

# LIVE TIME OVER TARIFF SCHEDULES

Senator Dooliver Says People Are  
Tired of Having Duties on  
Clothes Raised.

## NELSON DENOUNCES THE BILL

Putting Duties on Woolen Manu-  
factured Goods 50 Per Cent Higher  
Than Duty on Raw Wool Unjust.

Washington, April 22.—(Republican criticism of the pending tariff bill on the ground that the rates were too high was prominent in the senate today, when Senator Nelson of Minnesota and Senator Dooliver of Iowa attacked various schedules.

Under the guise of discussing the duty on gas stoves, a general debate on the tariff was indulged in by Democratic senators.

Fifty of the 302 pages of the bill were read today.

A further consideration of the understanding under which the senate is considering the tariff bill today resulted in an agreement by Mr. Aldrich that at any time while the measure was being considered for amendment, any paragraph in the bill under consideration might be referred to and be subject to amendment without the necessity of resorting to any formal parliamentary procedure.

The bill was taken up soon after the senate convened.

The consideration of the duty on gas stoves caused an oratorical explosion. The committee on finance had increased the rates on these articles from 35, as provided in the house bill, to 50 per cent ad valorem, the new duty being large retorts three times the amount levied by the house bill and the present law.

This course was denounced by Mr. Bailey as evidence of failure of the Republican party to keep faith with the people in their demand for a revision of the tariff downward.

Mr. Aldrich explained that the specific duty of 35 was upon small retorts and that the practice of building large ones had made necessary a change of the duty to an ad valorem rate. He challenged the senator from Texas to show that the Republican party had been pledged to a revision of the tariff "downward."

**BASIS OF REVISION.**

"The Republican party," said Mr. Aldrich, "agreed to revise the tariff on the basis of rates equaling the difference in cost of production in this country and abroad."

Mr. Bailey insisted there was an understanding in the country before the last election that the Republican party would revise the tariff downward, otherwise, he declared, the house would have become Democratic.

"The people," said Mr. Aldrich, "understand that the Republican party was a party of protection, bound to revise the tariff from the protective standpoint. If any paragraph in this bill can give protection equal to the cost of production in this country, I am for an amendment of the bill in that respect."

Mr. Nelson called attention to records showing that even under the 35 specific duty in 1897 only 55 per cent of the wool was imported at \$1.00, yielding an income of only about \$100 a year.

That he claimed, showed the old duty was prohibitive, and he thought conditions did not warrant an increase.

Mr. Bailey read from President Taft's inauguration address to show that he had favored lower duties, and Mr. Aldrich responded that the pending bill proposed to fulfill that pledge absolutely.

**ALDRICH'S PATRIOTISM.**

"I went into the Union army before I was 21, and have been a Republican ever since," declared Mr. Aldrich, in a colloquy with Mr. Bailey. Mr. Aldrich

