DESTINATION OF TROOPS—A HOAX.

"MORMONS"—Fenians or Cubans? against which are the troops of the Government to be sent? The dispatches this morning inform us (people have to go away from home to learn news) that the attitude of the people of this Territory has been hostile and that a camp of 15,000 men has been formed. Of course, if such reports are in circulation in New York, and they are telegraphed all over the country, they must be true. It is strange that no person here has heard of the formation of this camp; but then writers in New York always have been cognizant of affairs in Utah of which the residents were totally ignorant. This is but another instance of their wonderful powers in this respect.

New York harbor is to be stripped of troops, and their destination—"it is stated"—is the posts lying in and around "Mormon" territory. Is there another traitor in the Cabinet, who wants the troops out of the way to enable himself and fellow-conspirators to more easily carry out their treasonable plots, as John B. Floyd did when he had the army sent to Utah in 1857? Utah is a convenient scapegoat; but this we hope, not for our own sakes, but for the sake of the nation—that she is used as such for some other purpose than to promote treason. We have no idea that it is the intention of Government to send a body of troops for any sinister or aggressive purpose to this Territory. There are those, we doubt not, who would be mightily pleased to see such a demonstration. They would like to stir up sedition or trouble of some kind that would furnish a pretext for dragging and mobbing the people of this Territory; but they will be disappointed in the results which they anticipate. The men are not yet born, the cannon, guns and instruments of war are not yet invented, neither will they be, that will bring about the overthrow of this system which men are pleased to call "Mormonism;" for such is not its destiny.

PERPETUAL INDIAN WAR.

Some few weeks since a half-breed Sioux, named John Reshaw or Richards, affirmed by those acquainted with him to be very intelligent, and as blood-thirsty as intelligent, murdered a U. S. soldier near Fort Fetterman, and to escape the penalty of the law, fled to the camp of Red Cloud, the noted Sioux Chief, whose hostility to the whites is said to exceed that of any other man in the entire Sioux nation.

The Omaha Herald of last Wednesday, contains a letter signed "Traveler," dated Whetstone Agency, D. C., Nov. 22, giving some important information in relation to a contemplated perpetual war upon the whites, the determination to wage which has been brought about by this man Reshaw or Richards. He formerly lived several years among the Crow, and learned their dialect, and having killed a soldier, it is said he has the entire confidence of all the Indians. After gaining the protection of Red Cloud, Richards used his influence to bring about a reconciliation between the Sioux and Crows, who, from time immemorial have been bitter enemies. His efforts were so far successful that almost half the Crow nation visited the Sioux, and the two tribes formed a treaty to make perpetual war upon the whites.

The writer of the letter says his information is strictly reliable, having been obtained from three young Sioux Indians recently from Red Cloud's village on Powder river; and that lively times may be expected on the eastern and southern borders of Montana, Sweet Water, and on the U. P. R. R., between Cheyenne and Green River, and about Forts Laramie and Fetterman, and particularly at Fort Buford, near the mouth of the Yellowstone Stone River.

The Northern Sioux, it seems, are not inclined to have anything to do with this war upon the whites, as they all, except Man-afraid-of-his-horses, with seven lodges, are now encamped on the Cheyenne River, near the main fork, whither they have moved in order to avoid becoming involved.

If this information be as reliable as "Traveler" seems to think, we shall soon, in all probability, hear more of Indian outrages on the Plains east of us than for the past year or two; and much trouble, inconvenience and loss may be experienced by the U. P. R. R. Company, and passengers over their line, and by the traveling public generally. Until the threatened war is fairly inaugurated, however, let us hope that "Traveler" sounds a false alarm.

PROA.—Bro. Oscar F. Lyon, of Peoa, called in to see us to-day, and is quite jubilant over the prospects of this settlement. It is located on the Weber, eight miles above Washoe, has splendid farming and timber facilities, boats of a live Bishop—A. Merchant, co-operative store, school and all other things that a thriving settlement and community enjoy.

More Drawback Defrauders.—The whereabouts of Blatchford.—Cuban news.—Advance of Passenger and Freight Rates.—Inquest on A. D. Richardson.—McFarland preparing his defense.—The destination of troops.—A Hoax.—Dedication.—Snow Storm.—Looking after the Fenians, etc.—Election frauds.—Haytian news.—More news from Cuba.

New York, 3.—There is a rumor prevalent that nine persons are to be arrested on the charge of being connected with the drawback frauds.

It is reported that a clue has been found to the hidden whereabouts of Samuel F. Blatchford.

A Key West letter says news has reached there from Cuba, announcing that the revolutionists had surprised Cienfuegos and had seized a large quantity of provisions, clothing and medicines, and had retired in good order.

