

## METHODISTS WANT MUCH MORE MONEY

Bishop Fowler Says More Attention Should be Paid to the Extension of the Work in Utah.

## HE SEES BUCABOOS CALORE

Says the "Mormons" Will Soon Have Deciding Votes in Utah, New Mexico, Colorado and Nevada.

Kansas City, Mo., Nov. 6.—During an address before the general committee of church extension of the Methodist Episcopal church today, Bishop C. H. Fowler said that the Methodist church ought to pay more attention to the extension of its work in Utah and the southwest, where the "Mormons" have churches, and endeavor to convert as many people as possible to Methodism in order to offset the power of the "Mormon" church.

Bishop Fowler predicted that the "Mormons" in a few years would have the deciding votes in the politics in Utah, Wyoming, New Mexico, Colorado and Nevada, and that the question would present a phase more serious than did slavery half a century ago.

"Conditions in Utah, with the probable exception of Ogden, are most unsatisfactory," said the bishop. "As far as I can see there are two factions to blame. First, ourselves, as the committee of church extension, and second, the general committee of the missionary society. The pitance given Utah has been so small that the superintendents have been compelled to pick up 2 by 4 men to go into that field."

Bishop Fowler's statement was brought out during the discussion of the amount of money that should be authorized by the Methodist church for the extension of its work in Utah. He followed Bishop Cranston who said the church had practically failed in its work in Utah because of the need of money.

Rev. Dr. T. C. Huff, now a field secretary, but for 25 years superintendent of the Utah mission, supported Bishop Fowler's plea for a liberal appropriation but resented the insinuation of inefficiency of the workers given in that field. No change was made in last year's appropriation for Utah. Aid to struggling missions was authorized as follows:

## The Best Liniment.

"Chamberlain's Pain Balm is considered the best liniment on the market," write Post & Bliss, of Georgia, Vt. No other liniment will heal a cut or bruise so promptly. No other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lame back and pains in the chest. Give this liniment a trial and become acquainted with its remarkable qualities and you will never wish to be without it. For sale by Z. C. M. I. Drug Dept.

## MRS. HARDY'S FUNERAL.

Services Over the Remains of a Good Woman Laid to Rest Yesterday.

The funeral services over the remains of Sophia L. Hardy, widow of the late Bishop Leonard W. Hardy, were held yesterday afternoon in the Twelfth ward meeting-house. The speakers, who

MRS. SOPHIA L. HARDY.

one and all bore testimony to the sterling attributes of the departed, were Thomas B. Williams, Joshua Midgley, Seymour B. Young and Joseph E. Taylor. The interment followed at the city cemetery where Thomas Y. Williams dedicated the grave.

Mrs. Sophia L. Hardy was born at Lowell, Mass. July 3, 1826, and emigrated to Utah in 1850, crossing the plains with the same company in which was the late President Wilford Woodruff and which arrived in Salt Lake in October of the same year. Mrs. Hardy was the mother of nine children, seven of whom survive her, she also had 66 grandchildren, of which number 54 are living, and three great-grandchildren. To the departed lady is given the distinction of being the first to sing in public the new familiar song, "The glory of the new familiar song."

## EVERYTHING

Depends on Food.

How often the kind of food eaten determines a question of future health and happiness or even life or death. "Our little girl when but five weeks old had to undergo a very severe operation which left her unable to take her nourishment in the natural way, that is to be fed. She was naturally frail and the food did not help her. At the age of eleven weeks she was subject to a second operation and from that time she continued to grow thinner and weaker until she was but a mere shadow," so writes a lady of Ohio.

"We tried many kinds of infant foods and then the doctor directed us to give her Grape-Nuts she kept gaining until she is now more than two years old and strong and healthy. Her main food has always been Grape-Nuts and she loves them. We owe her life. Naturally we are firm friends of the food and never lose an opportunity to speak a good word for it." Name given by Dr. J. C. Bates, Mich.

## MELLENDZ MADE CIVIL GOVERNOR.

Government of New Republic Puts Him in Charge of Affairs At Panama.

## GIVES NOTICE TO OFFICIALS.

May Remain at Their Posts for Present if They Will Swear Allegiance.

Colon, Colombia, Nov. 6.—The government of the republic of Panama has night appointed Senor Porfirio Melendez civil and military governor of Colon, pending the appointment of new officials. Those of the old government have been impotent since the troops left. The prefect, Senor Cuadros, and the Alcalde, Senor Cuadros, are now nonentities. They have not been arrested.

