THE EVENING NEWS.

Tuesday, - - - June 20, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, June 20, 1871.
Buying at $1.09; Selling at $1.12.

LOCAL AND OTHER MATTERS.

WEATHER ITEM. — The thermometer stood at 96 in the shade, at noon, to-day.

THEATRE.—The performance of "Humpty Dumpty" created a great deal of merriment last night. It will be repeated to-night, and will be preceded by a very fine drama, "the Duel in the Snow," in which Messrs. Waldron, Thorne, Margetts, Miss Adams and Mesdames M. Bowring and W. O. Clawson will play the principal parts. Miss Georgie Clawson will sing that fine and favorite ballad, "Put me in my little bed," and will be assisted by a full chorus.

THE members of the High Council are requested to meet at the City Hall on Thursday morning at ten o'clock.

MINING.—We were informed by Jefferson Howell, this morning that he had lately made and located some rich mineral discoveries; gold and silver, in Markham Canyon, Bingham District.

LIKE MAGIC.—The new stores in course of erection on the ground between Asmussen's building and Dwyer's News Depot are going up with astonishing rapidity.

SALT LAKE CITY, June 19, 1871.

Editor Deseret News.—Your issue of the 16th inst., contains a letter from Bro. Martin, of Scipio, in which it is stated that, on the 29th of last July, Bathsheba and Hannah Smith organized a Female Relief Society. It should have been worded that the Bishop of Scipio organized a Female Relief Society at that date, when the sisters named were present.

Respectfully yours,
BATHSHEBA W. SMITH.

AN IMPORTANT INVENTION.—Brother Robert Edwards, of Provo city, called today and described to us a spinning and carding machine of which he is the inventor. It is called the self sustaining spinning and carding machine, a model of which was lately manufactured at the City Creek foundry. The dimensions of the model are as follows: Six inches high, ten wide and eleven and three quarters long. It is composed of brass and contains six spindles; four for single yarn and two for worsted, and, even in this limited form, it takes the raw material and manufactures it into yarn and worsted. The following merits are claimed by Brother Edwards for his invention. It will do a great deal of the labor to perform which hands have to be employed in working other machines; it will manufacture from 150 to 200 pounds of wool in ten hours, on fifty inch cards,—it works on the multiplication principle; it manufactures single yarn and worsted simultaneously, and the principle upon which the machine operates is entirely new and much more simple than that of any other machine at present existing.

A BENEFIT AT THE THEATRE.—On Friday night, Mr. Geo. B. Waldron will have a benefit at the Theatre, when a bill of rare excellence will be presented. The entertainment will be nautical, consisting of "Lafitte, the Pirate," and "Ben Bolt." Mrs. Waldron will make her reappearance on the occasion, and will sing the favorite song "Ben Bolt," "Pit-a-pat," &c. Mr. and Mrs. Waldron are both well and favorably known to the theatre-goers of this city, and this will give them an opportunity of testing their appreciation, which we hope they will do in a substantial manner.

THAT ENTERTAINMENT.—Remember the Coulduck entertainment to-morrow night at the Theatre. It will, doubtless, be one of the choicest amusements ever presented to the public of Salt Lake.

SEVIER COUNTY.—Isaac W. Pierce, writing from Glenwood, June 12th, says: "This county has suffered severely from Indian depredations and were, some time since, compelled to leave their homes from that cause. They are now returning and re-settling and building up the deserted places, and they feel greatly encouraged, for although the grasshoppers have done some damage it is thought good crops will be raised. We are repairing the old fort which was built during the Indian troubles. A good road is being made to where there is an abundance of excellent timber, and Brother Brimhall will put up a saw mill during the present summer. It is intended also to build a co-operative grist mill. There is ample room for good people to come here and make for themselves comfortable homes. Judge Morrison has been active and energetic in organizing and putting matters in right shape here. We lately petitioned for a post office to be established in this place but have, as yet, received no answer."

CALLED.—We had a call from Mr. P. W. Gillet, Esq., of Chicago, manufacturer of the famous Baking Powder, who is visiting our city for the purpose of forwarding the interests of his business. We believe he is generally patronized by the merchants of the Territory.

FREIGHTING ORE.—The teams of Henry Standish, Esq., freighted from the Emma Mine, and delivered at the Utah Central depot, 113 tons of ore, on Saturday last; and yesterday hauled and delivered 140 tons.

PANACEA. — Robert L. Campbell, Esq., lately received a letter from Brother George K. Bowering, of the above place, who says: In surveying the line between Utah and Nevada, this settlement is brought into Lincoln County, Nevada. Through the pressure of the officers of said county, for taxes, the property of nearly the whole of the people is expected to be sold, which will cause the settlers to seek homes elsewhere, quite a number calculate on going to Sevier Valley."

Brother Bowering says he has been connected with the common schools in the Territory since 1851 and is desirous of obtaining a situation in some settlement as a teacher.

ARRIVALS.

TOWNSEND HOUSE

ROOMS TO RENT.

FURNISHED or unfurnished, over the store of Tayler & Cutler, opposite Salt Lake House, suitable for offices or private rooms. 162 tf

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The natural condition of man is a thirsty one, and it has long been an established fact that water will not quench thirst. The question then arises, can we find a substitute as harmless in its effects, and more delicious in taste than anything yet discovered? We find it in Day & Co.'s Soda and Sarsparilla. If every one would sign the Pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in the world. If any one doubts the truth of our remarks let them step into the first place they come to and try it. It will vouch for itself. em(170)tf

7-30 GOLD LOAN
OF THE
NORTHERN PACIFIC RAILROAD.

RAPID PROGRESS OF THE WORK.

The building of the Northern Pacific Railroad, (begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific Coast. The grade is nearly completed 300 miles westward from Lake Superior; trains are running over 150 miles of finished road, and tracklaying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 500.

A GOOD INVESTMENT. Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 9 per cent. currency), and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, as it also, as fast as the Road is completed, on

20,000 ACRES OF LAND to every mile of track, or 9,600 Acres for each $1,000 Bond. They are exempt from U. S. Taxes. Principal and Interest are payable in Gold, Denominations: Coupons, $100 to $1,000; Registered, $100 to $10 000.

LANDS FOR BONDS. Northern Pacific 7-30 Gold Bonds are taken at par, PAR, PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more FAVORABLE ON SAFE.

EXCHANGING U. S. FIVE-TWENTIES. The Government now allows but 4 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit and greatly increasing their yearly income.

OTHER SECURITIES. All marketable STOCKS and BONDS will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. Express Charges on Bonds or Stocks received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.