Intercepted letters from Spanish officers say there are no prospects of suppressing the rebellion.

The Times Havana letter says that in Canoso Villas district the troops are massing and there will be sufficient to draw a regular cordon across the island, which will compel the insurgents to abandon the country or force them to a battle, in which they will have no chance against disciplined soldiers.

A considerable advance on passenger rates and freights to the west was bulletined to-day; the new freight rates to San Francisco, for first-class, are eight dollars per hundred.

Dr. Cushman, this afternoon, held a post mortem examination on the body of Richardson, when it was found that the stomach, liver and intestines of the deceased had been penetrated through and through; the physicians express the utmost surprise that he should have survived so long. His body will be taken to Medway, Mass., to-morrow afternoon.

The funeral services will take place at noon, and will be conducted by the Revs. Beecher and Frothingham. Vice President Colfax and other distinguished gentlemen will attend the obsequies.

McFarland is said to be preparing for his defense, and has secured the services of John Graham and Charles Spencer.

The destination of the troops stationed in the various forts of New York harbor, which have been ordered to move to-morrow, is stated, is the fort lying in and around "Mormon" territory; it is further stated that the attitude of the "Mormons," recently, has been of a hostile character, and they have formed a camp of 15,000 men.

The new building of the Young Men's Christian Association, in this city, was dedicated this evening by the Rev. S. H. Tyng, who offered the dedicatory prayer. Addresses were delivered by Vice President Colfax, Governor Hoffman and others.

A snow storm commenced this morning, and the ground is now covered for the first time this winter.

It is believed that the movements of troops in this vicinity is to capture or prevent a gathering of men, who are believed to have formed a rendezvous, preparatory to a Fenian invasion. Some time ago, Gen. O'Neil, commandant of the Fenian forces, issued an order to the Brotherhood, to the effect that, before another winter had passed away, decisive measures would be resorted to by the Fenian forces to achieve the object of the Brotherhood. For the past two months great activity has existed at the Fenian headquarters in this and other cities and immense numbers of men have been enlisted, who have been assured that, before long, they would find work in achieving the independence of Ireland. It is concluded that troops will immediately be transported to the Canadian border in order to check, if possible, a Fenian raid. There is another report to the effect that troops have been sent to capture another Cuban expedition which has been gathering a large force not many miles distant from this city. The troops left, with their guns, early this morning, for their destination.

At a meeting of the citizens at Williamsburg, last evening, District Attorney Morris made an address stating that immense frauds were perpetrated at the last election, and that the club that held the proofs and the perpetrators would be brought to punishment.

A Port au Prince letter of the 10th ult. states that Salnave was concentrating all his troops and placing cannon wherever there was an available position for the defense of the city. The plaza was defended by cannon. It is his intention to pull down the buildings in the neighborhood, if necessary, to render its possession secure.

It is reported that the crew of the steamer Pequign transferred the vessel to the revolutionists. At present there is not a single man-of-war of any other nation in the port to protect foreigners.

General Vilma, who was placed in command of Bizkon has disappeared. Chevalin, on account of his treachery, has been declared an outlaw by President Salnave.

Havana letters state that the leader of the negro and Chinese conspirators, in and near Sagua, have been shot; three hundred lashes have been administered to all the thieves. Cholera, small-pox and fever continue to rage at San Jago; the deaths averaging 25 or 30 per day. General Lisasat has 10,000 Spanish troops in Cienzo Villas, but they cannot make any progress. Gen. Pulita, although reinforced by European troops, asks leave to abandon Puerto Principe, as the European officers conspire against him in every projected movement.

It is reported that a large expedition from the United States has landed on the southern shore of Cuba.

The Buell Bank Robbery.

CLEVELAND.—The Board of Directors of the Second National Bank has completed the examination of its accounts and published an official statement of the extraordinary defalcation of the late cashier, Buell, concerning which there has been great excitement in financial circles throughout the Union. Buell, during his long connection with the Bank, had the full confidence of its Directors and customers, which confidence had been systematically betrayed by his defalcation, which was stated in memoranda, prepared by him just previous to his death, and left for the investigation of the Directors, amounting in all to \$47,000. The bank has a surplus over and above its actual accounts—amounting to over \$539,000, and is authorized to call in from the stockholders, \$200,000, and so far as public confidence is concerned, it is unimpaired.

MISSOURI.

Damage by Fire.—Big Jewel Robbery.—The Prize Ring.

ST. LOUIS.—A shed containing locomotives belonging to the Pacific Railroad Company was burned at Herman, last night, losing \$12,000.

A portion of the bonds recently stolen of the Real Estate Savings' Institute, were found to-day in the basement of a house on 3rd street.

