

W. E. STIMPSON IS DISCOVERED.

Stenographer for W. H. Bancroft
Who Left Suddenly Falls
On His Feet.

GOES TO WESTERN PACIFIC.

Is in New York as Chief Clerk to
President Jeffery—Will Come
To Denver.

Warren E. Stimpson, for three years a clerk and stenographer in the office of Vice President W. H. Bancroft of the Oregon Short Line, has apparently fallen on his feet again, and incidentally into a good thing in the form of chief clerk to President E. T. Jeffery of the Western Pacific. Stimpson is now in New York, where he is the first definite news of his whereabouts since his sudden departure from Salt Lake about the time Mrs. Stimpson filed the \$40,000 damage suit against a well known eloquent rhetorician whom she alleged had seduced her husband's affections.

He expects to make Denver his headquarters in another 60 days.

MAPS FILED.

Utah Railroad Company Makes Preparation to Extend 41 Miles.

The Utah Railroad Company has filed maps of right of way at the land office here for a 41-mile extension of the existing road. The course of the proposed new construction according to the maps filed run through unsurveyed government land in a northwesterly direction from Dragoon, the present terminus. The line follows down the White river and heads in the direction of Ft. Duchesne. Work is to be rushed on the line so as to be completed in time for the opening of the reservation last fall.

ON THE DESERT.

Western Pacific Engineers Leave for West Shore of Lake.

Resident Engineer Harlowe, B. J. Jones and party of Western Pacific engineers left last night over the Salt Lake route for Media, the old Halfway House near Grantsville, where they propose to strike west across the desert and look up the survey for final location. Ogden Standard, Emery County Progress and Denver papers with "inside information" as to the official route please copy.

MORE O. S. L. CHANGES.

Still Further Promotions Follow the
Plant Resignation.

It is stated that A. B. Stephenson, trainmaster east of Pocatello, will assume T. J. Duddleson's position as trainmaster and O. M. Moody, the train dispatcher, will take his place. This information comes from Pocatello, where there is considerable interest being taken in the coming changes on the Oregon Short Line.

Supt. Platt, whose resignation to go to Los Angeles as superintendent of the Southern Pacific coast line is responsible for promotions all along the line, leaves for San Francisco on Friday, where he goes to meet Mr. Calvin prior to taking over his new position.

FIVE ROADS REPRESENTED.

Traffic Managers Meet and Discuss
Pacific Coast Freight Troubles.

San Francisco, May 23.—The first regular meeting of the freight traffic managers of the Southern Pacific, the Oregon Short Line, the San Pedro, Los Angeles and Salt Lake railroad, the Union Pacific and the Santa Fe as to Salt Lake freight privileges was held today in the directors' room of the Southern Pacific.

General Manager E. E. Calvin presided at the meeting and from what could be gathered it will be several days before any decision is reached regarding the claim of the Salt Lake people to freight privileges in the southern part of the state from the Southern Pacific and the Santa Fe.

The railroad men had up to this meeting been awaiting the arrival of Edward Chambers of the Santa Fe, who was unavoidably absent, and he came today with W. G. Barnwell.

All the prominent freight men of the interested lines are attendance.

Mindoka Branch.

The bridge over the Snake river on the Mindoka branch is so far completed that trains will in all probability be running into Burley next week. The bridge, which has been built by the Mindoka branch, is now being used on the construction of bridges across the canal and ravines between Burley and Twin Falls.

James Campbell Sues.

Suit has been filed in the district court by James Campbell against the Oregon Short Line Railroad company to recover \$5,000 damages for injuries received by him on April 21, 1905. He alleges that he was attempting to cross defendant's tracks when a switch engine approached without any warning and ran into him, severely injuring him.

SPIKE AND RAIL.

The Southern-Marjorie company left this morning for Denver over the Oregon Short Line and Union Pacific.

The "Pin" road has ordered a new locomotive and one passenger coach prior to extending the line to Payette lakes.

The Pacific Express company people are increasing shipments of flowers and fish to this city from Los Angeles over the new railroad.

H. N. Butterfield, traveling agent for the Lackawanna at Chicago, is in this city on his way home from a business trip to the Puget Sound district.

