

BY TELEGRAPH.

AMERICAN.

BOSTON, 14.—Wool is quite steady with a fair average business. There is no pressure on the part of holders to force sales, and buyers appear indifferent about purchasing. No change in combing and delaine fleeces, and many of the principal receivers contracted ahead for these wools, consequently the quantity offering is small. Pulled wools are in fair demand and remained unchanged. Considerable is doing in unwashed and unmarketable fleeces. Territory and other low priced wool sales include Ohio and Pennsylvania fleeces, X, XXX and No. 1, at 35 @ 37; Michigan X and No. 1, at 32 @ 36; New York at 31 @ 36; coarse and cotted fleeces at 27 @ 30; combing and delaines, at 35 @ 44; unwashed combing and delaines, at 26 @ 69; Texas at 17 @ 28; Territory wool, at 15 @ 22. Oregon, 12 @ 30; scoured, 34 1/2 @ 65; tub washed, 20; super and X pulled, at 23 1/2 @ 40. California is in fair demand, sales comprising 296,000 pounds, at 17 @ 28 for spring, and 17 1/2 @ 18 for fall. Most of the spring sold at 24 @ 28. Very little new fall has yet been received and there is no inquiry for it.

MEADVILLE, Pa., 14.—The water in the river gradually rose until about noon to-day, since which time it has fallen considerably. The lower part of the city along the river is still inundated, and is only reached by boats, and many families are compelled to live up stairs. Skiffs have all day been plying about among the residences in that part of the city, doing necessary errands. After repeated efforts to secure the bodies of men lost on the wreck below the junction, that of Engineer Brown was recovered last night. He died at his post and was found beneath the tender of the locomotive. The body of Mike Cabill was taken from the wreck at 9 a. m. The body of Hoffman, the fireman, has not yet been recovered. A farmer living east of the city lost 150 sheep, pasturing in the low lands. Much loss is felt by farmers from destruction of corn, etc., which floated away. Reports from all small towns near us indicate the same terrible storm and damage. The A. & G. W. R. R. is running on time east of here, but the work of rebuilding bridges and culverts west of here is slow, but they hope to move passengers by Sunday afternoon by means of transferring them over the breaks. Franklin track is reported to be covered with two or three feet of water. It is believed the trouble is at an end, as the day has been clear and beautiful.

Toronto, 14.—Water in the river Don has fallen five feet since yesterday. Officials are erecting temporary bridges, all those in the county and adjoining township being swept away. Farmers are unable to come to market, and gardeners charge exorbitant prices for everything.

Richmond, 14.—The flood in James' River, at Lynchburg reached its highest about 2 o'clock this morning, since which time the water has been falling. The rise at this point is about 10 feet and is still rising, but no serious apprehensions are felt. Water in the lower part of the city covers the wharves and is in cellars.

CANTON, Miss., 14.—Dr. Cage, one of our four physicians, was taken down this morning. A hospital has been established, and we are managing the fever the best we can with our limited number of physicians and nurses. Thanks to friends everywhere for their liberal aid. Signed by the mayor.

I traveled yesterday 25 miles in different directions of the country. Unmistakably yellow fever is in families having no communication with the town or houses. Found one dead and another dying. My strength and courage is still unabated. J. J. LYONS, M. D.

Baton Rouge, 14.—Deaths, 1; new cases, 42. Total number of deaths to date, 27; total number of cases, 433.

Gallipolis, O., 14.—Three deaths to-day from yellow fever in the infected districts.

Memphis, 14.—To-night's reports show an increase in the death rate. Over 127 deaths were reported, of which however, 10 should have been reported last evening, leaving to-day's mortality at 117, of which 40 were colored. None of the resident physicians have made reports of new cases to the board of health

this evening. About noon to-day, a foul stench was discovered in the neighborhood of the Morby and Hunt block, on Front street. A negro policeman, detailed for the purpose, made an examination of the premises, and in one of the rooms discovered the dead decomposed body of H. L. Waring, cotton buyer, who had evidently been dead for several days.

Ten nurses leave for Holly Springs in the morning. The sick telegraphers are reported in a favorable condition, and hopes are entertained that all will recover.

Holly Springs, 14.—Nurses did not arrive; send 20 good nurses, mostly females. Send at once; are sorely in need; nurses leaving; doctors overworked. Can you help us? Signed by Walter Bailey, jr., M. D.

Vicksburg, 14.—Weather clear, warmer. Thermometer 88; light frost yesterday morning, northward, in the Mississippi bottoms. Fever here is abating in new cases, but deaths continue very large. Twenty-two deaths to-day, 16 whites and 6 colored.

