ZINC ROLLING MILLS.

Big Plant to be Erected That Will Make Zinc Shingles,

The long-delayed charter permitting the Lanvon Zine company to do business in Kansas has been granted, says a dispatch from Iola, Kansas, Eastern stockholders had refused to build a zinc rolling-mill and sulphuric acid works the charter question was settle until The rolling-mills will be erected this spring, Mr. Rodgers, president of the company, says, at a cost of \$100,000, and will employ 200 men. It will have a capacity of twenty tons daily and among other things will make zinc shingles, heretofore little used on account of their cost.

Reorganization of United Verde.

The Boston News Bureau has the following to say of the reorganization of the United Verde, W. A. Clark's Arizo-na copper mine: "The stockholders of the United Verde Copper company are informed that the company's property was sold on Jan. 3, last to the reorgani-zation committee for \$500,000, and has been transferred to the United Verde Copper company of West Virgin.

"The stockholders assenting to the plan will receive for each share of stock a share in the new company and in addition \$10 in cash or a bond for like Dissenting stockholders emount. receive their proportion of the \$500,000 neceived on the sale of the property, amounting to \$1.67 per share, and in addition thereto their proportionate share

of the proceeds of the cash assets of the company. The time for stockholders to deposit their certificataes under the plan has been extended to and including Feb. 9. Stockholders whose certificates have not been deposited with the com-mittee on or before that date will not be entitled to participate in the benefits of the reorganization agreement, and their share of the proceeds of the sale of the property will be placed in the State Trust company of New York to their account, from whence it can be

SCHUYLER COPPER MINE.

Old New Jersey Property to be Worked After 50 Tears of Idleness.

A dispatch to the News today from New York, says: After laying idle for half a century the ancient Schuyler copper mine, on the Passalc river oppo-Belleville, N. J., is again to be operated. From the fact that the con-cern interested, the Arlington Copper Company, which was recently incorto- of about two weeks at the mine.

The report that the old Tiewaukee group is about to change hands is denied by W. S. McCornick.

Samuel Rhodes reports some high grade silver-lead ore being encountered in the Blue Jay property west of Fris-

W. J. Lawrence and W. T. Dinwoodey left for the Star Con. last evening. A car of Daly-West ore was marketed today.

It was expected that the details would be arranged this afternoon for the transfer of the twenty claims of the Dalton & Lark property to P. T. Farnsworth.

Pieric flash poweder is the name given a chemical compound formulated by two Salt Lake men for use in photo-graphing the interior of mines. It is said to give a very bright actinic light and its use is very simple.

Some of the directors of the Sharp Mining company will leave for the mine on Monday to examine the ore in the new strike. Some may be shipped shartly. Work on a new shaft is shortly to be started.

De Lamar Messenger: The Blackbird mine at Indian Peak district, thirtyfive miles northeast of Stateline, has about thirty-five men at work. Silver predominatee but it is so extensive, and of such value that the property is now beyond doubt a sure thing and a re-duction plant is now being considered to be located convenient to the property

Los Angeles Express: There are in the old Ajo mining district of Pima county, Arizona, three mountains of solid copper ore. As nearly as can be calculated the largest mountain is 1,200 feet long by 900 feet wide and the others are about 1,200 feet long and from 100 to 300 feet wide, and the surrounding country for miles is seamed with the ore. This district is situated in the extreme southwestern part of Arizona, about forty miles from the Mexican line, fifty miles south of the Gila Be station on the Southern Pacific, and 190 miles east of the Colorado river. The

wagon road from the railroad is as level as a floor; and plenty of water can be had at forty to sixty feet. According to the small workings already Bingham Bulletin says: A lot of sec-ond grade from the Erle in Markham had, the average profits per ton will be about \$12, above all expenses.

BUSINESS NOTES.

Burg Mr Dentist Brock I M While the past week has been rather quiet in financial circles, several deals have been made which show that there is still a strong demand for the local dividend payers among commercial and Trust Co. report that their deposits during the week reached a total of \$2,300,000, the high water mark in the history of the institution. The effect of the advance in the dividend rate of the Deseret Savings Bank was shown in the several jumps made in its stock. It sold for \$136 yesterday and is still in

"I guess everybody in Bellevue, Ohio, knows O. B. Callaghan, the grocer. I am in his em

ploy, and am about as well known 1 as he is. A grocery is a place where you have 100 cold gusts of wind coming .n time every time the door -20 opens, and there is a good deal of running

r un ning Lout out. 'doors too. Anyhow, I catch cold very often, but the minute I begin to sneeze I reach up on the shelf and take a dose of Acker's Eng-lish Remedy. I tell you it is wonderful how quickly it stops a cough a cold. I have used it myself, and in my far-fly for a number of years. It works like s charm. I suppose some of the folks wold have run into consumption before this if had neelected it keen a bothe ready all the had neglected to keep a boxle ready all the lime for immediate use. I wouldn't think of using anything else for throat and larg troubles. I know what Acker's Ready actually does, so what sense is there in co-perimenting? Correlation is better that perimenting? Certainty is better that thance." (Signed) Jours Horr.