A special sleeping car carrying 50 employees of the Yellowstone Park Hotel company arrived in Salt Lake this morning from Los Angeles. They are en route to Monida and the park.

The Colorado land board yesterday sold to the Denver, Northwestern & Pacific a strip of land comprising some 20 acres in the heart of the eastern entrance to Gore canyon. The price paid was \$500 an acre. This action, it is claimed, will block the Gore canyon project on the part of the government and ensure the construction of the railroad through the canyon.

Superfluous Hair DeMiracle

Removed by the New Principle
A revelation to modern science. It is the only scientific and practical way to destroy hair. DeMiracle is a new principle. It is the only scientific and practical way to destroy hair. DeMiracle is a new principle. It is the only scientific and practical way to destroy hair.

Streets.

SEASONABLE WEATHER

That Last Week Caused a General Resumption of Farm Work.

Weekly Crop Bulletin for Week Ending Monday, May 22, 1905.—The weather during the week was decidedly more settled and seasonable than heretofore. There was a marked decrease in the cloudiness, and abundant sunshine was the rule. Temperatures were distinctly higher until the closing days of the month, when there was a decided fall and the week ended cool. Frosts occurred during this period, but no serious damage was reported therefrom. Precipitation was generally light, with the exception of a severe storm over the northern portion of the state, in some localities it cut accompanied by heavy hail that cut up grain and fruit on the ground, and stripped the blossoms from the trees.

The generally favorable weather during the greater portion of the week caused the resumption of farm work. Grain was in good condition and coming up to good stands. Beets were being thinned and the crop was generally looking well. Lucerne was growing rapidly. It was blooming in the central counties, and the first crop was being cut in the southern portion of the state. The bloom was full, with prospects for good yields of almost all varieties. The range was in splendid condition and the stock feeding thereon was very good, but as yet very little irrigating has been found necessary.

REMAINS A MYSTERY.

Junior Keep Program Secret—Seniors Publish Theirs.

All efforts to find out the nature of the program to be given tonight in March at the L. D. R. U. juniors have failed, and the proceedings will be a surprise to the audience. The juniors have kept their secret so well that all other societies are ignorant as to the nature of the program. Starting rumors are about, but beyond that the nature of the program is a mystery. The seniors, however, are to be hampered and cautioned to be quiet. The nature of the events to be given this evening remains a mystery to the public, who are nevertheless invited to witness the affair.

Executive Commissioner McBride reports that the work of completing the Idaho building is so far along, and the regular exhibits have been nearly placed that he now feels assured that Idaho will be entirely ready by the opening day. Agricultural exhibits of the Western and Northern states are being practically completed. They are still receiving additional exhibits, and indeed expect to do so throughout the fair period, but they have their departments in such fine condition that if the fair was now to open, in these two departments Idaho would be magnificently represented.

RISER FOBBED.

University Man Remembered for His Athletic Work.

At University chapel exercises this morning, President Kingsbury delivered an intensely interesting lecture on "Physical Education," after which in behalf of the athletic council, he called George C. Riser to the stand and in a neat speech presented him with a handsome watch fob, suitably inscribed, as a token of his good work for the advancement of athletics at the University.

Mr. Riser was overcome with emotion, but rallied sufficiently to express his thankfulness for the dainty remembrance. Said he, "Mr. President and Fellow Students: This trophy means a great deal to me, and all I can say is, I thank you for your kindness."

Felicitous speeches were then made by Will Dunn and Prof. Cummings, after which a collection was taken in part for Mr. Delby, janitor of the physical building, who has just lost a child by death, and is in very poor circumstances.

PERSONALS.

E. S. Hooper, one of the oldest travelers on the road, is at the Wilson.

R. G. Hildebrand, chief clerk at the Adams hotel in Denver, is at the Wilson with his bride.

Manager Joseph Adams of the Rexburg Current-Index is in the city advertising his section of the Gem state.

The members of the High Methodist church were entertained last evening at the church, by Rev. and Mrs. D. M. Helmick.

James Green, the well known smelter man of Spokane, stopped over yesterday, en route home from the east, and went north last midnight.

W. F. Brock, correspondent of the Los Angeles Times, who accompanied the Salt Lake pilgrims to Los Angeles, is at the Knutsford, and is giving this part of the country his careful attention.