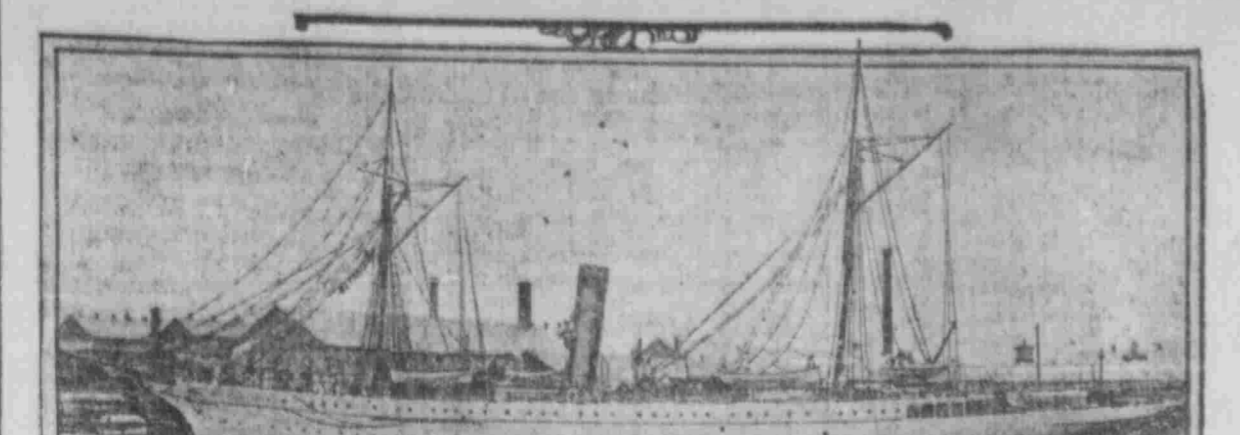

**DON'T BE BALD**

One of Our Readers Tells How  
She Obtained a Marvelous  
Growth of New Hair by the  
Use of a Simple Home  
Remedy After Hair Specialists  
and Tonics  
Had All Failed.

I had what most people would call a beautiful head of golden hair. I prized it most highly, as I considered it my chief attraction. Suddenly it began to come out, very rapidly, and at times I had intense itching of the scalp. Physicians and hair specialists said my case was one of dandruff, germs, hair microbes, etc., but nothing that they gave me did the slightest good. On the contrary, my hair seemed to come out even faster, and I was now fearful lest I should become entirely bald. In my despair I friend told me of an Ecuador herb which he said would positively grow hair on any head where hair roots were not entirely gone, and he said the natives of the country where it grew were famous for their beautiful long hair. I bought a small quantity of this herb, and after using it I combined this herb with Hay Rum and Menthol Crystals and immediately began its use. In three applications it entirely stopped the intense itching of my scalp and in a very short time it not only stopped my falling hair, but I noticed an abundance of new hair coming in. In less than one month my hair was longer, thicker and more beautiful than ever. All due to this marvelous hair growing formula, a lady to whom I gave the formula used it with great success. Always use the Lavona de Composee. Always use the Lavona de Composee in a two or sealed bottle, as this preparation maintains the juice of the Ecuador herb mentioned above, and it loses its strength if unsealed.

Apply the preparation night and morning and rub well into the scalp. It properly used will soon produce most astonishing results. Be careful not to get it on the face or any part of the body where you do not want to produce hair.

# SECRETARY OF WAR, HIS WIFE AND YACHT THAT TAKES THEM TO PANAMA CANAL

President Taft has placed the presidential yacht, the Mayflower, at the disposal of Mr. Dickinson, the secretary of war, for a trip to the Panama canal zone. The secretary will be accompanied by Mrs. Dickinson, and they will sail for Colon on April 20. The trip was planned as soon as Mr. Dickinson assumed the war portfolio, Mr. Taft directing that the new secretary at once familiarize himself with every detail of the work and conditions along the route of the canal. The president's last visit to Panama was a memorable one. He closely scrutinized everything connected with the big undertaking, and it is no secret that he intends to point to the progress of the canal as the crowning achievement of his administration when it is drawing to a close. Both the president and the secretary of war are confident that the canal will give the middle west and the southwest the greatest impetus those sections have experienced since the advent of railroads. Both men are interested in the wave of river improvement sentiment that is sweeping over the west, and the secretary of war intends to give it attention when he returns from Panama. He will remain on the isthmus about four weeks.

asserted that practically none of the Union soldiers north of Mason and Dixon's line had been Democrats after the war.

Mr. Bailey replied that great injustice had been done to hundreds of thousands of Democrats who had come to the aid of the north in the struggle of '61-'65, and "but for whose attitude the result might have been different."

Mr. Aldrich declared he had not intended to say there were no loyal Democrats in the north or in the Union army.

Mr. Bailey asserted that any such attack on any Democrat was ill-timed.

**NELSON DENOUNCES BILL.**

Senator Nelson of Minnesota denounced the measure, declaring that the cotton, glass and woolen schedules were too high. He said that placing duties on woolen manufactured goods 50 per cent higher than the duty on raw wool was unjust.

