

ITALY HONORS
MME. RISTORI.
Victor Emmanuel Visits Her in Her Palace.
KAISER SENDS FLOWERS.

Leubet Presents Her With "The Palace of the French Academy"—Savoy Opens Grand Fete.

Rome, Jan. 29.—The eightieth birthday anniversary of the Marquise Del Grillo (Adelaide Ristori) is being made the occasion for many celebrations. King Victor Emmanuel, accompanied by a numerous suite, visited and felicitated the actress, who held a kind of court, the mayors and other dignitaries of a number of towns paying their respects to her. Queen Helena sent the marquise a present and she received very many congratulatory telegrams from monarchs and other distinguished personages of various countries. All the characters will give commemorative performances tonight.

At the command of Emperor William, the German ambassador, Count von Wedel, congratulated the marquise upon the eightieth anniversary of her birth, expressed the regret of the emperor not being personally acquainted with the actress and presented to her a beautiful basket of flowers.

An fashionable Rome was present at the commemorative performance at the Theater Della Valle tonight. The minister of public education, Giulio Nitti, the mayor of Rome and Prince Colonna sat in Madame Ristori's box with the Ristori family. The emperor's presence was the chief attraction of the evening. The actress, who is now in the prime of her life, is still able to play the part of the Italian dramatic art. Her present performance of the Marquise with a gold and diamond bracelet on her arm, and a diamond bracelet from Queen Helena.

When King Victor Emmanuel visited the actress, she received him at the head of the staircase in her palace and conducted him to the reception room. The king conversed at length with her concerning all the phases of her career, and expressed his delight at being able to salute in her the living glory of Italian dramatic art. He then presented the marquise with a gold and diamond bracelet on her arm, and a diamond bracelet from Queen Helena. The visit of the king lasted half an hour.

They room in Mme. Ristori's palace is a beautiful room, and the staircase is paved with flowers. For hours the street outside the palace was blocked with carriages.

Some political meaning is read into the visit of France and Germany to the actress, and it is said that the visit is a prelude to a visit of the French ambassador, set in motion.

GOV. VAN SANT REPLIES.
Tells Minneapolis Business Men Is Carrying Out His Oath.

St. Paul, Jan. 29.—Gov. Van Sant today replied to the petition from Minneapolis business men who asked him to take his oath on the so-called railroad merger. The letter is addressed to James H. Hill & Co., and the governor says:

"I beg to acknowledge receipt of a petition from you and numerous other citizens doing business in the city of Minneapolis, proposing that no railroad merger be taken against the Northern Securities company, and that a fair opportunity for testing by experience whether good or evil will come from that company."

The consolidation of the Northern Pacific and the Great Northern railway companies, through the organization of the Northern Securities company, is clearly in violation of the state statute.

"I obligated myself when I was inaugurated governor of the state to enforce the laws thereof."

"It is my bounden duty to prevent, if possible, the consolidation referred to, because such consolidation is in violation of the clear and unmistakable provisions of the laws which have been enacted. Not only the letter of the law but the settled policy of this state against the consolidation of parallel lines in the matter of railroad lines. Competition in the matter of railroads is always best and ever will be beneficial to people, and no specious argument or argument from those desiring to do away with such competition is sufficient to meet plain facts derived from common experience."

"However the question whether the law is of no use or not is not before me. The law exists and has not been violated—my duty is plain."

"I therefore most respectfully decline to comply with the request contained in your petition, and shall continue as vigorously as possible to vindicate the laws of our state."

TARIFF QUESTION

Government Anxious Not to Provoke Retaliation.

MAKES A DEEP IMPRESSION.
Language Firmest Yet Used Towards The Agrarians—No Tariff War Is Wanted.

Berlin, Jan. 29.—Count von Posadowsky-Wehner, imperial secretary of state for the interior, speaking today before the tariff committee on behalf of the government, said that if the members of the committee forced into the tariff bill amendments designed to provoke retaliation abroad, the bill would be rejected as the government could not support it.

Count von Posadowsky-Wehner was referring to a batch of motions proposed by Count von Kanitz, Herr von Kardoff, Herr clump and other agrarians, conservatives, nationalists and national liberals, intended to enable the government to levy discriminating duties and to shorten the bonded period, as well as to require certificates of the origin of imports.

The socialist members of the committee supported the imperial secretary of state for the interior, Herr Steudtgen, saying it was incomprehensible to him how measures striking dead could be introduced. Later in the discussion Count von Posadowsky-Wehner said:

"Germany imports raw products in large quantities and exports manufactured articles correspondingly. Germany is a country of exchange, and the exchange is the same way abroad and our exports would be the most severely damaged because we absolutely need raw products, whereas foreign countries are able to get their manufactured goods elsewhere."

The announcement of the position of the government has made a deep impression, the language being the firmest yet used towards the agrarians. Herr Gamp withdrew his motion altogether, while Count von Kanitz and Herr von Kardoff modified theirs. Herr Gamp and Herr von Kardoff moved amendments embodying the views of Count von Posadowsky-Wehner. A vote on the bill was not reached.

Dr. Wiley said he was formerly connected with the beet sugar experiment station in Nebraska. He declined speaking for the secretary of agriculture. He was aware of the views of the President, Secy. Root and Gen. Wood, but he said his views were the result of his own inquiries and conclusions.

Mr. Richardson asked if the witness expected to remain in the agricultural department. He having been stated that he was about to enter the sugar business.

Dr. Wiley said this was the first he had heard of such purpose.