Hon. W. W. Riter has returned from an Idaho trip, during which he remarks shrewdly that it was so cold there that he suffered greatly in his thin attire. It snowed at Preston Sunday night, but the agricultural outlook is something great.

Mrs. Edward S. Hayden and three daughters of Waterbury, Conn., are guests at the Knutsford on an extended western trip. Mr. Hayden owns one of the most important citizens in the well known manufacturing city, and was known in his business capacity very widely in the commercial world.

Dr. P. A. H. Franklin, who is so heavily interested in mining operations in Utah, arrived in Salt Lake last night, but is booked to leave tonight for the east. The doctor came in from the south, having examined mining properties all the way from Mexico to the confines of Utah. He expects to return to Salt Lake in about three weeks, and will remain here for some time looking after his various interests.

IDAHO DISPOSES OF STATE BONDS.

Chicago House Gets \$400,000 Issue
On Payment of a Premium
Of \$15,000

FULL LIST OF BIDS RECEIVED

Gem State Makes Elaborate Preparation for Exhibit at Portland—
The Albion School.

Boise, May 21.—McDonald, McCoy & Co. of Chicago have been awarded the bonds to be issued under legislative enactment of last winter for various state purposes. The aggregate of the bond issues authorized is \$400,000, while the successful bidder's offer for these bonds, to draw 4 per cent interest, was \$475,000. If all the bonds run their extreme life of 20 years, the interest will amount to \$30 per cent. This percentage will be materially cut down if the option of payment at the end of 10 years is taken advantage of by the state. The interest on the bonds during the 10 years would then be less than 2 per cent. However, it is not very likely that the state will attempt to pay off the bonds at the end of the 10 year option period.

BIDS RECEIVED.

Bids for the bonds were opened in the state treasurer's office on Saturday, and were as follows: E. H. Rollins & Sons, Denver, \$474,000; N. W. Harris & Co., Chicago, \$474,000; Reserve Life Co., par and accrued interest for \$25,000 to \$50,000 of the bonds; Denison, Prior & Co., Cleveland, \$472,500; Koushitz Brothers, New York, \$481,750; and accrued interest; Merchants Loan & Trust company, Chicago, \$467,000; McDonald, McCoy & Co., Chicago, \$475,000; F. H. Patton & Co., Chicago, \$474,250. It was decided to accept the McDonald-McCoy bid, with the proviso that all legal investigation should be pushed through, and the purchase completed within the next 30 days.

The following is the list of the bonds: Miscellaneous improvement, \$20,000; land surveys, \$30,000; soldiers' home, \$14,000; reform school, \$20,000; capital building, \$100,000; Academy of Idaho, \$45,500; state university, \$40,000; insane asylum, \$30,000; Lewiston normal, \$30,000; Albion normal, \$20,000; \$50,000; wagon road, \$50,000. These bonds are all of the 10-20 variety. With the exception of the survey bonds of \$50,000, which are called "20 years," it is to be said that all the bonds have an extreme limit of age of 20 years, although it is optional with the state whether they shall be called and paid after 10 years.

IDAHO AT PORTLAND.

Executive Commissioner McBride reports that the work of completing the Idaho building is so far along, and the regular exhibits have been nearly placed that he now feels assured that Idaho will be entirely ready by the opening day. Agricultural exhibits of the Western and Northern states are being practically completed. They are still receiving additional exhibits, and indeed expect to do so throughout the fair period, but they have their departments in such fine condition that if the fair was now to open, in these two departments Idaho would be magnificently represented.

Gov. Gooding recently sent letters to nearly 500 fruitkeepers in all parts of the state, calling attention to the effort that was being made by the state to present an unusually fine exhibit, and asking their assistance. Many replies have already been received from these letters, and several of those written to have already responded by sending fine preserved specimens. Apparently all of them are preparing to assist Mr. Wessels in keeping up the fresh fruit exhibit, which it is expected will be a feature of the Idaho building during the last three months of the Portland fair.

Commissioner Bradley writes back that the exhibit of ore from the Coeur d'Alene mines is expected to be the Hercules, generally believed to be the richest mine in America, has sent thousands of pounds of its richest ores. Deputy Commissioner J. E. Williams of Lewiston has reached Portland, and is now engaged in placing the ore exhibit from the Central Idaho mines. This will be the first exhibit of these ores ever made.