Mr. Gallinger interrupted, referring to the closing of the woolen mills of New Hampshire by the low rates of the Wilson bill.

Mr. Nelson energetically declared that that was the same spirit that had actuated New England in its criticism of any effort to reduce the high rates that had prevailed upon her products.

**DOLIVER'S POSITION.**

Senator Dooliver declared that not only were the duties of the Payne-Aldrich bill too high, but they were so worded as to result in large increases of rates without definite indication of such increases in the schedules.

"The woolen schedule," he said, "ought to be reduced. For two years this schedule has been a bad advertisement for the Republican party. I intend to vote as to whether it is fair as possible to every reduction in the Dingley rate that was made by the house committee and to every reduction made by the senate committee. Wherever I find a rate in this bill above the Dingley rate, I reserve the right to inquire whether after 12 years of prosperity with every industry multiplying output and increasing its capacity it might be possible to scale some of these duties."

"While it may be that there are only a few increases and quite a large number of reductions in this bill, I venture to say when we are through with it it will be so nearly like the Dingley bill that many men will wonder what was the extraordinary occasion that called for the bill."

Mr. Dooliver asserted that by a system of rating cotton goods higher on account of the presence of a small percentage of wool a greatly increased capacity to pay was not apparent to the ordinary person had been obtained.

Senator Ellkins criticized the lack of information concerning which had come before the committee on finance in respect to the bill.

Mr. Flint referred to suggestions offered by the West Virginia senator for rates on coal.

"You don't mean to say that the senator from West Virginia fixed the rates on coal?" inquired Mr. Beveridge.

"No, I mean he suggested what the rates ought to be," said Mr. Flint.

Mr. Aldrich asked the Iowa senator whether he had criticized the Dingley bill because of the faults he now found in it, when he was a member of the ways and means committee that framed the bill.

Mr. Dooliver replied that he had not. He said he had voted for the bill just as many others had done, because to insure the passage of a bill at the time it was necessary to accept many figures that were not entirely indorsed.

**HIGH DUTIES TIRE PEOPLE.**

Mr. Dooliver said he had defended the Dingley law in every state of the Union, but he added, "my audience are growing tired. The people are tired of having these duties raised from 10 to 150 per cent on the clothes they wear upon their backs."

Mr. Dooliver said that his conviction that the protective tariff system could be perpetuated only by making the duties more reasonable had been one of long standing.

Mr. Aldrich assumed the responsibility for the duty on hides as placed in the Dingley law and asserted that he believed the same rate, 18 per cent, would be offered by the finance committee as a substitute for the free hides provision of the house tariff bill.

"I am not certain that the farmer

west is as able to protect himself against the beef trust," said Mr. Dooliver, "as the shoe manufacturer of New England."

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the great system tonic and builder.

**DESERTER TRIED TO  
ESCAPE IN FEMALE ATTIRE**

San Francisco, April 22.—A novel attempt at escape from the military prison has just been reported at Alcatraz, a small island in San Francisco bay. The island is devoted entirely to the incarceration of army convicts and as life is irksome for the members of the guard occasional dances are given to which the ladies of the island are invited. As just one of these affairs was in progress when the alarm was sounded, indicating that a prisoner was missing. Deserting their fair partners the guards searched the prison buildings and the rocky shores of the island for an hour before they located the fugitive. He was discovered hidden in a locker, the toilet was complete even to a large hat of the latest style. The prisoner, Henry Gallagher, who is serving two and a half years for desertion from the coast artillery at Fort Barry, had been noticed sitting among the "wall flowers" in a secluded corner earlier in the evening.

How Gallagher obtained his feminine apparel is a mystery to the authorities. It is supposed that his plan of escape included a quiet evening in the ballroom and a trip to liberty on one of the launches that were to carry the women back to the city.

