The majority of the 84th regiment were locked up in the armory all day. Small detachments of them went out and behaved very badly, and affiliated with the rioters. As soon at that be-came known, the doors of the granory were locked and barred. The Orange-

men were so completely protected that not a man of them was injured.

Two companies of the 69th wars sent last night to guard the post office, and one company to the custom house. The sub-treasury had the usual guard doubled. During the day bankers and brokers were emplied, by telegraph wire running to Broad street, with the earliest news. At 230 o'clock most of the brokers commenced to deposit boxes containing securities in the exchange bank vault; and all business on the street was stopped; and at the close there were searcely brokers enough in the board to establish quotations. The movement for securing valuables was made immediately after the reception of the report that the mob was moving down town on the police headquar-

It is believed the carnage yesterday was worse than reported. There are a great many wounded whom the police will never be able to get any account of. There are one hundred scouts out, all of whom report every half hour at the nearest station house. Everything goes to show that the laborers are at work, and that no trouble need be apprehended to-day. The 11th regiment left the police station at 8 a.m. Only one relay of policemen are on duty before the building. Gen. Shaler and staff are still at their posts, where they will remain till noon. Everything points to a complete restoration of order.

Later.-Rumors have just reached the police headquarters, that fighting is now going on at the boulevard. Troops and police have been sent to the scene of the disturbance.

Unripe fruit, especially apples and pears, as is well known, is much used in the manufacture of vinegar; but the pears, as is well known, is much used in the manufacture of vinegar; but the process usually adopted is defective in many important points. We therefore give, for the benefit of our readers, the disturbances. In the narrow open appece between the mergue on 28th street and East River, and at midnight just inside the haver lightened between the mergue was purposely kept dark, because even at that has hour there was a large growd outside the heaptial walk, eagerly demanding admittance to search for missing friends or relations, but no one was admitted. Ever alert and clear-headed and going himself to the head of the fight in Prince atreet, he fully redeamed himself long before the terrible day was done; and no chief was ever more ably and realously served.

Gev. Hoffman yesterday made the following statement to a reporter: I became thoroughly satisfied that it was necessary, not only for the present but for the future, that whatever lawless alemant.
