Department, Jacksonville, Fla., writes: "I suffered with catarrh of the respiratory organs for four years causing a serious cough and distress to my vocal organs. I doctored for it without getting any permanent relief until I was induced by a brother officer to try Peruna. I found that several of my associates had taken it and been cured and I discarded all other medicines when I started on it. Within a week I found a change had taken place, my general health was much improved and the cough was easier. I kept up the treatment for five weeks and seemed then better and stronger than I had been for years. For the past three years I have enjoyed perfect health and am glad that I gave your medicine a trial. You deserve success."—Thomas J. Gaule.

remedy ever devised to cure any case of catarrh, however long the case may have been standing.

A U. S. Senator's Letter.

Ex-Senator John M. Thurston, of Omaha, Nebraska, is one of the most prominent and influential men in the country. He has used Peruna as so many other men of national fame have done and recently wrote the following letter to The Peruna Medicine Co., of Columbus, Ohio:

Washington, D. C., April 6, 1901.
"I have used Peruna at various times during the past year or two with most satisfactory results.

"It entirely relieved me from an irritating cough—the result of excessive effort in the presidential campaign, and I am a firm believer in its efficacy for any such trouble."—Jno. M. Thurston.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