**MAYOR OF HOOPESTON, ILL.**

For First Time in Town's Existence  
Democrat Elected.

Hoopeston, Ill., April 22.—Hamilton C. Finley, the newly elected mayor of this city, is the first Democrat chosen for that office since the city was created 38 years ago. In his campaign he vigorously opposed a proposition to raise the mayor's salary which was retained 50 cents a year since the city was incorporated. The aldermen receive 25 cents a year each.

**LEADERS OF FASHION TO  
GO BEFORE GRAND JURY**

San Francisco, April 22.—That members of four of the most prominent families in the fashionable millionaire colony at Burlingame and the models of the city who cater to the smart set, may be subpoenaed as witnesses in the investigation of an international smuggling syndicate, in the report published here this morning.

According to this authority Collector Leach, Jr., and United States Atty. Wise of New York, are preparing to place evidence before the federal grand jury that millions of dollars worth of Paris

which was a portion of the disappearing battery at Fort Mason for some years, was loaded on to a dray and hauled to the Burlingame colony where it will be in disguise because the gun covers of the war department seem to be of too small caliber to serve as a prop for the Golden Gate. The weight of the retired fighting machine was so great that the wheels of the dray, which bore it, were driven through the pavement. The removal of the 3-inch gun marks the first step in the bureau's defense program which contemplates the replacing of all 3 and 5-inch rifles with guns of 12 and 16-inch caliber.

**TWO SKULLS FOUND.**

Chicago, April 22.—Workmen excavating a tract for play ground on the south side have unearthed two human skulls which had been buried in the side of the hill. The find was made about 15 inches below the surface. A row of one-story buildings had occupied the site up to a year ago when they were razed by the school board. Detectives have been detailed on the case.

**EXPLOSION WRECKS BUILDING.**

Chicago, April 22.—A big building in course of erection on the west side was badly wrecked today by the explosion of a bomb. Several adjacent structures were also damaged. The explosion was heard for miles and occupants of nearby houses were thrown from their beds. A strike has been in progress on the building for some time and the police attribute the crime to labor troubles.

**SMUGGLED CHINAMEN CAUGHT.**

Chicago, April 22.—Custom Inspector O'Gallagher has captured two Chinamen in a box car in the Wabash freight yards and turned them over to Chinese immigrant inspector Plummer. The prisoners will be given a hearing next week.

Inspector Plummer began an investigation at once in an attempt to discover the identity of the smugglers. He is sending Chinese emigrants across the Canadian border.

The two prisoners came in a sealed car of merchandise from Windsor, Canada. They were well provided with food and water and were found complacently munching when the car was opened.

**FOR BREACH OF PROMISE.**

Margaret A. Vanderbeck, Aged 70,  
Sues James Pullis, Aged 73.

Hackensack, N. J., April 22.—A breach of promise suit is in progress here in which the plaintiff, Margaret A. Vanderbeck, is 70 years old and the defendant, James Pullis, three years her senior. The plaintiff has two married daughters while Pullis has two daughters and a son, all married. Pullis kept company with Widow Vanderbeck for nearly 11 years and then married Margaret Garrison, another widow. Mrs. Vanderbeck promptly brought suit.

Pullis, who is a contractor, says that he really meant to marry Mrs. Vanderbeck but she always put off the day and he grew tired.

**A BABY SHOW IN SALT LAKE**

Would have many contestants, but it's safe to say that the least likely baby would win the prize. No baby can be healthy who suffers from worms and most babies do unless they are kept free from them with White's Cream Vermifuge. At once, yes, really in its own purgative. Mothers, don't attempt to raise children without White's Cream Vermifuge. It's the only safe and sure. C. M. I. Drug Dept., 112 and 114 South Main Street.

Good time for all, Saltair, Saturday.

**SUMMER SCHOOL.**

The L. D. S. Business College conducts a ten week summer school, commencing May 21, and continuing to Aug. 6. Special instruction in Civil Service, Bookkeeping, Shorthand, Typewriting, English, Penmanship, Commercial Arithmetic and kindred subjects. Terms, ten dollars. Send for catalogue.

