

FOREIGN.

LONDON, 10. — This morning's *Telegraph*, in an editorial on the meeting of the Emperors of Russia and Germany to-day, says it is impossible to conceal the truth that the continental situation wears, this morning, the very gravest aspect. If we were to say that the question of the future repose of Europe may be practically solved before forty-eight hours have passed, we would scarcely go beyond the facts. The tendency at this hour is decidedly pacific. Other city journals likewise comment on the meeting, but the thought of war is generally discredited. It is reported from Paris that the French government positively contradicts the assertion that Germany recently made representations of a hostile tendency. The same dispatch contains a statement, believed to be semi-official, that no cause of conflict exists between Germany and France, and advices from all the capitals of Europe are to the effect that pacific ideas are everywhere in the ascendency.

An inquest was held, to-day, at St. Marys, on twenty bodies from the steamer *Schiller*. H. Hillers, first officer of the *Schiller*, testified that at the time the vessel struck Captain Thomas and another officer were on the bridge, two men were looking out forward, and two others were on the bridge with the Captain. The jury rendered a verdict of found drowned, coupled with a recommendation that a telegraph be established between Bishop's lighthouse and the shore. They express the opinion that if such a means of communication had existed all on board the *Schiller* would have been saved; officers Hillers and Poleman concur in this opinion. The remains of Mrs. Hermine Weste were privately buried. The number of bodies buried was thirty-seven.

BERLIN, 10. — The Czar arrived here to-day. He was received at the station by the Emperor William and the Princes of the Emperor's family, Generals Von Moltke and Manteuffel and other distinguished personages. The Emperor's greeting was exceedingly cordial. An immense crowd gathered around the station and cheered enthusiastically. The city was decorated with flags. The Czar, accompanied by Prince Gortschakoff, has visited Prince Bismarck.

The bill for the suppression of religious order passed its third reading to-day, in the Lower house.

The Berlin *Post* says that there are reasons to suspect that certain Polish priests have conspired against the lives of Prince Bismarck, and Dr. Falck, minister of ecclesiastical affairs, and that three persons, whose names are already known to the police, were hired to carry out the plot.

PARIS, 10. — The feeling here is more hopeful. *La Liberte* says that the Czar intends to propose a general disarmament, and that Germany will support the proposition.

LONDON, 11, 5 a. m. — A special to the *Standard* from Berlin says that Bismarck and Gortschakoff will decide, during the Czar's visit, whether Germany should answer the last Belgian note directly, or appeal to the guaranteeing powers. The recent warlike rumors are declared to be the work of stock jobbers.

The *Times* says:—"We believe that the Czar is resolved to hold the most decided language in favor of the maintenance of peace and to use every effort to stop the present alarm, and a few days will probably bring forth official disclaimers of the recent reports. It is possible that it will be said there is nothing to justify French apprehensions, but there should be no mistake on this point, for as long as the present conditions remain there must be uneasiness and even danger, and an unforeseen incident or an outburst of jealousy may precipitate a rupture. The Czar is unable to guarantee that France will not attack Germany within a few years; Gigantic armaments are a mutual menace, and while they exist it is beyond the power even of imperial peacemakers to allay apprehensions."

In the House of Commons, this afternoon, Bourke, the under foreign secretary, in response to an inquiry by Sir Charles Dilke, as to the continental situation, said the government had received, to-day, the most satisfactory assurances from Berlin of the maintenance of the peace of Europe.

Farmers of Utah!

BE NOT

DECEIVED

In Purchasing Your Mowers and Reapers.

The above cuts represent the celebrated **Cayuga Chief Mower and Reaper**, manufactured at Auburn, N. Y., by the *Cayuga Chief Manufacturing Company*, which has been so extensively in use for the past twenty years. To have all the good qualities combined, a machine must cut wet, heavy and lodged, as well as dry, light standing grain, without clogging or breaking; it must be light draft, easily handled, and COMPLETELY UNDER the CONTROL of the DRIVER. The farmer wants a Machine for SERVICE; one that will NEVER FAIL in any kind of grass or grain; one that will do all that is claimed for it; one that will save team, time and money, and labor in the house as well as in the field. All these good qualities the farmers will find in the

CAYUGA CHIEF,

And recommendations from the farmers of Utah more than verify our position, giving the farmer the assurance that he can rely upon it to go through his harvest without failure or delay. Look well to it when you are offered Machines that claim all these advantages that are found in the celebrated CAYUGA CHIEF, that they do not fail in some essential point. What the farmer wants is a machine that will meet all his requirements, and after close examination of the points of superiority which we claim for the CAYUGA CHIEF, if he will purchase one, he will find he has made no mistake.

The lifting devices for the Finger Bar are the most effective. The Cutting Apparatus is cushioned, having ledger plates, which can be taken out and sharpened at pleasure, and with this improvement you always have a sharp cutting knife. Besides the Chief has a joint in the frame of the machine, allowing it to pass over uneven surfaces, where no other machine can go.

RAKES.—We also have one of the finest Sulky Rakes ever on exhibition in this Territory.

The CAYUGA CHIEF is on exhibition, three doors south of J. W. Lowell & Co's Wagon Shop, Main Street.
