A WORD OF COUNSEL TO THE

LATTER-DAY SAINTS, CON-CERNING THE CONFER-ENCE AT ST. GEORGE.

As the time draws near for the holding of the April Conference at St. George, and as doubtless many of those living in distant parts of attendant dedication of the Temple, it will be well to bear a few facts in

mind. Our General Conferences have of theory in this way—"Blue glass, seems much more natural to night encourage such election anless both late years been held in the New one part; faith, ten parts; mix hours than to early morning hours. parties favor the proposition. He Tabernacle in Salt Lake City, and thoroughly and stir well until all A woman who gets up early has will, however, receive from repre-Tabernacle in Salt Lake City, and thoroughly and stir well until all A woman who gets up early has sentative men of both parties any spacious accommodation has been the common sense evaporates, as her house cleaned up in time. Her suggestions in writing they have to afforded the people; but in the ap- the presence of a minute quantity children are likely to be up in time make to the administration proaching Conference we contem- will spoil the mixture; if the pre- and washed and dressed. The Banquet and Presentation of a Gold plate assembling in the lower main paration is not strong enough add room of the Temple in St. George, more faith." which, being without galleries, af-

fords but about one-sixth of the Tabernacle in Salt Lake City. There being no railread in this

part of the land, many horses and mules will necessarily be used to bring the brethren and sisters who come to Conference. As general information to those who have not been here, we state that the stock range in the vicinity of St. George is very limited and hay and grain are scarce.

The citizens of St. George will, no doubt, to the fullest extent, manifest the proverbial hospitality of the Latter-day Saints, but at the same time, as there are no empty houses, all they can do will be but to share their house room with the many who will come.

In view of the foregoing circumstances it is advised-

1. That too many from the north ern settlements do not make the exertion to come to St. George to Conference.

2. That those coming to Confertouches the news nerves in any expense accrued, but there is the ence either bring their own horse feed, or cause it to be brought from part of the continent is communi- bad influence of the artificial light settlements where it is more plenti- cated at once to the nerve centre of England. Hence, if we know ful. And, the news of London, we, generally 3. When those coming have small tents and other conveniences for speaking, know the news of Eur-