Gov. Melendez has notified the officials that they may remain at their posts for the present if they swear allegiance to the new republic. He has also notified the steamship agents that Colombian ports on the Atlantic are closed to all arrivals. This refers only to their non-acceptance of troops from coast ports.

As up to late yesterday afternoon the Colombian troops at Colon had not decided to leave the city, a division of troops of the republic of Panama was ordered to attack them and was on its way when a telegram announced the departure from Colon of the Royal Mail steamer Orinoco with the Colombian troops. Gov. Melendez and staff, who had been arrested here, did not have time to leave, for the steamer would not wait.

When the news of the departure of the Colombian troops became known here last night, the enthusiasm was unlimited. Thousands of persons with flags, torches and fireworks, headed by two bands of music, marched through the town.

As the procession passed the United States consulate, the "Star Spangled Banner" was played and the crowds cheered wildly for the United States. President Roosevelt, Commander Hubbard of the Nashville, Secy. Hay and Acting Consul-General Elmerh. The procession went to Gen. Huerta's headquarters and with the general borne on the shoulders of four patriots, marched through the town again. Dr. Amador, the minister of finance of the provisional government, and the revolutionary junta, Jose Arango, Federico Boyd and Tomas Arias, who with Gen. Huerta were hailed as the liberators of Panama, received great ovations.

It was authoritatively stated today that though the recognition of the new republic is a business matter, the government of Panama has taken more regard to the political recognition. It is presumed here that the junta will soon issue a call for a convention which will decide a constitution and provide for the selection of a president. Then it will be in order for ministers to be appointed between the two countries, the United States and Panama, which will constitute full political recognition of the new state.

ORATION BY MELLENDZ.

Colon, Colombia, Nov. 6.—Shortly before the flag of the republic of Panama was formally hoisted over the prefecture here this morning the new civil and military governor, Porfirio Melendez, delivered an oration. He said: "In the year 1821 the population of the isthmus of Panama severed the ties that bound it to the government of Spain and spontaneously adhered to the new republic of Colombia. Neither the spontaneity of the action nor of many subsequent ones has had the effect of having the governments that succeeded each other in Bogotá, Colombia, to the isthmus, except on paper, the same rights that they had granted to the inhabitants of other Colombian sections."

"Neither were the votes of the Isthmians ever taken into account, nor were their just complaints and patriotic aspirations attended to, in virtue whereof—the ties of union with Colombia, being severed—the population of Panama, en masse taking into account the noble conduct of their progenitors on Nov. 28, 1821, have proclaimed the republic of Panama, and have appointed a supreme board of government, which the troops and public of Panama, without political dissension, and the foreign community, with enthusiasm. Delegated by that board, I have assumed command of this province, and trust you will all surround me with your support. The purpose of raising on high and without blemish the flag of the new state, for the purpose of cementing the authority with which I am invested, and in order to maintain peace and tranquility."

"The government of this new-born republic aspires to give a new and definite era of prosperity so that it may not remain behind in the advance of civilization."

"The consular corps at Colon was present, but through the French consul as spokesman, the members said they were not there in any official capacity. The new flag of the republic was raised, amid much cheering and general rejoicing, and simultaneously fireworks were exploded all over the town."

The police, bearing the flag of the republic of Panama, then marched through the streets to their headquarters, over which also the emblem was raised.

The avoidance of bloodshed in Colon following the proclamation of the independence of the isthmus, the maintenance of perfect order and the withdrawal of the Colombian troops from the city are looked upon as in great part due to the courage and ability displayed by Commander Hubbard of the United States auxiliary cruiser Dixie, the bravery of her officers and men, and to the tact of Col. Shaler, superintendent of the Panama railroad.

Col. Bluck of the United States engineer corps and Senor Porfirio Melendez, the new civil and military governor of Colon, also rendered signal service during the critical situation which found its peaceful settlement in the embarkation of Col. Torres and his troops on the Orinoco. The embarkation took place just before the arrival of the United States auxiliary cruiser Dixie, whose marines guarded the town last night. All of the Dixie's marines have now returned to their ship.

During the day Senor Cuadros, prefect of Colon, and Alcalde Guerrero were arrested and sent to Panama by train. It is rumored that there are several persons in Colon who are discontented with the new order of things, but it is said they are being carefully watched. Everything here is now quiet and the population is rejoicing. All during the day fireworks were everywhere displayed.

The Nashville sailed this afternoon for a cruise along the coast, with the object of preventing the rumored efforts of the Colombian gunboat Cartagena to land troops at Porto Bello.