The trunk of a traveling agent of a New York jewelry house, was broken open in the Southern hotel to-day, and robbed of \$4,000, worth of diamonds, and a trunk containing about \$35,000 worth; the agent thinks the thief followed him from New York.

Jack Loony issues a card to-morrow, offering to put up \$1000 of his own money, to be fought for by Allen and McCoolie, on New Year's day; the money to be put into the hands of Allen's principal friend so as to secure its reception by him if he wins it. McCoolie also offers to put up his belt against its money value.

ILLINOIS.

News from Jackson County.

CHICAGO.—A Kansas City Journal says a number of "Mormons" from Salt Lake have settled near Independence, Jackson County, where they formerly resided; they have recovered some of their old property, including the temple ground, on which they propose to erect another place of worship. These Mormons repudiate polygamy.

DISTRICT OF COLUMBIA.

Reduction of Letter Postage between the United States and Great Britain.—Resignation Accepted—Early Action on Contested Election Cases—Bureau Reports.

WASHINGTON.—It is officially announced that on and after the 1st of January, 1870, a single postage of half an ounce, or under, for prepaid letters between the United States and the United Kingdom of Great Britain and Ireland, will be reduced to six cents; if not prepaid, or not sufficiently prepaid, a fine of six cents will be added to the deficiency and collected on delivery. The rates of postage and conditions of payment on newspapers, books, packages and samples remain unchanged.

The President, to-day, accepted the resignation of Ruby W. Clark, Third Auditor of the Treasury, who, on account of his ill health, prefers the office of Supervisor of Internal Revenue in the Southern District of Ohio. His successor has not yet been appointed.

Representative Paine, chairman of the committee on elections, says the contested election cases will be presented for early consideration.

A Washington special says, that Commissioner Wells expresses the opinion that the revenue can be reduced to one hundred and twenty millions, and to this end the Committee of Ways and Means propose to cut down the tariff twenty-five millions, and the internal revenue fifty millions. On the vote to take off the duty on coal, salt and copper the Committee are a tie.

There seems to be no doubt that T. J. Durant, of New Orleans, will be appointed Judge of the Fifth Judicial District, including Georgia, Florida, Alabama, Mississippi, Louisiana and Texas.

Treasurer Spinner's report says that between the 11th of May and the 28th of November, there was paid for the United States in six per cent. bonds, on account of the sinking fund and for the fund held subject to the order of Congress, and the interest paid thereon, the sum of eighty-nine million two hundred and eighty-two thousand two hundred and seventy dollars; these payments exceed half a million dollars for every working day. The Treasurer now holds in trust for the Secretary of the Treasury, and for the two funds named \$75,478,800 in United States six per cent. stocks. The dividend on these stocks will yield a net income to the Treasury and for the reduction of the public debt, \$4,528,278 yearly. There has been already received for interest on these bonds, \$704,304 in gold, which has been invested in United States bonds representing \$787,800, which is held for the two before mentioned funds. If the same rate of purchase be hereafter maintained, the accruing interest invested semi-annually, like these bonds, the whole national debt could be paid in less than 13 years.

FOREIGN NEWS.

Great Britain.

The "Times" on the Irish Question.

LONDON.—The Times, in considering the policy to be adopted on the Irish question, says "if we are not prepared to abandon our functions we must stop the development of Irish demands; we cannot excuse ourselves from guilt in allowing such mischievous delusions to be propagated. If we leave them to be enforced, our legislation will be limited only by the demands of the peasants of Ireland. We cannot free ourselves from blame, if contempt of law has risen into an outburst of organized violence against authority and order, and we must declare reform in the land law at the next session of parliament; but in the meantime the authority of the law must be maintained, and infractions thereof punished."

France.

Emile Olivier on Popular Excitement.—Waste of Egyptian Wealth.—Excitement in the Corps Legislatif.—Paris Quite.

PARIS.—At a meeting of a committee of the Corps Legislatif to-day, Emile Olivier said that to guard against popular excesses they must rally around the reigning dynasty.

It is reported that the Viceroy of Egypt has presented the Empress Eugenie with diamonds valued at six million francs.

PARIS.—At the sitting of the Corps Legislatif to-day, Rochefort arose and demanded that the national guard be ordered to guard the Hall of the Corps Legislatif in future, for protection. The demand took the Chamber by surprise and created an extraordinary sensation.

An expression of astonishment burst from all parts of the Hall; cheers followed, which were answered by cries of derision and disapproval. The opposition members generally applauded, but the majority protested against the demand and the demonstration made in its favor.

The fears of disorder to-day on account of the anniversary of the death of Baudin, have not been realized. The city has been unusually quiet all day, and at this hour there are no symptoms of excitement.