Dance hits of year, Saltair, Saturday.

**BIG GUN TOO SMALL.**

San Francisco, April 22.—An 8-inch rifled cannon weighing 21,000 pounds, which was a portion of the disappearing battery at Fort Mason for some years, was loaded on to a dray and hauled to the Burlingame colony where it will be in disguise because the gun covers of the war department seem to be of too small caliber to serve as a prop for the Golden Gate. The weight of the retired fighting machine was so great that the wheels of the dray, which bore it, were driven through the pavement. The removal of the 3-inch gun marks the first step in the bureau's defense program which contemplates the replacing of all 3 and 5-inch rifles with guns of 12 and 16-inch caliber.

**GAINED NINETEEN POUNDS  
IN TEN WEEKS' TIME**

Rapid Development of Texas Boy Due To New  
Cooper Treatment.

Parents who have weak, punny, delicate children will be interested in the story of little Arthur Hartmann, Jr., of Houston, Texas, which was recently brought to public notice. He is the son of A. R. Hartmann, a steam engineer, who formerly lived at 2019 Hutchins street, Houston, Texas, but has since removed outside the city limits and lives on one of the rural routes.

Regarding his little boy's illness and subsequent recovery, Mr. Hartmann says: "My baby was sick for two years. He had an attack of inflammation of the stomach and intestines, and later suffered from indigestion. I consulted several doctors, but they could prescribe nothing in the way of food that would agree with him, and although I spent hundreds of dollars for drugs, tonics, patent foods, etc., there seemed to be no hope of pulling him through."

"I was not a believer in advertised remedies, especially for children, but when so many doctors had failed to help him, I decided to try Cooper's New Discovery, which had been highly recommended by responsible persons. I make no exaggeration when I say his condition changed for the better the very first day we gave him the Cooper medicine, and his rapid improvement was a delight to see."

"His bowels were thoroughly cleansed, his appetite increased, he gained strength, an soon began to play and show signs of life and health. We gave him the New Discovery about ten weeks, by which time he was entirely recovered. He is now three years old and weighs forty pounds or, in other words he gained nineteen pounds while taking the Cooper medicine."

"We feel deeply grateful for what Cooper's New Discovery has done for our little boy—in fact, I do not believe he would have been with us now were it not for this splendid medicine."

Cooper's New Discovery is now on sale by all druggists everywhere. It is a boon to stomach sufferers. A sample bottle sent free upon request by addressing The Cooper Medicine Company, Dayton, Ohio.

# SICK DRUGGISTS

What they do when THEY  
have Kidney Disease.

Druggists know that "Kidney trouble" is "inflammation of the kidneys" and that if it doesn't yield promptly it becomes chronic, which the books declare to be incurable. Hence they don't lose much time with so-called kidney medicines.

W. H. Bell, the leading druggist of Live Oak, Fla., went to the Atlanta specialist, Dr. W. M. Durham, to treat his kidney disease. He had it in such a serious form that he wanted the best. He also went to Dr. C. Drew, the leading physician of Jacksonville, Fla. All efforts failed and the druggist's state began.

He then sent to California for the Fulton treatment.

The seventh month thereafter he wrote as follows:

"I am doing finely, the swelling is all out and I am 100 per cent better. Mrs. R. W. Price of 'this city' also, had serious kidney disease, and could not turn over in bed. I told her about the 'treatment' she took it and is now doing her 'own work' again and says she is well. Another 'lady' here had kidney disease all her life and 'could not get out much. I put her on the treatment' and she is well, too."

How can people doubt the curability of chronic kidney disease in view of the constant stream of testimony like the above?

For information of the kidneys, whether called "kidney trouble," Nephritis or Bright's Disease, get Fulton's Renal Compound.

Druggist Bell sent across the Continent for it. Isn't this a strong pointer for the uninitiated?