Twenty-six physicians of the Howard medical corps report 234 new cases for the past 24 hours. The statement of Dr. Ramsey, of Washington, as sent through the Associated Press reports, last night, is exaggerated in many particulars and false in others. The Peabody Hotel, of which he draws such frightful pictures, is kept open by the proprietor, C. B. Galloway, for the accommodation of physicians, nurses, and active workers, and is kept free from disease. In reference to his statement through the Washington press that sick white women have been outraged by negro nurses, not a single case of the kind has occurred.

New Orleans, 14.—The resolution of the Howard Association, telegraphed last evening, applies only to themselves and their peculiar work with the sick and destitute from fever, and is not intended to apply to the Peabody Association, who are at work to relieve the destitution which prevails widespread from the present epidemic. The Peabody does noble work, aside from our peculiar sphere, and is worthy of every encouragement.

F. R. SOUTHWELL, City Howard Association.

The deaths include 23 children under seven years. Of the new cases reported to noon, to-day, several were many days old. The doctors report cases in bulk when they have time. Physicians reported 23 cases, some five days old. There were 20 deaths to 6 p. m., and about 125 new cases. The Young Men's Christian Association reports new cases to-day, 92; deaths 3. Howard Association new cases, 334.

SAN FRANCISCO, 14.—Forest fires have been raging on the north side of the Columbia river. The losses are estimated above half a million dollars. A public meeting has been held at Vancouver to raise means to relieve the settlers.

A Portland dispatch says: A German named Hoffman perished in a forest fire in Washington Territory. The grain warehouses of Hoxter & Hinds, at Forest Grove Station, Oregon, on the Central Railroad, was burned, last night. The loss is \$50,000, falling mostly on neighboring farmers, who had their wheat in store.

BRADFORD, Pa., 15.—A glycerine magazine near here, belonging to N. B. Pulver, containing 70 lbs. of glycerine and 100 lbs. of dynamite, exploded, to-day, and N. B. Pulver, J. B. Burkeholder, Andrew P. Higgins, and Charley Page were blown into fragments.

GRENADA, Miss., 15.—Five deaths and two new cases. The fever is abating, and we may soon look for a more cheerful condition of affairs. An agent of the railroad company, who arrived here this morning from New Orleans, to take charge of the railroad, after viewing the situation, concluded to return. He left on the train, to-night for New Orleans.

Holly Springs, Miss., 15.—This evening Mrs. Loberde, who nurses R. C. Perkins, the express agent, who so heroically volunteered to take the place of L. B. Moseby, who deserted his post, reported that her patient had been robbed of his money by an assistant nurse named S. E. Thomas. We immediately arrested Thomas, and the money was found in his coat. About 200 are still sick. Five deaths, to-day, and nine new cases.

(Signed) W. J. L. HOLLAND, Chairman Relief Com.

New Orleans, 15.—Deaths 59; cases reported, 149, including 66 cases dating from the 1st to the 15th inst.

The Howards have received the following:

Grand Junction, Tenn.

Send by the next train two physicians. We will have no doctor to-morrow. All sick; 42 cases of fever. (Signed)

EDWARD BRITON, Mayor.

Canton, Miss., 15.—The total number of cases to date is 383, deaths 54. New cases in the last 24 hours, 31; no deaths.

Cairo, 16.—A boy from Kentucky, who came here sick on Wednesday, died to-day, with symptoms of yellow fever.

Five employes of the *Bulletin* office, taken sick on Friday, are very low with the same symptoms as those who died on Thursday.

Worcester Mass., 15.—Collections in aid of the yellow fever sufferers, in ten city churches, to-day, amounted to \$1,422.

New York, 15.—The circular of Cardinal McClosky, directing collections in all the catholic churches on Sunday next, for the relief of the yellow fever sufferers, was read at several masses, to-day, and the priests urged generous contributions.

Bishop Laughlin made an appeal in the cathedral, Brooklyn.

Two grand concerts, given in Brooklyn, to-day, by fifty German societies, in aid of the yellow fever sufferers, were very successful; 222 kegs of beer, presented by the brewers, were sold.

Memphis, 15.—Ninety deaths were reported to-day. It is believed that many have occurred in the suburbs which are not reported, for the reason that the undertakers will not go beyond the city limits, and they that sell coffins for their interment do not report them.

At Elmwood, to-day, 55 cases were brought in in express wagons and other vehicles, from the suburbs.

Of the 24 original Howards, only six are on their feet, the others being dead or sick. Clerical force is so much reduced that Secy. J. H. Smith requests persons sending contributions to send by draft. There is an apparent falling off in the number of new cases. Only 52 new applications for nurses were made to the Howard's to-day; 26 physicians of the medical corps report 174 new cases for 24 hours ending 6 p. m. against 234 yesterday.

