Admiral Remey Sends a Cablegram Confirming this Fact.

Wsahington, Nov. 29 .- The navy department today received the following cablegram from Admiral Remey con-firming the report of the disaster to the auxiliary cruiser Yosemite at Guam: "Cavite, Nov. 29.-Bureau of Navigation, Washington.—Captain of trans-port Sherman reports total loss of Yosemite Nov. 13. Admiral Remey's dispatch came at an early hour and gave the first offi-cial data of the total loss of the Yosemite. The dispatch was communicated mite. The dispatch was communicated to Secretary Long, who came to the department and spent part of the morning there. The secretary expressed profound regret at the loss of the ship and men, but there was some consolation in the fact that the loss of life was comparatively small considering the large complement of officers and men carried by the Yosemite under ordinary carried by the Yosemite under ordinar carried by the Yosemite under ordinary circumstances. A dispatch was sent to Remey asking for all further particulars which might be available and for the names of the boat's lost crew. The fact that Admiral Kempff had left Cavite by this time for Guam gave assurance that everything possible would be done. The secretary said the department would make every effort to ascertain the extent of the disaster and the names of those who were lost and the names of those who were los and would keep the public informed Admiral Remey's reference to the Justin, which went to the rescue of the Yosemite, applies to the collier Jus-tina which recently had arrived at within a few days from the time of her

At the same time the collier Brutus had been ordered from the Philippines to Guam, where she was to take the place of the Yosemite as a station ship. The Brutus took out a crew and marines who will act as the garrison at Guam, replacing rces which have been there for about

The General Alava, which is reported from Manila to have passed into the track of the same typhoon, which over-whelmed the Yosemite, is a little gun-boat of 532 tons displacement. Nevertheless she is said to have been per-fectly staunch and seaworthy and providing she met the storm in the open sea she would, in all probability, come safely through. The Alava was a Spanish gunboat captured by the United States army in the Philippines where she had been used by the insurgents and was turned over to the United States navy about a year ago.

With a cheer the lads fell upon the foe and utterly routed them. Down went King Turkey and all his horse, foot and baggage before the irresistable onslaught of the American soldier. It was a thrilling sight. The neatness, precision and business like air that pervaded the whole attack fair-

Twenty minutes after the attack was sounded the wreck of a noble banquet was all there was left to tell the tale Then the liquid refreshments were brought out and the air became filled with the fumes of beer and cigar smoke all of which was furnished by Uncle Sam for those who have borne the brunt of the battle in the Philippines Then the boys in blue began to tell about last Thanksgiving day away across the seas, to sings songs and otherwise en-joy themselves in the regulation manso dear to the regular campaigner

AT THE STATE PRISON.

Out at the State prison this afternoon, 172 male and one solitary female pris oner sat down to a bounteous repas that had been provided for their deectation by Warden Dow. The men consisted of stuffed yeal, ad libitum with mashed potatoes, and four kinds of vegetables, the whole being topped off with coffee and peach pie. At 12:30 the prisoners, with the ex-

Mollery, who was supopried by a comrade on each side, related how he left his university to serve the empire. He said he had to serve the empire.
