

MINING, BUSINESS AND STOCKS.

SOON TO BE SHIPPING CASTLE VALLEY COAL

Railroad Soon to be Extended to Cedar Creek to Get Output of the New Mine Here.

Castle Valley coal will shortly be in the market, and that portion of Emery county which has long and idly held out some of its more recent dreams of oil or silver. Walter C. Orem, who returned this morning from a trip to the Castle Valley Coal company property, Mr. Orem says that the ties are now being cut for the extension of the Southern Utah railroad from its present terminus at Moenkopsk on through to Cedar Creek, and the Castle Valley Coal company hold him to it. This will be put through as far as possible and this company alone, it is said, will be able to put 1,000 tons of coal a day into the Salt Lake market.

The necessary extension of the railroad will be between five and six miles long. Not only will it open up the coal fields but it will greatly shorten the distance to the various towns and cities to the southwest of Castle Valley.

Mr. Orem said this morning that the company owns 4,000 acres of coal land and that there are some enormous veins on the property. At present the company is working on a low vein of coal, which can easily be taken into the tunnel and back the wagon up against the face of the vein. The coal is declared to be of an excellent quality, being 90 per cent carbon and volatile combustible matter. The amount of ash left is about 6 per cent, thus making almost an anthracite coal.

STOCKS ARE FAIRLY STRONG.

Week Begins With Market Showing Better on Local Exchange.

The volume of business transacted on the local exchange this morning was better than has been experienced in several days. There was more activity in certain stocks although prices were fairly strong.

The market was somewhat unsettled today, especially relative to Iron Blossom and Sioux Consolidated. The latter began going lower shortly after the market opened and it continued throughout the regular session. Iron Blossom sold at \$1.20 on a buyer, but dropped to \$1.15 before the close. Bullock was fairly dumped down to \$1.05 and 44,000 shares were disposed of this morning at 10 to 15 cents. Mountain Lake was sent down this morning and 6,000 shares were disposed of. The stock dropped from 13½ cents to 12 cents.

The total number of shares disposed of this morning was 101,115, and the amount represented was \$20,377.

On the curb market Bingham Central Standard was disposed of at 23½ and 24 cents today.