Vicksburg, 15.—Clear and warm; thermometer 90 deg. Physicians think there is a steady decline in new cases, but fears are entertained if the very warm weather returns the fever will again increase. Eighteen deaths to-day, nine white and nine colored. Among the new cases is Wm. R. Fairchild, a prominent citizen and a member of the Howard's.

LAFAYETTE, La., 15.—A difficulty occurred, last evening, in the store of Chancel Chais, at Charles Court House, between Charlie Baptiste, (colored) and Mr. Valeour St. Martin, deputy sheriff, and a son of N. V. St. Martin, district attorney pro tem., which resulted in Baptiste being stabbed and instantly killed by St. Martin. The latter was arrested and lodged in jail.

During the night, a mob of colored people, variously estimated at from 100 to 200, broke open the jail, took the prisoner therefrom, and literally riddled him with bullets beyond all recognition. It is supposed that he received the contents of not less than fifty guns.

NEW ORLEANS, 15.—Wm. N. Rogers, a well known livery stable keeper, aged 69, was shot and dangerously wounded by Jas. Finn, an ex-policeman, who had attempted to draw government rations but failed because he had no sickness in his family. This information being given by Rogers, Finn shot Rogers with a musket loaded with slugs.

NEW YORK, 16.—According to the *Tribune's* tables, New York has contributed \$238,000 to the stricken south. The following is the total death list up to the end of the week: New Orleans, 2,091; Baton Rouge, La., 30; Plaquemine, La., 37; Morgan City, La., 8; Port Eads, La., 8; Memphis, Tenn., 1,985; Grenada, Miss., 223; Holly Springs, Miss., 76; Vicksburg, Miss., 565; Canton, Miss., 54; Port Gibson, Miss., 96; Ocean Springs, Miss., 9; Greenville, Miss., 49; Lake, Miss., 12; Hickman, Ky., 26; Louisville, Ky., 7; Gallipolis, O., 9; Cincinnati, O., 5; St. Louis, Mo., 10; Chicago, Ill., 1; Cairo, Ill., 3. Total, 5,305: The *Tribune's* local columns are

swelled with accounts of Saturday and Friday's brutal deeds, which are summarized thus:

The body of a young woman was found in the woods near Silver Lake, Staten Island, yesterday. It had been forced into a barrel and the features disfigured by the action of chloride of lime. This is believed to be a case of malpractice and murder.

In a drunken fight at New Rochelle, one laborer was beaten and kicked to death.

A drunken husband, in Brooklyn, caused the death of his wife by throwing her from a window.

In a quarrel among brickmakers, near New Brunswick, N. J., one of them was murdered.

A fisherman at Babylon, L. I., took his own life after trying to kill his wife.

The *Times'* Chicago special says: A Lasalle, Ill., special to the *Tribune* states that Herman B. Chapman, the driver of the United States express wagon in that city, was robbed, yesterday, of a \$14,000 package, consigned by the First National Bank of Chicago to the Matthiessen & Hegeler zinc works in Lasalle.

The *Tribune's* Washington special says: The Post Office Department has great difficulty in the management of postal affairs in the yellow fever districts. At Grenada the situation is particularly distressing. The postmaster died a few days ago, and a telegraphic appeal was received requesting his wife to be appointed his successor, as the salary was needed. This morning a dispatch was received stating that she was dead. All the bondsmen are dead or have left the city. All the money, stamps, and records of the office are locked up in the safe, and the only persons who knew the combination are dead. A clergyman is now acting as volunteer postmaster for two hours daily. This is in violation of law on the part of the Department but there is no remedy.

CINCINNATI, 15.—There has been three deaths from yellow fever at Gallipolis since Friday. An attempt was made to land some of the steamer *Porter's* barges at Bladenburg, 10 miles below Gallipolis, by a man who was on them when they broke loose. He was prevented from landing by a man named Montgomery, who fired several shots at him, and followed him down the river a distance of 10 miles.

New Orleans, 16.—The weather is clear and pleasant; deaths 73; cases reported, 108; 20 of which appear at a date prior to Sep. 12.

To the Masonic Grand Lodges of the United States:

The Masons of Louisiana, with profound gratitude to sister jurisdictions who have voluntarily donated a large sum of money for the relief of the yellow fever sufferers in this State, beg that they will cease their generous contributions, as ample funds have been already received.

(Signed) SAMUEL J. POWELL, Grand Master.

Canton, Miss., 16.—The total number of cases to date is 404, deaths 56. New cases in the last 24 hours, 20, deaths 1.