FAIR WOMEN IN CHARGE.

It has been decided that the Idaho building shall be presided over by four hostesses continually. Miss Adella B. Scott of Idaho Falls, will be in charge throughout the fair period, and will be assisted by three other ladies, who will each be asked to serve a month. For the month of June, Miss Lydia Cox of Boise, and Mrs. Robert Hayes of Pocatello have already been named. Some lady from north Idaho will be decided on during the coming week.

Mrs. Harris of Silver City, and Mrs. Johnson of Blackfoot, who will have charge of the fancy work department, and Miss Gustafson of Boise, in charge of the educational department, at the fair, expect to leave tomorrow or Tuesday for Portland. The building is ready for the ladies and the ladies expect to be kept fully employed until the fair opens on June 1.

Gov. Gooding and staff will leave Boise for Portland on the afternoon of May 30. The only member of the staff who will be unable to attend the governor at the centennial celebration at the opening in Portland, is Col. Hunter, who was unexpectedly called to New York.

ALBION NORMAL SCHOOL.

There was a meeting of the board of trustees of the Albion Normal school here during the week. The full board was in attendance at the meeting. A contract for the girls' dormitory was awarded at this meeting. The building completed under the contract \$25,000. As the total appropriation for the building is but \$25,000, and as both Gov. Gooding and Atty-Gen. Gubben have stated that no funds will be paid out in excess of the appropriation, it is difficult to see how the trustees expect to get the buildings finished, unless they are depending on donations from outside sources.

The dormitory will be of brick, two stories in height, and 51x150 feet on the ground. The plans show a good building which should furnish a comfortable home for those attending the school. W. E. Wheeler of Idaho Falls, is reported to be the only member of the board, who opposed the letting of contracts for an amount greater than the appropriation. The other members of the board, Miss May Scott, Boise; Lawrence Hansen, Rock Creek; J. Y. Haight, Albion; J. A. Dillathush, Hagerman; John Lamb, Silver City, and J. T. Pence, Boise, were of one mind in regard to this.

The board of trustees also decided to increase the teaching force in the school. Prof. Thompson of Boise, is to have charge of Latin and history classes; Mr. Shepard of Chicago, mathematics; Miss Stewart of Philadelphia, kindergarten work. Mrs. Grace Piske has been appointed the head of the music department, taking the place of Miss Johnson, who has been given a year's leave of absence.

MOST STOCKS QUOTED HIGHER.

They Advanced in Sympathy with
Better Prices in
London.

RALLIES AFTER SMALL DECLINES

Market Showed Unusual Absorptive Capacity—Bonds Were Firm.

New York, May 21.—International stocks made sharp opening advances in sympathy with the higher prices in London, and carried the rest of the list with them. Most of the orders in the market were for the long side of the account and prices were carried further upward after a short set-back. Pretty nearly all of the more important stocks were quoted between 1 and 2 points above the previous close.

The rise in St. Paul and Union Pacific reached 2 1/2, Northern Pacific, 4 1/2, P. C. & St. Louis 3, and New York Central, Erie, Illinois Central, Southern Pacific, Reading, Wisconsin Central, Chicago & North Western, 1 1/2, and Locomotive 2.

Bonds were firm at noon. Moderate declines were made after 12 o'clock when the professionals began to take profits on the morning's rise. The market, however, showed such a good absorptive power that the rise was retained again by 1 o'clock, although the buying was very small.

A succession of small reactions was followed by quick rallies which carried the western stocks to the level of the specialties to a still higher level. The extension over the previous advance did not amount to more than a small fraction.

LIVESTOCK.

CHICAGO.
Chicago, May 21.—Cattle—Receipts, 25,000; market 15 cents lower. Mixed and butchers, 5.00 to 5.25; good to choice, 5.25 to 5.50; rough heavy, 5.00 to 5.25; light, 5.00 to 5.25; bulk of sales, 5.00 to 5.25.

Hogs—Receipts, 33,000; market 20 cents lower. Mixed and butchers, 3.00 to 3.25; good to choice, 3.25 to 3.50; rough heavy, 3.00 to 3.25; light, 3.00 to 3.25; bulk of sales, 3.00 to 3.25.