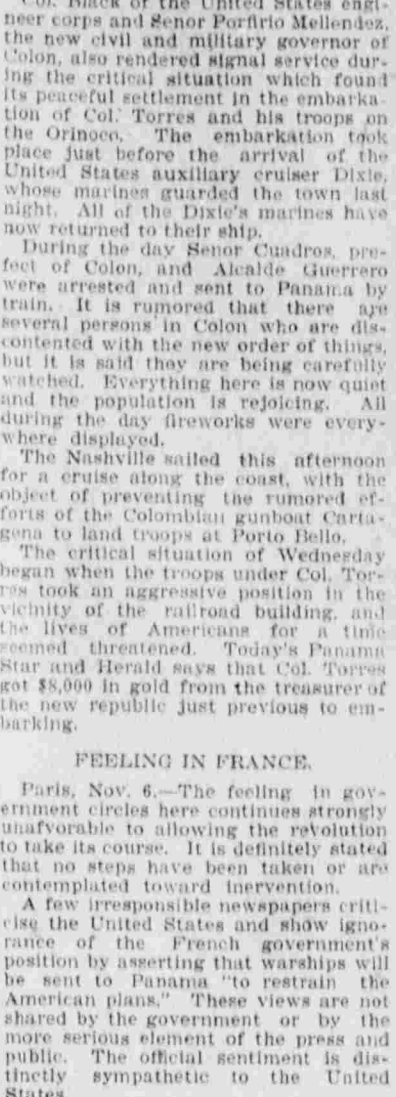

The critical situation of Wednesday began when the troops under Col. Torres took an aggressive position in the vicinity of the railroad building, and the lives of Americans for a time seemed threatened. Today's Panama Star and Herald says that Col. Torres got \$5,000 in gold from the treasurer of the new republic just previous to embarking.

FEELING IN FRANCE.

Paris, Nov. 6.—The feeling in government circles here continues strongly unfavorable to allowing the revolution to take its course. It is definitely stated that no steps have been taken or are contemplated toward intervention.

A few irresponsible newspapers criticize the United States and show ignorance of the French government's position by asserting that warships will be sent to Panama "to restrain the American plans." These views are not shared by the government or by the more serious element of the press and public. The official sentiment is distinctly sympathetic to the United States.

## COMMANDER-IN-CHIEF SPANISH WAR VETERANS.

Gen. M. Emmett Urell.

General Urell is Only One of Twenty-Eight Generals of Our Army Who Endorse Peru-na.

General M. Emmett Urell, was newly elected Commander-in-Chief of the National Organization of Spanish War Veterans of which President Roosevelt is a member.

This prominent General recommends Peru-na in the following words:

"Many of my friends have used Peru-na with beneficial results as an effective remedy for catarrh."—M. Emmett Urell, 813 12th Street, N. W., Washington, D. C.

J. U. Kannuf, 1445 N. 9th St., St. Louis, Mo., writes:

"I have found Peru-na the greatest remedy on earth to stop my aches and pains. I have been troubled with indigestion, everything seemed to lay heavy on my stomach. I was also troubled with aching of bones and backache. I felt as tired in the morning as at night, and was troubled with a cold which settled on my chest and lungs, and had a heavy cough every winter. Peru-na cured all these disagreeable symptoms, and I recommend it to all. I cannot praise Peru-na too highly, and would not be without it. I feel like a new man now, and my health is perfect."—J. U. Kannuf.

Peru-na is not a sleep medicine. Peru-na is not a narcotic. Peru-na does not stupefy. Does not bring about artificial rest. Peru-na helps weak nerves. Builds up broken down constitutions. Brings refreshing sleep, not by producing stupefaction, but by invigorating the nerve centers. Peru-na produces a natural appetite. It strengthens the digestive power. It fills the lactals full of nutrition and sends surging through the blood vessels the recuperating currents of new life.

It does all this by producing healthy mucous membranes. Peru-na makes clean, strong mucous membranes in the nose, throat, stomach and digestive organs. In this way it reaches the origin of all life, all strength and all activity.

Peru-na cleanses these membranes of every vestige of catarrhal congestion. This leaves them strong and able to do their work.

Then follows refreshing sleep. Then nervousness disappears. Then a man becomes confident, vigorous, hopeful and happy.

This is why it is that Peru-na is the tonic of tonics. It cleanses the sources of the blood. Good, rich, red blood is the result and health follows as a natural consequence.

If you do not derive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