OIL CITY, Pa., 16.—A special from Bradford, Pa., says of the glycerine and dynamite explosion, that the mangled and scarcely recognizable remains of the unfortunate men were found at different points about the magazine, and at distances varying from 50 to 100 feet. The cause of the explosion is unknown. Not one of the party present is left to tell the story. On the night of August 8th, burglars endeavored to open the magazine by inserting glycerine into the lock and firing with a fuse. The attempt failed, and the explosive remained in the lock. Last Sunday night, Sept. 8th, another attempt was made to burglarize the safe and disarrange the lock. Pulver and his friends were trying to open the safe and it is supposed fired the glycerine in the lock.

SAN FRANCISCO, 16.—The British ship *Jessie Osborne*, from Port Augusta, Australia, went ashore, last night, three miles north of the Heads. She is now lying full of water, and will be a total loss. All hands are safe. The weather was thick at the time and a strong wind was blowing.

CINCINNATI, 16.—The following account of a most horrible murder is given in the dispatches from Houston, Texas: The wife of Geo. Lynch, a respected citizen of Berkeley, Tex., died some weeks ago, leaving an infant. Lynch had

seven other children, the oldest, Clemie, being 17 years. On Friday night, the family retired as usual, a lamp being left burning in the train room. At midnight, the father was awakened by a pistol shot, and a ball striking him in the breast. He sprang up and saw a masked man standing in the middle of the room pointing a pistol at him. The assassin fired again, the ball lodging beneath the collar bone. Lynch fell unconscious. When he recovered consciousness, he found himself lying in a lane outside the premises. The assassin, thinking Lynch dead, seized a hatchet and put the children, who were witnesses, out of the way. He assaulted Clemie, buried the hatchet in her head, also crushed the skulls of three other children, then set fire to the house. The distracted father saw the burning house fall in on the bodies of his eight children. The bodies were afterwards exhumed and an inquest held, when hatchet wounds were discovered upon the skulls of the children. It is thought Lynch will recover. A young man named Boatware, with whom Lynch had a difficulty, is suspected of the crime.

INDIANAPOLIS, 16.—Thomas H. Bowles, attorney and insurance agent, committed suicide, this morning, at his office. Continued ill health is supposed to be the cause.

FOREIGN.

LONDON, 15.—Trouble is apprehended in Scutari. The governor has taken measures to protect the Greek and Austrian consuls against any attack of the Albanians.

Germany, it is said, has decided to defer making any definite proposition for joint action on behalf of Greece in consequence of the opposition of England and hesitation of Italy.

A Belgrade dispatch says: The Austrian reinforcements have commenced offensive operations against the insurgents by intrenching on the banks of the Save. The fighting, so far, is indecisive. The Austrian loss, between the 4th and 9th of September, is about 100 officers and 8,000 men.

HAVANA, 15.—The steamer *Carondelet* arrived yesterday. She experienced very heavy weather and took off the crew of the American brig *Sally Brown*, from Pensacola for Santos, abandoned at sea.

The steamer *Santiago de Cuba* arrived last night, all well. She experienced a tremendous hurricane off the Florida coast, lay to four days off Cape Carnaveal, and was obliged to throw her deck load overboard.

The *City of New York* experienced a hurricane, lasting 40 hours, between Cape Hatteras and Charleston. The weather at Havana was tempestuous and very rainy. The hurricane did most damage in the eastern and central departments, not so much by wind as inundations. The damage to cane fields is not very serious.

Decreps have been issued creating commissions charged with considering the reform of the customs tariff and establishing a junta to revise and classify the public debt of the Island.

The deaths at Havana during August included 375 from yellow fever and 38 from small-pox.

CONSTANTINOPLE, 15.—It is stated that the Porte will not only accept the English programme of reforms for Asia Minor, but will shortly issue a proclamation extending it to the whole empire.

ROME, 15.—The *Fanfulla* makes the sensational announcement that the basis of a new treaty between England and the Porte has been settled, giving England the protectorate over Egypt. The *Fanfulla* adds that France consents to the treaty, and will take part in the management of the finances.

In consequence of the amnesty granted by the grand council of Berne to the catholic priests, deprived of their living in 1873, for refusal to comply with the requirements of the State, the Vatican intends to propose to other cantons to adopt similar measures, and solve the difficulties by common agreement.

NEW MARKET, Ont., 15.—The flood was very destructive in this section. Buildings floated off, mill-dams carried away, an iron bridge on the Northern Railway seriously damaged, and 13 others destroyed. A large amount of property was destroyed in Brantford. West Brantford is entirely submerged. The
