"AMERICANS" ARE BADLY WORRIED.

Wearing an Extremely Concerned Look Over Present Financial Condition.

INCREASE AND DECREASE.

Receipts for First Four Months Show Shrinkage of \$7,511.19 Over the Same Period Last Year.

The "American" members of the finance committee of the city council are wearing an extremely concerned look these days, and they will grow more worried as the time approaches when they will be compelled to fix the tax levy for this city next July. Two very important meetings of the committee have been held recently, the last one yesterday afternoon, and the true financial condition of the city has been deeply impressed upon the minds of the members of the party in power who have never stopped in their extravagant expenditure of the city's funds until this late in the day when they begin to realize what their course will lead to in the matter of increased taxation on the people.

STARTLING STATEMENT.

At the meeting yesterday afternoon held in Mayor Thompson's private office, City Auditor Alf. Christensen, a statement, showing that the city's receipts during the first four months of the present administration have decreased \$7,511.19 as compared with the first four months of last year under the Morris administration. It also shows that the expenses of the city have increased \$36,296.12, as compared with the first four months of last year.

AN OVERDRAFT NOW.

A year ago the city had a balance of \$14,327.12 in the general fund on deposit in the bank. Today there is an overdraft against that fund amounting to \$29,521.11. During the first four months of 1905 the total receipts amounted to \$29,521.11, while for the first four months of this year they amounted to only \$14,327.12. The disbursements for the same period in 1905 amounted to \$24,756.15, and this year they reach the grand sum of \$60,847.27. This shows that the expenses this year were increased over \$36,000, but a credit is allowed on that of \$29,000 interest on water and sewer bonds which this administration had to pay from last year, thus leaving the total increase in expenditures only \$36,296.12.

HARD TO EXPLAIN.

Those present at the committee meeting yesterday were Mayor Thompson, City Auditor Alf. Christensen, City Treasurer Swenson and the members of the committee. Desperate efforts were made by the "American" members of the committee to explain the startling figures submitted by the auditor. Among other things they stated that the cause of the decrease in the receipts was due to closing up the gambling houses. This will not hold good, however, because the annual receipts from the gambling houses during the last administration were about \$30,000 while the decrease in the receipts for the first four months under the Thompson administration amounted to \$7,511.19. City Auditor Alf. Christensen stated to the committee that the collections of taxes had been better and closer this year than ever before hence the decrease can not be attributed to negligence in the matter of collections.

ALMOST THE LIMIT.

In an endeavor to explain the increase in expenditures, it was stated by members of the committee that additional expenditures had been forced upon this administration by events over which they had no control. Just how the financial condition of the city has been brought to the point where the city is almost at the limit, by a five mill levy for that purpose is causing its members a great deal of anxiety. The rate for last year was four and a half mill and the great limit, by law, is five mill, and with only a half-mill increase for general running expenses this year it is figured that the city will be in a worse condition than ever at the close of the fiscal year in 1907, especially if the expenditures continue to increase and the receipts to decrease as they have during the first four months of the administration.

WELCOME TO RECORD.

One of the results of the meeting yesterday afternoon is that the construction of the new fire station on the southeastern part of the city, for which the contract has already been awarded, will have to be postponed until some means can be secured to complete the job. Another is that the citizens of Salt Lake City will be compelled to pay a heavy increase in its tax levy this fall. For this condition of affairs the "honor" is due to the great "American" administration and they are certainly welcome to it so far as the other political parties are concerned.

SUDDEN DEATH AT NEPHI.

Unexpected Passing of Mrs. Ruth Farmer Little—Interment Here.

Ruth Farmer Little, a well known and highly respected woman of Nephi, Juab county, died suddenly at her home in that city about noon yesterday. A neighbor found her dead body occupying a sitting position and leaning forward with the head resting on a table which was spread by the noon meal. Hence she is supposed to have died while eating her dinner. The deceased was born in Bohler, Sussex, England, and emigrated together with her husband and an only son to Utah in 1880.