Sheep—Receipts, 10,000; market steady. Mixed and butchers, 2.00 to 2.25; good to choice, 2.25 to 2.50; rough heavy, 2.00 to 2.25; light, 2.00 to 2.25; bulk of sales, 2.00 to 2.25.

OMAHA.

South Omaha, May 21.—Cattle—Receipts, 10,000; market 10 cents lower. Mixed and butchers, 4.25 to 4.50; good to choice, 4.50 to 4.75; rough heavy, 4.25 to 4.50; light, 4.25 to 4.50; bulk of sales, 4.25 to 4.50.

Hogs—Receipts, 1,000; market 10 cents lower. Heavy, 3.00 to 3.25; mixed, 3.00 to 3.25; light, 3.00 to 3.25; bulk of sales, 3.00 to 3.25.

Sheep—Receipts, 10,000; market weak. Light, 10 cents lower. Western yearlings, 2.00 to 2.25; western, 2.00 to 2.25; ewes, 2.00 to 2.25; lambs, 2.00 to 2.25; bulk of sales, 2.00 to 2.25.

KANSAS CITY.

Kansas City, May 21.—Cattle—Receipts, 10,000; market 10 cents lower. Mixed and butchers, 4.25 to 4.50; good to choice, 4.50 to 4.75; rough heavy, 4.25 to 4.50; light, 4.25 to 4.50; bulk of sales, 4.25 to 4.50.

Hogs—Receipts, 1,000; market 10 cents lower. Heavy, 3.00 to 3.25; mixed, 3.00 to 3.25; light, 3.00 to 3.25; bulk of sales, 3.00 to 3.25.

Sheep—Receipts, 10,000; market steady. Light, 10 cents lower. Western yearlings, 2.00 to 2.25; western, 2.00 to 2.25; ewes, 2.00 to 2.25; lambs, 2.00 to 2.25; bulk of sales, 2.00 to 2.25.

PRODUCE.

CHICAGO.
Chicago, May 21.—Influenced by improved weather in the west and southwest, the general tone of wheat today was a trifle easier. Continued wet weather in the northwest, however, created considerable nervousness in the market, causing moderate buying by small traders. Higher prices at Liverpool gave additional aid to the bulls. July opened 1/4 to 1/2 higher, at 85 to 86, and advanced to 86 1/2. July also opened unchanged to 1/2 higher, at 25 to 26, and sold at 26 1/2.

July pork was off 2 1/2 at 12 1/2, and was down 2 1/2 at 12 1/2. Bids were 2 1/2 lower at 12 1/2.

After July had sold off to 85 1/2, the market became strong on an active demand, resulting from revived reports of damage to the crop in the southwest. For July 10, the highest point of the day was reached at 86 1/2. The market closed practically at the top, final quotation on July being 86 1/2 at 90 1/2.

Cash Wheat—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2. Corn—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2. Oats—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2.

Flour—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2. Pork—May, 12.00; July, 12.00; Sept., 12.00; Dec., 12.00.

Butter—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2. Eggs—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2.

NEW YORK PRODUCE.

New York, May 21.—Sugar, raw, steady. Fair refining 3 1/2-10; centrifugal, 35 test, 14 1/2-15; granulated, 30 test, 14 1/2-15. Coffee—May, 1.00; July, 85 1/2; Sept., 85 1/2; Dec., 85 1/2.

WOOL.

ST. LOUIS.
St. Louis, May 21.—Wool, firm. Territory and western medium, 25 1/2; fine, 26 1/2; No. 2, 27 1/2.

BOSTON.

Boston, May 21.—The wool market continues to strengthen and reports indicate that the west is well set up. Montana being especially covered up by contracts on actual sales. There is less trading among dealers here, but this is because a large part of the speculative wool available has been placed. There is little doing in territory wool, but the new wools are eagerly taken at full prices. The demand for foreign and island wools is active. Territory quotations: Idaho fine, 20 1/2; heavy fine, 19 1/2; fine medium, 19 1/2; medium, 19 1/2; low medium, 19 1/2.

Utah and Nevada fine, 21 1/2; heavy fine, 20 1/2; fine medium, 19 1/2; medium, 19 1/2; low medium, 19 1/2.
